| DocuSign | DocuSign's DTM® solution is ISO 27001:2013 certified and many of the ISO 27001:2013 controls are mapped to the NIST 800-53 requirements; we can provide additional information upon request. |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| SAP      | Ariba                                                                                                                                                                                        | Our solutions are offered and delivered in a true subscription-based model and shared service (multi-tenant) offering. There is no software to install, no hardware to buy, no maintenance or support costs and no need to hire consultants or tech specialists to run the system. We deploy and manage the infrastructure. Customers only need a web browser for access. Subscriptions include system maintenance, automatic upgrades, enhancements and application of service packs, Level 1– 3 help desk support, professional services and best practices built directly into the application.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|          | Fieldglass                                                                                                                                                                                   | Fieldglass is offered in a SaaS model. We follow the public cloud model identified by NIST. All customers access the same Fieldglass application version in a multi-tenancy database. The system is hosted in a secure hosting facility. Fieldglass manages everything from the cage in including all servers, devices, wiring, software, and configuration. Fieldglass uses the Cloud Security Alliance framework to measure itself against the recommended controls, in addition to ISO 27001 and SOC 2 controls in the Trust Services Principles of Security, Availability, Processing Integrity, Confidentiality, and Privacy.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|          | Hanna                                                                                                                                                                                        | HEC is a private cloud offering from SAP that provides fully 'managed' Infrastructure as a Service (IaaS) following NIST Cloud Computing Reference Architecture.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

|          | SuccessFactors                                                                                                                                                                               | <p>Our IT architecture is aligned with ISO 27002. We are Safe Harbor certified and in alignment with BS10012 and ISO 20000 for Service Delivery. We demonstrate an on-going commitment to protecting the confidentiality, integrity and availability ("CIA") of data from internal and external threats, making us a reliable and secure system provider.</p> <p>Our secure multi-tenant Software as a Service (SaaS) platform is designed for availability, security, scalability, and performance. Industry best practices and standards are adopted and incorporated.</p> <p>Our Network also complies with the Authority to Operate as a Moderate Risk Federal Information System by the Office of Personnel Management and Department of Homeland Security; NIST SP800-53 Security Controls; EU Privacy Directive 95/46/EC for EU and non-EU customer data; Payment Card Industry (PCI) Data Security Standard (DSS) v 2.0; Safe Harbor.</p> <p>We provide privacy compliant data center facilities not only in the United States but also as a Member State of the European Union (EU) or a state of the European Economic Area (EEA). Currently, such data centers are certified for ISO27001, ISO9001 and PCI-DSS compliance.</p> <p>Our security services provide complete and thorough monitoring of all traffic on the network on a 24x7x365 basis, and include security technology, alert services and incident management support. We are audited twice annually to SSAE16 (US) or ISAE 3402 (international) accounting standards.</p> |

| Cloud Provider | FireEye                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |       |            |                |                                                                   |                |         |               |                                                                                                        |
| Cloud Carrier  | Internet service providers and organizations who have been contracted to host FireEye cloud solutions.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |       |            |                |                                                                   |                |         |               |                                                                                                        |
| VirtueStream   | <p>Virtustream solution is fully NIST compliant for Essential Characteristics, as the Infrastructure as a Service (IaaS) Service Model, with all deployment options – Private Cloud, Community Cloud, Public and Hybrid Cloud. To that extent:</p> <ol style="list-style-type: none"> <li>1.Virtustream IaaS provides a self-service portal called xStream, where users can access, view, edit, provision, and modify compute, storage, network and application services based on granular Role Based Access Control, which can be integrated with Active Directory or LDAP.</li> <li>2.Virtustream IaaS provides Broad Network Access, where it can provide landing zone for any private network (Point-to-Point, Virtual Private Label Switching, Multi-Protocol Label Switching, or Direct Connect), public network (Internet, Trusted Internet Connectivity as landing zone, IPSEC VPN and SSL VPN) and also extranet connectivity (shared network, i.e, Cloud Connect, Cloud Exchange, NetBond, etc.) which is growing rapidly as option for connecting cloud resources.</li> <li>3.Key to Virtustream solution is its proprietary and patented solution of uVM technology, which is effectively a granular solution for resource pooling, providing application performance, pay for consumption only and segregate resources for security and compliance, but aggregate for cost efficiency. In addition, Virtustream is currently one of very few Cloud Service Provider with capabilities for Geo-Fencing and Geo-Tagging of the virtual machines to a specific data center, and getting down to cluster and host machine level.</li> <li>4.Virtustream's self-service portal, ticketing system and also the Technical Account Manager, who is the single point of contact for State of Utah allows for provisioning and deprovisioning of resources and services. In addition, Virtustream is uniquely positioned to provide application level provisioning as part of its standard automation and orchestration tool.</li> <li>5.The fundamental of Virtustream solution is based on uVM Technology, which is very unique in terms of billing. Virtustream solution takes average consumption of compute resources, and State of Utah would only pay for actual resources based on a monthly average. This is in comparison</li> </ol> |       |            |                |                                                                   |                |         |               |                                                                                                        |

|  |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |

# CONFIDENTIAL, PROTECTED, OR PROPRIETARY INFORMATION

All confidential, protected or proprietary Information must be included in this section of proposal response. Do not incorporate protected information throughout the Proposal. Rather, provide a reference in the proposal response directing Lead State to the specific area of this protected Information section.

If there is no protected information, write "None" in this section.

Failure to comply with this Section and Section 3.13 of the RFP releases the Lead State, NASPO ValuePoint, and Participating Entities from any obligation or liability arising from the inadvertent release of Offeror information.

Carahsoft Technology Corporation ("Carahsoft") respectfully requests that section 6.3 Financials of Carahsoft's response be treated as a trade secret under the Utah Uniform Trade Secrets Act, Utah Code § 13-24-2 and submits this justification in accordance with Utah Code 63-G-2-305 demonstrating that its audited financials should be treated as a trade secret under Utah's Uniform Trade Secrets Act. Additionally, Carahsoft is claiming the same confidentiality of the Consensus Assessments Initiative Questionnaire provided in relation to DocuSign and FireEye offerings, as well as the Cloud Controls Matrix for DocuSign.

Carahsoft has marked this attachment as "confidential" in accordance with the RFP instructions by including all confidential data into the Confidential, Protected, or Proprietary Information in our response.

Carahsoft is claiming confidentiality for these specific Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix because releasing these documents would cause irreparable damage and would create the potential for cyber security breach. While portions of this information are in the public domain, the information contained within is not represented or assimilated this way in any other format.

Carahsoft's Audited Financial Data satisfies the three-part test of the Utah Uniform Trade Secrets Act as set forth below and should therefore be treated as confidential and by the Utah Division of Purchasing and should not subject to public disclosure as provided in Utah Code § 63G-2-305.

1. *Carahsoft's Audited Financial Data is a "compilation" within the meaning of Utah Code § 13-24-2(4).*  
Carahsoft's Audited Financial Data is a compilation of all of the Company's financial data and results for 2014. While some aspects of this information may be available, the compilation of this information is unique and the result of sustained and distinct effort by the Company's financial staff and its accountants.
2. *As required by Utah Code § 13-24-2(4)(a) Carahsoft derives independent economic value, actual or potential, from its Audited Financial Data not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use.*

Carahsoft is a leading distributor of technology products and services to public sector customers such as the State of Utah, and throughout the United States and Canada. Sales in this market are intensely and deliberately competitive, with each sale subject to a structured bidding process in which low price is frequently the deciding factor on which contract award is based. Competition in this market is fierce, with competitors regularly competing with one another for federal, state, county and city business.

Carahsoft's competitors closely monitor this market, and regularly attempt to gain financial and other information about Carahsoft and other competing vendors. Allowing Carahsoft's competitors access to this compilation of financial data by releasing it in response to a public records request will damage Carahsoft's competitive position because it will provide competitors insight into Carahsoft's financial structure, including compensation, overhead costs, rental rates, profit margins and the like. Indeed, allowing insight into compensation may violate individual employees' expectations of privacy. Once competitors have this access and insight, they can use it to undercut Carahsoft in the marketplace, damaging Carahsoft's business with its customers and its suppliers, and inflicting economic hardship upon the Company.

For these reasons, Carahsoft does not itself disclose its Audited Financial Data except when required by law to do so. For example, Carahsoft discloses its financial information in filing its periodic tax returns—disclosure of which is prohibited by applicable state and federal law. In this regard, we note that Carahsoft is a privately owned company. Therefore, Carahsoft does not publicly report its financial results to the United States Securities and Exchange Commission.

*3. Carahsoft uses reasonable efforts to maintain the secrecy of its Audited Financial Data.*

The third part of the Utah Uniform Trade Secret Act's test for trade secret treatment is whether the information "...is the subject of efforts that are reasonable under the circumstances to maintain its secrecy." Utah Code § 13-24-2(4)(b).

Carahsoft satisfies this test because it takes reasonable steps to maintain the secrecy of its financial information. As noted above, Carahsoft is a privately held company and therefore does not report its financial results publically to either its shareholders or the Securities and Exchange Commission. This is in contrast to public companies such as IBM or AT&T who report financial results quarterly as a matter of public record.

Even within Carahsoft's business operations itself, Carahsoft's management strictly limits disclosure of this information to a few carefully selected employees, and then only on a "need to know" basis in connection with their work assignments. Indeed, each Carahsoft employee signs a Confidentiality Agreement agreeing not to disclose this information.

*Conclusion*

Based on the forgoing, Carahsoft believes it has demonstrated that its Audited Financial Data, Consensus Assessments Initiative Questionnaires, and Cloud Controls Matrix are trade secret as defined in Utah Code § 23-24-2. It is a compilation the content of which affords Carahsoft a competitive advantage. Carahsoft's competition cannot readily discern it by proper means. Moreover, Carahsoft itself treats this information as a trade secret even within its own business operations.

Should there be a public records request for this information, Carahsoft respectfully requests that the State afford Carahsoft's requested confidential information and documents trade secret protection in accordance with Utah law and deny the request. In the event that the State determines to release the requested confidential data, Carahsoft requests that you notify us promptly so that we may provide further justification for trade secret protection of this confidential data.

### CLAIM OF BUSINESS CONFIDENTIALITY

Pursuant to Utah Code Annotated, Subsections 63G-2-305(1) and (2), and in accordance with Section 63G-2-309, Carahsoft Technology Corporation (company name) asserts a claim of business confidentiality to protect the following information submitted as part of this solicitation. Pricing/Cost Proposals may not be classified as confidential or protected and will be considered public information. **An entire proposal cannot be identified as “PROTECTED”, “CONFIDENTIAL” or “PROPRIETARY”.**

- ☒ Non-public financial statements
- ☐ Specific employee name and contact information
- ☐ Specific customer information, client lists, or subscription lists
- ☒ Other (specify): Consensus Assessments Initiative Questionnaires and Cloud Controls Matrix

This claim is asserted because this information requires protection as it includes:

- ☒ trade secrets as defined in Utah Code Annotated Section 13-24-2 ("Trade secret" means information, including a formula, pattern, compilation, program, device, method, technique, or process, that: (a) derives independent economic value, actual or potential, from not being generally known to, and not being readily ascertainable by proper means by, other persons who can obtain economic value from its disclosure or use; and (b) is the subject of efforts that are reasonable under the circumstances to maintain its secrecy).
- ☒ commercial information or non-individual financial information obtained from a person if: (a) disclosure of the information could reasonably be expected to result in unfair competitive injury to the person submitting the information or would impair the ability of the governmental entity to obtain necessary information in the future; [and] (b) the person submitting the information has a greater interest in prohibiting access than the public in obtaining access.

This statement of reasons supporting the claim of business confidentiality applies to the following information in this proposal:

| Page                                 | Paragraph | Reason                                                                                                               |

Please use additional sheets if needed.

You will be notified if a record claimed to be protected herein under Utah Code Annotated § 63G-2-305(1) or (2) is classified public or if the governmental entity determines that the record

should be released after weighing interests under Utah Code Annotated § 63G-2-201(5)(b) or Utah Code Annotated § 63G-2-401(6). See Utah Code Annotated § 63G-2-309.

Signed: Robert R. Moore, Vice President

Date: March 10, 2016

(Revision 6/4/2015)

# EXCEPTIONS AND/OR ADDITIONS TO THE STANDARD TERMS AND CONDITIONS

Proposed exceptions and/or additions to the Master Agreement Terms and Conditions, including the exhibits, must be submitted in this section. Offeror must provide all proposed exceptions and/or additions, including an Offeror's terms and conditions, license agreements, or service level agreements in Microsoft Word format for redline editing.

Offeror must also provide the name, contact information, and access to the person(s) that will be directly involved in terms and conditions negotiations. If there are no exceptions or additions to the Master Agreement Terms and Conditions, write "None" in this section.

The point of contact who will be directly involved in terms and conditions negotiations is Jack Dixon – Contract Specialist. He can be reached at – 703.230.7545 / [Jack.Dixon@Carahsoft.com](mailto:Jack.Dixon@Carahsoft.com).

## 32. Transition Assistance:

a. The Contractor shall reasonably cooperate with other parties in connection with all Services to be delivered under this Master Agreement, including without limitation any successor service provider to whom a Purchasing Entity's Data is transferred in connection with the termination or expiration of this Master Agreement. The Contractor shall assist a Purchasing Entity in exporting and extracting a Purchasing Entity's Data, in a format usable without the use of the Services and as agreed by a Purchasing Entity, at no additional cost to the Purchasing Entity. Any transition services requested by a Purchasing Entity involving additional knowledge transfer and support may be subject to a separate transition Statement of Work.

b. A Purchasing Entity and the Contractor shall, when reasonable, create a Transition Plan Document identifying the transition services to be provided and including a Statement of Work if applicable.

c. The Contractor must maintain the confidentiality and security of a Purchasing Entity's Data during the transition services and thereafter as required by the Purchasing Entity.

Carahsoft takes exception to section 32 – Transition Assistance and request it includes the following.

**9.4 RETURN OF CUSTOMER DATA.** Carahsoft shall provide Customer Data in its standard database export format, excluding the any Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that Carahsoft receives such request from Customer within forty-five (45) days following the expiration or termination of a provided service. If Carahsoft has not received a request within the foregoing time frame, Carahsoft shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of any provided service.

Carahsoft takes exception to Section 13 – Indemnification. Carahsoft requests that Indemnification from the state to the customer under a certain set of circumstances.

## IN SUMMARY

Carahsoft Technology Corporation appreciates the opportunity to offer this solution for the State of Utah's initiative.

The Carahsoft Team has proposed a superior and cost-effective solution that fully complies with the State of Utah's requirements set forth in Solicitation # CH16012. We understand the importance of your project goals, and we are confident you will benefit from this solution and our expertise.

Carahsoft looks forward to the opportunity to speak with you regarding the details of this proposal, as well as the opportunity to work with the State of Utah on this project.

# 1 Introduction

This document provides a general overview of the SAP Fieldglass security and hosting infrastructure. It is effective as of the revision date indicated below. However, as security needs continue to evolve, the specific information relating to the topics covered may be subject to change over time.

## Security

The SAP Fieldglass solution was architected to be the most reliable and secure Vendor Management System available today.

SAP Fieldglass is proud to offer our customers, subject to review and acceptance by our audit partner, the following assurances:

- ISO 27001 certified since 2011
- SSAE 16/ISAE 3402 Type 2 SOC1 audits conducted since 2005
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
  - Security – the system is protected, both logically and physically, against unauthorized access
  - Availability – the system is available for operation and use as committed or agreed to
  - Processing Integrity – system processing is complete, accurate, timely, and authorized
  - Confidentiality – information that is designated as “confidential” is protected as committed or agreed
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Annual third party pen testing of our network and application

This document provides an understanding of how SAP Fieldglass handles the following areas across its global operations:

- Scope of Operations
- Security Management
- Application Security
- Physical Security
- Network Security
- Data Management
- Release Management
- Disaster Recovery
- Business Continuity

## 1.1 Scope of Operations

SAP Fieldglass has global operations located in the following regions:

### United States

#### Business office

SAP Fieldglass  
111 N. Canal Street  
Suite 600  
Chicago, IL 60606

#### Active and passive datacenters

Century Link  
2425 Busse Road  
Elk Grove Village, IL 60007

Equinix / ServerCentral  
1735 Lundy Avenue  
San Jose, CA 95131

### APAC

#### Business office

SAP Fieldglass  
Suite 5, 48 Lovett Street  
Manly Vale  
NSW 2094  
Australia

### European Union

#### Business office

SAP Fieldglass  
One Valentine Place  
London  
SE1 8QH  
United Kingdom

### Active and passive datacenters

|                                                                                  |                                                                                           |
|----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|
| ServerCentral c/o Equinix<br>Laarderhoogtweg 57<br>1101EB Amsterdam, Netherlands | ServerCentral c/o Telehouse North<br>14 Coriander Avenue<br>London E14 2AA United Kingdom |
|----------------------------------------------------------------------------------|-------------------------------------------------------------------------------------------|

The terms “active” and “passive” designate which of the production hosting environments is being used as the primary (active) and which is being used as the backup (passive or disaster recovery). These designations are not static and SAP Fieldglass will occasionally fail over the active hosting environment to the passive hosting environment. This practice ensures that SAP Fieldglass is capable and ready in the unlikely event a disaster occurs and we need to fail over to the passive site.

## 1.2 Security Management

SAP Fieldglass’ Security Team is responsible for implementing and maintaining the security controls to ensure that SAP Fieldglass information systems are secure. SAP Fieldglass has based its security program on industry standards and best practices. For our established datacenters, these practices are audited annually by a third party with results available to customers in October.

### 1.2.1 Security Policies, Standards and Procedures

SAP Fieldglass maintains a comprehensive set of policies that define the information security goals and objectives. Each policy may be supported by a standard that dictates the required security requirements to ensure the uniform application of technologies and processes.

### 1.2.2 Risk Management

SAP Fieldglass manages risk by the identification of threats and vulnerabilities to its information systems and through a control selection process. Controls selected fall into the following categories:

- Policy
- Physical and Environmental Security
- Organizational Security
- Communications and Operations Management
- Acceptable Use
- Access Control
- Third Party Access
- Information Systems Acquisition, Development and Maintenance
- Asset Management
- Incident Management
- Personnel Security

- Compliance

As an element of our ISO 27001 compliance, SAP Fieldglass conducts an enterprise-wide risk assessment. Key individuals from every department are interviewed so that risks can be identified. Risks are then evaluated and entered into a risk treatment plan. This plan is managed by the Security team with oversight by the Security Steering Committee. The Security Steering Committee meets on a quarterly basis.

### 1.2.3 Assessments

SAP Fieldglass periodically assesses the security controls to review the effectiveness of each control in addressing risk. If SAP Fieldglass' assessment suggests a need for changes, the baseline standard may be changed to include additional controls.

#### Internal Audit

SAP Fieldglass conducts quarterly internal audits for critical controls. Evidence is reviewed by our Sr. Compliance Analyst and a formal assessment report is prepared. Failed controls are made visible by this process so they can be remediated. Executive sign off on the internal audit reports is required.

#### External Audit

SAP Fieldglass also contracts with third parties on an annual basis to perform formal security audits on the following:

- ISO 27001 surveillance audit
- SSAE 16/ISAE 3402 Type 2 SOC1 audit
- SSAE 16 Type 2 SOC2 audits in the Trust Services Principles for:
  - Security
  - Availability
  - Processing Integrity
  - Confidentiality
- SSAE 16 Type 1 SOC2 audit in the Trust Services Principle for Privacy (Type 2 audit scheduled for Q3 2015)
- Network penetration test
- Application penetration test

These assessments allow SAP Fieldglass to maintain an appropriate security posture in order to protect the company and its systems, as well as its customers' data.

We are currently working with our third party audit partner in bringing our EU datacenters into scope for our 2015 ISO 27001 audit and SSAE 16/ISAE 3402 Type 2 SOC1 and SOC2 examinations.

## 1.3 Application Security

Our application provides application-level security through a combination of encryption, page-level access checking, document envelopes, and activity logging. Application security is handled through a combination of programming checks, application server configuration, and database server configuration. SAP Fieldglass uses 128-bit SSL (HTTPS) encryption for all data transmissions over the public Internet, including data shared between the product and end users and data shared between the product and back-end systems.

Passwords are encrypted using a one-way hash with salt based on the SHA-256 encryption algorithm. The hash value is saved within the database; not the password.

The base SAP Fieldglass application does not require data that would require breach notifications if compromised. If the customer chooses to store sensitive data, custom fields may be defined by the customer that can be encrypted with AES-256. These fields can also be optionally masked from view while entering and viewing the fields in the application.

### 1.3.1 Encryption

By default, the application utilizes SSL encryption for all data transmissions over the public Internet.

In addition, the SAP Fieldglass hosted application encrypts sensitive data stored on the database so that only properly authorized users (or systems) will be able to decrypt the data. Because no state information is stored on the application server, in the unlikely event of unauthorized access to the database, the sensitive data is still encrypted.

### 1.3.2 Database Segmentation

SAP Fieldglass is a SaaS and utilizes a multi-tenancy database. Each customer is assigned a unique company code. Every record written to the database is keyed using this company code. After a user authenticates into the system, a session ID is generated which holds vital information about the user including their company code, user role, and data visibility restrictions. The session ID is cached server side to eliminate any ability for a malicious user to modify its contents.

### 1.3.3 Document Envelopes

Throughout the system, there are a number of events that generate “documents.” These are digital representations of their real-world counterparts. For example, job postings, work orders, time sheets, and invoices are all represented in the system as documents.

Each document in the system has an accompanying digital envelope that stores all access to that document. For example, when a job posting is created, an envelope entry is added for creation that records the date, time, and person. When it is submitted, another entry is added recording the date, time, and person.

### 1.3.4 Page-Level Access Checking

The application has been designed so that every single web page checks for access rights before displaying itself. Additionally, each page performs a second check to ensure that an authorized user will only have access to those data elements and functionality that has been expressly authorized by the system administrator.

The post-authentication session ID that is generated and cached server-side is validated prior to showing each page. SAP Fieldglass stores a non-persistent cookie in the browser and compares back to the server-side session ID. If they no longer match due to malicious activity, the user is redirected to a “You are not authorized” page.

Authorization is handled through the use of user-defined User Roles. User Roles provide the customer, through its designated administrators, the flexibility to specify the type of access given to a member of that user group based on the definitions configured by the administrator. The User Role controls what areas of the application are accessible to the user group and what actions they can perform in those areas (e.g. job posting create, time sheet approve, etc.).

### 1.3.5 URL Encryption

SAP Fieldglass does not pass any sensitive data in its URL query strings. Parameters that are used to identify users in the system are protected by anonymizing the field variable and then encrypting the associated value using AES-256.

### 1.3.6 Activity Logging

As users access the system, all of their business significant activities are tracked and logged including failed login attempts, successful logins, approvals, submissions, etc. This activity log provides a full audit trail of what actions a particular user performed within the system and the timestamp as well.

### 1.3.7 Application Testing

Upon request, SAP Fieldglass will provide customers with a sandbox environment where system testing can occur outside of production. This is useful when testing out configuration changes, new integrations, and/or new reports prior to making the changes live in the customer’s production instance.

Upon request, customer’s data can be anonymized. SAP Fieldglass has the ability to scrub the data such that it is unrecognizable. Data element replacement is accomplished by an automated SAP Fieldglass utility that replaces the customer’s company code, user names, business units, cost centers, and sites from a store of random variables. Any or all of these elements may be chosen for replacement.

Sensitive data that has been designated by the customer to be stored in the SAP Fieldglass application is encrypted with AES-256. The encryption and decryption keys are different between production and test environments and are different between the US and EU datacenters. These keys are stored in the corporate password vault and are accessible only by the Database Administrators and the Lead Architect.

Once customer testing has been completed, the Environment Management team (a team within Professional Services) destroys the environment. The database is purged and the VM is returned into circulation.

### 1.3.8 Password Management

The SAP Fieldglass application provides each customer the ability to define a Password Policy. This policy contains custom-defined password rules that each user in the customer's instance must adhere to. The policy provides 20 different password rules such as minimum length, user lockout preference (hard lockout vs. time-based reset), days to expiration, minimum password age, etc. Also included is the ability to specify a regex pattern(s). This pattern dictates the password value syntax that each user must follow.

When customer chooses to use a test instance ("sandbox"), all user password values remain unchanged from their production values. All passwords and visibility restrictions remain unchanged to ensure that users in the test instance are not able to gain access to data they're not privileged to see in production. Also, the password policy that is enforced in the production instance is also enforced in the test instance.

New user invitations are sent via email. Recipients enter their 1-time passcode and are then forced to specify a new password that complies with the customer's password policy rules. User invitations expire after 21-days.

### 1.3.9 Email Approvals

In order to better support our growing mobile workforce, SAP Fieldglass offers customers a supplementary method for approving their work items. Via email, approvers are able to submit their approval or rejection response by simply replying to the approval work item that was sent to them. This method has been proven to reduce approval cycle times by several days since the approver does not have to be in the office. This feature has been architected with the following security controls:

- Only the original recipient can approve/reject the work item. If the recipient forwards the email to another person, the system will not accept the response.
- Email spoofing is not a risk. A unique ID is generated for each approval request. This unique ID along with the person ID of the intended recipient is stored encrypted with AES-256. So even if the email address sending the approval/rejection response is legitimate but the sender is not, the system will detect this anomaly and not accept the response.
- A SAP Fieldglass approver can identify another user as their Proxy and/or Delegate when they will be out of the office and unable to handle the approval requests. By design, neither of these roles receive approval work items via email. So only the original recipient can ever submit an approval/rejection response via email.
- If the customer created custom fields where sensitive information is stored encrypted, those fields and associated values are not allowed to be selected for inclusion in these email approval notifications.
- The system audit trail is updated with all user actions including approval/rejection activities via email. This audit trail is accessible by privileged customer users and can be used to monitor user activity.

In order to compromise the security of our email approval feature, a malicious user would need to hack into another user's email account, locate the SAP Fieldglass approval request email, and then submit the approval/rejection response.

### **1.3.10 Application Penetration Testing**

SAP Fieldglass uses a combination of manual and automated testing to ensure the application is secure. Various automated commercial tools are used prior to each major release of the SAP Fieldglass system (three times per year).

On an annual basis, SAP Fieldglass engages a 3rd party security company to conduct pen testing services against our application. This is in addition to SAP Fieldglass' own internal penetration testing efforts.

SAP Fieldglass has several test environments available for customers to conduct their own application penetration testing if requested.

## **1.4 Physical Security**

The SAP Fieldglass data center provides physical security through its secure hosted facilities. The application is hosted within a secure unmarked cage. SAP Fieldglass manages everything from the cage in. Meaning, SAP Fieldglass manages all servers, devices, and software in the cage. The hosting provider provides physical security, internet connectivity, and HVAC.

### **1.4.1 Internet Data Center Construction**

Exterior perimeter walls, doors and windows are constructed of materials that afford UL Standard #752, Level V Ballistic Protection.

### **1.4.2 Access Control**

The data center uses an Access Control System (ACS), which supports a networked card reader and alarm system. The ACS uses proximity card readers to control access into perimeter doors, shipping/receiving areas, storerooms and other areas. Biometric hand scanners are installed to control access into the network control center, telecommunications node room and customer vaults. Additional access control measures include:

- Designated with signage as controlled access areas
- Areas within the internet data center are designated as restricted
- Access into the internet data center and restricted areas is controlled by biometric hand scanners, and is limited to authorized personnel
- Card access badges or contractor/visitor badges are required to gain entry
- All employees, customers, vendors, contractors and visitors must be sponsored by a facilities pre-approved sponsor to gain access
- Visitors are escorted at all times within the controlled access area perimeter

### 1.4.3 Man Traps

The system includes the following key features:

- Anti-passback
- Integrated metal & explosive detection
- Video monitored / recorded
- Two-way intercom audio to Security Control Room
- Level V ballistic protection
- Weight sensors limit entry to one person at a time (no tailgating)
- ADA compliant
- Intrusion / tampering alarm monitoring by Security Control Room
- Integrated card access & biometric access control systems limits access to persons verified by hand geometry
- All systems are supported by redundant power management system (generators).

### 1.4.4 Key Control

Facilities security staff is the custodian of all security and cage keys. These keys are maintained and tracked through a comprehensive issue, retrieval, audit, and storage process. The listing of all customers, customer employees and cage assignments is updated in real-time maintained to ensure that cage access is restricted to authorized personnel.

### 1.4.5 Alarm System

The ACS is used to monitor and log security alarms. The ACS monitors all:

- Perimeter doors
- Restricted Area doors
- Shipping / receiving doors

### 1.4.6 Closed Circuit Television System

Facilities employ an extensive closed circuit television system to monitor the exterior and interior of the internet data center. Exterior cameras provide views of critical support equipment and perimeter doors. Interior cameras are positioned to monitor all internet data center aisle ways, requests for entry and entry into the internet data center, shipping / receiving areas, high-security vaults and the internet data center lobby. All cameras are recorded on digital video recorders 24 x 7.

### 1.4.7 Background Checks

SAP Fieldglass requires background checks be performed at the time of hiring on all personnel. These background checks are performed by a nationally recognized third party company. SAP Fieldglass initiates the background check request for all potential employees and independent consultants. If the independent contractor is placed through

an agency, the agency will conduct a background check and confirm with Human Resources whether the results were completed with/without discrepancies. If the independent contractor is placed directly, SAP Fieldglass will conduct the background check.

Background checks include the following:

- Social Security Trace
- Statewide & National Criminal Report (7 years)
- Sex Offender Registry & Terrorist Watch
- Compliance Authorities Database Checks – Global (OFAC level verification)
- Education verification
- Employment verification (7 years)
- Global Sanctions & Prohibited Parties
- Credit (only for specific finance roles)

#### **1.4.8 Hosting Facility Security Personnel**

The security office duties include:

- Response to calls for assistance
- Security facility inspections
- Fire and safety patrols
- Shipping / receiving security
- Physical security audits and assessments

### **1.5 Network Security**

The SAP Fieldglass network infrastructure includes redundant components, firewalls, and 24/7 monitoring.

#### **1.5.1 Redundant Components**

Most network components are internally redundant. For example, routers have redundant power supplies; servers have redundant drives, power supplies, and NIC cards. Additionally, all network components are redundant to provide redundancy and security in the event of a component failure.

#### **1.5.2 Private Virtual LANs**

The application network architecture has been designed with multiple private virtual LANs using redundant Cisco routers. Every major network layer is placed on its own virtual LAN with rules about which protocols and ports are accessible.

#### **1.5.3 Firewall**

SAP Fieldglass has implemented dual-vendor redundant firewalls between the public internet and the SAP Fieldglass private network, as well as between each virtual LAN. This

firewall has been configured to enforce protocols and ports that are able to cross LANs with a default deny stance.

#### **1.5.4 24/7 Monitoring**

SAP Fieldglass provides 24/7 monitoring of suspicious activity. Any failure is promptly reported and, after an initial analysis, escalated to the next appropriate level.

#### **1.5.5 Enterprise SIEM**

Our security incident and event management (SIEM) tool has been configured to collect logs and events from all systems and devices within the SAP Fieldglass network. Forwarders are used to collect, filter, normalize and forward relevant data to an Indexer. Each installation listens for Syslog data and actively pulls WMI information from its respective environment. Security related issues are monitored and alerted on where required.

#### **1.5.6 Network Pen Testing**

On an annual basis, SAP Fieldglass engages a 3<sup>rd</sup> party security company to conduct pen testing services on our network.

### **1.6 Data Management**

#### **1.6.1 Data Backups and Replication**

SAP Fieldglass has a highly available backup solution that guarantees data can be restored as expediently as possible. Our solution performs a continuous replication of data to our passive production hosting facility. SAP Fieldglass takes incremental SQL backups every 15 minutes and full backups on a nightly basis. Backups are transferred to the passive production hosting environment over a secure channel. SAP Fieldglass' solution offers continuous protection of customer data geographically without imposing performance degradation or scaling limitations. Data is encrypted both at rest and in transit with AES-256.

Data backups and replication are performed between the active and passive production environments. The US-based active production environment replicates data to the US-based passive environment. Likewise, The EU-based active production environment replicates data to the EU-based passive environment.

Also refer to section 3.1 Disaster Recovery.

#### **1.6.2 Data Archiving**

Data is archived throughout the year. Eligible transactional and reporting data are moved from the active database to an archive database after 24 months. Archived data can be accessed only by customer users with a user role of Administrator. Archive data is accessed using the same login screen and user interface that is used to access current data. Reports can also be generated using archive data from the standard interface.

The criteria for archiving data are as follows:

- Data remains in the active database for 24 months, at which point eligible data is moved to the archive database.
- Data remains in the active report database for 24 months, at which point eligible data is moved to the archive report database.
- Archiving begins with the worker. When a worker's end date is more than 24 months old, the worker and all associated data including the worker's work orders, job seeker record, job posting, time sheets, expense sheets, and payment-related items such as invoices are archived.
- The archive process is run as a batch job on a weekly basis to move data from the active databases to the archive databases.
- Data cannot be moved back from the archive database to the active database.

SAP Fieldglass does not delete data from its archive databases and has data older than 7 years. In the future, if SAP Fieldglass decides to delete archived data, we will ensure that a minimum 7 years of data is retained.

### 1.6.3 Data Deletion

Data deletion occurs only when required by a customer. SAP Fieldglass' data deletion capabilities allow customers to remain compliant with data privacy, data protection, and other related data directives.

- Deletion logic is based solely on a customer's business requirements. A custom script is developed by SAP Fieldglass.
- Results are verified in a non-production environment by both SAP Fieldglass and the customer prior to executing in production.
- A "Preservation" flag is available for use. Customers can set this flag on any data to override logic that would otherwise delete the data. This is useful during times when litigation or eDiscovery efforts are in progress and certain data must be preserved.
- Script execution frequency is determined by the customer.

SAP Fieldglass is contractually obligated to retain at least 7 years of data for customers.

### 1.6.4 Data Usage

Customer data is required in non-production environments for various reasons:

- Second level help desk support for customer defect investigation and resolution.
- Supporting customer requests for updating data, whether it be for desired changes or corrections for data modified by the customer in error.
- Customer sandboxes – these are non-production environments configured only with the customer's data (customer's data is "sliced" out from the multi-tenancy production database). These sandboxes are required for many

reasons, including testing of new or changed integration connectors, reports, and/or application configuration changes such as revised approval workflows. New application features can also be turned on and reviewed in the sandbox before turning on in the live production instance.

- Any data deletion scripts that are developed between the customer and SAP Fieldglass must be tested in a non-production environment prior to executing in production.
- Customer Preview testing – this is an opportunity for customers to gain early access to a future upgrade of the SAP Fieldglass application. This allows customers to gain confidence that the system is working as expected prior to the release date. Customer participation is optional.
- SAP Fieldglass regression testing – the SAP Fieldglass application is offered in a Software as a Service (SaaS) model. One of the services we provide is testing of the application prior to each production release. To ensure a customer's configuration, integrations, and reports are working as expected with the new codebase, SAP Fieldglass Quality Assurance uses a scrubbed production copy of the database in our regression testing. Regression testing is where we execute test cases against the current production codebase and the future codebase using a common data input. Output files from each test are compared to ensure any changes are expected.

Customers may opt out of this process. However, all responsibility in ensuring the customer's SAP Fieldglass instance is properly working and maintained is transferred to the customer.

To date, all SAP Fieldglass customers have declined to assume this responsibility.

### 1.6.5 Data Scrubbing

In order to properly service our customers, access to production data is required. All customer data is classified as Confidential. SAP Fieldglass takes every possible precaution to ensure data is protected from unauthorized access and misuse.

Data is protected in the following ways:

- First names and last names of buyers, suppliers, and workers are anonymized by replacing with a test value.
- Email addresses of buyers, suppliers, and workers are changed to a single false email address such as [gatest8@SAP\\_Fieldglass.com](mailto:gatest8@SAP_Fieldglass.com) which is configured to automatically purge all email sent to it.
- Buyer and supplier company names are anonymized.
- Any custom fields created by the customer remain unchanged. Custom fields that contain sensitive data are encrypted with AES-256 and optionally display masked when entering and displaying values in the user interface. There is no way to decrypt these values since the decryption keys between production and test are different. Keys are stored in the corporate password vault and

access is limited to only select senior members of the technology team. This access list is reviewed quarterly by the internal audit team and by a third party in our annual SSAE 16 / ISAE 3402 Type 2 SOC1 and SOC2 audits.

The data scrubbing process is:

- A backup of the data is taken at the location where the source database resides
- Data is filtered where only the most recent 3 months of data remain
- Data is scrubbed as described above
- Data is then securely transferred from the production system to the test system

Once scrubbed, all personally identifiable information (PII) has been removed and any sensitive custom field data cannot be read.

Our test systems reside in secure third party data centers with the same controls as our production data centers.

### 1.6.6 Data Access

Direct access to production data is required in specific cases. Access is provided based on business need and not by role alone. Access reviews are conducted monthly and reviews are subject to recurring quarterly reviews by the SAP Fieldglass internal audit team. Executive review and sign off is performed for all quarterly reviews.

Access is required for the following purposes:

- Professional Services Data Services team – this team receives a customer's master and/or worker data and executes data uploads into test and/or production environments. Once the data are successfully uploaded and customer has signed off on the accuracy and completeness of the upload, the data are destroyed.
- First level help desk – when customers call our help desk, the caller may require the help desk agent to view data or log in as the caller in order to help them with their problem. This is only performed when authorized by the caller.

