**WHEREAS**, the humane treatment of animals is an important public purpose;  
and

**WHEREAS**, according to the Humane Society of the United States, more than a million dogs and cats in the United States are housed and bred each year at substandard breeding facilities known as “puppy mills” or “kitten factories,” (“Facilities”), that mass-produce animals for sale to the public; and

**WHEREAS**, the United States Department of Agriculture (“USDA”) monitors dog breeding facilities for compliance with the Animal Welfare Act, and its inspection reports and enforcement records document problems found at puppy mills and kitten factories including: (1) sanitation problems leading to infectious disease; (2) large numbers of animals overcrowded in cages; (3) lack of proper veterinary care for severe illnesses and injuries; (4) lack of protection from harsh weather conditions; and (5) lack of adequate food and water; and

**WHEREAS**, breeding animals used in these Facilities are subject to inhumane housing conditions and are indiscriminately disposed of when they reach the end of their profitable breeding cycle, as documented by the USDA; and

**WHEREAS**, Section 5-10 of the Miami-Dade County ("County") Code of Ordinances ("Code"), is designated and known as the "Miami-Dade Puppy Mill Cruelty Prevention Ordinance", which regulates the retail sale of dogs and cats in the County and provides for minimum standards; and

**ARTICLE IV. – REQUIREMENTS FOR SALES OF DOGS AND CATS**

3-100. City of Doral Puppy Mill Cruelty Prevention Ordinance

(a) Designation and Legislative Intent. This ordinance shall be designated and known as the "City of Doral Puppy Mill Cruelty Prevention Ordinance." The City Council for the City of Doral, Florida, hereby declares and finds that puppy mills and kitten factories are inhumane and unsanitary commercial breeding facilities in which the health of the animals is disregarded to maintain a low overhead and maximize profits, with documented and widespread instances of: unsanitary conditions leading to infectious diseases; overcrowding in cages of large numbers of animals; a consistent lack of proper veterinary care for severe illnesses and injuries; a consistent lack of protection from harsh weather conditions; and a consistent lack of adequate food and water. The City Council further declares and finds that animals from mills often face an array of communicable diseases, genetic disorders, and other health problems that may present immediately after sale or not until several years later, and that lead to costly veterinary bills and distress to consumers. The City Council further finds that stopping puppy mills and kitten factories, many of which are located outside the City's enforcement jurisdiction, requires discouraging the purchase and sale of puppies and kittens produced at these inhumane facilities. For these reasons, the City Council finds that it is reasonable and necessary to provide the following minimum standards governing the sale of dogs and cats to protect the health, safety, and welfare of both animals and pet owners.
