

WORK ORDER FOR PROFESSIONAL SERVICES

TO: The Corradino Group, Inc.
4055 NW 97th Avenue
Doral, FL 33166
Phone: (305) 594-0735

DATE: February 17, 2017

The City of Doral authorizes the firm of The Corradino Group, Inc. to provide professional services for the Vanderbilt Park Traffic Calming Study – Final Design Public Workshop. The work is to be performed as described on the attached Proposal submitted by your firm dated February 15, 2017.

SCOPE OF SERVICES AND SCHEDULE:

The scope of the project will be as described in the attached proposal from The Corradino Group, Inc. The schedule requires the work to be performed within 30 calendar days after notice to proceed is issued. All limitations of time set forth in this Work Order are of the essence. The performance of services associated with this Work Order will be executed on a time and materials basis with a not to exceed amount of \$5,051.68. If you fail to begin work subsequent to the execution of this Work Order, the City of Doral will be entitled to disqualify the Proposal, and revoke the award.

Work Order is not binding until the City of Doral agrees and approves this Work Order.

IN WITNESS WHEREOF, the parties hereto have executed this Agreement on the day and date first above written, in three (3) counterparts, each of which shall, without proof or accounting for the other counterpart be deemed an original Contract.

VANDERBILT PARK TRAFFIC CALMING STUDY ADDITIONAL WORK

SCOPE OF SERVICES / PLAN

It is understood that the purpose of this study was to assess the need for traffic calming for the Vanderbilt Park Area.

The Vanderbilt Park is bound by NW 25th Street to the South, NW 97th Ave to the East, NW 28th Terrace to the North and NW 102nd Ave to the West. As part of traffic calming study, recommendation of traffic calming devices were identified to solve cut through and speeding problems and meet the consensus of the neighborhood.

Some residents have complained about receiving cut through violation tickets since the installation of the following traffic calming device:

Right Turn Restriction Signs (4:00-7:00 PM) on NW 97th Avenue and NW 28th Terrace/NW 27th Terrace/NW 27th Street - Based on the right turning volume from NW 97th Avenue, right turn restriction sign was only warranted for NW 28th Terrace. This right turning traffic when restricted is expected to shift

THE CORRADINO GROUP

to the next two intersections on NW 27th Terrace & NW 27th Street, therefore it was recommended that right turn restriction signs (4:00-7:00 PM) be placed on NW 97th Avenue at NW 27th Terrace & NW 27th Street as well.

This issue was brought to the attention of the City Council and as a follow-up to Council's request the right turn restriction sign was agreed to be further researched. As part of this request and to propose a right turn restriction sign that better serves the residents, the following additional tasks are proposed:

- Task 1 - Research any enforcement signage as per Manual on Uniform Traffic Control Devices (MUTCD) and check design and placement
- Task 2 - Coordinate with Miami-Dade County Traffic Engineering Division to seek approval of the enforcement signage
- Task 3 - Prepare material, sketches and presentation for Final Design Public Workshop
- Task 4 - Administer Final Design Public Workshop to discuss cut through issues and implementation of the new sign

This task can be completed for time and material not to exceed \$5,051.68 and can be completed within 30 days of notice to proceed.

If you should like to proceed with this effort, please sign below and return to The Corradino Group.