SAP Fieldglass has help desk locations in the following regions:

#### United States

SAP Fieldglass  
111 N. Canal Street  
Suite 600  
Chicago, IL 60606

**Europe and APAC**

|                                                                                                    |                                                                                                                                                            |
|----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Merlin-IT Hungary Information Technology Services<br>Kft. Vagohid u. 2., 4034<br>Debrecen, Hungary | Merlin Information Systems Philippines Inc.<br>6th Floor C<br>ommerce and Industry Plaza Building,<br>McKinley Hill Cyberpark,<br>Taguig City, Philippines |
|----------------------------------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------|

The SAP Fieldglass Security team conducted an onsite security audit in 2014 at Merlin Hungary. Contractually, Merlin must meet SAP Fieldglass' security requirements. The following security controls are in place:

- Help desk agents are not able to cut/paste using their secured workstation.
- External media including any USB drive is disabled.
- Printing is not supported.
- Help desk agents have been background checked by Merlin using SAP Fieldglass' background check requirements (see section 1.4.7 Background Checks).

**1.6.7 Data Loss Prevention**

Our DLP solution has been installed and configured for use on devices subject to exposure to sensitive information. It has been implemented to guard data at its endpoints and to ensure leakage of information classified as Confidential does not occur. Policies can be pushed from the central management console or pulled from an individual endpoint client. Client installs are configured to update (pull) policy changes every 90 minutes.

Our enterprise SIEM tool is configured to pull data in real time from the DLP database. Dashboards are created to allow quick overviews of agent statuses/details, alert details, and logging details.

The SIEM is configured to notify the Security Team in real time when an alert is detected. The Analyst then logs into the SIEM and investigates the alert to determine whether it's legitimate or a false positive.

**1.6.8 Customer Termination**

If a customer were to terminate their contract with SAP Fieldglass, the customer's data could be sliced out of the production database and delivered to the customer on a media of their choice. The size of the data will determine what media is appropriate.

## 2 Release Management

### 2.1 Release Management Process

The SAP Fieldglass Release Management team is responsible for the management of all deliverables required in upgrading the production SAP Fieldglass system. This team is comprised of key members from the Development, Quality Assurance, Product Management, Professional Services, and executive teams. SAP Fieldglass customers benefit from our release management in that the release deployment schedule repeats itself year over year; releases are deployed over the same weekends of predetermined months.

SAP Fieldglass has several different release types:

#### Major Releases

In the US, Major releases occur on the second Fridays in March, July, and November. In the EU, Major releases occur on the third Fridays in March, July, and November

These releases can include new product features, new or changed functionality, user experience enhancements, and changes to the user interface. These are our most formal releases and the only type of release that requires an extended maintenance window. The Release Manager and the Release Management team closely monitor all phases of the Software Development Lifecycle and analyze PKIs at each phase transition. Release notes are provided as well as an opportunity for customers to optionally participate in a customer preview opportunity. This is where users can log into a non-production environment that is running the future codebase. The benefit of participating is that customers can gain confidence the system is behaving as expected prior to the official release date.

#### Minor Releases

Minor releases occur on the second Fridays in January, May and September.

These releases do not require the formalities of major releases. This type of release is used when deploying customer-specific product features and integrations to production. These releases are deployed to both US and EU customers at the same time.

#### Service Packs

Service packs are deployed as required to resolve product defects. These releases are deployed to both US and EU customers at the same time.

All releases are deployed to production by a central deployment team located in the US. During the deployment process, the codebase is replaced with the new codebase and data transformation scripts are executed. During this process, customer data is not viewed or accessed. Upon completion of the deploy, the Quality Assurance team executes a post-deploy verification checklist to ensure the system is ready for general availability. One such verification is verifying an MD5 hash to ensure the certified codebase was installed in production without modification. Test companies are used in conducting all testing.

## 3 Disaster Recovery and Business Continuity Plan

### 3.1 Disaster Recovery

SAP Fieldglass maintains a disaster recovery plan with backup, hardware repair, and data restoration, along with the ability to bring up the SAP Fieldglass application at a hot backup site in the event of a declared disaster (as described in the SAP Fieldglass disaster recovery plan) where the primary site is destroyed or disabled. This plan is tested on a yearly basis. Lessons learned are recorded in the test results and the plan is adjusted and improved accordingly.

SAP Fieldglass has the concept of active and passive production hosting facilities. The active environment is the live production hosted facility that all SAP Fieldglass users are actively using. The passive environment is a hot production hosting environment. Our data replication solution ensures that the passive environment is ready at anytime to be failed over to. In a disaster scenario, SAP Fieldglass changes the DNS to the passive hosting center's set of IPs. Users are then seamlessly routed to the other datacenter. There is not multi-day data migration that has to occur due to the ongoing data replication that is in place.

SAP Fieldglass proactively conducted a datacenter failover from the active datacenter to the passive datacenter in April 2015. The entire failover process was conducted in just over 8 hours with zero data loss. SAP Fieldglass plans to repeat this proactive datacenter failover between 1 and 3 times per year.

*Also refer to section 1.6.1 Data Backups and Replication.*

### 3.2 Business Continuity

The primary objective of our business continuity plan (BCP) is to enable SAP Fieldglass to recover all functions within their respective Recovery Time Objectives (RTOs) after any type of disruption occurs which prevents SAP Fieldglass personnel from engaging in ongoing business operations. A Recovery Point Objective (RPOs) has also been defined to identify our tolerance for any data loss. This Plan is designed to support the employees responsible for leading recovery efforts to enable SAP Fieldglass to resume daily operations following a disruption.

A business impact analysis (BIA) has been developed to fully quantify and prioritize restoration of mission-critical processes.

## I. Company

**Virtru** may be referred to as “**Company**.”

### A. Document Control

A staff copy of this document is available with the **Virtru** Privacy Officer, Will Ackerly, [willackerly@virtru.com](mailto:willackerly@virtru.com) or (202) 577-3683.

### B. Security Document Library

These policies and procedures and related privacy and security practice information will be kept in our Security Documentation Library (SDL). The Library is located in [Google Drive](#) and backed up to a local NAS.

Outdated and superseded materials from the Security Documentation Library (or Notebook) will be kept in an archive (the Security Documentation Archive) for at six (6) years after the date when they are first outdated or superseded.

## II. Management and Protection of Personally-Identifiable Information

### A. Overview

The Privacy Rules place certain restrictions on the acquisition, use and disclosure of Personally-Identifiable Information (PII). These policies establish the minimum care with which PII in the custody of **Virtru** personnel must be maintained.

### B. Purpose

The purpose of this document is to provide basic instruction to all **Virtru** employees regarding the management and protection of Personally-Identifiable Information.

### C. Applicability

This policy applies to all **Virtru** employees, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

### D. Definitions

*Covered Entity* means a health plan, a health care clearinghouse, or a health care provider that transmits any health information in electronic form relating to any covered transaction.

*Personally-Identifiable Information (PII)* means any information about an individual maintained by **Virtru**, including:

1. Any information that can be used to distinguish or trace an individual's identity, such as name, social security number, date and place of birth, mother's maiden name, or biometric records; and

2. Any other information that is linked or linkable to an individual, such as medical, educational, financial, and employment information

*Treatment, Payment and Health Care Operations (TPO)* include all the following:

1. *Treatment* means the provision, coordination, or management of health care and related services, consultation between providers relating to an individual, or referral of an individual to another provider for health care.
2. *Payment* means activities undertaken to obtain or provide reimbursement for health care, including determinations of eligibility or coverage, billing, collections activities, medical necessity determinations and utilization review.
3. *Health Care Operations* includes functions such as quality assessment and improvement activities, reviewing competence or qualifications of healthcare professionals, conducting or arranging for medical review, legal services and auditing functions, business planning and development, and general business and administrative activities including the creation of de-identified health information as defined by these regulations.

*Disclosure* means the release, transfer, provision of access to, or divulging in any other manner of information outside the entity holding the information.

*Use* means, with respect to individually identifiable health information, the sharing, employment, application, utilization, examination, or analysis of such information within an entity that maintains such information.

*Personal Representative* means a person who has authority under applicable law to make decisions related to health care on behalf of an adult or an emancipated minor, or the parent, guardian, or other person who is authorized under law to make health care decisions on behalf of an un-emancipated minor.

*Employees* means all employees of **Virtru** as well as its temporary employees, interns, independent contractors, trainees, and other persons in the performance of work for the **Company**, its offices, programs or facilities.

*Privacy Rules* means the rules adopted by various state and federal agencies to implement the requirements of the Health Insurance Portability and Accountability Act of 1996 (HIPAA) and regulations promulgated under this Act as well as those obligations that arise under the privacy and security standards adopted by the Health Insurance Marketplaces, pursuant to 45 C.F.R. §155.260.

## **E. Policy**

For details on specific requirements, refer to the appropriate policies in this manual as indicated in *[brackets]*.

1. Generally: Personally-Identifiable Information shall not be obtained, used or disclosed except as permitted or required by law.
2. Permitted and Required Uses and Disclosures: Personally-Identifiable Information may or shall be disclosed as follows:
  - a) To the individual
  - b) To carry out TPO activities as allowed under HIPAA and/or pursuant to and in compliance with a current and valid Authorization [\[Receipt, Use and Disclosure of Personally-Identifiable Information\]](#).
  - c) In keeping with a Business Associate Agreement [\[Business Associate Agreement\]](#).
  - d) As otherwise allowed or required under the HIPAA Rules or other federal and/or state laws concerning privacy of information that is used by **Virtru** in the course of its business operations.
3. Minimum Necessary: Generally, when obtaining, using or disclosing Personally-Identifiable Information, or when requesting PII from another entity, reasonable efforts must be made to limit the PII used or disclosed to the minimum necessary to accomplish the intended purpose. However, the Privacy rules were not intended to severely complicate business processes and **Virtru** may, where appropriate, use a single format to provide data containing PII for our various services [\[Minimum Necessary Standard\]](#).
4. De-identified Personally-Identifiable Information: PII may be considered not to be individually identifiable in the following circumstances:
  - a) The following identifiers of the individual (and relatives, employers or household members) are removed. (This is the "Safe Harbor" method that **Virtru** will generally use.)
    - Names
    - Information relating to the individual's geographic subdivision if it contains fewer than 20,000 people
    - Elements of dates (except year) directly related to the individual
    - All ages and elements of dates that indicate age for individuals over 89, unless aggregated into a single category of age 90 and older
    - Telephone numbers
    - Fax numbers

- Email addresses
- Social Security Numbers
- Medical record numbers
- Health plan beneficiary numbers
- Account numbers
- Certificate or license numbers
- Vehicle identifiers and serial numbers, including license plate numbers
- Device identifiers and serial numbers
- Web Universal Resource Locators (URLs)
- Internet Protocol (IP) address numbers
- Biometric identifiers; full face photographic images
- Any other unique identifying number, characteristic or code.

b) As allowed in the Privacy Rules, **Virtru** shall provide a number of longitudinal identifiers in the de-identified data. These identifiers shall not allow identification of the individual who is the subject of this data in that:

- 1) These identifiers will be encrypted using industry level encryption techniques
- 2) The method of encryption shall not be divulged to the receiver of the de-identified data

5. Complaint Process: **Virtru** has put into place a process for individuals to make complaints about our Privacy Policies and Procedures and/or our compliance with those Policies and Procedures.

6. Documentation: **Virtru** must maintain written or electronic copies of all policies and procedures, communications, actions, activities or designations as are required to be documented under this manual for a period of six (6) years from the later of the date of creation or the last effective date.

## **F. Enforcement**

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

[\[Sanction Policy\]](#)

### III. Administrative Requirements for HIPAA Implementation

#### A. Overview

The Privacy Rules require that a Business Associate have in place appropriate administrative safeguards to protect the privacy of Personally-Identifiable Information.

#### B. Purpose

To provide instructions regarding **Virtru**'s obligations relating to the implementation of administrative requirements of the Privacy Rules.

#### C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

#### D. Policy

1. Personnel Designations: **Virtru** has designated and documented designations of the following:
  - a. Will Ackerly has been designated as the Privacy Officer.
    - 1) He is responsible for the development and implementation of corporate-wide policies and procedures relating to the safeguarding of Personally-Identifiable Information.
    - 2) He will also be responsible for receiving complaints relating to Personally-Identifiable Information and for providing information about the **Company's** privacy practices.
  - b. Persons with access to Personally-Identifiable Information are listed by title and department including a listing of individuals' names on the Risk Assessment; and will be updated if **Virtru** makes any major changes to processes, staff, programming or company location; or at a minimum annually. **Virtru** will retain the previous listing for a period of not less than six (6) years.
2. Training Requirements: **Virtru** shall document the following training actions: All **Virtru** employees shall receive training on applicable policies and procedures relating to Personally-Identifiable Information as necessary and appropriate for such persons to carry out their functions within the **Company**.
  - a. Each new employee shall receive the training as described above within 30 days after joining **Virtru**.

- b. Each employee whose functions are impacted by a material change in the policies and procedures relating to Personally-Identifiable Information, or by a change in position or job description, shall receive the training as described above within 30 days after the change becomes effective.
- c. Complaints handled by Committee...

3. Safeguards: **Virtru** shall have in place appropriate Administrative, Technical, and Physical Safeguards to reasonably safeguard Personally-Identifiable Information from intentional or unintentional unauthorized receipt, use or disclosure.

4. Complaint process: **Virtru** shall have in place a process for individuals to make complaints about the **Company's** HIPAA Policies and Procedures and/or **Virtru's** compliance with those Policies and Procedures, and shall document all complaints received and the disposition of each complaint. (See [Complaint Process](#))

5. Sanctions: Our Privacy Policies call for our workforce that has access to Personally-Identifiable Information to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

These sanctions apply to the designated workforce members including managers, supervisors, and staff who have access to Personally-Identifiable Information. It is intended as guidance for our business management in sanctioning information security policy infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions.

### **First security infraction**

If the infraction is:

- a. A simple infraction, and
- b. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

### **Second security infraction or first serious infraction**

If the infraction is:

- a. A serious infraction, or

- b. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

### **Third security infraction or second serious infraction**

If the infraction is:

- a. A second serious infraction within 3 years, or
- b. A third infraction of any type within 3 years.

The sanction will be dismissal from the workforce.

**Virtru** makes exceptions for disclosures made by employees who qualify as whistleblowers or certain crime victims.

6. Mitigation efforts required: **Virtru**, to the extent practicable, shall mitigate any harmful effects of unauthorized uses or disclosures of Personally-Identifiable Information by the **Company** or any of its Business Associate Subcontractors.

7. Prohibition on intimidating or retaliatory acts: Neither **Virtru** nor any employee shall intimidate, threaten, coerce, discriminate against, or take other retaliatory action against any individual for the exercise of their rights or participation in any process relating to HIPAA compliance, or against any person for filing a complaint with the Secretary of the U.S. Department of Health and Human Services, participating in an investigation, compliance review, proceeding or hearing, or engaging in reasonable opposition to any act or practice that the person in good faith believes to be unlawful under the Privacy Rules as long as the action does not involve disclosure of Personally-Identifiable Information in violation of the regulations.

**Virtru** shall document the following actions relating to its policies and procedures:

- a. Required policies and procedures: **Virtru** shall implement policies and procedures to assure appropriate safeguarding of Personally-Identifiable Information in its operations.
- b. Changes to policies and procedures: **Virtru** shall change its policies and procedures as necessary and appropriate to conform to changes in law or regulation. **Virtru** may also make changes to policies and procedures at other times as long as the policies and procedures are still in compliance with applicable law. Where necessary, **Virtru** shall make correlative changes in its Privacy Notice.

#### E. Documentation Requirements

**Virtru** must maintain the required policies and procedures in written or electronic form, and must maintain written or electronic copies of all communications, actions, activities or designations as are required to be documented hereunder, or otherwise under the Privacy Rules, for a period of six (6) years from the later of the date of creation or the last effective date.

#### F. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

### IV. Minimum Necessary Standard

#### A. Overview

The Privacy Rules place certain restrictions on the receipt, use and disclosure of Personally-Identifiable Information in regards to the amount reasonably necessary to accomplish the task being performed. However, the Privacy Rules also allow Personally-Identifiable Information to be disclosed for business appropriate needs.

The policies developed by **Virtru** will follow this business appropriate philosophy as well as that of administrative simplification, which is the subsection of the HIPAA law under which the Privacy Rule was developed. **Virtru** shall use standard data formats for information acquisition or disclosure and tailor these formats to contain a business reasonable minimum necessary amount of Personally-Identifiable Information. The **Company's** policies establish the minimum necessary use provisions for Personally-Identifiable Information in the custody of **Virtru** employees.

#### B. Purpose

To issue instructions regarding **Virtru's** obligations relating to the Privacy Rules to obtain, use and disclose only the minimum amount of Personally-Identifiable Information (PHI) necessary to accomplish the intended purpose.

#### C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

#### D. Policy

**Virtru** will make reasonable efforts to ensure that the Minimum Necessary amount of Personally-Identifiable Information is disclosed, used, or requested to accomplish the intended purpose. Exceptions to the Minimum Necessary Standard include disclosures:

1. To the individual who is the subject of the information;

2. Made pursuant to an authorization provided by the individual;
3. To healthcare providers for treatment purposes;
4. Required for compliance with the standardized HIPAA transactions;
5. Made to the Secretary of HHS or his agent pursuant to a privacy investigation;
6. Otherwise required by the Privacy Rules or other law.

Employees shall be trained on the policies and procedures developed to apply these principles to the use or disclosure of, or requests for Personally-Identifiable Information.

## **E. Procedures**

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Each user of a system which accesses Personally-Identifiable Information shall be identified and the classes or types of PII to which access is needed and any conditions appropriate to such access will be established. It will be the responsibility of the Privacy Officer to maintain this information using the *Employee Access Request Form* [**Forms for Employees**] and *System Access Log* [**Change Control Logs for Security**].
2. Reasonable efforts will be taken to limit the access of each user of Personally-Identifiable Information to the amount needed to carry out the individual's duties. These efforts will include internal use of PII.
3. For situations where Personally-Identifiable Information disclosure occurs on a routine and recurring basis, the PII disclosed will be limited to the amount of information reasonably necessary to achieve the purpose of the disclosure.
4. Requests for disclosures that are not routine and recurring and thereby covered by **Virtru** standard procedures (other than to the individual, the Secretary of HHS or his agent, or where required by law) shall be reviewed by the Privacy Officer to determine that the Minimum Necessary Standard is applied to the extent reasonable.
5. Questions regarding these procedures should be directed to the **Virtru** Privacy Officer, Will Ackerly, [willackerly@virtru.com](mailto:willackerly@virtru.com), or (202) 577-3683.

## **F. Enforcement**

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

## V. Business Associate Agreements

### A. Overview

The Privacy Rules impose certain requirements on Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners. **Virtru** must comply with the requirements in this section.

### B. Purpose

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Agreements relating to Covered Entities.

### C. Applicability

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

### D. Policy

1. Generally: A Covered Entity may disclose Personally-Identifiable Information to **Virtru**, or allow **Virtru** to create or receive PII on the Covered Entity's behalf. **Virtru** will appropriately safeguard the PII obtained from the Covered Entity. **Virtru** will document these assurances through a written agreement.
2. Content Requirements: The agreement between the Covered Entity and **Virtru** must meet the following requirements, as applicable:
  - a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the Covered Entity, except that the agreement may permit **Virtru** to use or disclose Personally-Identifiable Information for its own management and administration if such use or disclosure is required by law, or **Virtru** provides reasonable assurance to the Covered Entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.
  - b. Provide that **Virtru** will:
    1. Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
    2. Use safeguards to prevent unauthorized use or disclosure.
    3. Report unauthorized uses or disclosures to the Covered Entity.

4. Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors.
  5. Make Personally-Identifiable Information available for access by the Covered Entity in accordance with relevant law and policy.
  6. Make Personally-Identifiable Information available to the Covered Entity for amendment, and incorporate any approved amendments to Personally-Identifiable Information, in accordance with relevant law and policy.
  7. Make information available for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
  8. Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining **Virtru's** compliance with Privacy Rules.
  9. Authorize termination of the agreement by the Covered Entity upon a material breach by **Virtru**.
3. Compliance Responsibilities: Virtru agrees to report any use or disclosure of Personally-Identifiable Information not permitted by this agreement and any successful security incident to Covered Entity within a commercially reasonable period, but in no event later than within thirty (30) business days, after it is discovered.

#### **E. Enforcement**

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

## **VI. Business Associate Subcontractor Agreements**

#### **A. Overview**

The Privacy Rules impose certain requirements on Business Associate Subcontractors who create, receive, use or disclose Personally-Identifiable Information on behalf of **Virtru**. All Business Associate Subcontractors of **Virtru** must comply with the requirements in this section.

#### **B. Purpose**

To provide instructions to all **Virtru** employees regarding the necessity of and the requirements for Business Associate Subcontractor Agreements relating to Business Associate Subcontractors who receive, use or disclosure Personally-Identifiable Information on behalf of **Virtru**.

### C. Applicability

This policy applies to all **Virtru** employees and Business Associate Subcontractors, which are defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru** and the Business Associate Subcontractor.

### D. Policy

1. Generally: **Virtru** may disclose Personally-Identifiable Information to a Business Associate Subcontractor, or allow a Business Associate Subcontractor to create or receive PII on **Virtru**'s behalf, if adequate assurances are obtained by **Virtru** that the Business Associate Subcontractor will appropriately safeguard the PII. **Virtru** must document these assurances through a written agreement. This requirement does not apply with respect to:
  - a. Disclosures made to a provider concerning the individual's treatment, payment or health care operations; or
  - b. Uses or disclosures made to a governmental agency for purposes of public benefit eligibility or enrollment determinations where such company is authorized by law to make these determinations.
2. Content Requirements: The agreement between **Virtru** and a Business Associate Subcontractor must meet the following requirements, as applicable:
  - a. Establish permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized for the entity, except that the agreement may permit the Business Associate Subcontractor to use or disclose Personally-Identifiable Information for its own management and administration if such use, or disclosure is required by law, or the Business Associate Subcontractor obtains reasonable assurance from the entity to which the Personally-Identifiable Information is disclosed that the confidentiality of the PII will be maintained.
  - b. Provide that the Business Associate Subcontractor will:
    - 1) Not use or disclose the Personally-Identifiable Information except as authorized under the agreement or required by law.
    - 2) Use safeguards to prevent unauthorized use or disclosure.
    - 3) Report unauthorized uses or disclosures to **Virtru**.
    - 4) Pass on the same obligations relating to protection of Personally-Identifiable Information to any subcontractors or agents.
    - 5) Make Personally-Identifiable Information available for access by **Virtru**, in accordance with relevant law and policy.

- 6) Make Personally-Identifiable Information available to **Virtru** for amendment, and incorporate any approved amendments to PII, in accordance with relevant law and policy.
- 7) Make information available to **Virtru** for the provision of an accounting of uses and disclosures in accordance with relevant law and policy.
- 8) Make its internal practices, books and records relating to its receipt or creation of Personally-Identifiable Information available to the Secretary of HHS for purposes of determining the Business Associate Subcontractor's compliance with Privacy Rules.
- 9) If feasible, return or destroy all Personally-Identifiable Information upon termination of contract; if any PII is retained, continue to extend the full protections specified herein as long as the PII is maintained.
- 10) Authorize termination of the agreement by the entity upon a material breach by the Business Associate Subcontractor.

3. Compliance Responsibilities: If **Virtru** knows of a pattern or practice of the Business Associate Subcontractor that amounts to a material violation of the Agreement, **Virtru** and the Business Associate Subcontractor must attempt to cure the breach to end the violation, and if unsuccessful, terminate the agreement. If terminating the Agreement is not feasible, **Virtru** must report the problem to the Secretary of HHS.

#### **E. Enforcement**

An employee of **Virtru** or an employee of the Business Associate Subcontractor found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access or use of Personally-Identifiable Information was or may have been involved, these individuals may additionally be reported to the appropriate law enforcement agencies.

## **VII. Receipt, Use and Disclosure of Personally-Identifiable Information**

#### **A. Overview**

The Privacy Rules impose certain requirements on Covered Entities and Business Associates who create, receive, use or disclose Personally-Identifiable Information on behalf of their Covered Entity partners.

#### **B. Purpose**

To provide instructions to all **Virtru** employees regarding the receipt, uses and disclosures of Personally-Identifiable Information, which are permitted or required by HIPAA.

#### **C. Applicability**

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of the **Company**.

## D. Special Definition

*Public Health Authority* means a governmental company or authority, or a person or entity acting under a grant of authority from or a contract with such a public company, including the employees or agents of the public company, its contractors and those to whom it has granted authority, that is responsible for public health matters as part of its official mandate.

## E. Policy

State and federal law permit and require certain receipt, uses and disclosures of Personally-Identifiable Information such as those related to Business Associate Agreements. Additional uses and/or disclosures are allowed or required that related to public responsibility that require no agreement or authorization on the part of the individual who is the subject of the PII. It is the policy of **Virtru** to obtain, use and disclose PII only as permitted and/or required by law or regulation including the following situations:

1. Treatment, Payment or Healthcare Operations: Personally-Identifiable Information may be used or disclosed for the purposes of providing treatment, payment or healthcare operations. Such disclosures will be made only as allowed by and pursuant to prevailing state and federal law.
  - a. Discussions involving Personally-Identifiable Information shall be conducted only in appropriate business areas including but not limited to offices, conference rooms and other non-public areas;
  - b. Conducted only for the purpose of fulfilling a legitimate business need; and
  - c. Conducted with regard to and in compliance with the “Minimum Necessary Standard.” [\*\[Minimum Necessary Standard\]\*](#)
2. Contained in a Business Associate Agreement: For permitted and required uses or disclosures of Personally-Identifiable Information that are consistent with those authorized by the Covered Entity in a Business Associate Agreement.
3. Required by Law: Personally-Identifiable Information may be used or disclosed to the extent such use or disclosure complies with and is limited to the requirements of such law.
4. Abuse and Neglect: Except for reports of child abuse or neglect, Personally-Identifiable Information about an individual believed to be a victim of abuse, neglect, or domestic violence may be disclosed to a governmental authority authorized to receive such reports if the individual agrees or the reporting entity believes, in the exercise of professional judgment, that the disclosure is necessary to prevent serious physical harm. If the individual lacks the capacity to agree, disclosure may be made if not intended for use against the individual and delaying disclosure would materially hinder law

enforcement activity. The individual whose Personally-Identifiable Information has been released must be promptly informed that the report was made unless doing so would place the individual at risk of serious harm.

5. Judicial Proceedings: Personally-Identifiable Information may be disclosed in response to a court order.
6. Law Enforcement: Personally-Identifiable Information may be disclosed for the following law enforcement purposes and under the specified conditions:
  - a. Pursuant to court order or as otherwise required by law, i.e. laws requiring the reporting of certain types of wounds or injuries
  - b. Decedent's Personally-Identifiable Information may be disclosed to alert law enforcement to the death if entity suspects that death resulted from criminal conduct
7. Serious Threats to Health or Safety: Consistent with applicable law and ethical standards, Personally-Identifiable Information may be used or disclosed if the entity believes in good faith that the use or disclosure is necessary to prevent or lessen a serious and imminent threat to a person or the public, and disclosure is to someone reasonably able to prevent or lessen the threat, or the disclosure is to law enforcement authorities to identify or apprehend an individual who has admitted to violent criminal activity that likely caused serious harm to the victim or who appears to have escaped from lawful custody. Disclosures of admitted participation in a violent crime are limited to the individual's statement of participation and are not permitted when the information is learned in the course of treatment to affect the propensity to commit the subject crime, or through counseling, or therapy or a request to initiate the same.
8. Specialized Government Functions: National Security and Intelligence: Personally-Identifiable Information may be disclosed to authorized federal officials for the conduct of lawful intelligence, counter-intelligence, and other activities authorized by the National Security Act.(45 CFR 164.512(k)(2))
9. Protective Services: Personally-Identifiable Information may be disclosed to authorized federal officials for the provision of protective services to the President, foreign heads of state, and others designated by law, and for the conduct of criminal investigations of threats against such persons. (45 CFR 164.512(k)(3));
10. Public Benefits: Personally-Identifiable Information relevant to administration of a government program providing public benefits may be disclosed to another governmental program providing public benefits serving the same or similar populations as necessary to coordinate program functions or improve administration and management of program functions.

11. Workers' Compensation: Personally-Identifiable Information may be disclosed as authorized and to the extent necessary to comply with laws relating to workers' compensation and other similar programs.

#### **F. Procedures**

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

Any request for disclosure of Personally-Identifiable Information, 1) pursuant to a court order, warrant or subpoena; 2) by a law enforcement agent; 3) by a public health authority; or 4) by a national security, intelligence or other federal company, must be directed to the Privacy Officer and the CEO for review and action. Any such request will include an acknowledgement of receipt to insure that the document was actually received by the appropriate corporate individual and will retain a copy of the request. If the acknowledgement is not received within two working days of submitting to the appropriate corporate individual, then the request will be resubmitted to the Privacy Officer and CEO.

#### **G. Enforcement**

An employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

### **VIII. Complaint Process**

#### **A. Overview**

The Privacy Rules require that **Virtru** provide a process for individuals to make complaints concerning the **Company's** policies and procedures required by these regulations and document all complaints received, and the dispositions of these complaints, if any.

#### **B. Purpose**

To issue instructions regarding **Virtru** obligations relating to the Privacy Rules to provide a process for individuals to complain about the **Company's** policies and procedures and the requirement to document complaints received and the disposition of these complaints.

#### **C. Applicability**

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

#### D. Policy

**Virtru** shall maintain a process to receive complaints from individuals about **Company** Privacy Policies and Procedures, for complaints from individuals who believe their privacy rights have been violated and from employees or Business Associate Subcontractors who believe that **Virtru** is not abiding by its policies and procedures and/or assurances concerning Personally-Identifiable Information. This process shall include the following:

1. Any complaints or questions should be submitted to the Privacy Officer or his assistant.
2. All service and complaint issues will be stored in the Desk.com app.

**Virtru** shall work in good faith to resolve complaints received to the satisfaction of the submitter, where possible.

#### E. Procedures

The following procedures will be implemented to ensure that this policy is enforced effectively across all parts of **Virtru**.

1. Complaints shall be submitted in writing on paper or electronically.
2. Complaints shall be entered into the complaint tracking system either automatically or by the individual designated to provide information on the **Company** complaint process. and when manually entered shall be in the exact words provided by the submitter.
3. The **Virtru** Privacy Officer shall investigate complaints and make a determination as to whether or not the complaint has merit.
4. The **Virtru** Privacy Officer shall present complaints received to **Virtru's** senior executive for immediate action.
5. If the Privacy Officer has completed the investigation of the complaint and made a determination, such determination shall be presented to the **Virtru** Executive Board
6. If the investigation has not been completed nor a provisional determination made by the Privacy Officer, it shall be the prerogative of the senior executive to make a summary determination or to direct the Privacy Officer to continue with the investigation and to report on the complaint at the next scheduled meeting.

If a determination is made that **Virtru** is in violation of the privacy provisions of the Privacy Rules or that changes are needed in the Privacy Policies or Business Associate Agreement to clarify the allowed practices of **Virtru**, the **Virtru** CEO and Privacy Officer shall determine the actions that the **Company** shall take.

Complaint determinations and actions that **Virtru** takes pursuant to such complaints, if any, shall be reported to the submitter of the complaint, if such person is known. Privacy Officer, or his designated agent, shall update the complaint tracking system with the findings of the Privacy Officer's investigation, any determination made, direction or actions of the **Virtru** CEO and Privacy Officer with regard to the complaint, and a copy of any information provided to the submitter in response to their complaint.

#### **F. Enforcement**

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

### **IX. Fax Policy**

#### **A. Overview**

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

#### **B. Purpose**

To provide instructions to all **Virtru** employees regarding the use of faxes with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information through facsimile use.

#### **C. Applicability**

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

#### **D. Special Definitions**

*Fax:* An electronic facsimile of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a fax machine, the incoming stream is translated into dots creating a representation of the original document.

*Inappropriate Disclosure:* The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

## E. Corporate Policies

Employees must exercise utmost caution when sending faxes to parties outside of **Virtru**. Faxes containing Personally-Identifiable Information should only be received on and sent to user or departmental specific fax machines and not to systems that have general access.

In cases where Personally-Identifiable Information is received from outside on a non-departmental specific fax machine, the receiving department shall notify the **Virtru** Privacy Officer of the source of such information. The employee shall communicate the approved fax number to the external entity and record such actions. Should PHI be disclosed by fax to an inappropriate party, **Virtru** shall, to the extent possible, remediate such disclosures.

All fax documents sent by **Virtru** employees shall contain the following statement:

This fax is intended for the individual/individuals or entity/entities named above and may be covered by copyrights, business partner confidentiality agreements, non-disclosures or other legally binding instruments. If you are not the intended recipient, do not read, copy, use or disclose the contents of this communication to others. Immediately notify the sender by reply fax, destroy all hard copies and delete this document from all systems. Thank you!

## F. Procedure

In the cases where data that contains Personally-Identifiable Information is disclosed by fax machine use to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the fax without reading.
2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. A fax shall also be sent to the receiving party containing the same instructions as detailed for the phone call requesting a return fax message indicating that the requested action was taken.
4. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place.

Any additional actions prescribed by regulations shall be performed to the extent possible.

## G. Enforcement

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use

or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

## **X. Scanner Policy**

### **A. Overview**

The Privacy Rules require that **Virtru** implement appropriate administrative, technical, and physical safeguards to protect the privacy of Personally-Identifiable Information.

### **B. Purpose**

To provide instructions to all **Virtru** employees regarding the use of scanners with respect to Personally-Identifiable Information and the measures necessary to maintain an adequate level of security for such information. This policy defines rules necessary to achieve this level of protection. These standards are designed to minimize the potential exposure to **Virtru** from damages, which may result from unauthorized disclosure of Personally-Identifiable Information.

### **C. Applicability**

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

### **D. Special Definitions**

*Scanner:* An electronic copy of a document stored as a series of zeroes and ones (binary data) that can be transmitted like normal computer data. When received by a computer, the incoming stream is translated into dots creating a representation of the original document.

*Inappropriate Disclosure:* The intentional or unintentional revealing of Personally-Identifiable Information to people who do not have a need to know such information.

### **E. Corporate Policies**

Employees must exercise utmost caution when scanning and transmitting these documents to their devices and parties outside of **Virtru**. Scans containing Personally-Identifiable Information should only be received on and sent to user or departmental specific computer in an encrypted format, or sent using **Virtru's** encrypted email application.

### **F. Procedure**

In the case where scanned data that contains Personally-Identifiable Information is disclosed to an inappropriate party, the following procedure shall be followed:

1. The receiving party shall be contacted by telephone at the earliest opportunity and requested to destroy the scan without reading.

2. The name of the company, the person contacted, the date and time shall be recorded as well as any comments made by the person receiving such calls.
3. The cause of the inappropriate disclosure shall be determined and reported to the **Virtru** Privacy Officer.

Methods to prevent a reoccurrence of the inappropriate disclosure shall be formulated and put into place. Any additional actions prescribed by regulations shall be performed to the extent possible.

#### **G. Enforcement**

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

### **XI. Training Policy**

#### **A. Overview**

The Privacy Rules require that **Virtru** train their employees on the requirements of our Privacy Policies and Procedures developed to protect the Personally-Identifiable Information to which employees are provided access. The **Company** has determined that all employees of **Virtru** shall be trained on Privacy so that we can provide the necessary assurances for the protection of Personally-Identifiable Information to our clients, vendors and business partners as required under the Privacy Rules.

#### **B. Purpose:**

To provide instructions to all **Virtru** employees regarding the requirement for HIPAA training.

#### **C. Applicability**

This policy applies to all **Virtru** employees, which is defined for the purposes of this document to be employees of all current and future subsidiaries of **Virtru**.

#### **D. Policy**

1. General: It is the policy of the **Company** that all employees of **Virtru** and its current and future subsidiaries be trained on Privacy and the **Company** policies and procedures created to protect Personally-Identifiable Information.
2. Duty Specific Training: Privacy training shall be appropriate to the tasks that each employee performs. In the case where an employee does not come into contact with Personally-Identifiable Information as a normal course of the employee's duties, the employee shall be trained on the corporate policies and procedures.

3. New Employees: New employees shall be trained on the corporate policies and procedures as part of their normal employment process and shall be trained on our Privacy Policies and Procedures, if applicable, within 30 days of being employed by **Virtru**. The Assistant ISO, Jordan Duggan, shall document this training and provide the Privacy Officer with documentation of this training within the 30-day period.
4. Transfers: When an employee transfers from one department to another, the employee shall be trained on our Privacy Policies and Procedures within 30 days of being assigned. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.
5. Material Change in Policies and Procedures: when a material change in the policies and procedures occurs, each employee shall receive training on such changes within 30 days of the implementation of the change. Jordan Duggan shall document this training and provide the Privacy Officer with documentation of this training, within the 30-day period.

#### **E. Enforcement**

Any employee found to have violated this policy shall be subject to disciplinary action, up to and including termination of employment. In the case where inappropriate access, use or disclosure of Personally-Identifiable Information was or may have been involved, such individuals may additionally be reported to the appropriate enforcement agencies.

# Security Policies and Procedures

## I. Virtru

**Virtru** may be referred to as “**Company**.”

### A. Document control

A staff copy of this document is available with the Information Security Officer (ISO), Will Ackerly, [willackerly@virtru.com](mailto:willackerly@virtru.com) (202) 577-3683, and Assistant Information Security Officer(AISO), Jordan Duggan, [jordan@virtru.com](mailto:jordan@virtru.com) (202) 577-3683.

