3. Effective Date and Duration and Progress Reports.

This Agreement shall become effective on the Effective Date. This Agreement shall be recorded in the public records of Miami-Dade County, Florida and shall run with the land and shall be binding on all parties and all persons claiming under it for an initial term of thirty (30) years from the Effective Date, after which time it may be extended for a period of ten (10) years after approval by the City Council at a public hearing, unless an instrument has been recorded agreeing to release, amend or modify this Agreement in whole, or in part, as provided below. The Developer and all successors or assigns in interest shall submit annual construction progress reports to the planning and zoning director until the improvements contemplated in the Site Plan are completed.

a. Notwithstanding the provisions of City of Doral Code 68-562, the Developer shall have ten (10) years to commence development of the Project and shall have thirty (30) years to complete the development of the Project.

4. Permitted Development Uses and Building Intensities.

a. Permitted Development Uses. Concurrently with the adoption and acceptance of this Agreement, the Developer has proffered, and the City has accepted and adopted the Site Plan, as the binding development criteria for the Property (the "Project Approval"). In granting the Project Approval, the City has determined and hereby concurs that the Project is consistent with the City's Comprehensive Plan and that the Project Approval accords with the Land Development Regulations. Upon execution of this Agreement, the City confirms and agrees that the Property may be further developed and used in the manner set forth in the Project Approval, the City's Comprehensive Plan, and the Land Development Regulations.

b. Density, Building Heights, Setbacks and Intensities. The maximum density, heights, setbacks, and intensities for any development on the Property shall be regulated by the Project Approval and, where the Project Approval is silent, the Land Development Regulations, and the applicable provisions and designations in the Comprehensive Plan in effect at the time of site plan approval. To the extent that the zoning regulations for Miami International Airport in Section 33-338 of the Miami-Dade County Code of Ordinances ("Airport Regulations") permit a taller height than those in the Site Plan, the Developer may avail themselves of the maximum height permitted by said Airport Regulations, existing at the Effective Date or as modified in the future.

5. Project Approval.

a. The Project Approval, which is documented by and includes the Site Plan and adopting ordinances, authorizes the development of a Project that currently contemplates a development program as specifically described in the Site Plan. This development program consists of: 1,498 residential units and 141,694 square feet of commercial. There are currently 643 hotel rooms, clubhouses, a spa, pools, cabanas, tennis courts, ballrooms, restaurants, retail stores, parking and ancillary resort uses existing on the Property (collectively, the "Existing Uses and Buildings"); it is expressly understood and agreed that the Project Approval is in addition to the Existing Uses and Buildings.

b. Redevelopment of Existing Uses and Buildings. It is expressly understood that the Existing Uses and Buildings depicted in Exhibit "B" may remain in their current configuration in perpetuity. At such time in the future that the Developer may seek to modify, demolish and redevelop, in whole or in part, any portion of the Existing Uses and Buildings (other than as currently contemplated in the Site Plan), such new redevelopment shall be approved pursuant to the current laws existing at the time of the proposed redevelopment without affecting any of the rights in this Agreement. The City shall acknowledge the existence of and account for the removal of the Demolished Building upon its demolition and any future demolition of the existing buildings when calculating impact or permit fees for future development of the Project.

c. Residential Unit Type Mix. The Developer reserves the ability to modify the mix of the residential unit types to convert the mix of unit types between multi-family units, townhome units, and single-family units so long as said modification does not result in an overall increase of residential density for the Project or additional net new two- pm peak hour vehicular trips. Any reduction of residential density of the Project resulting from the modification of the

residential unit type mix shall be deemed consistent with the Project Approval, the Land Development Regulations, and the applicable provisions and designations in the Comprehensive Plan.

d. Any Site Plan approved pursuant to the provisions of this Paragraph may be modified from time to time in accordance with Section 53-185(d) and section 68-740 of the City's Land Development Code, as may be amended from time to time. Minor variations to building placement, building style, and lot configuration may be approved administratively by the Director of the Planning and Zoning Department, or the executive officer of the successor of such Department as provided in the City of Doral Code. Notwithstanding the foregoing the Developer may modify the site plan administratively if the zoning regulations for Miami International Airport in Section 33-338 of the Miami-Dade County Code of Ordinances ("Airport Regulations") permit a taller height than those in the Site Plan, the Developer may avail themselves of the maximum height permitted by said Airport Regulations, existing at the Effective Date or as modified in the future.

e. In the event that the Director does not approve the modification to the Site Plan, the Director shall render his or her decision by notifying the Developer (or their assigns as to such portion of the Property) in writing by certified mail, overnight express delivery, or hand delivery. The Developer have the right to appeal the administrative decision directly to the City Council for the City Council to determine whether the Director erred in his or her decision to deny the modification of the Site Plan based on the Site Plan's conformance with this Agreement, the Project Approval, and the applicable provisions of the Land Development Regulations and Comprehensive Plan. The City agrees to process any appeal to the City Council on an expedited basis and, in the absence of a force majeure event, agrees to hear and decide on any appeal within sixty (60) days from receipt of a letter from the Developer requesting such hearing addressed to the City Clerk and the Director that appeals the decision of the Director to the City Council.

f. Due to the unique configuration of the Property, it is understood and agreed that minor modifications, as defined in the City's Land Development Regulations, to the locations of buildings, garages and other structures may be granted by the Director at the time of approval of any Site Plan for the Property.

6. Maintenance of Common Areas. The common areas of the Property shall be maintained by a homeowner's association or a condominium association as defined in Chapter 718 of Florida Statute.

7. Security During Construction. During construction of the Project, Developer shall provide security in accordance with sections 5-24 through 5-28 of the City of Doral Code (2014), from 7:00pm to 7:00am, Monday through Friday, and 24 hours per day on weekends and holidays.

The Developer agrees to dedicate the right-of-way necessary for this improvement.

The foregoing time frames shall be extended by the Director upon an affirmative showing by the of a good faith effort to undertake the improvements in a timely manner or in the event of a force majeure or other events out of the Developer's control causing such delay.

10. Necessity of Complying with Local Regulations Relative to Development Permits. The Developer and the City agree that the failure of this Agreement to address a particular permit, condition, fee, term, or restriction in effect on the Effective Date of this Agreement shall not relieve Developer of the necessity of complying with the regulations governing said permitting requirements, conditions, fees, terms, or restrictions as long as compliance with said regulations and requirements do not require the Developer to develop the Property in a manner that is inconsistent with the Project Approval.

11. Presumption of Compliance. Where construction has occurred on the Property, or any portion thereof, pursuant to a lawful permit issued by the City, and inspections made and approval of occupancy given by the City, then such construction, inspection, and approval shall create a rebuttable presumption that the buildings or structures thus constructed comply with the intent and spirit of this Agreement.

The expiration or termination of this Agreement, for whatever reason, shall not be considered a waiver of, or limitation upon, the rights, including, but not limited to, any claims of vested rights or equitable estoppels, obtained or held by the Developer to continue development of the Project in conformity with the Project Approval and all prior subsequent Development Permits or development orders granted by the City, including, but not limited to, those rights granted under the Comprehensive Plan and the Land Development Regulations, as in effect on the Effective Date or as subsequently amended.

14. Binding Effect. The obligations imposed pursuant to this Agreement upon the Developer and upon the Property shall run with and bind the Property as covenants running with the Property, and this Agreement shall be binding upon and enforceable by and against the parties hereto, their personal representatives, heirs, successors, grantees, and assigns, and a copy of this Agreement shall be recorded in the Public Records of Miami-Dade County, Florida, at the sole cost and expense of the Developer, upon execution of this Agreement.
