**WHEREAS**, the IT Department continues to conduct due diligence to protect the City's computing environment to mitigate cyber attackers gaining access to employee devices or servers; and

**WHEREAS**, Currently, the City relies on single-factor authentication (SFA), in which the user provides only one factor which is a password that can be compromised by brute force or social engineering. Two-factor authentication adds an additional layer of security to the authentication process by making it harder for attackers to gain access to a person's devices because knowing the victim's password alone is not enough to pass the authentication check; and

**WHEREAS**, section 2-322 of the City Code of Ordinances provides that the City may enter into contracts competitively entered into by other governmental entities; and

**WHEREAS**, CDWG LLC is a vendor participating in State of Florida Contract NVP Software 43230000-NASPO-16-ACS-SVAR (ADSP016-130652 as specified in the