### B. Security Document Library

These policies and procedures and related security practice information will be kept in our **Security Documentation Library** (SDL). The **SDL** is located in [google drive](#) and backup to the Synology NAS.

Documentation about security practices (logs of activities, etc.) will either be kept in this SDL (or Notebook) or in a short file in the SDL that will describe where the security practice documentation resides. The intended result is that anyone with access to the SDL will be able to locate any piece of documentation associated with our security program.

Outdated and superseded materials from the SDL will be kept in an archive (the Security Documentation Archive) for at least seven (7) years after the date when they are first outdated or superseded.

## II. Preface and Background Material

### A. Overview

It is vital to the reputation and profitability of **Virtru** that our information and our clients' information, in all forms, be protected from unauthorized use, modification, loss, copying, etc. This document sets out the default standards, which must be met to ensure that control.

Our information may exist on paper, in voice systems, on IT systems and networks, in the minds of our people, and in other forms. The information which needs protection includes, but is not limited to:

1. Client information (both for customer companies and for people as individuals)
2. Financial information, including credit cards, salaries, banking, transactions and more
3. Medical information of all types
4. **Company** patents, business plans and other intellectual property

# Security Policies and Procedures

5. **Company** business records and planning materials, including our customer list, marketing and sales efforts, product line plans and more
6. Copyrighted materials, both which our **Company** creates and those which we obtain under license from others

## B. Policy

Compliance with these standards is mandatory. Any deviation from these standards must be approved beforehand by the ISO.

## III. Key Concepts

### A. Information Security Principles

The protection of information can be described in several key dimensions:

1. Confidentiality
2. Integrity
3. Availability
4. Provability

In this document, the standards given are the **Company** defaults. They must be applied where appropriate, but always balanced against the cost of implementing the control, and the value of the information involved.

### B. Definitions

To prevent confusion, these are the definitions used throughout this document.

*Policies:* Corporate documents which set out **Virtru's** position regarding business processes, behavior of personnel and similar topics. Policies are a high-level statement of **Virtru's** position. Some of **Virtru's** policies, which relate to information security are:

1. Information Security Policy
2. Privacy Policy
3. Acceptable Use Policy for IT Systems Users
4. Employment Policies

*Standards:* Rules that must be followed to enable an effective information security program. Compliance with the Standards is mandatory, but deviation is possible if approved by the ISO.

Standards define the minimum baseline procedures, practices and configurations for systems, applications, controls, networks and related topics. Standards are designed to provide a single reference point for use during software development and adoption,

# Security Policies and Procedures

installation of systems and tools, and during the contracts process with vendors and service providers. Standards do not, however, give detailed command-line instructions on how to meet the **Virtru's** policies. Those are given in the guidelines.

*Guidelines:* Built for each application and platform; to be followed when implementing that particular tool. A Guideline may vary a bit from one implementation to another, as long as the Security Standards are met and justification is given and properly documented.

Combined, these three levels of documents provide a method for **Virtru** to audit itself and ensure proper controls are in place, without excess cost or risk. They also provide a means for **Virtru** to explain to regulators, examiners, external auditors or investors how our **Company** is safe, trustworthy and efficient.

## IV. Using These Standards

### A. Audience – Who will use this document

This document applies to **Virtru's** employees, business units and any Business Associate Subcontractor supporting **Virtru**:

1. Technology and business process providers should comply with these Standards as a matter of contractual obligation
2. Employees and Business units within Virtru should comply, unless a Risk Assessment has been done and a deviation is approved by the ISO

### B. How the document is used

This Standards document is a reference point to ensure a consistent framework of protections is in place. Implementing these standards involves:

1. Review of existing controls, procedures and tools against the Standards
2. Documenting compliance or deviations
3. Gap Analysis to determine where improvements are needed
4. A Risk Assessment to validate that the improvements are justified against the costs of the controls and the value of the information involved
5. Creation of a plan to close the gaps OR signoff of a deviation
6. Documentation of the new controls, procedures and tools

No signoff or approvals are needed if a level of protection higher than what is given in this Standard is determined to be needed for a given information asset.

# Security Policies and Procedures

## C. Maintaining this document

This document must be reviewed at least once a year or anytime there are significant changes in software or security. Updates must be made to keep it in accord with **Virtru's** overall business goals and risk position. The document will be reviewed by the ISO or AISO. Any updates, improvements or suggestions should be sent to the ISO.

## V. Roles and Responsibilities

### A. Rules for ownership of information

The information and systems provided by **Virtru** to workforce members, contractors and representatives are owned by **Virtru**, which also determines appropriate usage and access rules. All data on **Virtru's** systems and networks is owned by **Virtru**, with the exception of software that the ISO has approved to be open sourced or otherwise transferred to another entity through code escrow or code exchange and/or trade.

In this document, the words 'information owner' refer to the person who owns the responsibility for the information. The information itself remains the property of **Virtru**.

### B. Information users

Every user of **Virtru's** information must protect that information and ensure that it is used for **Virtru's** business purposes only. Any incidents or questionable issues in the security of our information must be reported to the ISO or AISO.

Information users may not assign access rights, authorize destruction or copying of information, or change the protections given to information assets. Information users must comply with all laws, regulations and **Virtru's** policies and procedures.

### C. Information Security Officer

**Virtru's** ISO and AISO will:

1. Manage awareness programs relating to security and privacy topics
2. Maintain a [central record of exceptions](#) to this Standards document
3. Manage changes to this Standards document
4. Provide leadership relating to new security risks, controls and technologies
5. Oversee and approve the sharing and reuse of Personal Identifiable Information (PII) collected by or processed by the company

See Appendices for further information and [Information Security Committee](#) for a current listing of members.

# Security Policies and Procedures

## VI. Information Classifications and Requirements

### A. Overview

Information is classified by system to ensure that the controls applied to it are sufficient and also to ensure that the controls applied do not impair **Virtru's** business, ability to compete or **Virtru's** image.

All information must have a classification for security and must have requirements set for business continuity.

### B. The Security classification process

Each information asset will go through the following classification process. Information assets include, but are not limited to:

1. IT platforms such as servers and workstations
2. IT applications including database transaction processing and email
3. Data sets
4. Paper copies of information
5. Information types typically known to workforce members, such as customer information

In general, an information asset includes both the raw information itself (paper, oral or data entry), the location where it resides, the business processes which handle it and the systems and tools that handle it.

Information assets will also be reviewed during:

1. Development, acquisition or deployment of software
2. Connections of computers or networks to outside systems or networks
3. Granting of access to any outside organizations

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to the Company's business.

### C. The classes of information for Security and Privacy

This policy applies to all workforce members, management, contractors, vendors, business partners and any other parties who have access to Company or client data.

# Security Policies and Procedures

## Data Types

The security classification of an information asset is assigned according to the highest of these dimensions. As an example, if an asset is regulated by law, then it needs the highest classification, even if the asset is not critical to **Virtru's** business. **Virtru** deals with two main kinds of data:

1. **Company-owned data** that relates to such areas as corporate financials, employment records, payroll, etc.
2. **Personally Identifiable Information (PII)** that is the property of our clients or workforce members, such as Protected Health Information, social security numbers, credit card information, contact information, etc.

## D. Setting requirements for business continuity

The requirements for an information asset relating to business continuity are not set by classification, but are specific to that asset. They include:

1. Required uptime for the information asset
2. Required restoration time if the data must be restored
3. Required frequency of backups
4. Requirements for storage of backups
5. Requirements for testing of the recovery process

The default requirements for business continuity are listed in the information handling rules' section. [See \*Handling rules for the information classifications\*](#) in this document and *Disaster Recovery Plan* for detailed information.

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

## E. Enforcement

It is the responsibility of everyone who works at **Virtru** to protect our data. Even unintentional abuse of classified data will be considered punishable in accordance with the extent and frequency of the abuse.

# Security Policies and Procedures

## VII. Handling Rules for the Information Classifications

### A. Overview

This section outlines the basic rules for handling information types according to the classifications. More specific standards for platforms, processes and networks appear in each topic section of this standards document.

### B. Inventory of Information Assets and Electronic Asset Management Log

An inventory is maintained of all significant information assets belonging to, or used by **Virtru**. This inventory includes:

1. Serial numbers/license numbers
2. MAC Addresses
3. Model
4. Device Type
5. Manufacturer
6. The information owner
7. Username
8. Location
9. OS Version
10. The custodian of the information and repository location (database, file cabinet, etc.)
11. Purpose in our systems
12. Asset value in dollars or other suitable measurement
13. The sensitivity of the asset, due to regulations, laws, customer expectations or other requirements
14. Requirements for the asset regarding availability, uptime, etc.
15. Contact information for one or more parties who can repair, restore, replace, or recover this asset. Examples are hardware/software vendors, IT support vendors, and/or staff members

This asset list contains information that is restricted to executives and super-admins, and therefore is stored securely on the Synology NAS, which itself is backed up to AWS Glacier.

This inventory will be reviewed and updated quarterly, or as new assets and devices are added. Logs are maintained as the *Inventory of Information Assets Log* and the

# Security Policies and Procedures

*Organizational Chart/Electronic Asset Management Log*. A current copy of this inventory will be kept at a separate location as described in our *Disaster Recovery Plan*.

## C. Rules for access to information assets

If any given security incident involves a breach of Personally Identifiable Information (PII), the ISO will follow our security policies and *Incident and Breach Policy* for handling such a breach.

If a security incident includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the client to notify affected persons of this event, in compliance with relevant federal and/or state law.

See also *Breaches or Impermissible Uses/Disclosures* within these Security Policies and Procedures.

## VIII. Access Control Policy

### A. Overview

This policy defines how **Virtru** manages access to electronic information and systems. **Virtru** provides access to electronic data relative to the workforce member's job requirement. We limit access to categories of data and systems that each person needs to do his/her job. We require that each workforce member restrict his/her access to only those specific records and functions needed to carry out his/her job. For the purposes of this policy workforce members are anyone in **Virtru** who has access to Personally Identifiable Information (PII).

### B. Access levels

The ISO will qualify the workforce member to have one of these forms of access based on the job role (in order of increasing access permissiveness):

1. Low Access to Corporate Email and Salesforce Data
2. General Access to product metrics
3. Admin Access to all front end products as well as product metrics
4. Super Admin Access to all front and backend products as well as product metrics

The access will match the person's job responsibilities The ISO will keep a record of the type of access provided to each workforce member. The record will include a date and justification and will be kept in our *Employee Access Request Log* in the **Security Documentation Library**.

# Security Policies and Procedures

The granting of access to Business Associate Subcontractors will be done in the same way as it is done for workforce members.

## C. Granting access

The ISO will provide accounts with the matching technical privileges and give the workforce member the account information including a one-time-use password that the user must change to a private password upon first use of the account.

1. Only the person assigned to an account will be allowed to use that account.
2. Each time a user logs in to a system, a log will be maintained by that specific program with the following information
  - a) When the user accessed the system
  - b) What information the user accessed while in the program
  - c) Tracking will be done by using the User ID and IP Address
  - d) The ISO will maintain this log for a period of 1 year
3. The ISO and AISO will each have a special account that allows them to create new accounts. The accounts will be used:
  - a) In an emergency when all other accounts have been disabled or locked out;
  - b) To either reset the passwords on locked accounts; or
  - c) To create new accounts that provide needed access.
4. When a change in the role of a workforce member requires a change in access privileges, the ISO will reassess the needs and provide new access privileges based on the policy in [Access Levels](#) in this section.
  - a) If a workforce member leaves **Virtru**, the ISO will remove that member's access as soon as the access is no longer needed.
  - b) If a workforce member takes a leave of absence and is not expected to require access, the ISO will disable the workforce member's account when he/she leaves and re-enable it upon his/her return to work.
  - c) For other people who work around protected electronic information but are not qualified to access it, the ISO will decide which of the following two steps to take:
    - 1) Train the person to understand his/her responsibilities
    - 2) Supervise while he/she is exposed to the data
  - d) For cases in which the provision of individual accounts is not feasible {e.g. access by any one person of a large help desk staff of a vendor}, the ISO will make:
    - 1) A serially reusable account and provide a one-time-use password to the vendor's representative for each time that access is needed; and

# Security Policies and Procedures

- 2) The password will be changed by the ISO on the account after each use of the account to a value not known to the vendor.

## D. Vendors, contractors and other outsiders

Any outside organization that wishes to gain access to our or our client's Private/Internal, Confidential or Protected information must:

1. Sign a Business Associate Subcontractor Agreement; AND
2. Be willing and able to show that their privacy and security controls are at least as stringent as **Virtru's** controls.

See *Business Associate Subcontractor Agreement* for details of Agreement.

A written history of incidents reported by Business Associate Subcontractors (BAS) will be maintained. If the ISO becomes aware of a pattern of activity in which the BAS is not carrying out the contractually required safeguards, then the ISO will do one of the following:

1. Attempt to remedy this failure
2. Terminate the contract, if attempt to remedy is not feasible
3. Report the situation to the U.S. Secretary of Health and Human Services, if terminating the contract is not feasible.

If any given security incident involves a breach of Personally Identifiable Information, the ISO will follow our privacy policies and incident management plan for handling such a breach.

If a security incident reported by a BAS includes the potential that personal information may have been obtained by unauthorized individuals, the ISO will work with the BAS to notify affected persons of this event in compliance with relevant federal and/or state law.

See also [Breaches or Impermissible Uses/Disclosures](#) within these Security Policies and Procedures.

## E. Individuals

Individual persons who work for such an organization must also be bound to the outside organization's controls. Such individuals must:

1. Have Business Associates Subcontractor Agreement with their own company;  
OR
2. Have a contract with their company; AND
3. Have appropriate background checks and bonding in place.

# Security Policies and Procedures

## F. Policy

**Virtru** will not knowingly accept any confidential information belonging to third parties until that information is reviewed against our protections and the appropriate agreements put into place and signed by the information owner. The agreements should include all requirements for controls over the third-party information and the processes to be followed.

## IX. Rules by Data Classification

### A. Public/unclassified data

This type of information does not require special marking or storage, except to ensure that it is available when needed. It does need to be kept safe from unauthorized modification.

### B. Private/internal data

Access is granted on a need-to-know basis, as authorized by the manager of the user of the information. Some types of jobs are automatically granted access to data in this class.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known printers located in secure areas on secure networks.
2. Encrypting or physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

This class of information is not released to anyone outside **Virtru** without a non-disclosure agreement, a Business Associate Subcontractor Agreement, and/or without the approval of the information owner. Private/Internal use information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails or secured packaging for paper copies.

### C. Confidential or protected data

Access to this type of information is on a need-to-know basis, as approved by the ISO or information owner.

This class of information is not released to anyone outside the Company without a non-disclosure agreement and without the approval of the information owner.

# Security Policies and Procedures

Confidential or Protected information must not be transmitted across any unsecured outside network or path without proper controls. This means encryption for files and emails, or secured packaging for paper copies.

Paper products and backup media containing this type of information must be stored and handled in a secure manner. This includes:

1. Printing this class of information only to a known, secure printer
2. Encrypting and physically securing backup media
3. Keeping paper copies of information locked or otherwise secured

## D. Managing data sources

The key to managing **Virtru's** business' media and documents is to first consider the source of the information, then the media type. **Virtru's** media and documents containing Protected Information (PHI, CJIS, or other) require protection from inception through disposition. Regardless of the owner relationship, the Company will be cognizant of the following Media Types:

1. **Hard Copy:** paper printouts, printer and facsimile ribbons, drums, etc.
2. **Electronic:** the bits and bytes contained on hard drives, flash drives, phones and tablets.

## E. Retention of media

*Retention:* The length of time documentation and/or information is retained according to the level of confidentiality and to the business continuity requirements. System/information owners should consult with the ISO to ensure compliance with the record retention regulations.

**Virtru's** hard copy record retention policy is as follows:

We will digitize and encrypt these records for secure storage on the Synology NAS, which will be backed up to AWS Glacier.

**Virtru's** electronic record retention policy is as follows:

1. Agent of Record letters and Letters of Authorization requests are held for no less than ninety (90) days
2. New Business Group documents are held for no less than ninety (90) days
3. General documents are held for no less than ninety (90) days
4. Banking statements are held for seven (7) years
5. Workforce member records are held for seven (7) years

# Security Policies and Procedures

## F. Sanitization of Media

When media (hard copy and electronic) becomes obsolete, is no longer required or no longer usable, it is critical that proper sanitization is accomplished.

### Sanitization Types

*Disposal:* the act of discarding media. This is often done via recycling paper containing “non-confidential” material.

*Reinitializing:* Re-formatting drives so information cannot be retrieved by recovery utilities or any other forms including keystroke recovery attempts. This is achieved by overwriting the disk with zeros for no less than one (1) time.

*Purging:* exposing the magnetic media to a strong magnetic field in order to disrupt the recorded magnetic domains, this is also known as degaussing.

*Destroying:* destruction of media so it cannot be reused as its original purpose.

**Virtru’s** electronic disposal policy is as follows:

1. Hard-drives are purged, reinitialize or destroyed
2. CD or DVD disks are destroyed
3. Flash drives are re-initialized or destroyed
4. Backup tapes are purged, reinitialized or destroyed

Any systems that are leased must be securely sanitized of all Company data prior to being returned to the leasing company. Any additional media (e.g. hard drives, USB drives etc.) will be reformatted then written with zeros for no less than one (1) time to ensure that the data contained on the media has been destroyed.

**Virtru** shall maintain appropriate records of sanitization. This entails validating how, where and when media is sanitized. See *Media Sanitization*.

## G. Information sharing and privacy

In most cases the sharing and reuse of Personally Identifiable Information is governed by law, regulation and customer expectation. To ensure **Virtru** meets those requirements, no Personally Identifiable Information will be shared with outside companies, vendors or personnel without written approval from the ISO.

Personally Identifiable Information includes:

1. Names
2. Addresses

# Security Policies and Procedures

3. Phone Numbers
4. Email Address
5. Dates of birth
6. Social Security Numbers
7. Ages
8. Gender
9. Personal Financial Information
10. Personal Medical Information
11. Criminal History Information
12. Personal Employment Information
13. Personal Buying Histories
14. IP Addresses

Aggregated and statistical data developed from this personal information is not personally identifiable and, thus, does not need the approval of the ISO for sharing and re-use.

**Virtru** will comply with all applicable laws and regulations regarding the privacy of personal information, including such laws as:

1. Health Insurance and Portability and Accountability Act (HIPAA)
2. Health Information Technology for Economic and Clinical Health (HITECH)
3. Family Educational Rights and Privacy Act (FERPA)
4. Criminal Justice Information Systems (CJIS)
5. Federal Information Security Management Act (FISMA)

**Virtru's** workforce members, contractors, vendors and suppliers may come into possession of Personally Identifiable Information as a part of their relationship with **Virtru**. Each person must comply with all laws, regulations and policies and ensure such information is properly protected.

## H. Release of company information

**Virtru's** information may only be released with the approval of the ISO or the information owner. This includes the posting of **Virtru's** information of any type onto bulletin board systems, public networks, social media or other open sharing tools. Any information released must contain proper copyright, trademark, disclaimer and patent notices as appropriate.

## X. Risk Analysis and Management

Risks to **Virtru's** assets and environment should be addressed proactively rather than reactively. The controls applied to the risks must also be periodically reviewed to ensure the controls are working properly and efficiently.

# Security Policies and Procedures

## A. Risk reviews

The job of reviewing risks and setting requirements for controls is the ISO's. Risks should be reviewed or assessed when:

1. Developing or deploying new applications, systems, networks or software
2. When significant changes are made to that same list
3. When business processes change
4. When **Virtru** enters a new geographical area of business
5. When **Virtru** enters a new line of business
6. When incidents occur or new risks emerge
7. When new regulations or standards are set

## B. Risk management

Risks may be accepted, avoided or mitigated.

**Accepting** the risk is appropriate when the cost of avoiding or mitigating the risk is greater than the expected loss. The losses considered should include the less tangible items such as **Virtru's** reputation, loss of market share and loss of public trust in **Virtru**. Acceptance of a risk requires complete documentation of the risk analysis and approval by the information owner.

**Avoiding** the risk is appropriate when the cost of insurance is less than the cost of incremental controls. However, basic controls must always be in place.

**Mitigating** the risk is appropriate in most situations. These situations are those where compensating controls are possible, cost-effective and manageable. These mitigating controls may include:

1. Increasing a protection to a level higher than what is listed in this document
2. Improving oversight or monitoring of the risk to limit impact and minimize response time
3. Limiting transactions or other events to minimize the possible impact of the risk event

The method chosen for managing the risk (acceptance, avoidance, mitigation) must match the business value and costs involved and must be approved by the information owner.

For further detail, see the *Risk Management Policy* and the *Disaster Recovery Plan*.

# Security Policies and Procedures

## XI. IDs and Accounts

### A. User IDs

Each user shall be assigned a unique identification, called the User ID. This User ID is not considered to be sensitive, unless the User ID relates to an authentication process, systems or application management role.

On sensitive systems or applications the User ID should not be easily identifiable, thus making unauthorized usage more difficult.

Sharing of User IDs is not permitted, unless justified by business requirements and approved by the ISO. For any such shared User ID, the password will be shared using LastPass, and the password will not be shared with the additional user. If this password is shared, it must be changed immediately after the User ID is used to keep the shared User ID from becoming generally available and a risk to **Virtru**.

Guest and anonymous User IDs are not allowed, unless the system involved is not connected to any of **Virtru's** networks and the system does not have any **Company** information on it. Typically, these guest or anonymous User IDs are only used during development or during marketing/sales demonstrations.

### B. ID and account creation

User IDs are only to be created following a process approved by the information owner. This User ID creation process should include:

1. Expiration dates for the User ID
2. Renewal process for the User ID
3. Documentation of the role, business process and job function relating to the User ID

User IDs are to be created for the purpose needed and not in a manner to compromise segregation of duties.

A record of all User IDs and their owners will be maintained by the ISO. See the **Change Control Logs for Security** for further detail.

# Security Policies and Procedures

## **C. Account management**

A periodic check will be made of all User IDs and any redundant, dormant or unused IDs will be removed. The ISO must review the privileges set up for User IDs no less than once every year.

## **D. Application Specific IDs**

Application Specific IDs and logins are used in support of automated applications, transactions, processes or batch jobs. These have non-expiring passwords.

1. Application Specific IDs must not be used by individuals.
2. Application Specific IDs must be created only with the approval of the ISO, must be documented and have strictly limited access rights.
3. Application Specific IDs must not have ad hoc or interactive capabilities on the applications, systems, transactions or data involved.

## **XII. Authentication and Passwords**

### **A. Overview**

All systems, applications, databases or other information repositories shall require users to authenticate themselves prior to granting access. Authentication may be via an approved password scheme or via an access control device. All systems that support 2-factor authentication must have them enabled.

The authentication method used must suit the value of the information asset, matching the cost of the authentication method against the level of protection required. In general, administrative and other high-value User or Service IDs will use the most secure methods of authentication.

### **B. Password format**

Must be at least twenty (20) characters in length and must contain characters from all of the following four (4) categories:

1. English uppercase characters (A through Z)
2. English lowercase characters (a through z)
3. Base 10 digits (0 through 9)
4. Non-alphabetic characters (for example, !, @, #, \$)

# Security Policies and Procedures

## C. Rules

Users are forced to create a new password every 3 months. Users must not write down on paper or store any passwords; they must also never share their passwords with other users. Software is provided to securely store user passwords, with encryption.

A maximum 5 attempts will be permitted prior to disabling the account. New passwords must be different from the previous three (3) passwords. Passwords must be changed immediately upon first use of a new ID. Passwords must never be stored or transmitted in clear text. Systems must not echo back the password as it is entered.

Passwords must not be retained by any system or application longer than is needed to grant access. Initial passwords must be transmitted separately from the ID.

## XIII. Authorization and Rights Management

### A. General Access Roles

Access roles are defined as:

1. *Super Admin Access*: Access to all front and backend products as well as product metrics
2. *Admin Access*: Access to all front end products as well as product metrics
3. *General Access*: Access to product metrics
4. *Low Access*: Access to corporate email, sales, and marketing data only

#### **Amazon Web Services (AWS)**

Users who have access to AWS have Super Admin Access. User sessions will expire after one (1) hour of inactivity

#### **Cloudant**

Users who have access to Cloudant have Super Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

#### **Github**

Users who have access to Github have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

#### **ELK Stack**

Users who have access to ELK Stack have Admin Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

# Security Policies and Procedures

## **Mixpanel**

Users who have access to Mixpanel have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

## **Kissmetrics**

Users who have access to Kissmetrics have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

## **Salesforce**

Users who have access to Salesforce have General Access. User sessions automatically time out after twenty (20) minutes.

## **Segment.io**

Users who have access to Segment.io have General Access. User sessions do not automatically time out, the user is required to log out at the end of a session.

## **B. Access Rules**

User IDs and accounts must be authorized to access only those elements needed for the user's role, including:

1. Limiting access to datasets and types
2. Limiting access to operating systems
3. Limiting times of access

Access to operating systems, ad hoc transaction capabilities, software development tools, and other system devices must be controlled and limited to only those User IDs which require that access.

Segregation of duties shall be established for all information asset controls to minimize the possibility that one person is responsible for an entire asset.

A user (and hence User ID) that changes role or job function must have access rights updated to match the new job role or function. Any changes will be documented in the *Responsibility Change Log*.

## **C. Temporary Privileged Users and Accounts**

Temporary privileged users are defined as those who:

1. Have any control over security tools on an application, system or network
2. Can update operating systems or similar tools
3. Can directly modify data within a database or application
4. Have any special capabilities built in by the vendor of the application software, operating system or platform

# Security Policies and Procedures

Access at a temporary privileged user level shall be granted only on a need-to-know, need-to-perform basis, and then only to the assets required. Temporary privileged user access shall only be granted to those supporting **Virtru's** applications, networks and systems.

## D. Assignment and Revocation Procedure

The ISO shall electronically complete:

1. An *Employee Access Log* for all new hires and/or workforce member change of status.
2. An *Exit Checklist* for all terminations.

## E. Logout After Inactivity

The ISO shall verify that all users have activated a password-protected screensaver that automatically prevents unauthorized users from viewing or accessing electronic protected information from any system or device that can be used to access electronic information systems. After a maximum of 10 minutes of inactivity the system should log off and lock the device, making information inaccessible. Once logged off a user must re-enter a password to gain access to electronic protected information.

## XIV. Breaches or Impermissible Uses/Disclosures

### A. Definitions

*Incident* is defined as any breach of security, privacy, continuity, legal or regulatory controls over information assets of any type. Examples of such incidents include but are not limited to:

1. Penetrations of systems, applications, networks or databases
2. Denial of service attacks
3. Misuse or mishandling of assets
4. Virus or other malware contamination
5. Transaction errors
6. Breaches of confidentiality agreements or contracts
7. Legal or regulatory violations

*Breach* is defined as an impermissible access, use or disclosure, which compromises the privacy or security of PHI.

# Security Policies and Procedures

## XV. Breach Response

### A. Overview

**Virtru** will maintain an effective method so that all information users, custodians and owners can readily report incidents.

Incidents will be reported to the person's immediate manager or the ISO. Once the ISO has been notified, said Officer will then follow the directions in the [Incident and Breach Policy](#).

The ISO will investigate incidents and will log or report significant losses or threats immediately. The appropriate authorities will be contacted by the ISO depending on the severity of incident.

Incidents involving misuse by workforce members will be investigated by the ISO.

Depending on the severity of the incident, the Emergency Contact list may provide additional contacts. See the [Emergency Contact List](#) located in the [Disaster Recovery Plan](#).

### Confidential Reporting:

Confidential reporting may be done either by:

1. Calling (may leave voice message) the ISO or AISO
2. Sending an email to the ISO or AISO, or;
3. [Google Form for anonymous reporting](#)

## XVI. Personnel Security

### A. Screening for newly hired personnel, third parties, vendors

Proper verification checks must be made prior to granting any new workforce member, contractor, vendor, agent or affiliate access to Private, Internal, Confidential or Protected information. These verification checks will meet the requirements set forth by the **Company** and may include:

# Security Policies and Procedures

1. Professional qualifications
2. Identity checks
3. Criminal checks
4. Confirmation of academic and professional experience

The ISO is responsible for ensuring that background checks are made biannually on parties who are not newly hired workforce members. A third party will conduct background checks.

## B. Training and Awareness

**Virtru** will provide security awareness training to each new member of our workforce with access to electronic **Company**-owned or private data ([Refer to Data Types information Classifications](#)) whose activities in the business we directly control. The training will be provided prior to that person assuming his/her duties. The training is designed to inform the person of his/her responsibilities under **Virtru's** security policies. At a minimum, this training will include the workforce member's role in:

1. Managing malicious software (e.g. viruses)
2. Using workstation(s) securely
3. Managing passwords and
4. Monitoring and reporting suspicious use of account(s)

**Virtru's** employees will also be trained annually on **Virtru's** Policies and Procedures. A record of successful completion of this training and annual retraining will be kept online by **Total HIPAA Compliance**.

Within 30 days of starting, individuals who are employed as developers will receive training on the security measures and mechanisms used to protect the company's systems and service. All new developers will be required to take and pass online training modules covering [secure coding when using Node.js](#). Developers who will be managing or developing operational aspects of the company's systems will also be required take the [Security Operations on AWS](#) training course from Amazon.

A record of training will be kept of training that lists the employee, type of training, date of completion, the employee's signature, and an admin's signature asserting successful completion of the training.

## C. Terms of employment

Compliance with **Virtru's** policies regarding security and privacy are a condition of employment.

# Security Policies and Procedures

## D. Acknowledgement

All users shall be required to sign an acknowledgement after being trained on **Virtru's** security and privacy policies.

## E. Exit process for users

Upon exiting employment or any relationship with **Virtru**, all users who have been granted access to any information asset shall:

1. Relinquish all access to control devices
2. Report all User IDs in use by the person
3. Relinquish all information stored, whether on paper or on backup media
4. Relinquish all information processing devices, including workstations, all **Virtru**-owned mobile devices and others

All systems access will be revoked.

The ISO will verify termination is completed, and document this procedure has been followed. See *Exit Checklist*.

## F. Security Sanction Policy

**Virtru's** security policies call for the workforce that has access to electronic Protected Employee or Client Data and others to perform certain duties and to refrain from certain actions. Failure to do so will be sanctioned according to the policy below.

If the infraction involves the unauthorized use or disclosure of electronic Protected Employee or Client Data, the sanctions below apply to the designated workforce members including managers, supervisors, and staff who have access to Protected Employee or Client Data.

We define a serious infraction as one that results in known significant damage or that threatens imminent significant damage. Other infractions are simple infractions. The process below is intended as guidance for our business management in sanctioning Security Policies and Procedure infractions. We reserve the right to implement sanctions differently if, in our judgment, the situation warrants it.

### First Security Infraction

If the infraction is:

1. A simple infraction, and
2. The first infraction in the last 3 years

The sanction will be retraining the workforce member on the appropriate policy/procedure and placement of a written letter of reprimand in the employee file.

# Security Policies and Procedures

The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

## **Second Security Infraction or First Serious Infraction**

If the infraction is:

1. A serious infraction, or
2. The second infraction of either type within 3 years

The sanction will include a written letter of reprimand that is given to the person at fault, placement of a copy of the letter in the employee file, and one week's suspension without pay. The letter will notify the person of the nature of this infraction and of sanctions for future potential infractions.

## **Third Security Infraction or Second Serious Infraction**

If the infraction is:

1. A second serious infraction within 3 years, or
2. A third infraction of any type within 3 years

The sanction will be dismissal from the workforce.

## **XVII. Legal and Regulatory Issues**

### **A. Legal processes**

Responses to subpoenas, deposition requests and other legal issues will be referred to and handled by the CEO. The ISO will not respond to such legal processes without company legal counsel.

### **B. Copyrights and licenses**

**Virtru** may have agreements in place governing the use and handling of software, information and other tools that are owned by other entities. All users and information owners will comply with those agreements.

Users are responsible for complying with copyrights regarding any material obtained via the Internet. This includes files, graphics, software, audio and video materials.

Users may not agree to a new copyright license, unless given permission by the ISO.

Licensed software must be used in accordance with the license agreement and only the number of copies licensed must be created or used.

# Security Policies and Procedures

## C. Export controls

Information may not be exported across country boundaries without prior written approval of the **Company's** ISO.

## XVIII. Malware and Antivirus

### A. Definitions

*Anti-Malware*: malicious software that may reside on a computer, steal information or cause destruction. This can include a virus, trojan horse, keylogger, hijacker or dialer.

*Sandbox*: A highly controlled area where programs and software can be tested before being allowed access to the rest of the system.

### B. Operating system anti-malware requirements

#### **Macintosh, Linux and iPhones:**

**Virtru** has determined that software for anti-malware scanning on Macintosh, Linux and iPhones is not necessary due to the low probability of encountering malware, the demand on computer processing power, and loss of productivity by the user. This policy will be reviewed annually or as needed to determine if this is still valid.

#### **PC Operating Systems:**

Data entering **Virtru's** Window-based systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, disks, backup media, USB memory devices and other data carrying tools must be scanned before they are downloaded or allowed access to the system. All incoming data must be sandboxed by the anti-malware program before it is allowed access to the system. The anti-malware pattern files must be regularly updated.

#### **Android and Windows Phone Operating Systems:**

All such devices must have anti-malware tools in place prior to being connected to **Virtru's** networks. These systems must be subject to an up-to-date anti-malware scanning tool that is scheduled to run at regular intervals. In addition, all emails, attachments, and SD cards must be scanned before they are downloaded or allowed access to the system.

### C. Affiliates

**Virtru** and all of its affiliates, contractors, consultants, vendors, representatives or other service providers must make certain that adequate controls are in place to guarantee that data coming from their systems and networks is free from malware.

# Security Policies and Procedures

## D. Infected devices

The ISO will use approved tools to monitor and remove malicious software from **Virtru's** assets. Virus-infected computers, tablets or phones must be removed from the network immediately until they are verified as virus-free.

## E. Employees' Requirements

1. Workforce members will not load software on our **Company's** information equipment without permission from the ISO.
2. Workforce members will not open electronic files from unfamiliar sources.
3. Will exercise best practices when using the **Virtru** network. The employee will not:
  - a. Circumvent user authentication on any device
  - b. Sniff network traffic
  - c. Access data, servers, or accounts they are not authorized to access
  - d. Cause a disruption of servers
  - e. Violate copyright law by transmitting copyrighted pictures, music, video and/or software
  - f. Export or import software, technical information, encryption software, or technology in violation of international or regional export control laws
  - g. Use the Internet or network in a manner that violates **Virtru's** Security Policies, or local laws
  - h. Intentionally introducing malicious code; including, but not limited to, viruses, worms, Trojan horses, e-mail bombs, spyware, adware, and keyloggers

The workforce will be trained to know and carry out these malware protections. The ISO will generally provide permissions as required above only for actions that are intended for our **Company's** business and only under conditions that limit the potential for the introduction of malware.

## F. Enforcement

Any activities with the intention to create and/or distribute malicious programs into **Virtru's** networks (e.g., viruses, worms, Trojan Horses, e-mail bombs, etc.) are prohibited, and user will be subject to **Virtru's** Sanction Policy, and will be reported to the proper state and federal authorities.

# Security Policies and Procedures

## XIX. Change Control Logs

### A. Preface

The ISO is required to maintain logs of systems that document any changes and access users may have to sensitive systems. The following are the retention policies for these logs.

### B. Policy

Audit logs will be retained for at least one (1) year in raw format, preferably electronic, to preserve evidence. Audit logs must be configured to prevent overflow, erasure or tampering. Audit logs will be configured to record information such that:

1. Sufficient information is available for proper investigation of use, misuse, incidents and performance
2. User ID, event type, date and time are maintained
3. Time is according to a known time stamp so that events across systems can be coordinated
4. End-to-end accountability is always maintained

Events to be recorded include, but are not limited to:

1. Login and activity by any other privileged accounts
2. Changes to operating systems, application code or other tools
3. Backup and restore events
4. Changes affecting any cryptographic keys or devices
5. Stop or start of critical processes
6. Transaction failure, retry or duplication

All systems and tools involved in the protection process are required to always have change logs enabled and properly configured. This includes:

1. Firewalls
2. Email servers
3. Anti-malware tools especially the administration tools
4. Security administration tools such as password resets and account modifications
5. Monitoring tools
6. Routers and other network devices
7. Github
8. Amazon Web Servers (AWS)

# Security Policies and Procedures

9. IBM Cloudant
10. Salesforce
11. Elk Stack
12. Mixpanel
13. KissMetrics
14. Segment.io
15. Sendgrid
16. Customer.io

Logs will be reviewed and analyzed by delegates of the ISO.

Reports of problems and incidents will follow the incident reporting method, listed in the *Incident and Breach Policy*.

## XX. Encryption

### A. Preface

Encryption is the process of encoding messages of information in such a way that only authorized parties can read it.

### B. Application Encryption Policy

**Virtru** encrypts all client data using NIST-approved cryptographic modules. **Virtru** uses AES 256 encryption for its application. **Virtru's** key length requirements shall be reviewed annually as part of the yearly security review and upgraded as technology allows.

The use of proprietary encryption algorithms is not allowed for any purpose, unless reviewed by qualified experts outside of the vendor in question and approved by the ISO.

### C. Key Rotation Policy

**Virtru** requires the following key rotation policy to protect all external systems. The following is the list of policies for the following keys:

#### 1. Secure Socket Layer (SSL) Keys

**Virtru** uses SSL keys to enable Transport Layer Security (TLS) traffic between clients and **Virtru's** servers.

#### Rotation Policy

# Security Policies and Procedures

Rotation of SSL Keys is done upon SSL Key expiration. They are set to expire at 1 (one) year and rotated at that time. If there is an incident or the security keys are thought to be compromised, the keys will be rotated immediately.

## 2. Secure Shell (SSH) Keys

The SSH keys provide a layer of authentication to get into the production servers. SSH Keys are used as the authentication mechanism to remotely login to a server. They are also used as the first factor of authentication to assume root access on the production servers. Each developer has his/her own SSH key and is responsible for keeping this key secure.

### Rotation Policy

All SSH keys are rotated at a minimum of every three (3) months. If there is an incident or the SSH keys are thought to be compromised, keys will be rotated immediately.

## 3. Amazon Web Services (AWS) Access Keys

Unique AWS Access Keys are given to each developer with a unique AWS Login. This allows the developer to make Application Protocol Interface (API) calls to AWS. Currently, 1-2 AWS Access keys exist per developer. Where are these stored? How do you know how many keys each developer has?

### Rotation Policy

These keys are rotated at a minimum of every 90 days. If there is an incident or the AWS keys are thought to be compromised, keys will be rotated immediately

## 4. Application Keys

**Virtru** uses these keys to encrypt sensitive key data stored in the CouchDB database managed by IBM. There is only one copy of this key.

### Rotation Policy

No rotation requirement.

### Backup Policy

Backup of the key is kept with **Virtru's** Super Administrators.

The export of encryption technologies is restricted by the U.S. government. Residents of countries other than the United States should make themselves aware of the encryption technology laws of the country in which they reside.

# Security Policies and Procedures

## D. Device Encryption Policy

**Virtru** requires devices have encryption enabled for any files, folders, drives, databases, or other stored data that may have sensitive information including protected personally identifiable information.

The implementation of any encryption scheme is performed by the user and the deployment of the encryption tool, including all keys, must meet industry best practices and be properly documented. Currently the minimum standard is 128-Bit encryption. Encryption keys will be managed by the user and a log will be maintained by the ISO.

### **Mac OS Devices:**

Mac OS devices that store Protected Information (PHI, CJIS, etc), are required to use full disk encryption using FileVault 2. Users must provide a copy of their key to the ISO; both will maintain the key in a secure location.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

### **Windows OS Devices:**

Windows OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption with the program Bitlocker. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

### **Linux OS Devices**

Linux OS devices that store Protected Information (PHI, CJIS, etc) are required to use full disk encryption. This will be encrypted at a minimum of 128 bit encryption. The encryption key will be maintained in a secure location by both the user and the ISO.

For devices that do not store Protected Information (PHI, CJIS, etc), full disk encryption is at the discretion of the user. However, if this is used, a copy of the encryption key will be stored by both the user and the ISO in a secure location.

# Security Policies and Procedures

## **Android Devices**

All Android devices that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

## **Windows Phone**

All Windows Phones that store Protected Information (PHI, CJIS, etc) will have encryption turned on and will be password protected at all times. The encryption key will be maintained in a secure location by both the user and the ISO.

## **iPhone**

iPhones are natively encrypted. These devices are required to be password protected and/or biometrically protected at all times.

## **E. Wi-Fi network encryption**

All wireless access points owned by **Virtru** are required to be protected using Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES). This password will be changed quarterly and will not be shared with users that are not employees or authorized Business Associates. Any outside users are required to use guest access points.

Employees that access **Virtru** resources from home are required to use Wi-Fi Protected Access 2 with Advanced Encryption Standard (WPA2-AES) to protect their devices. This password should be changed quarterly.

## **F. Email encryption**

**Virtru** requires the use of its secure, encrypted email service to communicate with our employees about their Personally Identifiable Information, and to communicate any sensitive data. All email communication that includes personally identifiable data, and potentially sensitive data will be encrypted.

**Virtru** uses only its secure, encrypted email service to communicate with clients about their Personally Identifiable Information.

**Virtru** forbids the use of chat, texting or instant messaging programs by devices that store PHI.

## **G. Enforcement**

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

See [Sanction Policy](#).

# Security Policies and Procedures

## XXI. Assessments and Testing

### A. Overview

The Security Rule of HIPAA mandates that covered entities implement appropriate information security policies and procedures to protect PI from "reasonably anticipated threats and hazards."

### B. Penetration testing

Penetration testing of all servers containing PII will be conducted monthly by internal personnel, and by an external 3rd party at least annually or whenever there is a major system update. Testing shall validate the security of:

1. External connections
2. Operating systems
3. Applications
4. Databases
5. Network controls
6. Security procedures, including monitoring and incident response

### C. Vulnerability assessment testing

Vulnerability assessments will be conducted periodically on all network-connected systems devices. Any vulnerability found must be corrected in a timely manner.

Vulnerability assessments also shall be conducted when:

1. A new system, application or network is installed inside the Company
2. Changes are made to firewalls, VPNs or other security control tools
3. Changes are made to a web server's operating system
4. Changes are made to email servers
5. Configuration changes are made to databases
6. Configuration changes are made to critical applications
7. Changes are made to encryption scheme(s)

**NOTE:** *Vulnerability and penetration tests will not be conducted except with the prior approval of the ISO. No user will have vulnerability or penetration testing tools loaded onto any **Company** system without prior permission from the ISO.*

### D. Wireless access testing

Testing of wireless access points (war-driving) shall occur regularly, to cover all wireless access points under the control of **Virtru**.

# Security Policies and Procedures

## E. Password testing

Password cracking software shall be run periodically to validate the enforcement of password rules.

## F. 3rd Party Security Management

A comprehensive list of 3rd parties with which the company does business with shall be maintained. Any 3rd party who handles or holds sensitive data or who provides a service which is critical to operations shall be required to assert that their own security practices and procedures meet or exceed that of the company's. Each 3rd party shall be assessed for conformance annually.

## XXII. Use of Email, Internet, Messaging, Public Sites, Blogs, Social Media

### A. Policy

Confidential, Private or Protected information and Internal Use information must not be transmitted across any unsecured outside network or path without proper controls. **Virtru** requires encryption for files and emails, or secured packaging for paper copies.

Users are responsible for ensuring that their use of these tools complies with all of **Virtru's** policies, and with applicable laws and regulations. This includes all employment policies such as sexual harassment, stalking, ethics and appropriate use.

These tools may not be used to access, send or receive, store or display:

1. Sexually explicit material
2. Confidential, Private or Protected Information or Internal Use material, except as meets the [Handling Rules](#) section
3. Viruses
4. Threats
5. Inappropriate or unlawful language, including:
  - a. Offensive language
  - b. Language inappropriate for the **Company** environment
6. Discriminatory or harassing language
7. Tools usable for hacking, password cracking, vulnerability scanning or penetration testing

These tools are the property of **Virtru** and are to be used only for **Virtru's** business. Access may be unavailable at any time, at the **Company's** discretion. Users must not assume that access to these tools will be available for incidental personal use.

# Security Policies and Procedures

All content transmitted over these tools is the property of **Virtru**. Content, including emails, may be inspected by **Virtru**. Such inspections will occur with the approval of the ISO or of the **Company** legal department. **Virtru** may monitor, filter or block content on these tools.

Users of blogs, social media sites such as Facebook, and other such tools must follow the guidelines outlined in **Virtru's** Social Media Policy. See *Social Media Policy*.

Users of blogs, social media sites such as Facebook, and other such tools must not represent their comments as coming from, or being representative of, the business or opinions of **Virtru**.

## XXIII. Hardware

### A. Definitions

*Workstations:* PCs, desktop computers, tablets and mobile computing devices that are located at **Virtru's** home office, or at remote locations. These devices are easily attacked and therefore must have access controls and anti-malware as specified in those sections of this document.

*Servers:* Devices that may or may not be housed at **Virtru** locations. Regardless of their location, these must be secured in a manner that prevents them from being physically accessed without the appropriate level of security clearance.

### B. Policy

A current copy of the *Organizational Chart/Electronic Asset Management Log (Risk Assessment)* will be kept at an off site location so it can be accessed quickly in the case of theft, fire, flood or other events that may make inventory information useful.

The ISO will keep a log of events noting when a physical security mechanism is repaired, replaced, installed, removed, modified, or maintained. This *Maintenance Log* will contain the: who, what, when, where, and why of the change and be kept in the **Security Documentation Library**.

Users of these devices are required to ensure that all appropriate protections are in place, including:

1. Physical security to prevent theft or misuse
2. Access controls suitable for the class of information on the device
3. Anti-malware
4. Keeping the devices locked to a desk or other secure location when outside

# Security Policies and Procedures

## **Virtru**

5. Keeping control over backup media, as to minimize the possibility of theft or loss
6. Ensuring that the transport of these devices is secure and is safe from damage - for example, these devices should only travel in padded containers and should be locked and shut down during transit
7. Keeping all operating systems and tools up-to-date, with all updates and patches. Specific requirements for these topics are in the appropriate sections of this document

**Virtru's** devices must not be used by people who are not authorized, including family members and friends.

Software loaded onto such devices must follow the rules in the [Software](#) section of this document. In general, only approved software may be loaded, and shareware, games and other such software are not permitted.

International travel with these devices may require special approvals or configurations, especially in regards to encryption and licensed software. Before traveling internationally, users must contact the ISO to determine if such special considerations exist.

Connecting these devices to **Virtru's** networks must follow the rules in the [Networks](#) section of this document. In general, all such devices must be approved prior to connecting.

Remote access from these devices to **Virtru's** networks and devices must meet the controls specified in the [Networks](#) section of this document. In general, such access must be approved, and must have adequate controls over the security of information in transit.

Devices of these types that are owned by contractors, vendors or other third parties must meet all **Virtru** requirements prior to being connected.

## **C. Asset management**

The ISO is responsible for maintaining an inventory of devices; as such he shall employ software to aid in the management of hardware and software asset. See [Handling Rules for the information classifications](#)

# Security Policies and Procedures

## D. Enforcement

Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment. See [Sanction Policy](#).

## XXIV. Networks

### A. Overview

**Virtru's** networks and devices shall designed, deployed and operated in a manner so as to provide proper levels of protection for the data being accessed and transported. Significant changes in network designs must be piloted before deployment.

Mechanisms must be in place to alert the ISO of possible attacks and breaches, to include:

1. Denial of service attacks
2. Improper access
3. Virus infections
4. Unauthorized software installations, email, FTP or other improper usage

Analysis must be conducted at least annually to validate the failure mode and recovery for all devices, network circuits and protocols. See [Change Logs](#) for details.

Responsibilities must be defined for:

1. Administration of network and communications connections
2. Operations of all devices
3. Monitoring
4. Timely review of audit logs and response to alerts or alarms
5. Review of unusual patterns of usage or activity

To minimize risks, any network connections or network segments should be disconnected when not in use.

### B. Monitoring

**Virtru** uses AlienVault's Unified Security Management System to monitor all traffic on their network. Notifications are set to alert the IT staff of any unusual traffic and vulnerabilities, as well as log any security events that may occur.

### C. Access control and physical security

Sites where **Virtru's** network equipment or communications lines exist are considered to be high-value and are subject to the access control and physical security rules

# Security Policies and Procedures

outlined in the [Physical Security](#) section of this document. In general, these rules will require:

1. Access limited to authorized personnel only
2. Physical security, including RFID or passcode controlled locks, are in place

## D. Modifications, updates

Changes to the network architecture which affect the protections must be approved by the ISO. Examples of such changes include firewalls, wireless configurations, ports and proxies.

## E. Documentation

The ISO shall maintain an accurate set of documentation of the networks and their components. This documentation is considered to be highly valuable and will be classified "Protected".

## F. Network design

The goal for network design is to facilitate **Virtru's** business, while still providing protection for **Company** assets.

## G. Segmentation

**Virtru's** networks will be segmented, in order to limit access to Confidential and Protected Information, without impacting the **Company's** business. There will be a guest network that will have no access to **Virtru's** Network Attached Storage, and other vital network resources.

## H. Firewalls

**Virtru's** network and workstations in the DC office is protected using the Fortinet FortiGate 100D Firewall appliance. This device is configured to monitor and log all unusual traffic and warn **Virtru** of any network irregularities or attacks.

### Definitions

*Firewall:* A part of the computer operating system or network that is designed to block unauthorized access while permitting outward communication. There are two different types of firewalls.

1. *Software Firewall:* Part of the operating system or can be a software add-on.
2. *Hardware Firewall:* Built into a router or a stand alone device. All computing devices will access a network through this point.

### Firewall Settings

1. *Whitelisting:* Blocks all incoming traffic, and only allows traffic from good, or known IP addresses. The user will be required to authorize connections to their device.

# Security Policies and Procedures

2. *Blacklisting*: Authorizes all traffic as a default, and the user is responsible for denying unauthorized connections to their computing device from unrecognized or unknown IP addresses.

## Software Firewall Policy

**Virtru** requires every device to have their internal software firewall activated at all times, and set to only allow whitelisted traffic. This will require the user to authorize any connections to their device. Any workforce member found to have violated this policy may be subject to disciplinary action, up to and including termination of employment.

## I. Internet

Connections to the Internet must be:

1. Approved by the ISO
2. Periodically reviewed and tested for vulnerabilities
3. Protected by firewalls, intrusion detection systems and anti-malware tools

Some Internet tools, such as FTP, Internet Relay Chat, Telnet and Remote Procedure Call are restricted in use and must be approved for use by the ISO.

## J. VPN-remote access

Virtual private networks (VPNs) will be used for traffic flowing over public networks to ensure the proper level of protection of **Virtru's** data.

## K. Wireless

All wireless connections must have WPA2 with Advanced Encryption Standard (AES) turned on. This applies to all networks for **Virtru's** home office, and all telecommuting employees.

## L. Telework Policy

If a staff member is allowed to telework/telecommute, they must comply with the **Virtru's** various employment policies, remote security measures and use the provided web portal via HTTPs, VPN and SSL. They must also make sure their home WI-FI is encrypted properly.

If they are accessing sites while on an unsecure router, they must make sure the sites they visit have a valid SSL certificate before proceeding.

## M. Patching of systems and applications

### Microsoft Windows OS Patches

# Security Policies and Procedures

To manage the patching of Microsoft Windows operating systems (OS), Windows Software Update Service (WSUS) is used. The WSUS server automatically checks for patches once a day not during business hours. Then downloaded patches are manually released from the WSUS server to be downloaded and applied on the workstations. The ISO will evaluate all patches before they are applied; workstations will not automatically download OS patches from the WSUS server and updates will not be automatically installed. Installation of OS patches is done within a planned downtime.

## **Apple OS Patches**

All Macintosh Operating System (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. These should be applied within one (1) week of release from Apple.

## **Linux OS Patches**

These patches should be applied and tested in an app staging environment before they are applied systemwide. The User is required to document where they received the patch, who downloaded it, what version of patching they are using, and when the patch was applied to the system. This documentation should be submitted to the ISO upon completion of the patching.

## **iPhone iOS Patching**

All iPhone (OS) patching will be done through the App Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Apple.

## **Android Phone Patching**

All Android patching will be done through the Google Play Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Google.

## **Windows Phone Patching**

All Windows Phone patching will be done through the Windows Phone Store, and is the responsibility of the individual user to install. The device should be fully backed up prior to installing these patches either in the cloud or locally. All backups are required to be encrypted and password protected. These patches should be applied within one (1) week of release from Windows.

# Security Policies and Procedures

Patching of applications is done on a weekly basis, unless a zero-day exploit is found in an application that is used within the domain. If such an exploit is found and a patch is released for said exploit, an emergency planned downtime will be called for at the conclusion of the business day to patch the application in question.

## N. Network hardening

Upon adding new devices to the network, installation procedures and set-up must be followed. Hardening will be done on network devices as well as systems (e.g. laptops, workstations and servers) and handled by the ISO or AISO.

Hardening will be broken down into the following categories which include, but are not limited to:

1. Preparation and installation
2. Updates to: software, firmware and hardware
3. Setting of appropriate account and auditing rules
4. Setting of appropriate security rules
5. Turning on the internal firewall
6. Turning on full disk encryption (If device will have access to PHI)
7. Other internal operations such as:
  - a. Installation of appropriate software for workstation, server or laptop

The ISO will notify all affected staff when making changes to the hardening policy and will update the Security Policies and Procedures at that time. Written approval for hardening procedures above and beyond what is currently mandated is not necessary.

## XXV. Physical and Environmental Protections

### A. Definitions

*Secure sites:* These are locations that require the highest level of protection. These sites include:

1. Computing centers
2. Network connection points
3. Media storage locations
4. Locations containing platforms which carry high-value or critical information or transactions

# Security Policies and Procedures

*Physical Security:* These may occur within **Virtru** where the overall building is operated to a lower level of security, but a certain area is more controlled due to documents, assets or processes which occur in that area.

## B. Secure Sites Policy

Secure sites shall be established for all computing centers and other locations where there is a concentration of high-value or sensitive information, systems or networks.

Sites will be designed and operated according to best practices and in consideration of threats appropriate to the site such as hurricanes, tornados, power outages and intruders.

This standard is not to be construed as a complete list of requirements for a secure site. It should be used in conjunction with expert advice, architects, fire marshals, OSHA and other regulations.

Separate, isolated areas will be created within the secure site for:

1. Media libraries
2. Electrical supplies and controls
3. Environmental and mechanical controls

Access to these sub-areas will be on a need-only basis. Critical assets and operations must be conducted in a secured area or secured site, with protections implemented in accordance with the risks and value of the assets, information and operations.

## C. Data Centers

All data centers used by the company must provide proof that they meet or exceed the security requirements and standards of the company.

## XXVI. Physical Security Policy

### A. Entry Policy

All **Virtru's** workforce members are allowed access to the physical site at any time of the day, and any day of the week. The site is secured with an electronic door lock that accepts RFID cards and a numeric passcode. RFID cards are issued by the ISO or AISO by request and after approval.

### B. Loss of RFID key

If a workforce member loses their RFID key, they will notify the ISO or AISO as soon as possible so the key may be deactivated. Any workforce member found to have violated

# Security Policies and Procedures

this policy may be subject to disciplinary action, up to and including termination of employment. See [Sanction Policy](#).

## C. Mobile devices

Mobile devices (laptops, netbook, tablets, iPhones, iPads, etc.) must have the appropriate encryption. Devices must have a power-on password or PIN, data encryption, auto-lock and role-based access per user. See *BYOD Policy (Forms for Employees)*.

## D. Video monitoring

**Virtru's** main office is monitored by a video camera. The data is stored in the Network Attached Storage which is physically secured in a locked cage in the IT closet. This data is stored for up to one (1) month.

## E. Alarm system

**Virtru's** main office is monitored by an alarm system. It is attached to all doors and windows, and requires a 4-digit pin plus a modifier to deactivate. Once triggered, there is a 45-second delay before the local authorities, ISO and CEO are notified by the monitoring company. ADT is the company that is responsible for monitoring **Virtru's** main office.

The alarm pin code is changed quarterly, or at the time that an employee is fired or leaves the Company.

**Virtru** requires that this alarm be set by the last person to exit the office, and should be active anytime there is not an authorized employee on the premises.

## F. Fire protection

Fire protection meet all regulations, including federal, state and local. Fire extinguishers shall be deployed in accordance with regulations of OSHA and fire inspectors. Periodic testing of alarms, fire extinguishers and fire evacuation procedures shall be conducted.

## XXVII. Software

### A. Overview

This section outlines the standards applying to operating systems, applications, databases and other software tools.

# Security Policies and Procedures

## B. Acquisition of software

It is up to the developer to decide which software tools they will require for their workstation. All regulated software will only be download from trusted sources, such as the Apple App Store, Windows Store, or directly from reputable websites, etc.

Unregulated software is allowed, but must be fully documented and approved for use by the ISO. Documentation will include:

1. The source of the software
2. When it was downloaded
3. Who downloaded it for use and;
4. The date the ISO approved the use of the software

All software for Windows OS devices is required to be screened for malware prior to installation.

Any unauthorized software must be approved and validated, or removed.

Users of workstations, netbooks, wireless and other personal devices must not install unapproved software.

## C. Open Source Software

The use of open source shareware or open source freeware may only occur if:

1. It is not used in a production environment OR
2. Prior to use it is fully tested, documented and **Virtru's** personnel are assigned to support it. Checks to be performed include:
  - a. Verify usage license (no strong or weak copyleft licenses)
  - b. Review open CVEs and available patches
  - c. Perform internal security evaluation
  - d. Flag for external security evaluation during next penetration test
3. The source of the software is documented
  - a. URL
  - b. Project lead
  - c. Contributors
  - d. Whether the project is actively maintained
4. The ISO approves of the use

## D. Documentation

Documentation for sensitive applications and the operating systems which run those systems shall be stored securely. Backups of all documentation shall be maintained off

# Security Policies and Procedures

site. Access to the documentation for sensitive applications and the operating systems will be on a need-to-use basis.

## E. Change Control and Maintenance

All proposed changes to production systems must be registered in the company's issue tracking system. Changes shall be categorized as standard, normal, or emergency. Standard changes are those that are performed frequently and considered low risk. Standard changes are reviewed quarterly and pre-approved for the following quarter. Normal changes are those which are not performed frequently and may pose some risk to the business. Each normal change must be reviewed by a minimum of two super-admins, the CTO and/or VP of engineering prior to being made. Reviewers are responsible for assessing the impact of the change in regards to the functionality, availability, durability, and security of the system. If a consensus among reviewers is reached, the proposed change is sized, sorted, and executed through the standard engineering workflow. Emergency changes are those that are required to rectify some form of degradation of the system. Emergency changes must be reviewed by a minimum of two super-admins. If a consensus is reached, emergency changes can bypass the standard engineering workflow and be made immediately. All changes to production systems must be captured in the company's issue tracking system without exception.

## F. Operating Systems

Only approved operating systems will be loaded onto **Virtru**-owned assets. Before major upgrades to systems, authorization by the ISO and AISO will be required.

Default settings must be reviewed prior to installation to identify any security vulnerabilities. These settings will be communicated with all workforce members, or they will surrender their devices to the ISO or AISO for configuration.

## G. Applications

All applications, whether developed or purchased, must comply with **Virtru's** policies and protection standards. The information owner is responsible for ensuring that these requirements are included during the development or acquisition of software.

The protection requirements for applications include:

# Security Policies and Procedures

1. Access control
2. Authorization
3. Information classification
4. Storage controls
5. Backup and restoration
6. Confidentiality and integrity requirements
7. Audit logs
8. Privacy, export control and other such requirements

All product associated applications must use HTTPS to communicate with all remote hosts, both Virtru hosted services and external third parties. HTTP and other non-encrypted communications are not allowed under any scenario.

Virtru applications shall treat user credentials with the utmost sensitivity and must follow security best practices for storing and transmitting user credentials. All credentials which are shared with a client device must be sent over HTTPS or another encrypted communication channel. All user credentials which are stored in a data store, must be stored in a benign state so that leakage of information from the data store does not compromise user accounts.

All application logs must be sent to a central logging cluster for aggregation and analysis.

## H. Configuration Management

Where possible, Virtru applications and infrastructure follow an immutable paradigm. All changes to production infrastructure and application code is deployed on a brand new Amazon Machine Image (AMI). This allows all changes which are deployed to be tracked and audited. This also means that no configuration or application code will be modified on a production instance. All application servers have osquery installed and configured to monitor key files on the system for any change (File Integrity Monitoring). Any changes to configuration are logged and sent to AWS Cloudwatch Logs, where they trigger an alarm and cause an email to be sent to the Virtru DevOps team for further investigation.

Where possible, Virtru utilizes Terraform, Ansible, and other similar tools to define their infrastructure as code. This allows the production infrastructure to be versioned in a git repository and easily audited for change over time.

## I. Asset management for software

The ISO is responsible for maintaining an inventory of software; as such it shall employ software to aid in the management of software assets.

# Security Policies and Procedures

## J. Enforcement

Any workforce member found to have violated these policies may be subject to disciplinary action, up to and including termination of employment. See [Sanction Policy](#).

## XXVIII. Removable Media Device Policy

### A. Purpose

The purpose of this policy is to minimize the risk of loss or exposure of Confidential or Protected Information maintained by **Virtru** when it is stored, transferred or accessed on a removable media device. This policy also aims to reduce the risk of acquiring malware infections on computers operated by Company. Any questions or comments about this policy should be directed to the ISO

### B. Scope

This policy covers all removable media that contains **Virtru's** data or that is connected to **Virtru's** network.

### C. Definitions

*Removable media:* devices or media that is readable and/or writable by the end user and are able to be moved from computer to computer without modification to the computer. This includes flash memory devices such as thumb drives, SD cards, cameras, MP3 players or any other storage medium; removable hard drives (including hard drive-based MP3 players); optical disks such as CD and DVD disks.

*Encryption:* a procedure used to convert data from its original form to a format that is unreadable and/or unusable to anyone without the tools/information needed to reverse the encryption process.

*Malware:* software of malicious intent/impact such as viruses, worms, and spyware.

### D. Policy

Workforce members may use removable media in their work computers if they take all reasonable and prudent measures to ensure the safety and confidentiality of all information that is downloaded to any removable media or portable device

### E. Using Removable Media Devices

PHI should be stored on removable media only when required in the performance of assigned duties or when responding to legitimate requests for information. When

# Security Policies and Procedures

Protected and Confidential information is stored on removable media, it must be encrypted in accordance with **Virtru's** [Encryption Standards](#).

The workforce member shall take all reasonable and prudent measures to physically secure all removable media or to portable devices. Users shall not open or attempt to open the encasement of any removable media or portable devices nor otherwise circumvent any lock system that secures the device or its components. Users should take reasonable measures to secure device at all time and report any lost or stolen removable media or portable devices immediately.

Workforce members may not copy information or other sensitive data onto personal devices, unless approved by management in conjunction with the *Confidentiality Agreement for Employees*.

## F. Exceptions

Exceptions to this policy may be requested on a case-by-case basis by petition to the ISO.

## G. Refusal

**Virtru** reserves the right to refuse the ability to connect removable media devices to the Company network if such media is being used in such a way that puts **Virtru's** systems, data, users and customers at risk.

## H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

## XXIX. Application Recovery Plan

### A. Overview

**Virtru** backs up of all production data hourly and stores it remotely on two separate Amazon Web Server (AWS) Accounts. These backups are a combination of both differential and full backups. These backups are durable a the same rate as S3 data, each snapshot is 99.99999% durable.

### B. Scope

These policies apply to all production servers and data that **Virtru** is responsible for maintaining on behalf of our clients.

# Security Policies and Procedures

## C. Data durability and reliability

**Virtru** uses Amazon S3 to provide a highly durable storage infrastructure designed for mission-critical and primary data storage. Amazon S3 redundantly stores data in multiple facilities and on multiple devices within each facility. To increase durability, Amazon S3 synchronously stores **Virtru's** data across multiple facilities before confirming that the data has been successfully stored. In addition, Amazon S3 calculates checksums on all network traffic to detect corruption of data packets when storing or retrieving data. Amazon S3 performs regular, systematic data integrity checks and is automatically self-healing.

## D. Encryption

**Virtru** uses Server-side encryption to protect data at rest. Server-side encryption with Amazon S3-managed encryption keys (SSE-S3) employs strong multi-factor encryption by encrypting each object with a unique key. As an additional safeguard, it encrypts the key itself with a master key that it regularly rotates. Amazon S3 server-side encryption uses 256-bit Advanced Encryption Standard (AES-256) to encrypt **Virtru's** data.

## E. Load balancing

**Virtru** uses Amazon Web Services' Elastic Load Balancing (ELB) to automatically distribute incoming application traffic, to automatically route traffic across multiple instances, and multiple Availability Zones. This is used to insure that only healthy servers are receiving traffic.

## F. Restoration of data

Restoration of production data is done on an as-needed basis. The following employees are responsible for restoration of the application if it is needed:

1. Reuven Gonzales, Lead Developer, or
2. Conor Gilsenan, Developer Ops.

The needed backup data will not be restored "on top of" the current "bad" data. The restores will be redirected to a new location, and first verified. Upon verification, the "bad" data will be removed from the drive, and stored and relabeled as "old data." Then the backup data will replace the "old data" on the drive. Once the restored data has been verified once more, the "old data" will be destroyed.

## G. Testing and revision of plan

Once every quarter, after doing a full backup, **Virtru** will recover the saved data. During hours when the business is closed, we will operate the application using this recovered data in a test mode. The tests will consist of a set of tasks that are designed to exercise the main system functions to confirm that the data is usable and as up-to-date as we expected given the backups that were used to do the recovery. This testing process

# Security Policies and Procedures

should take an hour. The restore process should take an hour or two, once the files are retrieved.

If the process does not work as documented in our policy, it will be updated to reflect the actual procedure we need to implement to achieve successful recovery and operation.

Whenever we make changes to software or hardware, we will create/update and test using our *Inventory of Devices/Software Assets* and store this checklist in the **Security Documentation Library**.

## XXX. Network Attached Storage and Workstation Backup Plan

### A. Overview

**Virtru** recognizes that the backup and maintenance of data in the Network Attached Storage (NAS) and individual workstations are critical to operations. It is essential that certain basic standard practices be followed to ensure that data files are backed up on a regular basis.

### B. Policy

**Virtru** will be using a Synology DS1515+ Network Attached Storage for backing up all workstations, firewall logs, and video surveillance footage. This data will also be backed up to a Amazon Web Services Glacier account.

### C. Backup software

**Virtru** uses Cloud Station software to perform all backups. This will be installed on all workstations and must not be disabled by the user for more than one (1) business day. The software will maintain one month of file versions for restoring purposes

### D. Remote backups

**Virtru** will provide a Virtual Private Network (VPN) for employees to login to for backing up their devices. Credentials for the VPM will be provided to remote employees, and they will be expected to configure their devices properly. If they are unsure, or have issue in setup, the IT department will be available for configuration assistance.

### E. Local backups

**Virtru** encourages all users to do daily local backups of their data. These backups are to be encrypted using the encryption standards listed below. Any local backups must be surrendered at the time an employee no longer is employed by **Virtru**.

# Security Policies and Procedures

## F. Encryption of backups

The backups of data will be encrypted on the NAS using AES 256 bit encryption. Any local backups that employees make must be encrypted at a minimum of 256 bit encryption.

## G. Restoring data

In the event that a workstation fails, is stolen, or is damaged whether physically or by malware. It is the policy of **Virtru** that this device will be replaced within 24 hours. The IT department will be responsible for reprovisioning this device, and testing that the workstation is functioning properly before giving the device to the employee.

## H. Enforcement

Anyone found to have violated this policy may be subject to disciplinary action, up to and including suspension of access to technology resources or termination of employment. A violation of this policy by a temporary worker, contractor or vendor may result in action up to and including termination of their contract or assignment with **Virtru**.

## XXXI. Information Integrity Management Policy

### A. Overview

The other policies in this document contribute to the integrity of the data in our systems. Notably, the Data Backup Plan, the Access Control Policy, and the Malware Management Policy contribute to data integrity. In addition to these, we add the following policy elements.

### B. Policy

**Virtru** will configure our applications software to use the available edits on data that is entered into our systems. These edits will check for internal data consistency, reasonableness of data, and logical relations among data items.

## XXXII. Security Incident Management Policy

### A. Overview

**Virtru** recognizes that, despite having reasonable security safeguards, we may have security incidents.

### B. Procedures

To manage these incidents, **Virtru** will do the following:

# Security Policies and Procedures

1. We will train each workforce member to recognize the common telltale signs of a security incident. When a member of the workforce detects one of these signs, he/she will be responsible for notifying the ISO.
2. The ISO will maintain a set of tests to detect events in the system logs that may indicate security incidents. These tests will be written into a script and run against the system log on a daily basis or whenever needed. The tests currently are:
  - a) Account creation/deletion
  - b) High volume of unsuccessful logon attempts
  - c) Alerts from our malware monitoring systems
  - d) High volume of file or database access/creation/deletion activity for the time of day, or for day of the week
  - e) Account activity at unusual times of the day or night
  - f) Absence of expected log records of activity when expected
  - g) Unusual level of record access for a given account
  - h) Daily logs will be tested by the firewall in real time,
  - i) User data will be reviewed weekly
  - j) Logs for the past month will be retained. When anomalies are discovered, the script will provide a report that is immediately brought to the attention of the ISO or designee as a potential security incident.
  - k) Account lock out due to excessive password retry failure.

The ISO will determine, in consultation with others if needed, whether an event is a security incident.

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associates as needed. The security incident will be tracked in JIRA and treated as an application defect. A log of relevant actions taken to contain and repair the damage will be stored in JIRA. The permanent home of this log will be in the **Security Documentation Library**. The ISO will determine if the event involves a workforce member action that is covered under the sanction policy and will follow that policy. The ISO will determine if the event represents a security incident for which a Business Associate is responsible. If so, the ISO will follow our *Incident and Breach Policy* in this area.

# Security Policies and Procedures

## C. Policy

If an event is a security incident, the ISO (or designee) will proceed to contain and repair damage from the incident by working with staff, vendors, and Business Associate relations in order to further deter future incidents of the same type.

## XXXIII. Security Plan Review Policy

### A. Overview

We recognize that our underlying security risk will change and our ability to manage this risk will improve over time. To ensure that we adjust our policies and procedures to take these two factors into account, we will review our Security Policies and Procedures annually. The ISO will lead this review and involve others as needed. Documentation of the review will be contained in a document called *Annual Security Review* and restored in the **Security Documentation Library {or Notebook}**.

### B. Procedures

At a minimum, the review process will consist of:

1. Evaluating changes in the last year that may affect our Security Policy. These will include changes in:
  - a) Number, sizes or locations of our business sites
  - b) Our workforce size and composition
  - c) Hardware/software
  - d) State or federal laws that apply to us
  - e) Type of medical insurance that we provide
2. Reading each Policy to determine whether or not the changes may affect it and/or the practices driven by the Policy. We will make a list of changes that need to be made, then write a paragraph describing how.
3. Creating a list of changes in Policies and/or Procedures that our **Company** will carry out.
4. Developing and implementing any changes in our Policies and Procedures on a timely basis.

# Security Policies and Procedures

# Security Policies and Procedures

## Appendices

# Security Policies and Procedures

## A. Change Logs

The Change Logs are logs and reports that are reviewed, at a minimum, twice a year. It provides information on programs available and which employees have access to which programs. The actual logs are found in the **Change Control Logs for Security** section of the documents.

1. Annual Security Review
2. Application/Database Change
3. Employee Access
4. Incident - Disaster
5. Maintenance
6. Media Sanitization
7. Operating System Changes Audit
8. Organizational Chart/Electronic Asset Management
9. Network Change
10. Physical Entry Access
11. Responsibility Change

# Disaster Recovery Plan for Virtru

We define a disaster as any event that affects our information systems and, as a result, substantially interferes with the operations of our business. Examples are fire, flood, hardware failure of critical elements (servers), software failures, theft, chemical/radiation hazard, and sabotage. Our definition of recovering from a disaster is taking all the actions needed to restore the systems to their normal operational state. Our plan to recover from disasters is described below.

1. What we will do to prepare to perform a disaster recovery:
  - A. We will train the workforce to recognize and report a disaster.
  - B. We will organize the workforce responsibilities so that during a recovery we are not dependent on only one person for any critical step.
  - C. We will report disasters to the ISO and AISO. The ISO will make the formal determination as to whether or not to classify the event as a disaster.
  - D. We will store paper backup copies of key disaster related documents with the offsite backups. These documents will include a List of Support Contacts – vendor, reseller, and/or support group contact information for all of our software and hardware.
  - E. We will keep an *Inventory of Device/Software Assets* for [Name of Business]-- a detailed checklist for each asset, such as the server, PCs, the router, network switch, databases, and software programs containing tasks that must be completed to recover that asset. The list will include key data about the device including a party responsible for the recovery whose role is to diagnose and, if needed, repair, replace, and/or rebuild a device.
  - F. We will have current copies of system data and software available at the off site location, as our data backup plan specifies.

2. Once the ISO (or designee) has certified a disaster, we will:
  - A. Use the ISO or designee to facilitate the recovery. The facilitator will direct the recovery process, coordination and communication of the actions of the various parties that are involved in the recovery.
  - B. Determine which devices/software (e.g. servers, PCs, power units, AC units) are not functioning normally, conferring with the appropriate staff, vendors, and other support personnel to make this determination. When in doubt about the status of the device, we will either use a test that is described in the IT Assets Recovery Checklist for the device/system or depend on the recovery responsible party to make this determination.
  - C. Review the *Inventory of Device/Software Assets* for the devices to be recovered. Each checklist will have as an initial task, "Contact the appropriate parties responsible for restoring the devices/software to be recovered." Guidance and other recovery activities from these parties are key contributors to the recovery process.
  - D. After all of the non-functioning assets have been restored, follow the instructions in the part of the Emergency Operations Plan that deals with what to do when the system is available again.

## Organization

### Emergency Planning & Crisis Management Team (EPCMT):

- Will Ackerly, CTO & ISO
- Jordan Duggan, VP of Product & Development & AISO
- Reuven Gonzales, Director of Operations
- Conor Gilsenan, Operations Developer
- Zack Nelson, Director of Development

### Primary Disaster coordination handled through:

#### **Crisis Manager 1:**

Reuven Gonzales, Director of Operations

Cell: (949) 878-6154

[reuven@virtru.com](mailto:reuven@virtru.com)

#### **Crisis Manager 2:**

Conor Gilsenan, Operations Developer

Cell: 973-986-6650

[conor@virtru.com](mailto:conor@virtru.com)

### Other Members' Contact Information

- Zack Nelson 443-834-3791
- Payam Abedi 703-656-6227
- Tyler Biscoe 301-642-8844
- Jon Gilpen 303-358-6689
- Jason Ghent 803-658-6645

### Off-Site Meeting Location

Used if team needs to meet to formulate an action plan.

*If primary location is not accessible, we may need to operate from an off-site locations such as:*

Employees' Home Offices

Jack Rose Restaurant

Extended off-site locations will be determined after assessing the severity of the disaster.

## Disaster Recovery Timeframes

### Maximum Tolerable Downtime (MTD)

The total amount of time our company is willing to accept for an outage or disruption, including all impact considerations. This guides our Crisis Management Team in determining the selection of an appropriate recovery method, and the depth of detail which will be required when developing recovery procedures, including their scope and content.

### Recovery Point Objective (RPO)

This is the point in time, prior to a disaster or disruptive event, which our company has accepted for data loss. RPO determines the frequency of our data backups. When determining RPO, we need to consider how much newly entered data we can afford to lose. *Therefore, if RPO is set to 4 hours, then we must have offsite backups maintained every 4 hours.*

### Recovery Time Objective (RTO)

RTO determines the target time for recommencement of business activity. The Crisis Management Team will determine what business functions (i.e. telecommunications, web servers, etc.) should be restored based on priority.

### Working Recovery Time (WRT)

This is the time our company will spend recovering lost data and work backlog, and testing and verifying data and systems. WRT usually is the difference between MTD and RTO.

**Physical Security Example Times**  
 Minor Disaster and Major Disaster

(See next page)

## **Disaster Timeframe Expectations**

### **Internal Network**

The server and network must be functioning in order for any of our other information systems to function. We could afford to be without the server/network for ten (10) minutes without materially affecting our business. If the server/network is down for longer than ten (10) minutes, staff will switch over the mobile tethering, or will go to an approved location to continue their work.

### **Production Servers**

Production servers must be functioning at all times in order for our applications to work. We cannot afford to be without the production servers without materially affecting our business. Traffic will be automatically routed to another server via Amazon Web Services' Elastic Load Balancing.

### **Workstations**

If a workstation crashes, we can easily use another one with only modest inconvenience. Ideally, we would like to replace/restore a workstation within 72 hours.

### **Printer and Fax**

We have two multifunction printers. We can lose all printers for up to a week with little effect on data flow.

### **Email and Web Browser**

Currently, we can function for no more than 10 minutes without email or web browsing. We will tether devices via smartphones after that time.

### **Wireless Network**

We have a wireless network and the office depends on it for routine transactions. A backup router is available; it is preconfigured and encrypted using WPA2-AES.

### **IT Resources**

We depend on the availability of certain employees and our IT service provider to diagnose and fix problems quickly. A chain of contacts is available in this document.

### **Power and HVAC Equipment**

We depend on external power and environmental equipment (especially our AC unit) to maintain the power and environmental support for our system. Failure of either of these systems could inhibit the use of our IT systems, and could also stop us from doing business. These failures are not IT-specific risks. We are comfortable enough with the track record of these services not to need more than a short term UPS to allow us to smoothly shut the network down in the event of a sustained power outage. We have to yearly revisit the question of whether or not we need

more power/environmental backup to ensure that the satellite site will be able to operate even if power/cooling at the main site is out.

## Disaster Timeframes Table

{This is a sample. Please fill in according to Virtru's standards. Functions can include departments, as listed below, or they can include more specific tasks, such as invoicing.}

| Minor Disaster                   |        |            |            | Major Disaster |        |            |            |         |
|----------------------------------|--------|------------|------------|----------------|--------|------------|------------|---------|
| Function                         | MTD    | RTO        | WRT        | RPO            | MTD    | RTO        | WRT        | RPO     |
| Physical Security (office/suite) | 1 hour | 30 minutes | 30 minutes | 4 hours        | 1 hour | 30 minutes | 30 minutes | 4 hours |
| IT (server, hardware, equipment) |        |            |            |                |        |            |            |         |
| Sales and Marketing              |        |            |            |                |        |            |            |         |
| Administration                   |        |            |            |                |        |            |            |         |
| HR                               |        |            |            |                |        |            |            |         |
|                                  |        |            |            |                |        |            |            |         |
|                                  |        |            |            |                |        |            |            |         |

## EVACUATION PLAN - during business hours:

For a disaster where you will need to **leave the building**:

If a disaster happens during normal business hours all Company employees will meet at **Jack Rose Restaurant, 2007 18th St NW, Washington, DC 20009**.

This will prevent Company employees from being in the way of emergency crews. A head count by managers will determine if all staff members have fully exited the building.

Headcount numbers will be brought to the ISO or CEO.

If the disaster happens after the meeting location has closed, employees will wait outside of the same address.

For a disaster where you will need to **stay in the building**:

If a disaster happens during normal business hours, all Company employees will meet in the **Basement**. A head count will determine if all staff members have fully exited the suite. See above for head count procedures.

{Please fill in the appropriate personnel for the following responsibilities}

| Office/Evacuation Managers |  | Assembly Managers               |  |
|----------------------------|--|---------------------------------|--|
| Will Ackerly               |  | John Ackerly                    |  |
| John Ackerly as Backup     |  | Will Ackerly as Backup          |  |
|                            |  |                                 |  |
| System Shutdown Manager    |  | Back-up System Shutdown Manager |  |
| Jordan Duggan              |  | Jordan Duggan                   |  |
| Will Ackerly as Backup     |  | Will Ackerly as Backup          |  |
|                            |  |                                 |  |

## Critical Operation Priority List

If or when a disaster happens, certain contacts will need to be made.

| Operation                                           | Employee in Charge | Action Plan                                                      |
|-----------------------------------------------------|--------------------|------------------------------------------------------------------|
| Current enrollment processes (any pending business) | Will Ackerly       | Notify carriers of current situation—give cell number if needed. |
| Communications                                      | Will Ackerly       | eBlast to client list                                            |
| IT—phones, faxes, e-mail                            | John Ackerly       | Set up remote office                                             |
| Payroll-Banking issues-Commissions                  | John Ackerly       | Notify payroll/banking institutions of disaster and action plan  |

## Potential Purchase List

If or when a disaster happens, certain items may need to be replaced:

1. 3 UPS (Uninterruptible Power Supply)(s)(Batteries)
2. Network Attached Storage (NAS)
3. Network Switch(s)
4. Network cable(s)
5. Power cable(s)
6. Power strip(s)
7. Monitor(s) / Monitor Cable(s)
8. Keyboard(s) / Mouse(s)
9. Firewall
10. Workstation(s) / Laptop(s)
11. Phone(s) & Headsets
12. Security Camera
13. Electronic Door Lock
14. Video Conference Microphones
15. Minifridge
16. Projector
17. Software
  - a. OSX
  - b. Windows
  - c. Acrobat
  - d. Office Suite
18. Paper
  - a. Printer paper
  - b. Sticky notes
  - c. New Checks
19. Multifunction Color Printer
20. Office Furniture/Equipment
21. Carrier (Marketing) Supplies
22. Office Supplies

# Fire Plan

---

## EVACUATION PLAN - FIRE!

If the fire alarm goes off during business hours, **evacuate the building immediately**. If you discover a fire or smell heavy smoke inside building: **DO NOT ATTEMPT TO FIGHT THE FIRE!!**

1. Pull fire alarm, evacuate the building and call 911 on the way out of the building
2. Perform head count at the designated assembly point
  - If anyone is missing, call their [emergency contacts](#) to determine if the missing individual has made contact with them. If they have not, alert the authorities.
3. Action Plan - developed by **EPCMT**
  - Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees [emergency contacts](#).
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

***NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.***

# Earthquake Plan

---

## EVACUATION PLAN - Earthquake!

### During an Earthquake

- **DO NOT USE THE ELEVATOR DURING AN EMERGENCY EVACUATION.**
- If you're indoors, stay there. Get under -- and hold onto -- a desk or table, or stand against an interior wall. Stay clear of exterior walls, glass, heavy furniture, fireplaces and appliances. The kitchen is a particularly dangerous spot. If you're in an office building, stay away from windows and outside walls and do not use the elevator.
- If you're outside, get into the open. Stay clear of buildings, power lines or anything else that could fall on you.

### After an Earthquake

- Perform head count at the designated assembly point
  - If anyone is missing, call their [emergency contacts](#) to determine if the missing individual has made contact with them. If they have not, alert the authorities.
- Shut down systems, if time permits, see **Emergency Shutdown Procedures**
  - Check for fire or fire hazards. If you smell gas, shut off the main gas valve. If there's evidence of damage to electrical wiring, shut off the power at the control box.
  - If the phone is working, only use it in case of emergency. Likewise, avoid driving if possible to keep the streets clear for emergency vehicles.

- Be aware that items may fall out of cupboards or closets when the door is opened, and also that chimneys can be weakened and fall with a touch. Check for cracks and damage to the roof and foundation of your home.
  - Listen to the radio for important information and instructions. Remember that aftershocks, sometimes large enough to cause damage in their own right, generally follow large quakes.
  - If you leave home, leave a message telling friends and family your location.
- Action Plan - developed by **EPCMT**
- Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees [emergency contacts](#).
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

***NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.***

# **Tornado Plan**

---

## EVACUATION PLAN - Tornado!

If the city or county signal a tornado warning, move away from the perimeter of the building and any exterior glass.

### **DO NOT USE ANY ELEVATORS DURING AN EMERGENCY EVACUATION.**

1. Move to the basement of the office suite.
2. Shutdown systems, if time permits, see **Emergency Shutdown Procedures**
3. Perform head count at the designated assembly point
  - If anyone is missing, call their [emergency contacts](#) to determine if the missing individual has made contact with them. If they have not, alert the authorities.
4. Action Plan - developed by **EPCMT**
  - Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees [emergency contacts](#).
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

***NOTE: First Aid kit located in the drawer of the white cabinet located to the right of the spiral staircase.***

# **Flood Plan**

---

## EVACUATION PLAN - Flood!

### 1. Evaluate the situation

- Shutdown systems routine, see **Emergency Shutdown Procedures**
- Perform head count
  - If anyone is missing, call their [emergency contacts](#) to determine if the missing individual has made contact with them. If they have not, alert the authorities.

### 2. Action Plan - developed by **EPCMT**

- Remain open - *based on damage or location*
  - Relocate staff within suite
  - Evaluate IT requirements
- Close - send staff home
  - Re-open based on damage
  - If the office must remain closed:
    - Notify employees and/or employees [emergency contacts](#).
    - If there is any impact to customer operations, email all clients with a status update and recovery plan.

# **After Hours Plan**

---

## EVACUATION PLAN - after business hours

If the building is in a disastrous state after working hours, the **EPCMT** will notify employees. See *Virtru Phone Tree*.

If **re-opening** on a workday at the primary location:

1. Verify location is safe for operations - including systems
2. Communications
  - a. Emergency Contact List
  - b. Client Blast

If **NOT re-opening** on the following workday at the primary location:

1. The **EPCMT** must decide estimated length of time we will not be able to function
  - a. If less than or equal to one day, office is closed.
    - i. **[Name of Business]** will open the following work day
    - ii. Verify location is safe for operations
    - iii. Communications
      1. Emergency Contact List
      2. Client Blast
2. If office needs to move to secondary location or close for a **short** period of time.
  - a. The **EPCMT** meets to develop a plan of action
  - b. Determine the validity of systems
    - i. If valid, move critical systems to secondary location
    - ii. If not valid, retrieve necessary items and contact suppliers for new systems
      1. Restore systems from backups
      2. Restore connectivity
        - a. Skeleton crew of selected staff members (possibly several from each department)

c. Communications

i. Emergency Contact List

ii. Client Blast

3. If office needs to move to secondary location or close for a **longer** period of time:

a. The **EPCMT** meets to develop a plan of action

b. Determine the validity of Systems

i. If valid, move critical systems to secondary location

ii. If not valid, retrieve necessary items and contact suppliers for new systems

1. Restore systems from backups

2. Restore connectivity

ii. Determine staff needs - full or partial capacity

iii. Communications

1. Emergency Contact List

2. Client Blast

# **Emergency Shutdown Procedures**

---

If an electrocution occurs while working in server room, staff will pull all of the UPS cords from the outlet by the interior door. If that outlet is inaccessible due to fire or victim's position, staff will shut off the power at the breaker, located in the basement on the wall to the left of the TV.

If there is a fire within the building or suite, staff should concentrate on notifying authorities.

If there is severe flooding that threatens to affect the server room, staff will shutdown and unplug all equipment and move it to the second story platform of the suite.

# CERTIFICATE OF REGISTRATION

## Information Security Management System - ISO/IEC 27001:2013

The Certification Body of BrightLine hereby certifies that the following organization operates an Information Security Management System that conforms to the requirements of ISO/IEC 27001:2013

# ServiceNow, Inc.

for the following scope of registration

The scope of the ISO/IEC 27001:2013 certification is limited to the information security management system (ISMS), which supports ServiceNow as a provider of cloud-based solutions that define, structure, manage and automate services across the global enterprise, as well as all supporting resources including global data center operations and infrastructure, applications, end-user services, and product development, and in accordance with the Statement of Applicability, approved July 28, 2015. Assets within scope of the ISMS include: internal information assets, customer data, software, hardware, people, and physical assets to host, support and operate the cloud-based solutions. The data centers in the following locations house the infrastructure used to deliver the cloud-based solutions: Virginia, California, Florida, Washington, Montreal, Toronto, London, Amsterdam, Geneva, Zurich, Sydney, Brisbane, Singapore, Hong Kong, São Paulo and Campinas. Additionally, ServiceNow uses Amazon Web Services (AWS) to host some ServiceWatch customers. Excluded from the scope are all operations of third party data centers and AWS.

the scope of this certification includes the following locations:

**Santa Clara (HQ):** 3260 Jay Street, Santa Clara, California, 95054, United States  
**San Diego:** 4810 Eastgate Mall, San Diego, California, 92121, United States  
**Kirkland:** 4400 Carillon Point, Kirkland, Washington, 98033, United States  
**Orlando:** 3501 Quadrangle Blvd, Suite 150, Orlando, FL 32817, United States  
**Amsterdam (EMEA HQ):** Hoekenrode 3, 1102 BR Amsterdam, The Netherlands  
**London:** 3rd Floor, Future House, The Glanty, Egham, Surrey, TW20 9AH, United Kingdom  
**Sydney:** Level 21, 50 Bridge St, Sydney, New South Wales, 2000, Australia

Certificate Number: **1980700-4**

**Original Registration Date**  
December 17, 2012

**Expiration Date**  
September 28, 2018

**Certificate Version**  
Version 4

#### CONDITIONS & LIMITATIONS:

1. The aforementioned organization has a perpetual responsibility to maintain compliance with ISO 27001:2013 during the period of certification.
2. This certificate is subject to the satisfactory completion of annual surveillance audits by BrightLine.
3. ISO 27001:2013 compliance audits are not designed to detect or prevent criminal activity or other acts that may result in an information security breach. As such, this certification should not be construed as a guarantee or assurance that an organization is unsusceptible to information security breaches.
4. The information in this document is provided "AS IS", without warranties of any kind. BrightLine expressly disclaims any representations and warranties, including, without limitation, the implied warranties of merchantability and fitness for a particular purpose.
5. This certificate is the property of BrightLine and is bound by the conditions of contract. The authenticity of this certificate can be validated at [www.BrightLine.com/Certificate-Directory](http://www.BrightLine.com/Certificate-Directory).

## vCLOUD GOVERNMENT SERVICE

### *Compliant cloud solutions built for government agencies*

Whether spurred by the need to increase efficiency, meet government mandates or deal with rapidly expanding data sets and workloads, more and more agencies are moving some or all of their applications or infrastructure to the cloud. However, for many agencies, the most cost-effective, secure and efficient solution is a hybrid cloud model that allows them to not only leverage their existing investments in IT infrastructure, but also extend their systems seamlessly to the technology platform that best meets their needs.

VMware®, the global leader in virtualization and cloud infrastructure, and QTS, a trusted cloud operator and leading provider of hybrid cloud services and managed hosting for government agencies and enterprises, have partnered to deliver VMware vCloud® Government Service provided by Carpathia™ (A QTS Company).

vCloud Government Service is an enterprise-class hybrid cloud service designed to run new and existing applications in exactly the same way, giving government organizations application and data mobility. Being able to use existing people, processes, tools, and automation enables government organizations to focus on the benefits of the cloud to their mission, rather than taking time and resources to re-architect for new infrastructure. Federal organizations can securely extend their data centers to the cloud quickly and confidently, using an integrated cloud infrastructure with the security of a JAB-based FedRAMP Provisional Authorization.

### KEY FEATURES

#### Robust Security and Compliance

- vCloud Government Service is a secure cloud platform that enables customers to maintain security and data protection that meets a broad range of regulations, standards, and best practices including FedRAMP, International Traffic Arms Regulations (ITAR), FIPS 140-2, and AT 101 SOC Type 2.

#### Efficiency and Manageability

- Agencies can write, deploy, and manage applications in the cloud in the same way they do today, without making any changes or additional investments. With management tools consistent across on premises and cloud environments, you can accelerate application deployments, streamline the deployment and update process, leverage pre-built components, and reuse application models across environments, and clouds.

#### Seamless Network Integration

- vCloud Government Service is built on a seamless virtualized network that is quickly customizable to support your application and security needs. Network virtualization allows you to configure your firewalls and network as if they were in your own data center so that you can replicate the network your applications need to operate. Get common identity and access management across your onsite and offsite cloud locations.

### BENEFITS

- Ease of Use – Leverage your existing investments in applications and infrastructure and avoid the complexity of re-architecting for public cloud infrastructure
- Secure and Compliant – Secure cloud platform, with security controls designed to meet the unique requirements of government customers, most notably the FedRAMP standards
- Hybrid – True hybrid cloud solution enables both onsite and offsite IT environments to run new and existing applications seamlessly
- Fastest Path to Cloud Value – Use a common platform to leverage internal and external cloud resources without having to retrain your staff, and lower overall costs

## Why vCloud Government Service?

vCloud Government Service has a FedRAMP Provisional Authority to Operate (P-ATO) and is generally available to U.S. government and defense organizations. It can be used for a variety of applications and workloads including:

- Test and development
- Packaged application hosting
- Backup and Disaster Recovery
- Web hosting and customer service
- On-demand data center expansion

## Trusted Cloud Services

QTS is redefining the industry with trusted cloud services that leverage innovation to improve the flexibility, scalability, and cost-effectiveness of cloud services.

- We are a trusted cloud operator with past performance serving the government market -- including DoD, Civilian and Intelligence agencies -- across multiple programs and applications
- QTS data centers deliver the highest levels of security and compliance, and meet many compliance standards including FISMA, DIACAP, PCI, and HIPAA
- We hold a number of certifications and accreditations across multiple federal agencies and programs and support over 50 Federal systems holding active Authorizations to Operate (ATO)

## Security

vCloud Government Service operates with a FedRAMP Provisional Authorization to Operate (P-ATO) issued by the Joint Authorization Board (JAB). Built with a defense in-depth strategy that puts our customers' critical applications and data in the innermost ring, our people, processes and procedures ensure 100 percent compliance at implementation and through the lifecycle of the project.

## Hybrid Options

vCloud Government Service is a true enterprise-class hybrid cloud service, offering a seamless platform for migrating and managing workloads between dedicated virtualized environments, on-premise infrastructures, third-party data centers and the cloud.

## ABOUT QTS

QTS Realty Trust, Inc. (NYSE: QTS) is a leading provider of secure, compliant data center solutions and fully managed services, and the owner of Carpathia Hosting, a leading provider of hybrid cloud services and managed hosting. QTS' integrated technology service platform of custom data center (C1), colocation (C2) and cloud and managed services (C3) provides flexible, scalable, secure IT solutions for web and IT applications. QTS' Critical Facilities Management (CFM) provides increased efficiency and greater performance for data center owners and operators. QTS owns, operates or manages 25 data centers and supports more than 1,000 customers in North America, Europe and Asia Pacific.

March 10, 2016

State of Utah Division of Purchasing  
3150 State Office Building  
Capitol Hill  
Salt Lake City, Utah 84114

Mr. Hughes:

As a privately owned company, Carahsoft Technology Corp. does not report to D&B. As such, the information in D&B is incorrect. To support you to determine that we have the financial resource to perform the contract we provide you the following information.

We are a stable, conservative and profitable company. Carahsoft continues to grow as noted by our year over year revenue below:

|      |                |
|------|----------------|
| 2010 | \$820 Million  |
| 2011 | \$1.12 Billion |
| 2012 | \$1.46 Billion |
| 2013 | \$1.81 Billion |
| 2014 | \$2.45 Billion |
| 2015 | \$3 Billion    |

We currently employ close to 500 employees.

To support you to determine that we have the financial resource to perform the contract we provide you the following information:

We maintain a \$25M line of credit available (currently 100% available) with Xenith Bank. I have included a recent banking clarification letter from Xenith.

Mr. Joe Humphries is the Regional President and can be reached at 703-869-3610 if you need any information from him.

We have received numerous accolades including:

- For the 6<sup>th</sup> consecutive year CRN's 2012 Fast Growth List
- Washington Business Journal's 2012 List of Largest Government Contractors in Metro DC
- Third consecutive year Washington SmartCEO magazine's 2012 Future 50 list which recognizes the metro areas fastest growing companies.

Should you require additional details please call me and I can discuss our confidential financial information with you or provide you trade references that can further assist you.

Sincerely,

Jillian Dewey Szczepanek  
Controller

# Carahsoft Technology Corp.

DUNS: 08-836-5767

## Credit Information

### Risk Summary

#### Risk of Late Payment

Risk of late payment is based on the following prioritized factors in addition to other information in D&B's files:

- Proportion of slow payments in recent months
- Higher risk industry based on delinquency rates for this industry
- Increase in proportion of delinquent payments in recent payment experiences
- Proportion of past due balances to total amount owing
- Evidence of open liens

Indications of slowness can be the result of disputes over merchandise, skipped invoices, etc.

#### Payment Performance Trend

The payment performance trend for this company is Increased . Payment Trend currently is Increased compared to payments three months ago. The most recent payment information in D&B's files is:

- Payments currently: 11 days beyond terms
- Payments 3 months ago: 19 DAYS BEYOND terms
- Industry average: 5 DAYS BEYOND terms

\*Note: Payments to suppliers are averaged weighted by dollar amounts.

AODocs Terms of Service - Version published on the Web Site

---

## TERMS OF SERVICE

These Terms of Service ("**Terms**") are a legal agreement between Altirnao, Inc., herein "**Altirnao**", having an office and place of business at 221 Kearny Street, Suite 300, San Francisco, CA 94108, USA, and the person or entity agreeing to the terms herein ("**Customer**", "**You**" or "**you**"). By using or accessing any part of AODocs (the "**Service**"), You agree that You have read, understand, and agree to be bound by all of the terms and conditions contained herein. If You do not agree to these Terms, You must not use or access the Service. If You are entering into this Terms on behalf of a company, You represent that You have the authority to bind that company to these Terms. If You have purchased a license to use AODocs through an Altirnao reseller, You also agree to comply with the terms of any agreement between You and such reseller. In the event of an inconsistency between these Terms and any such reseller agreements, these Terms shall control.

### Description of Service

AODocs is an online document management solution for Google Apps. The Service is offered and provided subject to these Terms and solely for Your business purposes. You may connect to the Service using any Internet browser supported by the Service.

The Service requires one or more Google Apps for Business account that will be the owner(s) of all files stored and managed by the Service. The Service stores all the files that it stores and manages for You in the Google Drive account(s) that You will assign to AODocs when You deploy AODocs. You understand and acknowledge that You are solely responsible for obtaining the Internet access and all equipment necessary to use the Service, for appropriately configuring Your Google Apps account(s) and for allocating a sufficient number of accounts and sufficient Google Drive storage space to allow proper operation of the Service, as per the recommendation of Altirnao's technical support or product documentation. You also understand and agree that content you store through your use of the Service will be made available to Google as part of Google providing the Google Apps service. All fees associated with the foregoing shall be paid by You.

### Modifications

To these Terms: Altirnao reserves the right to update and change the Terms of Service upon notice from time to time. You will be provided notice of any such modification by electronic mail or by the publishing of such on the website <http://www.aodocs.com/terms-of-service>. You may terminate your use of the Service if the Terms are modified in a manner that substantially affects your rights in connection with use of the Service. Your continued use of the Service after any such changes shall constitute your consent to such changes. You can review the most current version of the Terms of Service at any time at <http://www.aodocs.com/terms-of-service>.

To the Service: Altirnao may make changes to the Service from time to time. Altirnao will notify you of any material changes or modifications. Any updates, upgrades, additions or new features to the Service, including the release of new tools and resources, shall be subject to these Terms and may require you to agree to additional terms and conditions.

## Use of the Service

Access to Service: Access to the Service is only available to the Customer and the end users ("**Users**") to whom Customer has purchased individual user licenses and granted access. Upon registration with Altirnao, Customer will specify the email address of a Google Apps account (the "**Account**"), which will be granted access to the Service. Customer is solely responsible for granting the Service access to Customer's Google Apps files and revoking such access when Customer ceases use of the Service. Customer is responsible for maintaining the confidentiality of Customer's password. Customer agrees not to share its password with anyone other than Users, let anyone else access its password or do anything else that might jeopardize the security of its password. Customer agrees to notify Altirnao if Customer's password is lost, stolen or disclosed to an unauthorized third party, if there is any unauthorized use of its password or Account, or if Customer learns of any other breach of security in relation to the Service. Customer is solely responsible for any and all activities that occur through the use of Customer's Account.

License to Customer: Subject to Customer's compliance with these Terms and the Google Acceptable Use Policy (available at <https://cloud.google.com/terms/aup>), including, without limitation, Customer's payment of all applicable fees, Altirnao hereby grants Customer a limited, revocable, non-transferable non-exclusive, non-sublicensable license to access and use the Service, solely for Customer's own internal use, and not for timesharing, application service provider or service bureau use.

Customer is at all times fully responsible and liable for all acts and omissions by Users to whom Customer has granted access to the Service and Customer agrees to indemnify Altirnao for all claims and losses related to any such acts and/or omissions.

Each user license ordered by Customer is specific to the email address of only one User and, once granted to that User, may not be transferred or reassigned to any other user unless the User originally granted the license will no longer use the Service. Any such transfer or reassignment is permanent and Licensee shall not permit the original User to use the Service after such User's license has been used by a different User.

Altirnao reserves the right to terminate unpaid Accounts and Accounts that are inactive for a continuous period of ninety (90) days. In the event of any termination, all data associated with such Account will be deleted and Customer shall be responsible for revoking the Service's access to Customer's Google Apps domain data and files. Altirnao will provide Customer with prior notice of such termination and will send a data backup to Customer by email. In case of Accounts with more than one User, if at least one of the Users is active, the Account will not be considered inactive.

## Restrictions on Use

Restrictions on Use of AODocs: In addition to all other terms and conditions contained herein, you shall not and shall not permit others to:

1. copy, modify, adapt, translate or otherwise create derivative works of the Service;
2. reverse engineer, decompile, disassemble or otherwise attempt to discover the source code of the Service;
3. rent, lease, sell, assign or otherwise transfer rights in or to the Service;
4. remove any proprietary notices or labels from the Service;
5. use, post, transmit or introduce any device, software or routine which interferes or

attempts to interfere with the operation of the Service.

6. use the Service for spamming or any other illegal or unauthorized purpose or engage in illegal or deceptive trade practices; or
7. otherwise use of the Service in violation of any laws in your jurisdiction (including but not limited to copyright laws).
8. use the Service for High Risk Activities;
9. process or store any content on or through the Service that is subject to the International Traffic in Arms Regulations maintained by the Department of State.
10. if you are (or become) a Covered Entity or Business Associate, as defined in the Health Insurance Portability and Accountability Act ("**HIPAA**"), use the Service for any purpose or in any manner involving Protected Health Information (as defined in HIPAA) unless you have received prior written consent to such use from both Google and Altirnao.
11. use the Service as a way to circumvent your obligation to provision one Google Apps End User Account for each User.

This list of prohibitions provides examples and is not complete or exclusive.

Restrictions on Use of Google Apps: You understand and agree that your use of the Service requires the use of Google Apps. You agree that you shall not and shall not permit others to:

copy, modify, create a derivative work of, reverse engineer, decompile, translate, disassemble, or otherwise attempt to extract the source code of Google Apps or any component thereof;

use the Google Apps or any component thereof for uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of Google Apps or any component thereof could lead to death, personal injury, or environmental damage;

sublicense, resell, or distribute Google Apps or any component thereof;

use Google Apps or any component thereof to create, train, or improve (directly or indirectly) a substantially similar product or service, including any machine translation engine;

access Google Apps or any component thereof in a manner intended to avoid incurring fees;

use Google Apps or any component thereof to operate or enable any telecommunications service or in connection with any application that allows end users to place calls to or to receive calls from any public switched telephone network; or

process or store any data that is subject to the International Traffic in Arms Regulations maintained by the U.S Department of State or any other applicable law.

Altirnao reserves the right to suspend or terminate your access to Service with or without cause and with or without notice, for any reason or no reason, or for any action that Altirnao determines is inappropriate or disruptive to the Service or to any other user of this Service. Google may suspend your Google Apps account if: (a) your use of Google Apps is in violation of Google's Acceptable Use Policy, which could disrupt: (i) Google Apps; (ii) other users' use of Google Apps; or (iii) the Google network or servers used to provide Google Apps services; or  
(b) there is unauthorized third party access to Google Apps.

You acknowledge and agree that Altirnao, in its sole discretion, with or without notice, may establish or revise from time to time general practices and limits concerning your use of the

Service, including without limitation, establishing the maximum number of Google Drive operations that can be done on your behalf in a given period of time. In addition, Altirnao may limit, without notice, the volume of e-mail forwarding or file downloading from the Service in response to unreasonable activity (such as spamming).

Altirnao may report to law enforcement authorities any actions that may be illegal, and any reports it receives of such conduct. When legally required or at Altirnao's discretion, Altirnao will cooperate with law enforcement agencies in any investigation of alleged illegal activity associated with the Service or on the Internet.

Unauthorized use of any trademarked, copyrighted or patented materials contained in the Service may violate certain laws and regulations.

You agree to indemnify and hold Altirnao and its officers, directors, employees, affiliates, agents, licensors, and business partners harmless from and against any and all costs, damages, liabilities, and expenses (including attorneys' fees and costs of defense) Altirnao or any other indemnified party suffers in relation to, arising from, or for the purpose of avoiding, any claim or demand from a third party that your use of this Service or the use of Service by any person using your Account (including without limitation, Your Content (as defined below)) violates any applicable law or regulation, or the copyrights, trademark rights or other rights of any third party.

## Suspension

Altirnao reserves the right to suspend or terminate Customer's access to the Service with or without notice if Altirnao reasonably determines that:

- (a) there is a threat or attack on the Service (including a denial of service attack) or other event that may create a risk to the Service, Altirnao, Customer, or any user of the Service;
  - (b) Customer's or its users' use of the Service or Customer Content disrupts or poses a security risk to the Service or any user of the Service, may harm Altirnao's systems, or may subject Altirnao or any third party to liability;
  - (c) Customer or any User is using the Service for fraudulent or illegal activities;
  - (d) Customer or any User is causing performance disruptions in the Service or in Google Drive by using the Service in a way that is not recommended in the performance guidelines published in the Service's documentation or by ignoring performance recommendations provided by Altirnao's technical support;
  - (e) subject to applicable law, Customer has ceased to continue Customer's business in the ordinary course, made an assignment for the benefit of creditors or similar disposition of its assets, or become the subject of any bankruptcy, reorganization, liquidation, dissolution or similar proceeding;
  - (f) Customer or any User is using the Service or other Altirnao property in breach of this Agreement;
  - or (g) Customer is in default of its payment obligations hereunder (collectively, "Service Suspensions").
- Altirnao will make commercially reasonable efforts, circumstances permitting, to provide written notice of any Service Suspension to Customer, and to provide updates regarding resumption of Customer's access to the Service following any Service Suspension.

## Subscription terms

Customer agrees to pay the subscription fee applicable to Customers and its Users use of the Service. Such fees will be paid on a periodic basis as agreed to Altirnao or to your Altirnao reseller as agreed when you registered for the Service.

In case of non-payment for any reason (including, if applicable, Altirnao's inability to charge your credit card or other payment method for any reason) or any violation of these Terms, Altirnao shall be entitled – without liability – to immediately suspend Customer's and Users' access to the Service. If you purchase your license to use the Service from Altirnao, you hereby expressly agree that Altirnao is permitted to bill you for the applicable fees, any applicable tax and any other charges you may incur in connection with your use of the Service, or charge such fees to your credit card or other payment method designated on your initial registration with the Altirnao at regular intervals for the remainder of the term of these Terms. If you cancel your Account at any time, you will not receive any refund.

Customer agrees that Customer's paid use of the Service is neither contingent on the delivery of any future functionality or features nor dependent on any oral or written public or private comments made by Altirnao or any Altirnao reseller regarding future functionality or features.

## Intellectual Property

Customer hereby acknowledges and agrees that, subject to the limited rights granted hereunder, Altirnao (or its licensors) own all legal right, title and interest in and to the Service, including, without limitation, any Intellectual Property Rights or other proprietary rights which exist in the Service (whether such rights are registered or unregistered, and wherever in the world those rights may exist) ("**Our Technology**"). For purposes of these Terms, "Intellectual Property Rights" means, on a worldwide basis, any and all now known or hereafter known (a) rights associated with works of authorship including copyrights and moral rights, (b) trademark and trade name rights and similar rights, (c) trade secret rights, (d) patent rights and other industrial property rights, (e) intellectual and industrial property rights of every other kind and nature and however designated, whether arising by operation of law or otherwise, and (f) all registrations, applications, renewals, extensions, continuations, divisions, or reissues thereof now or hereafter existing, made, or in force (including any rights in any of the foregoing).

Our Technology may not be copied, modified, reproduced, republished, posted, transmitted, sold, offered for sale, or redistributed in any way without our prior written permission and the prior written permission of our applicable licensors. You must abide by all copyright notices, information, or restrictions contained in or attached to any of Our Technology. Nothing in these Terms of Use grants you any right to receive delivery of a copy of Our Technology or to obtain access to Our Technology except as generally and ordinarily permitted through the Service according to these Terms. Furthermore, nothing in these Terms of Use will be deemed to grant, by implication, estoppel or otherwise, a license to Our Technology. Certain of the names, logos, and other materials displayed on the Service constitute trademarks, trade names, service marks or logos ("**Marks**") of Altirnao or other entities. You are not authorized to use any such Marks. Ownership of all such Marks and the goodwill associated therewith remains with and will inure to us or those other entities. To the extent indicated, any use of third party software provided in connection with the Service will be governed by such third parties' licenses and not by these Terms of Service. Furthermore, any comments, ideas and/or reports about the Service that you provide to us, whether in written or electronic form ("**Feedback**"), shall be considered our proprietary and confidential information, and you hereby irrevocably transfer and assign to us all intellectual property rights embodied in or arising in connection with such Feedback, and any other rights or claims that you may have with respect to any such Feedback.

## Ownership & Privacy

As between You and Altirnao, you retain all right, title and interest in any and all data, files, attachments, text, images, personally identifiable information, and other content that You and Your Users upload or submit to the Service (collectively, "**Your Content**"). You may not upload, post or otherwise make available through the Service any material protected by copyright,

trademark, or any other proprietary right -without the express permission of the owner of such copyright, trademark or other proprietary right owned by a third party, and the burden of determining whether any material is protected by any such right is on you. You shall have sole responsibility for the accuracy, quality, integrity, legality, reliability, appropriateness, and intellectual property ownership or right to use any and all of Your Content. You represent and warrant that you have all rights, permissions and consents necessary (a) to make Your Content available on or through the Service, and (b) to grant Altirnao the limited rights to use Your Content set forth in these Terms.

You agree that Altirnao may use Your Content to provide the Service and its features, including by making it available for viewing, download and modification by other Users with access rights to Your Content. You hereby grant Altirnao a non-exclusive, perpetual, royalty-free, worldwide license (including the right to sublicense through multiple tiers) to access, use, reproduce, distribute, store, transmit, modify, adapt, reformat, publicly display, publicly perform and create derivative works of Your Content as required for the purpose of providing the Service to you.

You understand and agree that Altirnao does not have the ability to grant or revoke the Service's access to Customer's Google Apps domain data and files or other content and materials stored in Customer's Google Apps account. Therefore, You are solely responsible for granting the Service access to such Google Apps files and revoking such access when You cease use of the Service. Altirnao shall not be responsible and shall have no liability for any damages that result from Your failure to grant or revoke such access.

You understand and agree that Altirnao may, notwithstanding any provision of any separate nondisclosure agreement that may have been executed between You and Altirnao, distribute and disclose Your Content (a) to your Users, and (b) to Altirnao's service providers who act on Altirnao's behalf in providing the Service. Altirnao's use of any personally identifiable information you provide through the Service is governed by our Privacy Policy. Your use of the Service indicates your acceptance of the terms of our Privacy Policy. You can review the most recent version of our Privacy Policy at <http://www.altirnao.com/privacy-policy/>.

You hereby consent that, if You choose to become a paying customer of the Service, Altirnao may identify You as a Altirnao customer (using Your name and logo) and generally describe the products or services it provides to You in its promotional materials, presentations, and proposals to other current and prospective customers.

If you cancel your Service subscription, your information is no longer used and Altirnao will delete your Account and data associated with your Account within ninety (90) days of your cancellation. Please note, however, that some information like billing and subscription may remain with us for accounting and legal reasons.

## **Availability.**

Altirnao will make the Service available to You in accordance with the Service Level Agreement available online at <https://www.aodocs.com/sla> (the "**SLA**"). Altirnao does not make any representations or guarantees regarding uptime or availability of the Service unless specifically identified in the SLA. The Service may be unavailable at certain times as specified in the SLA, including during any unanticipated or unscheduled downtime or unavailability of all or any portion of the Service as a result of system failures or force majeure events.

## **Warranty Disclaimer**

THE SERVICE IS PROVIDED ON AN "AS IS" BASIS, WITHOUT WARRANTIES OF ANY KIND, EITHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, IMPLIED WARRANTIES OF TITLE, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE

OR NON-INFRINGEMENT. ALTIRNAO MAKES NO WARRANTY THAT (I) THE SERVICE IS FREE OF VIRUSES OR OTHER HARMFUL COMPONENTS; (II) THE SERVICE WILL BE ERROR-FREE OR UNINTERRUPTED (INCLUDING, WITHOUT LIMITATION, INTERRUPTIONS THAT OCCUR IN THE CONTEXT OF REGULARLY SCHEDULED MAINTENANCE); (III) ANY INFORMATION OR ADVICE OBTAINED BY YOU IN CONNECTION WITH THE SERVICE WILL BE ACCURATE OR COMPLETE; OR (IV) THE RESULTS OF USING THE SERVICE WILL MEET YOUR REQUIREMENTS. SOME STATES DO NOT ALLOW EXCLUSION OF AN IMPLIED WARRANTY, SO THIS DISCLAIMER MAY NOT APPLY TO CUSTOMER.

## Limitation of Liability

IN NO EVENT SHALL ALTIRNAO BE LIABLE FOR ANY CONSEQUENTIAL, INCIDENTAL, INDIRECT, SPECIAL, PUNITIVE, OR OTHER LOSS OR DAMAGE WHATSOEVER (INCLUDING BUT NOT LIMITED TO LOSS OF DATA, LOSS OF BUSINESS PROFITS, BUSINESS INTERRUPTION, COMPUTER FAILURE, LOSS OF BUSINESS INFORMATION), ARISING OUT OF OR CAUSED BY YOUR USE OF OR INABILITY TO USE THE SERVICE, EVEN IF ALTIRNAO HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGE. YOUR SOLE AND EXCLUSIVE REMEDY FOR ANY DISPUTE WITH ALTIRNAO RELATED TO ANY OF THE SERVICE SHALL BE TERMINATION OF SUCH SERVICE. IN NO EVENT SHALL ALTIRNAO'S ENTIRE LIABILITY TO YOU IN RESPECT OF ANY SERVICE, WHETHER DIRECT OR INDIRECT, EXCEED THE FEES PAID BY YOU TOWARDS SUCH SERVICE. SOME STATES DO NOT ALLOW THE LIMITATION OR EXCLUSION OF LIABILITY FOR INCIDENTAL OR CONSEQUENTIAL DAMAGES, SO THE LIMITATIONS OR EXCLUSIONS IN THIS PARAGRAPH MAY NOT APPLY TO CUSTOMER.

## Other Terms

These Terms, their interpretation, performance or any breach thereof, will be construed in accordance with, and all questions with respect thereto will be determined by, the laws of the State of California. Both parties hereby irrevocably submit any disputes under these Terms to the jurisdiction of the courts located in the State of California.

## Channel Foundation Agreement U.S. Public Sector

### 1. INTRODUCTION

- 1.1 This Channel Foundation Agreement ("Foundation Agreement") specifies the terms and conditions agreed between CA and the Ordering Activity, as defined in GSA Order ADM4800.2G and as revised from time to time ("End User" or "Customer") as a foundation for their relationship as further defined in the applicable Modules. Ordering Activity understands and agrees that Ordering Activity's right to use the CA Offerings, ordered by Ordering Activity and submitted to CA by an Authorized CA Partner, is subject to Ordering Activity's compliance with this Foundation Agreement and the relevant Module for such CA Offering. The Foundation Agreement and the Module(s) incorporated into the GSA Schedule contract for the CA Offering(s) purchased by Ordering Activity will govern orders from an Authorized CA Partner for Ordering Activity's acquisition of the CA Offering and such terms shall remain binding upon both Ordering Activity and CA for that CA Offering absent mutual written agreement to the contrary.
- 1.2 Modules to this Foundation Agreement include the Channel Software Module, , Channel SaaS Module, Channel Hardware Appliance Module, and Channel Education Module.

### 2. DEFINITION

- 2.1 "Agreement" means this Foundation Agreement, the applicable Module, and License Metric for the applicable CA Offering, and any document incorporated expressly therein or incorporating the foregoing by reference.
- 2.2 "Authorized CA Partner" means an entity having a valid, current authorization from CA to market, offer and resell to Ordering Activity the right to use the CA Offering. Ordering Activity may find information regarding authorized CA Partners here: [www.ca.com/partners](http://www.ca.com/partners).
- 2.3 "CA Offering" means the individual offering (such as software, services, software as a service etc.) made available by CA as defined in the Module and/or, License Metric.
- 2.4 "Confidential Information" means any information, maintained in confidence by the disclosing Party, communicated in written or oral form, marked as proprietary, confidential or otherwise so identified, that is exempt from disclosure under the Freedom of Information Act (FOIA), 5.U.S.C. §552(b) under one or more exemptions to that Act, and/or any information that by its form, nature, content or mode of transmission would to a reasonable recipient be deemed confidential or proprietary, including, without limitation, CA Offerings, Documentation, and any benchmark data and results produced.
- 2.5 "Documentation" means the documentation, technical product specifications and/or user manuals, published by CA or any entity within CA group of companies (each a CA entity) that is made generally available with CA Offerings.
- 2.6 "License Metric" means the specific criteria for measuring the usage of the CA Offering (such as MIPS, CPUs, tiers, servers, or users).
- 2.7 "Module" means the additional terms and conditions applicable to the CA Offering.
- 2.8 "Parties" means individually and or collectively CA and or the Ordering Activity.
- 2.9 "Prime Contractor" means the entity contracting directly with the Ordering Activity, if other than an Authorized CAPartner.
- 2.10 "Term" means the period for which Ordering Activity is authorized to use the CA Offering as specified in CA's order with Ordering Activity's chosen Authorized CA Partner or the Prime Contractor.

### 3. ORDERING AND DELIVERY

- 3.1 This Agreement applies to each specific CA Offering purchased by Ordering Activity from an Authorized CA Partner or Prime Contractor. Use of the CA Offerings, or of this Agreement to procure CA Offerings, by Ordering Activity's Affiliates outside of the jurisdiction specified for Ordering Activity in the order between CA and the Authorized CA Partner or Prime Contractor is not permitted unless such Affiliate signs a participation agreement with CA to adopt and adhere to the terms of this Agreement.
- 3.2 CA will deliver or make available a CA Offering to Ordering Activity only upon, and in accordance with, CA's execution of an order with the Authorized CA Partner. Any terms that may appear on an Ordering Activity's purchase order (including without limitation pre-printed terms), or as part of Ordering Activity's order with an Authorized CA Partner or Prime Contractor, that conflict or vary from the terms and conditions of this Agreement shall not apply to CA and shall be deemed null and void unless otherwise required by law.

- 3.3 The CA Offering will be delivered by CA to Ordering Activity either by electronic delivery (ESD) or in tangible media in accordance with the terms of the GSA Schedule contract and the relevant purchase order. CA agrees to be responsible for all customs duties and clearances.

#### **4. CONFIDENTIAL INFORMATION**

- 4.1 The Parties agree that when receiving Confidential Information from the disclosing Party, that the receiving Party shall hold it in confidence and shall not disclose or use such information except as permitted under the Agreement. The receiving Party shall treat the disclosing Party's Confidential Information confidentially and in the same manner as it treats its own proprietary and/or confidential information, which shall not be less than a reasonable standard of care, and the receiving Party shall use Confidential Information only for the purposes described in the Agreement. Confidential Information may be disclosed to receiving Party's employees, agents, financial advisors, contractors and attorneys on a need-to know basis and the receiving Party shall ensure that such persons maintain such Confidential Information pursuant to the terms of the Agreement.
- 4.2 The receiving Party shall be permitted to disclose Confidential Information in connection with a judicial or administrative proceeding to the extent that such disclosure is required under applicable law or court order, provided that the receiving Party shall, where reasonably possible, give the disclosing Party prompt and timely written notice of any such proceeding and shall offer reasonable cooperation in any effort of the disclosing Party to obtain a protective order.
- 4.3 For the purposes of the Agreement, Confidential Information shall exclude: (i) information which the receiving Party has been authorized in writing by the disclosing Party to disclose without restriction; (ii) information which was rightfully in the receiving Party's possession or rightfully known to it prior to receipt of such information from the disclosing Party; (iii) information which was rightfully disclosed to the receiving Party by a third Party having proper possession of such information, without restriction; (iv) information which is part of or enters the public domain without any breach of the obligations of confidentiality by the receiving Party; and (v) information which is independently developed by the receiving Party without use or reference to the disclosing Party's Confidential Information.
- 4.4 Nothing in the Agreement will (i) preclude CA from using the ideas, concepts and know-how which are developed in the course of providing any CA Offerings to Ordering Activity or (ii) be deemed to limit CA's rights to provide similar CA Offerings to other customers. Ordering Activity agrees that CA may use any feedback provided by Ordering Activity related to any CA Offering for any CA business purpose, without requiring consent including reproduction and preparation of derivative works based upon such feedback, as well as distribution of such derivative works.
- 4.5 To the extent permitted by the Federal Records Act, the receiving Party agrees, upon request of the disclosing party, to return to the disclosing Party all Confidential Information in its possession or certify the destruction thereof.
- 4.6 For CA software (including code) and Documentation, and Ordering Activity's and/or CA's Confidential Information expressly designated in writing as perpetually confidential, the obligations of this section are perpetual and shall survive termination. For all other Confidential Information, the foregoing obligations shall extend for five (5) years from the date of initial disclosure.

#### **5. FEES**

- 5.1 The Parties acknowledge and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.

#### **6. TITLE**

- 6.1 CA retains all right, title, copyright, patent, trademark, trade secret and all other proprietary interests to all CA Offerings and any derivatives thereof. No title, copyright, patent, trademark, trade secret or other right of intellectual property not expressly granted under the Agreement is exchanged between the Parties.

#### **7. WARRANTY**

- 7.1 Each Party represents and warrants that it has the legal power to enter into the Agreement.
- 7.2 CA represents and warrants that it owns or otherwise has sufficient rights to grant Ordering Activity the rights defined in the Agreement.

#### **8. INDEMNIFICATION**

- 8.1 CA will indemnify any third party claims that Ordering Activity's use of the specific CA Offering licensed or purchased by Ordering Activity under this Agreement infringes any valid US patent or copyright within the jurisdictions where Ordering Activity is authorized to use the CA Offering at the time of delivery. CA may, at its option and expense: (i) procure for Ordering Activity the

right to continue to use the CA Offering; (ii) repair, modify or replace the CA Offering so that it is no longer infringing; or (iii) provide a pro-rated refund to the Authorized CA Partner of the fees paid for the CA Offering which gave rise to the indemnity calculated against the remainder of the Term from the date it is established that CA is notified of the third party claim. If the CA Offering is CA Software, and is licensed on a perpetual basis, an amortization schedule of three (3) years shall be used for the basis of the refund calculation.

- 8.2 CA shall have no liability: (i) in the event the allegation of infringement is a result of a modification of the CA Offering except a modification by CA, (ii) if the CA Offering is not being used in accordance with CA's specifications, related documentation and guidelines, (iii) if the alleged infringement would be avoided or otherwise eliminated by the use of a CA published update or patch, (iv) if the alleged infringement is a result of use of the CA Offerings in combination with any third party product, or (v) if the applicable fees due for the specific CA Offering have not been paid by Ordering Activity or Prime Contractor to its Authorized CA Partner. The indemnifications contained herein shall not apply and CA shall have no liability in relation to any CA Offering produced by CA at the specific direction of Ordering Activity. THE FOREGOING PROVISIONS STATE THE ENTIRE LIABILITY AND OBLIGATIONS OF CA REGARDING CLAIMS OF INFRINGEMENT, AND THE EXCLUSIVE REMEDY AVAILABLE TO ORDERING ACTIVITY WITH RESPECT TO ANY ACTUAL OR ALLEGED INFRINGEMENT OR MISAPPROPRIATION OF ANY INTELLECTUAL PROPERTY OR OTHER PROPRIETARY RIGHTS.
- 8.3 CA shall indemnify Ordering Activity against all damages, fees, (including reasonable attorney's fees) fines, judgments, costs and expenses finally awarded as a result of a third party action alleging a bodily injury or death which arises under the Agreement, provided that such liabilities are the proximate result of gross negligence or intentional tortuous conduct on the part of CA.
- 8.4 The above indemnities are contingent upon: (i) Ordering Activity providing prompt notice of any claim of infringement and assistance in the defense thereof, (ii) CA's right to consult with Ordering Activity at any time and to intervene in the proceedings through CA's chosen counsel at CA's expense, provided that Ordering Activity shall not have the right to settle any claim requiring CA to make a payment or to admit liability without CA's prior written agreement, and (iii) Ordering Activity not taking any actions or failing to take actions that hinder the defense or settlement process.

## **9. LIMITATION OF LIABILITY**

EXCEPT IN THE CASE OF A BREACH OF TITLE, INFRINGEMENT OF CA'S INTELLECTUAL PROPERTY RIGHTS OR CONFIDENTIALITY, OR OF THIRD PARTY CLAIMS ARISING UNDER THE INDEMNIFICATION SECTION, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW NEITHER PARTY (INCLUDING ANY OF CA'S SUPPLIERS) SHALL BE LIABLE FOR A) ANY INDIRECT, SPECIAL, CONSEQUENTIAL, INCIDENTAL, OR PUNITIVE DAMAGES OF ANY NATURE, INCLUDING, BUT NOT NECESSARILY LIMITED TO, LOSS OF PROFIT, DAMAGES RELATING TO MONIES SAVED OR FEES GENERATED AND OR ANY LOSS OF DATA BY USE OF ANY CA OFFERING, REGARDLESS OF WHETHER A PARTY WAS APPRISED OF THE POTENTIAL FOR SUCH DAMAGES; AND B) IN NO EVENT WILL A PARTY'S LIABILITY, EXCEED THE FEES PAID AND OR OWED TO CA FOR THE THEN CURRENT INITIAL OR RENEWAL TERM FOR WHICH THE ORDERING ACTIVITY HAS PROCURED THE CA OFFERING OR AS FURTHER DEFINED IN THE MODULE. FURTHERMORE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, CA SHALL NOT INCUR ANY LIABILITY FOR DEATH OR BODILY INJURY TO ANY THIRD PARTY UNLESS THE SAME ARISES FROM THE INTENTIONAL OR GROSSLY NEGLIGENT ACT(S) OF CA. This clause shall not impair the U.S. Government's right to recover for fraud or crimes arising out of or related to this Agreement under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733.

## **10. TERM & TERMINATION**

- 10.1 This Foundation Agreement shall continue in effect unless otherwise terminated in accordance with this section or as required pursuant to Federal Acquisition Regulation (FAR) 52.212-4 "Contract Terms and Conditions- Commercial Items" sections (l) "Termination for the Government's Convenience" and (m) "Termination for Cause."
- 10.2 In the event Ordering Activity elects to terminate an order for its convenience prior to the expiration of the then current term, and such order includes licenses for CA Software, Ordering Activity shall also, within a reasonable period of time, delete all copies of such software from its systems, including copies stored for archival purposes and either destroy or return them to CA. The foregoing shall not apply, however, where such licenses were perpetual and Ordering Activity, at the time of such termination, has paid all associated perpetual license fees.
- 10.3 Termination does not release either Party from any liability which, at the time of such termination, had already accrued to the other Party or which is attributable to a period prior to such termination, nor preclude either Party from pursuing any rights or remedies it may have under law or in equity with respect to any breach of this Foundation Agreement or the Agreement.

## **11. DISPUTE RESOLUTION**

- 11.1 Prior to the initiation of formal dispute resolution procedures regarding any dispute, controversy, or claim arising out of the Agreement or interpretation thereof (a "Dispute"), the Parties shall first meet as often, and for such duration and as promptly as the Parties reasonably deem necessary to discuss the Dispute and negotiate in good faith in an effort to resolve it.

- 11.2 The provisions of paragraph 11.1 will not be construed to prevent a Party from instituting formal proceedings to the extent necessary to avoid the expiration of any applicable limitations period or to pursue equitable rights or injunctive remedies deemed reasonable necessary to protect its interests.
- 11.3 Disputes relating to the payments of fees, any third party products or services or otherwise relating to the terms and conditions of an order between an Authorized CA Partner and Ordering Activity, shall be between Ordering Activity and such Authorized CA Partner, or if applicable, between Ordering Activity and Prime Contractor, and Ordering Activity agrees that it shall have no right of contribution or other claim from or against CA by reason thereof.

## 12. GENERAL TERMS

- 12.1 **Amendments.** The terms of the Agreement may only be amended by mutual written agreement of the Parties.
- 12.2 **Force Majeure.** Except for payment obligations and obligations pertaining to non-disclosure, notwithstanding any contrary provision in the Agreement, neither Party will be liable for any action taken, or any failure to take any action required to be taken, in the event and to the extent that the taking of such action or such failure arises out of causes beyond a Party's control, including, without limitation, war, civil commotion, act of God, strike or other stoppage (whether partial or total) of labor, any law, decree, regulation or order of any government or governmental body (including any court or tribunal).
- 12.3 **Order of Precedence.** Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) the relevant Module and (3) this Channel Foundation Agreement. Notwithstanding this Order of Precedence, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.
- 12.4 **Ordering Activity Data.** If Ordering Activity transfers any personal data to CA as a requirement pursuant to any CA Offering, then Ordering Activity represents that (i) it is duly authorized to provide personal data to CA and it does so lawfully in compliance with relevant legislation, (ii) CA and any entity within the CA group of companies (each a "CA entity") or its subcontractors can process such data for the purposes of performing its obligations and (iii) CA may disclose such data to any CA entity and its subcontractors for this purpose and may transfer such data to countries outside of the country of origin. CA, Inc. is Safe Harbour certified and the CA Entities have committed to comply with relevant data protection/privacy legislation.
- 12.5 **Import Export.** Ordering Activity agrees that CA Offerings, Documentation, and or Confidential Information is subject to export controls of the United States of America and import controls of any other country in which such information may be used. Ordering Activity agrees to export, re-export or import such information only in compliance with such laws and controls.
- 12.6 **Announcements.** Neither Party may issue press releases relating to the Agreement without approving the content with the other Party. Either Party may include the name and logo of the other Party in lists of customers or vendors in accordance with the other Party's standard guidelines.
- 12.7 **Counterparts.** This Foundation Agreement and any Module, as applicable, may be signed in any number of counterparts by the Parties and each part shall be considered part of the whole and valid, legally binding document.
- 12.8 **Notice.** All notices hereunder shall be delivered to the other Party identified in the Agreement either personally, via certified mail, facsimile or overnight courier. If delivered personally, notice shall be deemed effective when delivered; if delivered via facsimile, notice shall be deemed effective upon electronic confirmation; and if delivered via certified mail or overnight courier, notice shall be deemed effective upon confirmation of delivery.
- 12.9 **Headings.** The section headings used herein are for information purposes only and shall not affect the interpretation of any provision of this Agreement.
- 12.10 **Validity.** In the event any term or provision of the Agreement shall be held to be invalid, the same shall not affect in any respect whatsoever the validity of the remainder of the Agreement.
- 12.11 **Third Parties.** This Agreement shall not create any rights in favor of, or any obligations owed by, any third party unless otherwise expressly defined in any Module. The Parties agree that any action arising from this Agreement shall solely be brought by Ordering Activity, the U.S. Government, or CA, unless otherwise permitted by law.
- 12.12 **Choice of Law.** To the extent that federal law is not dispositive of a dispute hereunder, the laws of the State of New York (excluding its conflict of laws provisions) shall govern the construction and enforceability of the Agreement.

12.13 **Survival.** Sections pertaining to Confidentiality, Title, Limitation of Liability, Termination, and Import Export shall survive termination of this Foundation Agreement.

12.14 **Entire Agreement.** The Agreement and all documents incorporated by reference therein shall comprise the entire agreement as pertaining to the subject matter thereof and all other prior representations, proposals, and other such information exchanged by the Parties concerning the subject matter is superseded in their entirety by the Agreement.

## Channel SaaS Module

### U.S. Public Sector

#### 1. INTRODUCTION

- 1.1. This Module for Software as a Service ("SaaS Module") specifies terms and conditions which apply to Software as a Service that CA will provide to Ordering Activity.
- 1.2. This SaaS Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this SaaS Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

#### 2. DEFINITIONS

- 2.1. "Ordering Activity Data" means information stored in the SaaS database.
- 2.2. "Force Majeure Event" means an event of Force Majeure as defined in the Foundation Agreement and/or delays caused by an internet service provider or hosting facility that results in data center outages resulting from causes not within CA's control.
- 2.3. "ISO 27001" means an Information Security Management System standard published by the International Organization for Standardization (ISO). This particular standard specifies a management system that is intended to bring information security under explicit management control and mandates specific requirements when this standard is met.
- 2.4. "Production" means the "live" environment of SaaS provided to process data on a real-time basis.
- 2.5. "Production Availability" means, for purposes of measuring the Service Level, the aggregate number of minutes during the month in which the SaaS is available for Production access and use by Ordering Activity.
- 2.6. "SaaS" means the online version of the CA Software specified in the Authorized CA Partner's order with CA for access to and usage by its customers via a website(s) environment.
- 2.7. "SAS 70 Type II" means the standards used by an independent auditor that employs procedures, policies and controls of SAS 70 Type I to verify and validate that the organization is following those procedures regarding control objectives, activities and control over information technology, and related processes.
- 2.8. "SaaS Support" means support of the underlying CA software so it operates materially in accordance with the Documentation.
- 2.9. "Sandbox" means a development or test environment that is not Production.
- 2.10. "Scheduled Downtime" means planned downtime of SaaS availability where CA provides notice to Ordering Activity at least 72 hours in advance.
- 2.11. "Service Level" means as described in the section entitled: Service Level Commitments.
- 2.12. "Subscription Term" means the period of the Ordering Activity's subscription to the SaaS as specified in the Authorized CA Partner's order with CA.
- 2.13. "Users" means the number of individuals authorized to access and use of SaaS by Ordering Activity and who have been provided user identifications and passwords by Ordering Activity (or by CA at Ordering Activity's request), measured by CA on an aggregate monthly basis by the amount of User Logins. Users may include Ordering Activity and Affiliate's employees and independent contractors that agree to be bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.
- 2.14. "User Logins" means the initial and standard login screen where a User is required to enter its user ID and the password.

#### 3. SAAS OFFERING

- 3.1. CA shall provide SaaS to Ordering Activity during the Subscription Term directly or through a third party SaaS provider in accordance with the terms of the Agreement.
- 3.2. CA hereby provides Ordering Activity a non-transferable and non-exclusive right to access and use SaaS for the sole purpose of supporting its internal business use. A new User may replace a former User who no longer requires access to, or use of, the SaaS. Users may be Ordering Activity employees, Ordering Activity third party consultants, contractors or agents, which third parties may

access and use the SaaS solely for the benefit of Ordering Activity's internal business purposes in accordance with the provisions of this Agreement.

- 3.3. Ordering Activity acknowledges and agrees that in order for CA to effectively provide SaaS, Ordering Activity may be required to provide necessary information and shall not delay, prevent or interfere with CA's provision of SaaS.

#### **4. FEES & RENEWAL**

- 4.1. Ordering Activity may access SaaS for solely the number and type of Users specified in the Authorized CA Partner's order with CA. Additional Users, or an additional SaaS offering, if available, shall require Ordering Activity to procure with CA or an Authorized CA Partner (whether directly or through a Prime Contractor) for such users or offering. Unless otherwise agreed by CA, (i) additional Users may be purchased only in increments of 50 Users; and (ii) such additional User subscriptions shall be coterminous with the expiration of the Subscription Term.
- 4.2. CA may with notice prior to any renewal, replace the Ordering Activity ordered SaaS with replacement, underlying software that is generally available to customers with alternative, materially similar, functionality.
- 4.3. The fees for SaaS subscription are not contingent upon the delivery of any future functionality or features of the CASoftware.

#### **5. ORDERING ACTIVITY DATA**

- 5.1. Ordering Activity exclusively owns all rights, title and interest in and to all Ordering Activity Data. Ordering Activity Data shall be considered to be Confidential Information under the Agreement. CA shall not access Ordering Activity's User accounts, or Ordering Activity Data, except (i) in the course of data center business operations if required, (ii) in response to SaaS or technical issues or (iii) at Ordering Activity's specific request as reasonably required in the provision of SaaS. CA will segregate Ordering Activity's Data from other customers' data.
- 5.2. CA operates and maintains a disaster recovery procedure. In case of a Force Majeure Event, Ordering Activity acknowledges and agrees that Ordering Activity Data may not be recoverable and accepts responsibility for re-entry of such data.
- 5.3. Ordering Activity Data will be returned to the Ordering Activity at the end of the Subscription Term or at the termination of the SaaS subscription in the manner described in the SaaS Documentation.

#### **6. SECURITY**

- 6.1. CA shall adhere to SAS 70 Type II audit compliance criteria and data security procedures which meet ISO 27001 status during the Subscription Term.
- 6.2. CA shall comply with CA's security policy and procedures, which policies and procedures are designed to provide and maintain commercially reasonable safeguards against the destruction, loss or alteration of, or unauthorized access to or use of the Ordering Activity Data in CA's possession or control and which safeguards are, at a minimum, no less rigorous than those maintained by CA for its own information of a similar nature.
- 6.3. Ordering Activity Data shall be stored pursuant to CA's data security procedures, which shall be provided to Ordering Activity upon request. Except as required herein, CA will not be responsible for any unauthorized access to, or alteration, theft or destruction of Ordering Activity Data, unless caused as a result of CA's negligence or intentional misconduct, in which case restoring or recovery of Ordering Activity Data shall be limited to the most recent back-up of Ordering Activity Data. CA is not responsible for loss of Ordering Activity Data arising from Ordering Activity's: (i) transmission of data in contravention of the User Guide; or (ii) failure to act on any CA provided communication.
- 6.4. CA shall comply with the applicable EU member states' implementation of the Directive 95/46/EC ("Directive") governing the processing of personal data as defined specifically in the Directive and CA, Inc. is Safe Harbour certified.
- 6.5. Ordering Activity or an independent third party may audit CA's operations within the applicable data center to verify CA's compliance with the security and technical provisions defined in this Module. The audit may take place, no more than once annually, upon thirty (30) days prior written notice subject to Ordering Activity or its independent third party having executed a CA confidentiality agreement and stating the purpose and scope of the request. Such audit shall be conducted during normal business hours in a manner that does not disrupt business operations.

#### **7. INITIATION AND SUPPORT PROCESSES**

- 7.1. The following processes apply to the SaaS:
  - i. CA will send an email to Ordering Activity's technical contact identified in the Authorized CA Partner's order with CA setting out the SaaS URL(s) and other information necessary for initial use of the SaaS. Ordering Activity shall provide information as requested within 7 days of receiving the email.

- ii. Customer will utilize the CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Customer's to provide feedback or approvals on requests as applicable.

## **8. SAAS SUPPORT**

- 8.1. The Ordering Activity shall be provided with SaaS Support during the Subscription Term.
- 8.2. For any SaaS Support requests, Ordering Activity should be prepared to provide to SaaS Support personnel, all pertinent information, in English, including but not limited to, Ordering Activity number or site identification number, incident severity, SaaS/software name, area of SaaS (Production or Sandbox), incident description, and a technical contact familiar with Ordering Activity's environment or the problem to be solved. Ordering Activity must use reasonable efforts to communicate with CA in order to verify the existence of the problem and provide information about the conditions under which the problem could be duplicated.
- 8.3. Upon receiving Ordering Activity's technical contact information, SaaS Support will be provided in a timely and professional manner by qualified support engineers as defined below:
  - i. Access to CA help desk and the ability to open and manage support incidents via CA support online or by telephone.
  - ii. Production environment support: 24x7 for severity 1 incidents; normal business hours for severities 2-4.
  - iii. Sandbox environment support: Normal business hours for incidents of all severities.
  - iv. Access to CA support website (currently: <http://support.ca.com>) for 24x7x365 online support and access to CA software product and documentation, global user communities and regional user groups, FAQs, samples, webcast recordings and demos, usage tips, technical updates and HYPER notifications, as such are made available by CA.
  - v. Interactive remote diagnostic support allowing CA support engineers to troubleshoot an incident securely through a real-time browser-based remote control feature.
  - vi. Additional support such as file storage, point in time backup, periodic file refresh and basic reporting may be available at CA's discretion according to the SaaS provided.
- Any additional support requirements are only by prior written agreement with CA.
- 8.4. In order to respond to an issue raised through SaaS Support, CA may request Ordering Activity to upgrade to appropriate operating systems and or third party applications as required in order to properly operate and access the SaaS offering. Any such upgrades or installations shall be at the Ordering Activity's sole option and discretion. The costs associated with any upgrades required and any such installations are not included as SaaS Support and all such costs shall be the responsibility of the Ordering Activity.

## **9. ORDERING ACTIVITY RESPONSIBILITIES**

- 9.1. Ordering Activity is responsible for all activities that occur in, or are related to, User accounts including the data, information stored or transmitted when accessing SaaS.
- 9.2. Because Ordering Activity may integrate or utilize third party links to other software, hardware or other service which are associated with, or otherwise available through SaaS, Ordering Activity agrees that it and its Users shall use such third party links in their sole discretion. CA shall have no responsibility or liability with respect to such third party links used by Ordering Activity's or Users' or for any act or omission of any such third party provider.
- 9.3. Ordering Activity shall not: (i) make SaaS available to any third party not authorized, other than to Users or as otherwise contemplated by this Agreement; (ii) send or store code that can harm or result in damage to the SaaS offering (including but not limited to malicious code and malware); (iii) wilfully interfere with or disrupt the integrity of SaaS or the data contained therein; (iv) attempt to gain unauthorized access to the SaaS or its related system or networks; (v) use SaaS to provide services to external end users and or to process data other than Ordering Activity's as an outsourcer, service bureau or consultant without written permission provided by CA.

## **10. WARRANTY**

- 10.1. CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module.
- 10.2. EXCEPT AS EXPRESSLY SET FORTH ABOVE, TO THE EXTENT PERMITTED BY LAW, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, IMPLIED WARRANTIES OF MERCHANTABILITY, SUITABILITY OR SATISFACTORY QUALITY, OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA AND CA MAKES NO WARRANTIES HEREUNDER WITH RESPECT TO ANY HARDWARE EQUIPMENT OR THIRD PARTY SOFTWARE WHICH CA MAY USE TO PROVIDE THE SAAS.

10.3. Ordering Activity warrants that (i) it has the right to transmit any data or information as may be required for the purposes of accessing SaaS (ii) it will ensure compliance to the Agreement by itself and its Users and (iii) it is responsible for all activities that occur in User accounts, (iv) it shall not misuse SaaS through sending spam or otherwise duplicative or unsolicited messages or store infringing, obscene, threatening, or otherwise unlawful material that is harmful to children or violates third party privacy rights.

## **11. WARRANTY REMEDY**

11.1. In the event of a breach of the Warranty by CA, CA may in consultation with Ordering Activity (i) use reasonable efforts consistent with industry standards to cure the defect as defined in CA Support process outlined in this SaaS Module and or (ii) Ordering Activity may exercise its rights to termination as defined under the Service Level Commitment section below and qualify for a refund as defined therein and or (iii) mutually agree with Ordering Activity to terminate the subscription and provide a pro-rata refund to the Authorized CA Partner calculated on the number of months left remaining on the Subscription Term. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

## **12. SERVICE LEVEL COMMITMENT**

12.1. Service Levels: The following Service Levels will apply to the applicable SaaS offering during the applicable Subscription Term:

- i. Production Availability of SaaS 99.5% on a monthly basis. If Production Availability falls below 99%, it shall be considered a minor failure; and if Production Availability falls below 98%, it shall be considered a major failure.

12.2. Ordering Activity will be provided monthly electronic reports regarding Service Levels and follow the procedure set out below:

- i. CA will investigate missed Service Levels through determining the root cause of the issue then using commercially reasonable efforts to correct the issue and advising Ordering Activity as reasonably requested by Ordering Activity of the status of efforts being undertaken with respect to the issue;
- ii. Provide Ordering Activity reasonable evidence to Ordering Activity that the cause of the issue is being corrected or will be corrected and
- iii. In the event of a minor failure, Ordering Activity is entitled to 2 additional days of the applicable SaaS offering at no additional charge. In the event of a major failure, Ordering Activity is entitled to 5 additional days of the applicable SaaS offering at no additional charge.

12.3. Pursuant to FAR 52.212-4(l), Ordering Activity may terminate for convenience its subscription to SaaS without incurring any additional charges or termination fees. In the event of such termination for convenience CA shall refund to the CA Authorized Partner that portion of the fees paid which have not yet been applied towards SaaS as of the effective date of termination. Any such refund herein shall be Ordering Activity's sole and exclusive remedy under this SaaS Module with respect to CA only and CA shall have no further liability arising out of the applicable SaaS subscription, and shall not impact termination of any other Module or the Foundation Agreement. This section does not limit the rights or remedies of the Ordering Activity under FAR 52.212-4(m), Termination for cause. The following events shall be excluded from the calculation of any Service Level failures: (i) Force Majeure Event; (ii) outages due to Scheduled Downtime such as upgrading data center infrastructure; (iii) outages based on Ordering Activity networks or domain name server issues; (iv) Ordering Activity's configuration, scripting, coding; (v) internet outages; (vi) Ordering Activity outages requested by Ordering Activity (vii) Ordering Activity changes to its environment which hinder SaaS production and (viii) inability for Ordering Activity to log in due to use of Lightweight Directory Access Protocol (LDAP) to control authentication.

## **13. NIMSOFT SaaS**

13.1. The following sections of this Module are not applicable to Nimsoft SaaS transactions:

- i. 2.2;
- ii. 2.3;
- iii. 2.7;
- iv. 5.2;
- v. 6.1;
- vi. 6.5 and
- vii. 12.2;

13.2. The following sections of this Module are modified or added as follows for Nimsoft SaaS (On-Demand) transactions to the extent consistent with U.S. Federal law:

- i. Section 7.1 ii: "Ordering Activity will utilize the **Nimsoft** CA Support website, or other site or notification mechanism as CA may designate from time to time, to notify CA of SaaS availability issues, request other in-scope technical support assistance, or for Ordering Activity to provide feedback or approvals on requests as applicable."
- ii. Section 8.1: "The Ordering Activity shall be provided with SaaS Support pursuant to the terms of <http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf> during the Subscription term."
- iii. Section 10.1: "CA warrants that (i) SaaS shall perform materially in accordance with the applicable SaaS Documentation for a period of 60 days from the commencement of the Term and (ii) that SaaS will be available online according to the performance levels described in the Service Levels defined in this SaaS Module."
- iv. Add the following as Section 15:

**"15. REPORTING AND AUDIT**

Reports. Ordering Activity agrees to prepare and submit monthly reports to the Authorized CA Partner and CA that shall include, without limitation, information detailing the use of SaaS pursuant to the license metrics applicable to SaaS ("Report"). Ordering Activity shall submit each Report to the Authorized CA Partner and CA on the fifteenth day of each calendar month.

Overage. If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute a basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the SaaS quantity be lowered below the original number ordered.

**14. GENERAL TERMS.**

- 14.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel SaaS Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

## Channel Hardware Appliance Module U.S. Public Sector

### 1. INTRODUCTION

- 1.1. This Module for the Hardware Appliance ("Hardware Appliance Module") specifies terms and conditions which apply to the Hardware Appliance which CA will provide to Ordering Activity.
- 1.2. This Hardware Appliance Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Hardware Appliance Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

### 2. DEFINITIONS

- 2.1. "Hardware" means a single CA-supplied third party physical server or device.
- 2.2. "Hardware Appliance" means Hardware that is bundled with and operates the CA Software licensed by Ordering Activity and pre-installed on the Hardware.

### 3. APPLIANCE OFFERING

- 3.1. CA shall provide the Hardware Appliance specified in the Authorized CA Partner's order with CA.
- 3.2. The terms for license and support for the underlying CA Software is covered separately under the Software Module.

### 4. FEES

- 4.1. Ordering Activity may order Hardware Appliance with, and pay the associated fees and other charges to an Authorized CA Partner or Prime Contractor. CA will deliver to Ordering Activity the Hardware Appliance specified in the Authorized CA Partner's order with CA.
- 4.2. Upon CA's receipt of payment from the Authorized CA Partner, Ordering Activity will own the Hardware free of any liens or encumbrances.

### 5. WARRANTY

- 5.1. Upon the purchase of a Hardware Appliance, CA will pass through to the Ordering Activity the applicable Hardware warranty. Such warranty will be provided for a period of twelve (12) months or more depending on the type of Hardware Appliance purchased. A copy of the applicable third party support warranty coverage is available under the "Get Support" section of CA's Support website located at <https://support.ca.com>.

### 6. WARRANTY REMEDY

- 6.1. To address a warranty issue on the Hardware, CA will provide Ordering Activity telephone assistance to access the third party Hardware support to address support issues with the Hardware.
- 6.2. Except for procuring third party warranty coverage for the Hardware as described above, the Hardware is provided on an "AS IS" basis and CA makes no warranties, and disclaims any and all express or implied warranties (including but not limited to warranties of merchantability or satisfactory quality or fitness for a particular purpose), with respect to the Hardware. None of the warranties specified in the Foundation Agreement or any other agreement shall apply to the Hardware.

### 7. ORDERING ACTIVITY REQUIREMENTS

- 7.1. Ordering Activity is solely responsible for use of the Hardware, including assuring proper supported environment configuration, CA software installation, and operating methods in accordance with the Hardware specifications and Documentation.
- 7.2. CA will not support modifications to the Hardware nor will it support the Hardware if Ordering Activity fails to comply with the terms of the Agreement to the extent such failure causes the Hardware's failure to perform in substantial accordance with the applicable Hardware documentation.
- 7.3. CA shall have no obligation to replace the Hardware, or provide additional hardware, in cases where future Versions or Releases (as such terms are defined in the Software Module) of the CA Software require an upgrade of or addition to such Hardware.

### 8. GENERAL TERMS

- 8.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Hardware Appliance Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase

order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

## Channel Education Module U.S. Public Sector

### 1. INTRODUCTION

- 1.1. This Module for Education ("Education Module") specifies terms and conditions which apply to Education that CA will provide to Ordering Activity.
- 1.2. This Education Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Education Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

### 2. DEFINITIONS

- 2.1. "Attendees" mean the participants authorized by Ordering Activity to attend or participate in the Education offerings as indicated in the Transaction Document.
- 2.2. "Course Materials" means any Education content provided to Ordering Activity in any media form pursuant to a Transaction Document, including without limitation, all publications, courseware, training manuals and materials, user guides, web portals, or virtual labs provided by CA or a CA subcontractor.
- 2.3. "Education" means any standard or customized education offerings, training or instruction, or related services, provided by CA or a CA subcontractor in any format or location, including without limitation, (i) instructor led training, including at CA or Ordering Activity site(s), (ii) virtual training, including online classes, courses, or course catalogues and/or (iii) class room training or testing, at a CA or third party training facility.

### 3. EDUCATION OFFERING

- 3.1. CA shall provide the Education as specified in the Authorized CA Partner's order with CA.
- 3.2. CA may require the registration or pre-registration of Attendees in order to attend or access the applicable Education. Ordering Activity acknowledges that CA reserves the right to refuse entry or access to any individual that cannot authenticate their registration or authorization for such Education.

### 4. FEES AND CANCELLATION

- 4.1. The Parties acknowledge and agree that all terms governing the fees, payments, payment schedules, pricing and discounts for the applicable CA Offering procured by Ordering Activity under this Agreement are and shall be between solely Ordering Activity and their chosen Authorized CA Partner or Prime Contractor.
- 4.2. If CA cancels a class due to unforeseen circumstances, or low enrollment, CA will provide as much advance notice as possible but no less than ten (10) business days prior to the class in which case Ordering Activity may reschedule the class to an alternative time.
- 4.3. Cancellation in writing by Ordering Activity must be provided at least ten (10) business days prior to the class. If such notice is not given CA may charge Authorized CA Partner up to 100% of the fees for the class. If fees are pre-paid, no refund will be provided to the Authorized CA Partner.
- 4.4. Neither party shall be liable for any travel related fees or expenses incurred by the other party in relation to Education which such party has properly cancelled in compliance with this section.

### 5. INTELLECTUAL PROPERTY RIGHTS

- 5.1. CA grants to Ordering Activity, a non-exclusive, non-transferable license to use the Course Materials for the internal use of the Ordering Activity, but limited to the specific Attendees and subject to terms of the Agreement. Ordering Activity shall be responsible for all use of the Education and Course Materials by its Attendees.

### 6. WARRANTY

- 6.1. If CA provides an instructor, the delivery of the Course Offering shall be provided in a professional, workman-like manner.
- 6.2. EXCEPT AS SET FORTH IN THIS SECTION, NO OTHER WARRANTIES, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THIRD PARTY WARRANTIES, THE IMPLIED WARRANTIES OF MERCHANTABILITY OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.

### 7. WARRANTY REMEDY

7.1. In the event of a breach of the Warranty section, Ordering Activity's remedy shall be, at CA's discretion and in consultation with Ordering Activity, to re-perform the Education at no additional charge to the Ordering Activity. These remedies are contingent upon the alleged breach not resulting from Ordering Activity's failure to abide by its obligations or to conform to the Course Materials.

## **8. GENERAL TERMS**

Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this Channel Education Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

## Channel Software Module U.S. Public Sector

### 1. INTRODUCTION

- 1.1. This Module for CA Software ("Software Module") specifies terms and conditions which apply to CA Software that CA will license to Ordering Activity and the Support that applies.
- 1.2. This Software Module incorporates by reference the terms of the Foundation Agreement. Any capitalized terms used in this Software Module shall have the meanings given in the Foundation Agreement unless otherwise provided herein.

### 2. DEFINITION

- 2.1. "Access" means use of CA Software remotely by an Authorized End User.
- 2.2. "Authorized End Users" means Ordering Activity as well as its employees and support contractors (but excluding any outsourcer, facilities management providers, managed service provider, or application service provider) that are bound by terms and conditions no less restrictive than those contained herein and are acting on behalf of Ordering Activity and not a third party.
- 2.3. "Authorized Use Limitation" means the quantity of the CA Software authorized by CA in accordance with the License Metric specified in the order between CA and the Authorized CA Partner.
- 2.4. "CA Software" means the computer software programs, either provided individually or packaged as a software appliance, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable.
- 2.5. "Distributed" means the CA Software designated as distributed that is generally used for independent usage across individuals systems or hardware based on the Licensed Metric in a decentralized form of computing.
- 2.6. "Mainframe" means CA Software designated as mainframe that is generally used for a large capacity processor that provides links to users through less powerful devices such as workstations or terminals based on the Licensed Metric in a centralized form of computing.
- 2.7. "Maintenance" means the provision of new Releases made available while on active Support or new Versions if applicable to the generally available CA Software licensed by Ordering Activity.
- 2.8. "Perpetual License" means a license to use CA Software for an indefinite period subject to compliance with the Agreement.
- 2.9. "Release" means a general available release of a CA software product, which may contain minor new software product functionality, code, or compatibility and incorporates all previous fixes (if any exist) since the last Version. Typically, a Release requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Release is tied to the preceding Version and is typically designated by a number to the right of the decimal point such as 1.1, 1.2, 1.3, etc.
- 2.10. "Subscription" or "UMF" (Usage and Maintenance Fee) license means a license to use CA Software for a specific period of time which shall include Support unless otherwise specified by CA in its order with the Authorized CA Partner.
- 2.11. "Support" means the provision of technical support and Maintenance provided for a particular CA Software as specified in the Authorized CA Partner's order with CA.
- 2.12. "Territory" is the location where Ordering Activity is authorized to install the CA Software as specified in the Authorized CA Partner's order with CA or the Prime Contractor.
- 2.13. "Version" means a release of a CA Software Product that contains major changes in software product functionality, code, or compatibility and incorporates the previous release (if one has occurred), fixes and service Packs (if they have occurred). Typically, a Version requires a new installation, rather than an overlay to the already installed software. Unless otherwise specified by CA for a particular product, a Version is designated by the number to the left of the decimal point such as 1.0, 2.0, 3.0, etc.

### 3. SOFTWARE OFFERING & OBLIGATIONS

- 3.1. CA grants the Ordering Activity a limited, non-exclusive, non-transferable license, for the Term:
  - 3.1.1. install and deploy the CA Software in the Territory up to the Authorized Use Limitation.
  - 3.1.2. permit its Authorized End Users Access to the CA Software for Ordering Activity's and Affiliates' internal business wherever located. Ordering Activity hereby expressly agrees that a breach by an Authorized End User of the Agreement shall be considered to be a breach by and the responsibility of the Ordering Activity.

3.1.3. make a reasonable number of copies of the CA Software for disaster recovery “cold standby”, backup and archival purposes. Use of such copies is limited to testing Ordering Activity’s disaster recovery procedures and effectiveness and as is necessary during any reasonable period subsequent to the occurrence of an actual disaster during which Ordering Activity cannot operate the CA Software.

3.1.4. relocate CA Software to a new Ordering Activity location within the Territory upon prior written notice.

3.2. The specifications and specified operating environment information of the CA Software may be found in the Documentation accompanying the CA Software, if available (e.g., a user manual, user guide, or readme.txt or notice.txt file).

3.3. Upon request by CA, Ordering Activity agrees to provide records reasonably requested by CA to verify its compliance with the Authorized Use Limitation during the period in which Ordering Activity is licensed to use the CA Software and for a period of twelve (12) months after expiration including certified copies of statements or records as applicable. Such reports will be based on the License Metric for the CA Software ordered for Customer by CA.

3.4. The grant of license is contingent upon Ordering Activity’s compliance with the following obligations set out under this provision: Ordering Activity agrees, that it shall not: (i) access or use any portion of the CA Software not expressly authorized by CA or the Documentation of the CA Software; (ii) cause or permit de-compilation, reverse engineering, or otherwise translate all or any portion of the CA Software; (iii) modify, unbundle, or create derivative works of the CA Software and/or Documentation; (iv) rent, sell, lease, assign, transfer or sublicense the CA Software or use the CA Software to provide hosting, service bureau, on demand or outsourcing services for the benefit of a third party; (v) remove any proprietary notices, labels, or marks on or in any copy of the CA Software or Documentation; (vi) use the CA Software beyond the Authorized Use Limitation.

3.5. CA reserves the right, on reasonable notice to the Ordering Activity and subject to any security measures the Ordering Activity deems appropriate, to conduct an audit remotely or onsite of Ordering Activity and/or its Affiliates facilities to verify Ordering Activity’s compliance with the terms of the Agreement. CA agrees that such audit shall be conducted during regular business hours at Ordering Activity’s offices and CA shall endeavor to conduct such audit so as not to interfere unreasonably with Ordering Activity’s activities and/or use an independent third party to conduct the audit subject to terms of non-disclosure if required.

3.6. All rights not specifically granted hereunder are expressly reserved.

#### **4. SUPPORT OFFERING**

4.1. If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the CA Software, according to the Support specified in the Authorized CA Partner’s order with CA, to operate according to the Documentation, help desk support and Maintenance for the CA Software based on Support guidelines as described on <http://www.support.ca.com>.

4.2. In order to initiate an issue, Ordering Activity will provide CA sufficient information so that CA can provide assistance to Ordering Activity in a timely manner.

4.3. CA will provide a minimum of twelve months prior written notice to Ordering Activity if CA ceases to provide new Versions or Releases for a CA Software product.

4.4. CA will renew Support for Ordering Activity’s use of the CA Software upon its acceptance of an order with an Authorized CA Partner for such Support.

#### **5. THIRD PARTY TERMS**

The CA Software may contain third-party software components. Ordering Activities are advised to review any additional terms, notices, and/or information applicable to third-party software components, which are available at <https://support.ca.com/prodinfo/tptterms>.

#### **6. PERFORMANCE WARRANTY**

6.1. For Distributed Software. CA warrants that the CA Software will operate materially in accordance with the applicable specifications set forth within the Documentation for a period of ninety (90) days after delivery of the CA Software to Ordering Activity subject to Ordering Activity’s compliance with the Agreement.

6.2. For Mainframe Software. CA warrants that the Mainframe Software will operate materially in accordance with the applicable specifications set forth within the Documentation for the Term, subject to Ordering Activity’s compliance with the Agreement.

#### **7. PERFORMANCE WARRANTY REMEDY**

7.1. If CA has breached either warranty set forth in the section entitled: Performance Warranty, Ordering Activity’s remedy is for CA to, in consultation with Ordering Activity, to either (i) use reasonable efforts consistent with industry standards to cure the defect, or (ii) replace the CA Software(s) with one that materially complies with the Documentation, or (iii) mutually agree to terminate the license

and provide a pro-rata refund to the Authorized CA Partner of the license fees paid and or Support fees. If option (iii) applies, the pro-rata refund shall be calculated on the number of months left remaining on the Term of the applicable Transaction Document or if the CA Software is licensed under a Perpetual License, using (only for purposes of a refund calculation) an amortization schedule of three (3) years.

7.2. Warranty remedies are conditioned upon (i) any error or defect complained of is reasonably reproducible by CA, (ii) the CA Software is not modified and is being used in accordance with CA Documentation, and (iii) the breach is not attributable in whole or in part to any non-CA product(s) or service(s).

7.3. **THE ABOVE WARRANTIES ARE THE SOLE WARRANTIES PROVIDED BY CA. NO OTHER WARRANTIES, INCLUDING THAT THE CA SOFTWARE IS ERROR FREE, WHETHER EXPRESS OR IMPLIED, INCLUDING, WITHOUT LIMITATION, THE IMPLIED WARRANTIES OF MERCHANTABILITY, NONINFRINGEMENT, OR SUITABILITY AND/OR THE WARRANTY OF FITNESS FOR A PARTICULAR PURPOSE ARE MADE BY CA.**

## 8. ACCEPTANCE

8.1 All CA Software is deemed accepted upon issuance of an order to CA from CA Authorized Partner.

## 9. VIRTUALIZATION

When CA Software is used on multiple machines (physical and “virtual”), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation for that CA Software. A “virtual” PC or server environment is created where Virtual Machine Technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously.

## 10. NEW PRODUCT LANGUAGE AND DISTRIBUTED CA SOFTWARE EXCLUSION

10.1 In addition to and separate from unspecified upgrades and enhancements to be provided as maintenance under the initial Term specified in the order with Authorized CA Partner (together with any extension(s) or renewal(s) thereof, the “Term” for purposes of this section), in the event CA develops a new release of a mainframe CA Software that it designates and makes generally available as a new product (typically containing new functions in addition to or different from existing functionality (a “New Product”), then upon CA’s receipt of Ordering Activity’s written request and without additional charge, such currently unspecified mainframe New Product shall be made available for use by the Ordering Activity during the Term, on the same basis as applies to such mainframe CA Software, even if CA then determines to charge a separate license fee for the mainframe New Product to CA’s other licensees.

10.2 Such rights shall not extend to any Hardware provided under this Agreement. Notwithstanding anything to the contrary in the Agreement by and between the parties hereto (i) the Distributed CA Software herein shall not be construed as a “New Product” for the purposes of any prior agreement between the parties; and (ii) the provisions of any “New Product” provision in any prior agreement shall not apply to the distributed CA Software herein or any subsequent license for CA Software.

## 11. NIMSOFT ON PREMISE

11.1. **The following terms are modified or added for all Nimsoft transactions to the extent consistent with U.S. Federal law:**

11.1.1. **Section 2.4:** “Nimsoft Software” means the computer software programs, made generally available and licensed to a Ordering Activity under this Module, including all Versions, Releases, provided as part of Support if applicable.”

11.1.2. **Section 4.1:** “If Support is purchased by Ordering Activity, CA will provide Ordering Activity with technical support for the Nimsoft Software, according to the Support specified in the Authorized CA Partner’s order with CA, to operate according to the Documentation, help desk support and Maintenance for the Nimsoft Software pursuant to the following: <http://www.nimsoft.com/content/dam/nimsoft/documents/un-secure/agreements/nimsoft-us-support-agreement.pdf>.”

11.1.3. **Add as Section 15: “15. REPORTS.** Ordering Activity agrees to prepare and submit monthly reports to the CA Authorized Reseller and CA that shall include, without limitation, information detailing the use of the Nimsoft Software pursuant to the license metrics applicable to the Software (“Report”). Ordering Activity shall submit each Report to CA Authorized Reseller and CA on the fifteenth day of each calendar month.”

11.1.4. **Add as Section 16: “16. OVERAGE.** If the Report shows the Ordering Activity has exceeded the Authorized Use Limitation at any time during a month, such Report shall constitute the basis for a claim to the relevant Contracting Officer pursuant to the Contract Disputes Act and FAR 52.233-1. In no event may the Perpetual License or Subscription License quantity be lowered below the original number ordered.”

## 12. GENERAL TERMS

12.1. Any conflict or inconsistency among or between the terms and conditions of the documents comprising the Agreement shall be resolved according to the following order of precedence, in the order of the greatest control to the least: (1) U.S. Federal law, (2) this

Channel Software Module and (3) the Channel Foundation Agreement. Notwithstanding the foregoing, unless expressly required by U.S. Federal law in subcontracts for commercial information technology, neither an Ordering Activity issued purchase order, nor the terms of an order between Ordering Activity and the Authorized CA Partner or Prime Contractor, shall modify the terms of the documents indicated herein.

## **Attachment A to Channel Software Module Definitions and License Metrics**

### **APPLICABILITY**

**The following definitions and License Metrics shall apply to the CA Software licensed by Ordering Activity to the extent such terms and/or CA Software are included in Ordering Activity's agreement with Authorized CA Partner or Prime Contractor:**

#### **Arcot**

"Tier Servers" means single server of any tier up to and including Tier 9 Server. "Server" shall designate a specialized computer or a serial of processors assigned to store and to distribute information to and from Customer's personal computer (workstations). Linked to a company network, it enables a shared access to the files and a printing service support. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

#### **CA Access Control Premium Edition**

"Managed Device" means a virtual or physical machine to which the CA Software controls access.

#### **CA Access Control Privileged User Password Management (PUPM)**

"Managed Device" means a virtual or physical system or application whose privileged account passwords are being managed by the CA Software, including but not limited to operating system instances, databases, applications, Command Line Interface Software Development Kits, Open Database Connectivity/Java Database Connectivity applications, Windows services and managed tasks, and managed configuration files. When CA Software is used (i) in connection with a Managed Device or (ii) in connection with a virtual or physical system or application that leverages or interoperates with a Managed Device (a "Password Consumer System or Application"), each such use of the CA Software shall be counted for the purposes of determining the Authorized Use Limitation.

#### **CA Automation Suite for Data Centers**

A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores. CA Configuration Automation program is included in the delivery of CA Automation Suite for Data Centers for use in server environments managed under CA Automation Suite for Data Centers license. Use of this program with server environments not managed by CA Automation Suite for Data Centers requires a separate license for additional fees. Systems Performance for Infrastructure Manager (SystemEDGE) and Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Automation Suite for Data Centers for use only with this product. Use of these components with other CA products requires a separate license for additional fees. CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees. CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Automation Suite for Data Centers. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees. CA Process Automation program is included in the delivery of CA Automation Suite for Data Centers. CA Process Automation includes two Orchestrators, all non-Premium Connectors, unlimited Agents and 75 Concurrent Processes per Orchestrator. Additional Orchestrators and Premium Connectors are available as an add-on option at additional cost. "Agent" means a single installation of the agent software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. "Orchestrator" means a single installation of the Orchestrator software component of the CA Process Automation program on a specific operating system which can be identified as unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator. "Connector" is the software program connecting the CA Process Automation program with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program. "Premium Connector" means a Connector identified by CA in the Order Form. "Process instance" means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular "Orchestrator".

"Concurrent Processes" means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

### **CA AutoSys Workload Automation**

"Instance" means the number of copies of CA AutoSys Workload Automation installed in your physical and/or virtual environment.

### **CA Clarity Project & Portfolio Manager**

"CA Software" means the CA Clarity Project and Portfolio Manager (also known as CA Clarity PPM). CA Clarity PPM is licensed by Environment and the number of Users (Manager, Team Member or Viewer). Customer is granted the right to install and use CA Clarity PPM in not more than three (3) Environments, of which only one (1) may be a production Environment. An "Environment" can consist of any or all of the following, provided that all of the servers in the Environment function as one logical Environment: one or more application servers, search servers, report servers, background servers, and/or database servers. Typical examples of Environments include production Environments, development Environments and test Environments. A production Environment is a computer system used to process an organization's daily work on a real-time operation, not systems used only for development and testing. "Manager User" means Customer's designated users who have full use of and access to the functions within CA Clarity PPM. "Team Member User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM, and may only (i) view data and run reports in all licensed products; (ii) collaboratively participate in processes, discussions and document sharing and receive notifications in all licensed products; (iii) view project tasks and calendars, and report and approve time and project status; and (iv) enter and view status of ideas. "View Only User" means Customer's designated users who have limited rights to the functions within CA Clarity PPM and may only (i) view data and run reports; (ii) originate idea workflows, and participate in the continuation of those workflows.

### **CA Client Automation**

A "Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer or laptop computer, used by an end-user as part of their job function to access data, applications and resources, that is administered or managed by CA Client Automation by way of a management infrastructure, whether a CA management agent resides on the system or not. This includes laptops, desktops and virtual desktops running Windows, Macintosh and Linux operating systems, and it excludes Windows Servers, Linux Servers and UNIX systems. The management infrastructure components, such as Domain Manager, Scalability Server, and System Engine, that run on server platforms do not require a separate license, except if these systems themselves are being managed by an active agent for purposes other than serving as the CA Client Automation management infrastructure.

CA Client Automation consists of:

CA IT Client Manager

CA Patch Manager

CA Desktop Migration Manager

CA Asset Intelligence

CA Workflow for CA IT Client Manager (it is included in the delivery of CA Client Automation for use only for automating workflows inside CA Client Automation and between CA Client Automation and other software programs)

### **CA Configuration Automation:**

The CA Software is licensed by the number of Physical Sockets. A "Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

### **CA Database Performance**

CA Database Performance is licensed by the number of CPUs when used as a distributed product. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. With the Authorized Use Limitation as "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with databases monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with databases monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.
2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing database(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.
3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

CA Systems Performance for Infrastructure Managers (formerly known as "CA SystemEdge") is a separate program included in the delivery of CA Database Performance. Customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

#### **CA DLP**

CA DLP includes CA DLP Enterprise Suite, CA DLP Platform & Surveillance, CA DLP Endpoint, CA DLP Stored Data, CA DLP Message Server and CA DLP Network. CA DLP Network and CA DLP Enterprise Suite (which includes CA DLP Network) require and may only be used on a licensed CA DLP Network Appliance.

"CA DLP Network Appliance" means the hardware that operates the CA DLP Network. "User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless specified on the Order Form, a User shall not be counted more than once on a concurrent basis. If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>.

#### **CA Enterprise Log Manager**

"Agent" means a single installation of the agent software on a specific operating system instance which can be identified as a unique host identification on a hardware server. A hardware server may have multiple operating system instances installed on it (through partitioning or virtualization). Each instance of the operating system on a partitioned/virtualized server must license an agent if required for job scheduling purposes. "Node" means, in a communications system, a network junction or connection point. Any system or device connected to a network is also called a node or cluster. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

#### **CA ESP Workload Automation**

(MIPS Based license. Operating System is IBM z/OS)

CA ESP Workload Automation is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. In the event that any particular computer is not accounted for on CA's schedule, the manufacturer's published specification of MIPS capacity shall control. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

## **CA Fast Unload for Distributed Databases:**

The CA Software is licensed by the number of servers. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

### **CA Federation Manager:**

(a) "Federate" means to link or bind two or more entities together, enabling identity, account, attribute, authentication, and authorization federation across different trust realms.

(b) "Federation" means a relationship or an association between a specific system entity's identified users, partners or accounts.

(c) "Federation Partner" means an internal or external entity (i) for which a unique federation configuration is required in order to join a Federation, and (ii) with whom Customer interoperates using Federation Manager, with or without SAML AA.

(d) "Federation Partnership Licensee" means the Federation Partner designated by Customer as licensed to use SAML AA or Federation Manager in accordance with the provisions of the Agreement and who has agreed in writing to Customer terms and conditions substantially similar to the Federation Manager and SAML AA license provisions contained herein, as well as the confidentiality provisions contained in the Agreement. Such Federation Partnership Licensee shall not have any right to further copy, distribute, or otherwise transfer such software or any rights therein, notwithstanding any provision of the Agreement to the contrary. With regard solely to such Federation Partner's use of the Licensed Programs in accordance herewith, the term "Customer" in the Agreement includes such Federation Partner.

(e) "Federation User" means any user who is allowed to use a Federation via the specific configuration of Federation Manager that Customer deploys. A Federation User shall not be counted more than once or on a concurrent basis.

### **CA GEN ENC Cross-Gen Opt Linux**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

### **CA GEN Implementation Toolset**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

### **CA GEN TRANSACTION Enabler**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

### **CA GEN TRANSACTION Enabler User Fnl**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

## CA GEN WRKSTN Cross-Gen Linux

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. "User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Non Tier Servers" means single server of any tier up to and including Tier 9 Server.

### CA Identity Manager

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA Identity Manager. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Identity Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Identity Manager separately licensed by such contractor. "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Identity Manager separately licensed by such vendor or partner.

### CA Infrastructure Insight

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

- a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.
- b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces ( $50/5 = 10$  licenses while  $600/200 = 3$  licenses).

CA Infrastructure Insight consists of CA Spectrum Infrastructure Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Insight for use only for monitoring the databases included in CA Infrastructure Insight. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Insight for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Insight. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>.

### CA Infrastructure Management

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

- a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.
- b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces ( $50/5 = 10$  licenses while  $600/200 = 3$  licenses).

CA Infrastructure Management consists of CA Spectrum Infrastructure Manager, CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Management for use only for monitoring the databases included in CA Infrastructure Management. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Management for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Management. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>.

## CA Infrastructure Performance

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines, but excluding endpoint devices such as IP telephones. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

- a. For network-connected devices, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.
- b. For network-connected devices, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces ( $50/5 = 10$  licenses while  $600/200 = 3$  licenses).

CA Infrastructure Performance consists of CA eHealth Performance Manager and CA NetQoS ReporterAnalyzer.

CA Database Performance is included in the delivery of CA Infrastructure Performance for use only for monitoring the databases included in CA Infrastructure Performance. Full functionality of CA Database Performance to monitor other databases requires a separate license for additional fees.

CA Systems Performance for Infrastructure Managers is included in the delivery of CA Infrastructure Performance for use only for provisioning and performance monitoring of the systems that are running CA Infrastructure Performance. Full functionality of CA Systems Performance for Infrastructure Managers requires a separate license for additional fees.

If an Appliance is included with the CA Software, Support for a CA-provided physical server platform hardware appliance which is bundled with and used to operate one or more pre-installed licensed CA software products is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>.

### CA Insight Database Performance Manager

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer. CA Systems Performance for Infrastructure Managers (formerly known as "CA System Edge") Limited Use, is a separate program included in the delivery of CA Insight Database Performance Manager. The customers can use this program only for communication with other CA Technologies tools and/or monitoring CA Technologies Software systems only. Full functionality of the program to monitor and manage servers requires a separate license with additional fees.

### CA IT Asset Manager

"CA Software" means the CA IT Asset Manager and CA Software Compliance Manager. A "Managed System" is any physical or virtual desktop, laptop, server, and tablet computer that may be tracked and/or managed by the CA Software, based upon user-supplied unique designations to identify such computers, regardless of use purpose including non-production, spares, or disaster recovery. If the optional component CA Software Compliance Content Subscription is listed on the applicable Order Form, Customer is granted a term license to use such content with CA Software Compliance Manager or CA IT Asset Manager beginning on the Term Start Date and ending on the Term End Date. The subscription fees for CA Software Compliance Content Subscription include the right to receive content updates during the Term of the content subscription. Such license for CA Software Compliance Content Subscription shall renew at the option of the Ordering Activity and be extended for successive periods equivalent to the original subscription Term, subject to the parties' agreement concerning fees to be paid during each such extended term. Use of the CA Software is limited as to several components included unless separately licensed. Software technology for Software Distribution, Remote Control and Asset Discovery and Inventory (CA IT Client Management) are included with CA Software Compliance Manager and CA IT Asset Manager, however the only authorized use is the ability to import Microsoft SMS 2003 or Microsoft System Center Configuration Manager 2007 through the CA Asset Converter for Microsoft SMS, importing inventory from other third party discovery tools using the Asset Collector technology and CA IT Client Manager technology. Explicitly, Customer is not licensed to use the software distribution, remote control technologies as well as the full asset inventory and discovery agents. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with any laws (including but not limited to any act, statute, regulation, requirement, rule, standard, directive, administrative order, executive order, etc. (collectively, "Laws")). Customer should consult with competent legal counsel regarding any such Laws. Use of the CA Software or CA Software Compliance Content Subscription is not a substitute for Customer's compliance with its contractual obligations. The CA Software and CA Software Compliance Content Subscription require Customer to (i) manually or electronically enter or (ii) make decisions regarding software license data and other information for purposes of tracking authorized use, compliance with its software license contractual obligations and other information ("Data Entry"). Notwithstanding the provisions of any warranty to the contrary, CA makes no warranty with respect to the CA Software or CA Software Compliance Content Subscription failure, error, omission or inaccuracy to the extent that any such failure, error, omission or inaccuracy relates, in whole or in part, to Data Entry errors, omissions, decisions, inaccuracies, misinterpretations or otherwise.

### CA IT Client Manager

"Managed System" is any physical or virtual computer system that can host an operating system, including, but not limited to, a desktop computer, server, or laptop computer, that is administered or managed by the CA Software (IT Client Manager / IT Inventory Manager) by way of a CA management agent, whether it resides on the asset or not. A "Non-CA managed system" has their inventory gathered by a non-CA management agent; however, the information about that asset is still stored in the Management Database (MDB). This asset information may have been obtained using the SMS Connector or Asset Collector. If Customer is licensed for CA IT Client Manager Patch Subscription, Customer is granted a term license to use such program with CA IT Client Manager beginning on the Term Start Date and ending on the End Date for the subscription term. The term license for the CA IT Client Manager Patch Subscription shall renew at the Ordering Activity's option and be extended for successive periods equivalent to the original term, subject to the parties' agreement concerning fees to be paid during each extended term.

### CA Mainframe for IBM Rational Developer for System z Unit Test (CA Mainframe Suite for RDz UT):

- a) Additional license rights to the CA software program(s) referenced below ("CA Software") are provided under the following terms and conditions in addition to any terms and conditions referenced (i) on the Order Form entered into by you and the CA entity ("CA") through which you obtained a license for the CA Software and (ii) in the software license agreement between you and CA for the CA Software. These terms shall be effective from the effective date of the Order Form.
- b) **Program Name:** CA Mainframe Suite for IBM Rational Developer for System z Unit Test ("RDz UT")

**c) Specified Operating Environment**

The license rights set forth herein apply only to CA Software separately licensed from CA for the z/OS environment and for use hereunder only in the IBM RDz UT environment.

**d) CA Software**

**CA Software for IBM RDz UT Environment:**

|                                                                                                                                                                 |
|-----------------------------------------------------------------------------------------------------------------------------------------------------------------|
| CA 1™ Tape Management, CA TLMS® Tape Management                                                                                                                 |
| CA ACF2™, CA ACF2™ Option for DB2                                                                                                                               |
| CA Aion® Business Rules Expert                                                                                                                                  |
| CA Auditor for z/OS, CA Cleanup                                                                                                                                 |
| CA Bundl®                                                                                                                                                       |
| CA Cleanup                                                                                                                                                      |
| CA Compliance Manager for z/OS                                                                                                                                  |
| CA Database Management for DB2 for z/OS                                                                                                                         |
| CA Database Management for IMS for z/OS                                                                                                                         |
| CA Datacom®                                                                                                                                                     |
| CA Deliver™                                                                                                                                                     |
| CA Disk™ Backup and Restore                                                                                                                                     |

#### e) Licensing Model and Terms

The license rights set forth herein authorize you to use CA Software for which you are separately licensed only in the IBM RDz UT environment for non-production purposes. During the term of this license, you must also be licensed to use the IBM RDz UT environment. Use of the CA Software in any other environment or in the RDz UT environment for production purposes is expressly prohibited. This restriction does not change your existing license rights to use the CA Software in a production environment. A production environment is a computer system used to process an organization's daily work on a real-time operation and is not a system used only for development and testing. During the term of this license, if you license additional CA Software, the license rights granted herein apply to such subsequently licensed CA Software.

The license rights are provided on a "per Seat" basis. "Seat" means a single person or identity whose access and use rights can be authenticated, authorized, or administered, or who has the ability to view content aggregated or managed by the CA Software. In general, a Seat shall not be counted more than once or on a concurrent (logged-in) basis. One Seat license shall authorize you to use any of the CA Software for which you are separately licensed in the RDz UT environment. The term of this license (the "Term") is the lesser of: (i) one (1) year; (ii) the term end date for the applicable separately licensed CA Software; or (iii) the term end date for your use of the IBM RDz UT environment. Any termination under clauses (ii) or (iii) immediately above shall not result in refund of any license fees paid hereunder. Subject to the limitations set forth in clauses (i) (ii) and (iii) immediately above, any renewal or extension of the license term for the separately licensed CA Software or the IBM RDz UT environment, as the case may be, shall continue the Term of this agreement for the period identified above. If you have multiple CA Software products with different term end dates, the license rights granted herein terminate as to each specific CA Software product in the lesser of one (1) year or when the applicable term license for such CA Software ends. Termination of license rights hereunder shall not terminate your license to any CA Software product.

CA does not provide support for the CA Software in the RDz UT environment. Any issues with the CA Software in the RDz UT environment must be reproduced by you in the z/OS environment and reported as such through CA Technologies normal support process for the CA Software.

#### CA NetQoS NetVoyant

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.

2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces ( $50/5 = 10$  licenses while  $600/200 = 3$  licenses).

### **CA NetQoS Reporter Analyzer**

"Device" means a network-connected device that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, physical servers, single-flow interfaces, and physical machines. Endpoint devices used solely as IP telephones are not considered to be Devices, unless the CA Software is specifically licensed by the number of phones. For the purposes of CA NetQoS Unified Communication Monitor only, endpoint devices used solely as IP telephones are considered to be Devices. When the Authorized Use Limitation is "Device", the calculation with respect to the number of Licenses is determined as follows:

1. For network-connected devices, in non-virtual server environments, for any device with up to five (5) IPflow interfaces, count the number of devices. For any device with greater than five (5) IPflow interfaces, count the total number of IPflow interfaces. Divide the number of IPflow interfaces by five (5) and round up to the next whole number.
2. For network-connected devices, in non-virtual server environments, for any device with up to two hundred (200) ports, count the number of devices. For any device with greater than two hundred (200) ports, count the total number of ports. Divide the number of ports by two hundred (200) and round up to the next whole number.

For avoidance of doubt, when a single network-connected device, in non-virtual environments, has greater than five (5) IPflow interfaces and greater than two hundred (200) ports, the device is included in the license count that results in the highest number of licenses. For example, a device with fifty (50) IPflow interfaces and six hundred (600) ports would be included in the license count based upon the number of IPflow interfaces ( $50/5 = 10$  licenses while  $600/200 = 3$  licenses).

### **CA RegFort:**

CA RegFort is licensed by the number of Users or Issuance.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RegFort or who has the ability to view content aggregated or managed by CA RegFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

"Issuance" means any activity in the life cycle of a Public Key Infrastructure credential that is managed by CA RegFort, including, but not limited to, creation of a new credential, revocation, renewal, re-issue or update of the credential.

"RegFort Client" means a portion of CA RegFort which enables end-users to interface with smartcards and tokens.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute RegFort Client to end-users. Customer may use Customer's logo and name with the RegFort Client. No title to or ownership of the RegFort Client is transferred to Customer.

### **CA RiskFort:**

CA RiskFort is licensed by the number of Users.

"User" means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA RiskFort or who has the ability to view content aggregated or managed by CA RiskFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

## **CA Role and Compliance Manager**

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA Role and Compliance Manager may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA Role and Compliance Manager separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA Role and Compliance Manager separately licensed by such vendor or partner.

## **CA Server Automation**

"Physical Socket" means an electrical component attached to a printed circuit board ("PCB") and electrically interconnects a central processing unit ("CPU") and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

CA Systems Performance for Infrastructure Manager (SystemEDGE) and CA Virtual Assurance for Infrastructure Manager AIMS components are included in the delivery of the CA Server Automation for use only with this product. Use of these components with other CA products requires a separate license for additional fees.

CA IT Client Management solution consists of CA Software Delivery, CA Asset Management, CA Remote Control programs and is included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

CA Asset Intelligence and CA Patch Manager programs are included in the delivery of the CA Server Automation. Customer may only use these components to manage server class machines, including virtual machines. Use of these programs for managing desktops, laptops and other client devices requires separate licenses for additional fees.

## **CA Service Desk Manager**

"CA Software" and "SDM" mean the CA Service Desk Manager – Analyst License, CA Service Desk Manager - Full License, or CA CMDB Manager Servers described herein in object code form. CA Service Desk Manager-Full License and CA Service Desk Manager-Analyst License are licensed on a Concurrent Analyst basis. In CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, the authorized users are assigned various roles based upon the functions needed to accomplish designated tasks. "Concurrent Analyst", in the context of CA Service Desk Manager, means a software license that is based on the number of simultaneous (concurrent) users accessing the program. For the purpose of SDM, all roles (for example: Analyst, Manager, Administrator), and programmatic API and/or web services calls require a license. The Software does not prohibit additional users from access, but does log a license exception for auditing purposes. Customer is entitled to have the specified number of Concurrent Analysts access CA Service Desk Manager simultaneously. For CA Service Desk Manager-Full License, CA Service Desk Manager-Analyst License, You are also licensed for End-User Self-Service, which is granted to the employee and customer roles to allow for the creation, modification, and closure of a ticket on their own behalf, but not on behalf of someone else. CA Service Desk Manager-Full License includes a limited entitlement to CA Cohesion, and use of CA Cohesion is restricted to a maximum of one hundred (100) Managed Servers. Use for additional Servers requires additional licenses for CA CMDB Managed Server. CA Service Desk Manager-Analyst License does not include the CA Cohesion entitlement. CA CMDB Managed Servers is licensed by the number of Servers. "Managed Servers" means a virtual or physical Server managed by CA Software. "Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

CA Service Desk Manager includes a limited entitlement to CA Business Intelligence. This entitlement is restricted to use within the context of reporting for SDM only. Specifically, SDM reports created using CA Business Intelligence may access and incorporate data created by, derived from, or used by SDM or third party data sources, provided that such data facilitates or augments data for Customer's use of SDM.

CA Service Desk Manager includes a limited entitlement to CA Process Management for Workflows. This entitlement is restricted to use within the context of Workflows associated with SDM only. This entitlement includes: the Service Desk Manager connector; three (3) Custom Operators; and five (5) Agents. This entitlement does not include any Premium Connectors. Multiple Orchestrators can be deployed with the constraints specified herein. There are no license limitations on the number of concurrent processes per Orchestrator.

For the purpose of CA Process Management for Workflows, "Agent" means a single installation of the agent software component of the CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

For the purpose of CA Process Management for Workflows, "Connector" is the software program connecting CA Process Management for Workflows with specifically named third-party software or other CA software. For example, "CA Process Management for Workflows Connector for CA Service Desk Manager" connects CA Process Management for Workflows with CA Service Desk Manager. Each Connector may only be used to connect the CA Software with the specific named third-party software or CA software program.

For the purpose of CA Process Management for Workflows, "Custom Operator" means a type of automation object within the CA Process Management for Workflows that can be created to enhance, modify, or restrict the capabilities of an existing "Connector".

For the purpose of CA Process Management for Workflows, "Orchestrator" means a single installation of the Orchestrator software component of CA Process Management for Workflows on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

## **CA SiteMinder**

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis. An "Internal User" is an intranet User defined as an employee or contractor of the Customer. CA SiteMinder may be used for Customer's internal use only, by the Internal Users on Customer's local area network and client/server system or a HTTP-based Web server infrastructure. Internal Users licensed hereunder may not be aggregated by a Customer contractor with any users of CA SiteMinder separately licensed by such contractor. An "External User" is either an extranet or internet User defined as an employee of Customer's authorized third parties, which may be Customer's customers, clients, or consumers, on internet website(s) owned by, or under the control of, Customer. External Users licensed hereunder may not be aggregated by a Customer's vendor or business partner with any Users of CA SiteMinder separately licensed by such vendor or partner.

CA SOA Security Manager  
"Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase, or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. "End point" means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the CA Software or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

## **CA SOA Security Manager with Gateway**

CA SOA Security Manager is licensed in number of Secured Web Services and Users. CA SOA Security Gateway is licensed in number of Instances. "Secured Web Service" means a software system designed to support interoperable machine-to-machine interaction over a network which needs to be secured from unauthorized access, software routines or components that is or are intended to disable, erase,

or otherwise harm software, equipment, or data, or cause other similar damage. This web service can be a URI or web services End point defined in a WSDL file. "URI" (Uniform Resource Identifier) means a compact string of characters for identifying an abstract or physical resource. "End point" means a specific location for accessing a web service using a specific protocol and data format. "WSDL" (Web Service Definition Language) means an XML (Extensible Markup Language) format for describing network services as a set of endpoints operating on messages containing either document-oriented or procedure-oriented information. "User" means a single person, application or identity listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA SOA Security Manager or who has the ability to view content aggregated or managed by CA SOA Security Manager. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis. "Installation" means the number of copies of CA SOA Security Manager installed in the Customer's physical and/or virtual environment.

### **CA Spectrum Infrastructure Manager**

"Managed Network Device" means a virtual or physical network-connected device with less than 200 ports that is managed by CA Spectrum Infrastructure Manager and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

### **CA Spectrum Service Assurance**

"Site" or "Installation" means use of CA Spectrum Service Assurance in a data center comprised of one or more CPUs conforming to the following conditions: Two or more CPUs will be considered part of the same site if (i) the CPUs are located in a single building, (ii) each CPU shares access to data storage and peripheral devices with one or more of the other CPUs without requiring any programming interface to another CPU, and (iii) the CPUs function as a data processing facility under common data processing operations supervision. Use of CA Spectrum Service Assurance on two or more CPUs will be considered multiple and separate sites if all of the foregoing conditions of a single site are not satisfied, regardless of (i) whether they occupy different floors or locations in the same building or share the same mailing location address, or (ii) the extent to which the CPUs are integrated within a network or serve a functional role as part of a larger data processing organization. Customer is granted the right to deploy CA Spectrum Service Assurance at the Sites with the addresses listed in the Order Form. Customer may change and amend the addresses of the Sites by notice to CA providing that the total number of Sites listed does not exceed the number listed in the Order Form. "Connection" means a data source indicated by CA Spectrum Service Assurance to have a connector status of "Online". A Connection may consist of a connection to a CA Software product (i.e. CA Wily, CA Spectrum), a third party product (i.e. HPOV), or a custom application. "Data source" means any software application that provides data to CA Spectrum Service Assurance.

### **CA SYSVIEW for CA Wily APM**

Customer is granted a limited license to use CA SYSVIEW for CA Wily APM solely for the integration with CA Wily APM or CA Wily Introscope 8.2 or above ("CA Wily"). With this license, Customer is only authorized to install, configure and use CA SYSVIEW for CA Wily APM components to support its authorized use with CA Wily to provide mainframe performance metrics to CA Wily and trace transactions tagged by CA Wily that perform activity on the mainframe. Customer may not use CA SYSVIEW for CA Wily APM for other purposes. Any additional use requires a separate non-restricted license. In the event Customer chooses to increase its Authorized Use for CA Wily, Customer must also increase its Authorized Use for CA SYSVIEW for CA Wily APM and pay all applicable additional license and maintenance fees related thereto in order to use CA SYSVIEW for CA Wily APM with such increased CA Wily capacity. Additional use of CA Wily without obtaining a separate non-restricted license may be the basis for filing a claim with the relevant Contracting Officer under the Contract Disputes Act and FAR 52.233-1.

### **CA TSreorg for Distributed Databases**

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

## CA Virtual Assurance

“Physical Socket” means an electrical component attached to a printed circuit board (“PCB”) and electrically interconnects a central processing unit (“CPU”) and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

If an Appliance is included with the CA Software, Support for an Appliance is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>.

## CA Virtual Automation

“Physical Socket” means an electrical component attached to a printed circuit board (“PCB”) and electrically interconnects a central processing unit (“CPU”) and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

## CA Virtual Configuration

“Physical Socket” means an electrical component attached to a printed circuit board (“PCB”) and electrically interconnects a central processing unit (“CPU”) and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

## CA Virtual Performance Management (CA VPM)

“CPU” or “Processor” means central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A Processor may not exceed a maximum of 12 processing cores.

## CA WebFort:

CA WebFort is licensed by the number of User Credentials and Users.

“Credential” means an attestation of qualification, competence, or authority issued to a User by the CA Software.

“User” means a single person, or identity, listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by CA WebFort or who has the ability to view content aggregated or managed by CA WebFort. In general, a user shall not be counted more than once or on a concurrent (logged-in) basis.

“User Credentials” means the number of Credentials set forth on the Order Form to be issued to the Users who are authorized to access and use CA WebFort. Each User may have more than one credential for different verification methods.

“ArcotID Client” or “ArcotOTP Client” means portions of CA WebFort which enable end-users to use the ArcotID and ArcotOTP credentials.

Limited License Grant. In addition to the rights granted in the applicable license agreement, CA grants Customer and its affiliates a nonexclusive license to distribute the ArcotID Client or ArcotOTP Client to end users. Customer may use Customer’s logo and name with the ArcotID Client or ArcotOTP Client. No title to or ownership of the ArcotID Client or ArcotOTP Client is transferred to Customer.

## CA Wily Application Performance Management v9 (CA WilyAPMv9)

CA Wily APMv9 is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously (“Virtual Machine Technology”). When the

Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.
2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.
3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

CA Wily Transaction Impact Monitor (“TIM”) “Software Appliance” means the software running TIM on Customer’s network feed to capture http/https transactions necessary for the Customer Experience analysis portion of CA Wily APMv9. Customer is responsible for providing hardware on which to run the TIM Software Appliance that meets CA’s specifications. Customer must license a copy of the TIM Software Appliance for each physical server (regardless of the number of CPUs) on which a TIM Software Appliance will be installed and configured.

### **CA Wily Application Performance Management (CA Wily APM)**

CA Wily APM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously. When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.
2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.
3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by CA Wily APM.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single Appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily APM at no additional charge.

### CA Wily Customer Experience Manager (CA Wily CEM)

CA Wily CEM is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units (“MSUs”) and number of System z Application Assist Processors (“zAAPs”) and number of System z Integrated Information Processors (“zIIPs”) or (b) number of integrated facilities for Linux (“IFLs”), when used in the mainframe environment. “CPU” means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously (“Virtual Machine Technology”). When the Authorized Use Limitation is “CPU” or “Processor”, the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.
2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.
3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is “MSUs”, “zAAPs”, or “zIIPs” (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the zAAPs shall be calculated by totaling the number of zAAP engines attached to such LPARs, and (iii) the zIIPs shall be calculated by totaling the number of zIIP engines attached to such LPARs. An “LPAR” means the division of a computer’s processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications.

When the Authorized Use Limitation is “IFLs”, the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

An Appliance is a CA-supplied physical server (“Hardware”) that is bundled with and used to operate the CA Software licensed by Customer which is pre-installed on the Hardware. Support is provided in accordance with the CA Appliance Hardware Policy published on CA Support Online located at <http://support.ca.com>. Customer must acquire at least one license (per CPU, MSU or IFL) in order to purchase a CA Wily Transaction Impact Monitor (“TIM”) or CA Wily Transaction Event & Statistics Server (“TESS”). Both a TIM and a TESS are required for any production installation. CA Wily Solutions for Lab Environments (“Wily LAB”) is a single appliance that contains TIM and TESS capabilities but is not supported for a production environment. The Wily LAB system includes one CPU license for CA Wily CEM at no additional charge.

## CA Wily Introscope

CA Wily Introscope is licensed by (1) the number of CPUs when used as a distributed product or by (2)(a) millions of service units ("MSUs") and number of System z Application Assist Processors ("ZAAPs") and number of System z Integrated Information Processors ("ZIIPs") or (b) number of integrated facilities for Linux ("IFLs"), when used in the mainframe environment. "CPU" means a central processing unit which is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. A dual-core central processing unit is considered a single CPU. Note that because of the use of multi-core CPUs and virtual server environments, the calculation of CPUs for licensing purposes described below will not always equate to the number of physical CPUs in the environment. A virtual server environment is created where virtual machine technology (which applies to both client and server hardware) is used to enable multiple instances of an operating system(s) to run on a single computer simultaneously ("Virtual Machine Technology"). When the Authorized Use Limitation is "CPU" or "Processor", the calculation with respect to the number of CPUs on an individual server is determined as follows:

1. For non-virtual server environments, for any server with applications monitored by the CA Software with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with applications monitored by the CA Software with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number.
2. For virtual server environments, for any server with single CPUs (including, for the avoidance of doubt, dual-core CPUs), count the number of CPUs. For any server with greater than dual-core CPUs, count all cores of the CPUs. Divide the number of cores by two (2) and round up to the next whole number. Determine the maximum percentage of the server CPU capacity that is allocated by the Virtual Machine Technology to any operating system instance containing application(s) monitored by the CA Software, and multiply this percentage by the number of CPUs. Multiply the resulting number by one and a half (1.5X) and round up to the next whole number.
3. For mixed server environments, for each server perform the calculations for CPUs as set forth above in subparagraphs (1) and (2) and add these amounts together to determine the aggregate number of CPUs.

When the Authorized Use Limitation is "MSUs", "ZAAPs", or "ZIIPs" (i) the MSUs shall be calculated by totaling the MSU capacity for all logical partitions, or LPARs, that run an application monitored by the CA Software, (ii) the ZAAPs shall be calculated by totaling the number of ZAAP engines attached to such LPARs, and (iii) the ZIIPs shall be calculated by totaling the number of ZIIP engines attached to such LPARs. An "LPAR" means the division of a computer's processors, memory, and storage into multiple sets of resources so that each set of resources is operated independently with its own physical or virtual operating system instance and applications. When the Authorized Use Limitation is "IFLs", the IFLs shall be calculated by totaling the number of IFL engines that run an application monitored by the CA Software.

## CA Workload Automation

"Instance" means the number of copies of the CA Software installed in the Customer physical and/or virtual environment.

## CA XCOM Data Transport for Windows Family Server

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

## CA eHealth Performance Manager

"Managed Network Device" means a virtual or physical network-connected device with less than 200 ports that is managed by the CA Software and uses an Internet Protocol ("IP") address, including but not limited to IP and hybrid telephony devices, routers, appliances, hubs, virtual or physical servers, and virtual or physical machines, but excluding endpoint devices such as IP telephones.

## Mainframe CPU CA Software only

The CA Software is licensed by the specified number and model of CPU (the "Authorized Use Limitation"). "CPU" shall mean the central processing unit(s) capable of running the CA Software. Customer may only use CPUs specified when licensing the licenses herein and upon which the CA Software is installed and runs ("Designated CPUs"). Customer may change the Designated CPU on providing written notice to CA provided that such replacement CPU is of the same or lower CPU tier/power rating to the Designated CPU (save that Customer may

require an authorization key from CA in order to commence use of such CPU). Should Customer wish to add to the number of Designated CPUs or upgrade the then current Designated CPU(s) to a CPU with greater tier/power rating, Customer may elect to do so by providing CA with prior written notice of such additional CPU and/or upgrade to the Designated CPU(s) and by executing an order form to effect such addition/change and purchasing the applicable license.

#### **Mainframe MIPS CA Software only**

The CA Software is licensed by the specified number of MIPS (the "Authorized Use Limitation in MIPS"). "MIPS" means millions of instructions per second. The MIPS capacity of a computer shall be calculated by reference to CA's published schedules of the MIPS capacity and if a computer isn't listed then the manufacturer's published specifications should apply. Further, in the event a special purpose processor, designed to perform one or more dedicated functions, is being used as a general purpose processor, CA shall treat such processor as a general purpose processor for purposes of calculating Authorized Use Limitation in MIPS. "Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated. Customer may use the CA Software only on the specific computers upon which the CA Software is installed to run at the Customer Site or on computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software, subject to the aggregate MIPS capacity not exceeding the Authorized Use Limitation in MIPS.

#### **Mainframe MSU CA Software only**

The CA Software is licensed by the specified number of MSU (the "Authorized Use Limitation in MSU"). "MSU" means millions of service units. The MSU capacity shall be calculated with the aggregate computing power (expressed in millions of service units) by reference to CA's published schedules of the MSU capacity and if a computer isn't listed then the manufacturer's published specifications shall apply of all computers upon which the CA Software is installed to run at the Customer Site ("Customer Site" means the site(s) specified at the time of licensing the CA Software or the Customer Address if no Customer Site has been indicated) or computers which are linked, connected to and/or which can remotely access such computers, irrespective of the platform designations of the hardware or operating systems, provided that such computer is capable of accessing, using, executing or benefiting from the CA Software. Customer may use the CA Software subject to the aggregate MSU Capacity not exceeding the Authorized Use Limitation in MSU.

#### **Pervasive Software:**

The Pervasive Software is licensed by either by the number of Server or Users. Pervasive Software may be used to build integrations that connect to any authorized CA Clarity environment.

Pervasive Data Integrator Engine/Agent **for CA Clarity PPM\*** is licensed by the number of Servers.

\* includes one User license of Pervasive Data Integrator Analyst **Studio for CA Clarity PPM**

Pervasive Data Integrator Analyst **Studio for CA Clarity PPM** is licensed by the number of Users.

Pervasive Data Profiler Engine for CA Clarity PPM is licensed by the number of Servers.

Pervasive Data Profiler Analyst Studio for CA Clarity PPM is licensed by the number of Users.

"Server" means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

"User" means a single person listed in any Customer directory or network storage location whose access and use rights can be authenticated, authorized, or administered by the Pervasive Software. Unless otherwise specified, a User shall not be counted more than once or on a concurrent basis.

#### **CA Process Automation:**

CA Software means the CA Process Automation software described herein in object code form only.

“Agent” means a single installation of the agent software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server.

“Orchestrator” means a single installation of the Orchestrator software component of the CA Software on a specific operating system which can be identified as a unique host identification on a physical or virtual hardware server. This installation can be a stand-alone Orchestrator or as a node of a new or existing clustered Orchestrator.

“Connector” is the software program connecting the CA Software with specific named third party software or other CA software. For example, CA Process Automation Connector For CA Service Desk connects CA Process Automation with CA Service Desk. Each Connector may only be used to connect the CA Software with the specific named third party software or CA software program.

“Premium Connector” means a Connector identified as “Premium” by CA.

“Custom Operator” means a type of automation object within the CA Process Automation Orchestrator that can be created to enhance, modify, or restrict the capabilities of an existing “Connector”.

“Process” means a type of automation object within CA Process Automation Orchestrator that contains connectors and other logical constructs that define a set of actions that will take place when the “Process” is executed by the Orchestrator.

“Process instance” means a single copy of a Process definition that has been scheduled to run (Queued state), is running (Running state), or has completed running (Failed or Completed state) on a particular “Orchestrator”.

“Concurrent Processes” means the number of CA Process Automation Process instances that are marked in the Running state within an Orchestrator at any given time.

“Power Pack” means a combination of Process definitions, Premium Connectors, Custom Operators and other automation objects that are packaged together to implement a specific solution.

The CA Software is licensed in different editions, as set forth in this Order Form, which authorizes the use of the specified number of Orchestrators, Agents, Connectors, and Concurrent processes (the "Authorized Use Limitation"). The various editions are:

CA Process Automation Player License includes: one Orchestrator, forty Agents, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator. This license requires the purchase of either a “Power Pack” or a Services contract for the implementation of a solution that will be executed by the Player. No new automation objects may be created with the Player License. Only modifications of the purchased Power Packs and any Services delivered content is allowed.

CA Process Automation Express License includes: two Orchestrators, forty Agents, all non-Premium Connectors, and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Standard License includes: two Orchestrators, unlimited Agents, three Premium Connectors, all non-Premium Connectors, and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Enterprise License includes: unlimited Orchestrators, unlimited Agents, twenty Premium Connectors, all non-Premium Connectors, and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 1 Orchestrator includes: one Orchestrator and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Level 2 Orchestrator includes: two Orchestrators and two hundred Concurrent Processes per Orchestrator.

CA Process Automation Level 3 Orchestrator includes: three Orchestrators and four hundred and seventy-five Concurrent Processes per Orchestrator.

CA Process Automation Premium Connector License includes the right to use a Premium Connector to connect to a single instance of the target application or system.

CA Process Management for Workflows License includes: unlimited Orchestrators, five Agents, and three Custom Operators. No Premium connectors are available for purchase with this license. The only CA product connectors that are available are those associated with the product(s) providing the entitlement. This is a limited use entitlement and its use is restricted to the context of Workflows associated with the CA product(s) providing the entitlement. The component limits are not cumulative across multiple instances of the license at any individual customer.

The number of concurrent processes executing on any licensed Orchestrator may be exceeded as long as the total number of concurrent processes executing on all licensed Orchestrators is not exceeded. For example, if the license is for two Orchestrators with seventy-five Concurrent Processes per Orchestrator, one hundred Concurrent Processes could be utilized on one Orchestrator so long as only fifty Concurrent Processes are utilized on the second Orchestrator.

**Server:**

“Server” means a single physical or virtual computer which processes data using one or more central processing units, and which is owned, leased or otherwise controlled by Customer.

**CA Virtual Assurance for Infrastructure Managers and CA System Performance for Infrastructure Managers**

“Physical Socket” means an electrical component attached to a printed circuit board (“PCB”) and electrically interconnects a central processing unit (“CPU”) and PCB. A CPU is the specialized integrated circuit that executes binary programs and performs most logical functions or calculations. One physical CPU may have up to twelve (12) processing cores.

DOCUSIGN, INC.  
CORPORATE SUBSCRIBER TERMS AND CONDITIONS  
v121008

These Terms and Conditions are incorporated by this reference into the Order Form (collectively referred to as the "Agreement") entered into by DocuSign, Inc. ("DocuSign") and the customer identified in the Order Form ("Subscriber").

**1. DEFINITIONS**

"Account" means a unique account established by Subscriber to enable its Authorized Users to access and use the Subscription Service and, where applicable, other DocuSign Products.

"Authorized User" means any employee of Subscriber, identified by a unique email address and user name, who is registered under the Account; provided that no two persons may register or use the Subscription Service as the same Authorized User.

"Consulting Services" means any additional professional services to be delivered by DocuSign, such as integration consulting or assistance, custom development, training, and transition services, that are set forth in an Order Form or Work Order as described in Section 15.

"DocuSign API" means the application programming interface that supports interoperation of applications with the Subscription Service.

"DocuSign Products" means the products and services identified on an Order Form, which may include the Subscription Service, the Repository Services, the Consulting Services and any other DocuSign offerings.

"eContract" refers to a contract, notice, disclosure, or other record or document deposited into the System by Subscriber for Processing using the Subscription Service.

"Envelope" means an electronic record containing one or more eContracts consisting of a single page or a group of pages of data uploaded to the System.

"Order Form" means a standard DocuSign order form or any other document separately and specifically approved by DocuSign that describes the DocuSign Products to be purchased by Subscriber and is signed by both parties.

"Personal Data" means any of the following: (a) nonpublic personally identifiable information, including driver's license numbers, national identification numbers such as social security account numbers, credit card numbers, digital identity certificates; (b) personally identifiable financial information regarding a consumer (i) provided by a consumer to a financial institution, (ii) resulting from any transaction with the consumer or any service performed for the consumer by a financial institution, or (iii) otherwise obtained by the financial institution, including any list, description, or other grouping of consumers (and publicly available information pertaining to them) that is derived using any nonpublic personal information; (c) personally identifiable medical or health-related information.

"Process" means any operation or set of operations performed upon Subscriber's data, whether or not by automatic means, such as collection, recording, organization, storage, adaptation or alteration, retrieval, accessing, consultation, use, disclosure by transmission, dissemination or otherwise making available, alignment or combination, blocking, erasure or destruction.

"Repository Services" means the Contract Repository or eVaulting Services, each as defined in the Terms and Conditions for Repository Services (available at <http://www.docusign.com/company/terms-and-conditions/eoriginal/v121005>), that are made the subject of an Order Form.

"Specifications" means the technical specifications set forth in the "Subscription Service Specifications" available at <http://docusign.com/company/specifications>.

"Subscription Service" means DocuSign's on-demand electronic signature service, which provides online display, certified delivery, acknowledgement, electronic signature, and storage services for eContracts via the Internet.

"System" refers to the software systems and programs, communication and network facilities, and hardware and equipment used by DocuSign or its agents to provide the Subscription Service.

"Term" means the period of effectiveness of this Agreement, as described in more detail in Section 9 below.

"Transaction Data" means the metadata associated with an Envelope and maintained by DocuSign for the purpose of establishing a digital audit trail, such as transaction history, image hash value, method and time of Envelope deletion, sender and recipient names, email addresses and signature IDs.

## 2. THE SUBSCRIPTION SERVICE

2.1 During the Term and subject to these Terms and Conditions, DocuSign will provide the Subscription Service in accordance with the Specifications, and Subscriber will have the right to obtain an Account and register its Authorized Users, who may access and use the Subscription Service. The right to use the Subscription Service is: (a) limited to its Authorized Users (accordingly, Subscriber may not resell or otherwise provide or assist with the provision of the Subscription Service to any third party); and (b) conditioned on Subscriber's acknowledgement and agreement with the following:

i) Nothing in this Agreement will be construed to make DocuSign a party to any eContract, and DocuSign makes no representation or warranty regarding the transactions sought to be effected by any eContract;

ii) DocuSign maintains no control of or access to the contents of any eContract, and so the content, quality, and format of any eContract is at all times in the exclusive control and responsibility of Subscriber;

iii) If Subscriber elects to use optional features designed to verify the identity of the intended recipient of an eContract ("Authentication Measures"), DocuSign will apply only those Authentication Measures (if any) selected by the Subscriber, but makes no representations or warranties about the appropriateness of any Authentication Measure and further, assumes no liability for the inability or failure by the intended recipient or other party to satisfy the Authentication Measure or to circumvent it;

iv) Certain types of agreements and documents are excepted from electronic signature laws, such that they cannot be legally formed by electronic signatures, and additionally, various agencies may have promulgated specific regulations that apply to electronic signatures and electronic records. DocuSign assumes no responsibility to determine whether any particular eContract is an exception to applicable electronic signature laws, or whether it is subject to any particular agency promulgations, or whether it can be legally formed by electronic signatures;

v) Subscriber is solely responsible for making available to third parties (including all parties to its eContracts) all contracts, documents, and other records required by applicable law, including, without limitation, electronic signature laws and other laws that may require records relating to a transaction to be retained or made accessible for a certain period of time;

vi) Certain laws or regulations impose special requirements with respect to electronic transactions involving one or more "consumers," such as (among others) requirements that the consumer consent to the method of contracting and/or that the consumer be provided with a copy, or access to a copy, of a paper or other non-electronic, written record of the transaction. DocuSign assumes no responsibility to: (A) determine whether any particular transaction involves a consumer; (B) furnish or obtain any such consents or to determine if any such consents have been withdrawn; (C) provide any information or disclosures in connection with any attempt to obtain any such consents; (D) provide legal review of, or to update or correct any information or disclosures currently or previously given; (E) provide any such copies or access except as expressly provided in the Specifications for all transactions, consumer or otherwise; or (F) otherwise to comply with any such special requirements; and

vii) Subscriber expressly undertakes to determine whether any consumer is involved in any eContract presented by its Authorized Users for Processing, and, if so, to comply with all requirements imposed by law on such eContracts or their formation.

## 3. SUBSCRIPTION PLANS AND USAGE PRICING

3.1 The pricing, features and options of the DocuSign Products selected by Subscriber are set forth in the Order Form. The Subscription Service is sold on a subscription basis and may be limited by usage ("Envelope Allowance"), or by the number of Authorized Users ("Seats"), or both. Optional features, such as Authentication Measures or fax-back services, may be purchased on a periodic or per-use basis.

3.2 If Subscriber selects an Envelope Allowance Subscription, then Subscriber is allowed to send the number of Envelopes in the Envelope Allowance specified in the Order Form during the Term. All Envelopes sent in excess of the Envelope Allowance will incur a per-Envelope charge that will be invoiced within 30 days of the date first incurred. The total number of Envelopes used is based on the sum of all Envelopes that have been sent for signature or for certified delivery from the Account. An Envelope will be deemed consumed at the time it is sent by an Authorized User, whether or not it has been received by the recipients or the recipients have performed any actions upon any eContract in the Envelope.

3.3 If Subscriber selects a Seat Subscription, then Subscriber is allowed to manually send Envelopes from the number of Seats specified in the Order Form during the Term. A Seat is defined as a natural person manually preparing and sending Envelopes, and excludes the Processing of Envelopes using automated batch or bulk sending operations, or the use of the

DocuSign API for sending Envelopes. If the number of Envelopes sent from a particular Seat or a group of Seats is abusive and/or unduly burdensome (indicating automated Processing), DocuSign will promptly notify Subscriber and the parties will review the use-case scenario as well as any continued monitoring and additional Seats that may be required to be purchased. The number of Seats is determined by the total number of active Authorized Users listed in the membership of an Account at any one time. No two individuals may log onto or use the Subscription Service as the same Authorized User, but Subscriber may unregister or deactivate Authorized Users and replace them with other Authorized Users without penalty, so long as the number of active Authorized Users registered at any one time is equal to or less than the number of Seats purchased. The addition by Subscriber of more Authorized Users than the number of Seats purchased in an Order Form will result in an additional charge for one Seat per additional Authorized User for the remainder of the Term, to be invoiced immediately.

#### 4. ADDITIONAL SUBSCRIBER RESPONSIBILITIES

4.1 Subscriber agrees that it will not use or permit the use of the Subscription Service to send unsolicited mass mailings outside its organization, it being understood that the term "unsolicited mass mailings" includes all statutory and other common definitions, including all Commercial Electronic Marketing Messages as defined in the U.S. CAN SPAM Act.

4.2 Subscriber agrees that it is solely responsible for the nature and content of all materials, works, data, statements, and other visual, graphical, video, written or audible communications of any nature submitted by any Authorized User or otherwise Processed through its Account.

4.3 Subscriber further agrees not to use or permit the use of the Subscription Service: (a) to communicate any message or material that is defamatory, harassing, libelous, threatening, or obscene; (b) in a way that violates or infringes upon the intellectual property rights or the privacy or publicity rights of any person or entity or that may otherwise be unlawful or give rise to civil or criminal liability (other than contractual liability of the parties under eContracts Processed through the Subscription Service); (c) in any manner that is likely to damage, disable, overburden, or impair the System or the Subscription Service or interfere in any way with the use or enjoyment of the Subscription Service by others; or (d) in any way that constitutes or encourages conduct that could constitute a criminal offense.

4.4 Although DocuSign does not monitor the content Processed through the Subscription Service, DocuSign may at any time suspend any use of the Subscription Service and/or remove or disable any content as to which DocuSign reasonably and in good faith believes is in violation of this Agreement. DocuSign agrees to provide Subscriber with notice of any such suspension or disablement before its implementation unless such suspension or disablement is necessary to comply with legal process or prevent imminent harm to DocuSign's System, the Subscription Service or any third party, in which case DocuSign will notify Subscriber of such suspension or disablement as soon as reasonably practicable thereafter.

#### 5. INTELLECTUAL PROPERTY AND TRADEMARK LICENSE

5.1 DocuSign is the owner of various intellectual property and technology rights associated with the Subscription Service, its document management, digital signature, and notary system, including patent, copyright, trade secret, and trademark and service mark rights. Except for the rights expressly granted in this Agreement, DocuSign does not license or transfer to Subscriber or any Authorized User or other third party any of DocuSign's technology or other intellectual property or technology rights. All right, title, and interest in and to DocuSign's technology and intellectual property will remain solely with DocuSign. Subscriber agrees that it will not, directly or indirectly, reverse engineer, decompile, disassemble, or otherwise attempt to derive source code or other trade secrets from or about any of the DocuSign Products or DocuSign's technology. DocuSign agrees that data and information provided by Subscriber under this Agreement shall remain, as between Subscriber and DocuSign, owned by Subscriber.

5.2 DocuSign hereby grants to users and licensees of its products and services a limited, revocable, nonexclusive and nontransferable right to use DocuSign's regular trade names, trademarks, titles and logos ("Licensed Marks") solely for purposes of identifying DocuSign's products and services. Details of this trademark license are available at: <http://www.docuSign.com/trademark-license>.

#### 6. CUSTOMER SUPPORT

DocuSign will provide customer support to Subscriber in accordance with the package that is identified on the Order Form, as further detailed at <http://www.docuSign.com/products/support-plans>.

#### 7. eCONTRACT STORAGE AND DELETION

7.1 DocuSign will store in accordance with the Specifications all completed eContracts sent by Subscriber until the termination or expiration of the Agreement, unless otherwise directed by Subscriber. Copies of stored eContracts may be retrieved by Subscriber at any time during that period, provided that following the expiration or termination of the Agreement, Subscriber may

request DocuSign's assistance in retrieving completed eContracts still remaining on the System pursuant to the transition services terms described in Section 9.4.

7.2 Prior to the expiration or termination of this Agreement, Subscriber may elect to purchase post-expiration or post-termination storage services for their completed eContracts. Where Subscriber opts not to purchase storage services, all copies of eContracts may be deleted by DocuSign without prior notice after the period available for transition services has expired pursuant to the terms described in Section 9.4. Subscriber may, at its option and wholly at Subscriber's risk, direct that any eContract be deleted at a time stated by Subscriber and prior to the end of the Term.

7.3 DocuSign may at its sole discretion delete an uncompleted eContract from the System immediately and without notice upon earlier of: a) expiration of the Envelope (where Subscriber has established an expiration for such Envelope, not to exceed 365 days); or b) expiration of the Term.

7.4 DocuSign will retain the Transaction Data permanently, provided that any Transaction Data that constitutes Confidential Information of Subscriber will at all times maintain that status and DocuSign will comply with its obligations in Section 13.

## 8. FEES AND PAYMENT TERMS

8.1 Subscriber will pay DocuSign the amounts set forth in each Order Form. An Order Form is not binding until it is executed by both DocuSign and Subscriber, at which point it will be deemed to be incorporated into this Agreement. Unless otherwise specified in an applicable Order Form, the first invoice will be submitted to Subscriber within 30 days after the Order Start Date, and Subscriber will pay all amounts due within 30 days of the date of the applicable invoice.

8.2 If Subscriber's usage under an Envelope Allowance Subscription exceeds the Envelope Allowance prior to the end of the Term, the unpaid balance of the Order Form for such Envelope Allowance Subscription shall become immediately due and payable.

8.3 Any undisputed amount not paid when due will be subject to finance charges equal to 1.5% of the unpaid balance per month or the highest rate permitted by applicable usury law, whichever is less, determined and compounded daily from the date due until the date paid. Subscriber will reimburse any costs or expenses (including reasonable attorneys' fees) incurred by DocuSign to collect any undisputed amount that is not paid when due. DocuSign may accept any check or payment in any amount without prejudice to DocuSign's right to recover the balance of the amount due or to pursue any other right or remedy. Amounts due to DocuSign under this Agreement may not be withheld or offset by Subscriber for any reason against amounts due or asserted to be due to Subscriber from DocuSign. All amounts payable under this Agreement are denominated in United States dollars, and Subscriber will pay all such amounts in United States dollars.

8.4 Taxes. Other than federal and state net income taxes imposed on DocuSign by the United States, Subscriber will bear all taxes, duties, and other governmental charges (collectively, "taxes") resulting from this Agreement or transactions conducted in relation to this Agreement or the DocuSign Products. If a tax is imposed on DocuSign by a jurisdiction outside the United States, Subscriber will not be obligated to bear that tax to the extent: (a) the tax is allowable as a credit against the United States federal income taxes of DocuSign; (b) Subscriber reduces such tax to the extent possible, giving effect to the applicable Income Tax Convention between the United States and other jurisdictions; and (c) Subscriber furnishes DocuSign with such evidence as the United States taxing authorities may require to claim the credit. Subscriber will pay any additional taxes as are necessary to ensure that the net amounts received and retained by DocuSign after all such taxes are paid are equal to the amounts that DocuSign would have been entitled to in accordance with this Agreement as if the taxes did not exist.

## 9. TERM AND TERMINATION

9.1 Term. Unless sooner terminated as stated below, and subject to Section 17 with respect to Work Orders (as defined below), the effectiveness of this Agreement will commence upon the Order Start Date and will continue for the term specified on the Order Form (the "Term").

9.2 Termination for Cause. If either party commits a material breach or default in the performance of any of its obligations under this Agreement, then the other party may terminate this Agreement by giving the defaulting party written notice of termination if the material breach or default in performance is not cured within 30 days after the defaulting party receives notice thereof. Without limiting the foregoing, any failure by Subscriber to timely pay to DocuSign any amounts owing under this Agreement will constitute a material breach of this Agreement. If Subscriber fails to timely pay any amounts due for services to be performed by DocuSign, then without limitation to any of its other rights or remedies, DocuSign may suspend performance of such services until it receives all amounts due.

9.3 Post-Termination Obligations. If this Agreement expires or is terminated for any reason: (a) Subscriber will pay to DocuSign any amounts required to be paid under this Agreement that have accrued prior to, and remain unpaid as of, the date of

termination or expiration (including Subscription fees, which become due upon termination of this Agreement as set forth in an Order Form, and any one-time or recurring fees through the end of the billing cycle in which termination occurs); (b) any and all liabilities accrued prior to the effective date of the termination will survive; (c) Subscriber will destroy all copies of DocuSign software, documentation, and materials within five business days of such termination, and immediately thereafter, if requested by DocuSign, provide DocuSign with a written certification signed by an authorized Subscriber representative certifying that all copies of software, documentation, and materials have been destroyed; (d) licenses to use DocuSign software and the provision of DocuSign services will immediately end; and (e) the parties' rights and obligations under Sections 1, 7.4, 9.3, 9.4, 10.3, and 11 through 14 will survive.

**9.4 Transition Services.** Upon expiration or termination of this Agreement for any reason, at Subscriber's request and at DocuSign's then-current standard professional services rates plus expenses, DocuSign shall provide reasonable transition services for a period not to exceed 90 days to assist Subscriber in moving Subscriber's data to another provider or exporting eContracts to external media. As part of such transition services, DocuSign shall at a minimum transfer, and cause any of its independent contractors to transfer, all data and electronic files associated with the Subscription Service. At its then-current standard professional services rates, DocuSign shall at Subscriber's request further cooperate with Subscriber in the development of a transition plan and shall use reasonable efforts to assist Subscriber and/or another service provider in the transition. DocuSign may at its discretion require advance payment or other adequate security for payment as DocuSign may consider appropriate in connection with or as a condition to the provision of services described in this section.

## **10. WARRANTIES AND DISCLAIMERS**

**10.1 DocuSign Warranties.** DocuSign represents and warrants that: (a) the Subscription Service as delivered to Subscriber and used in accordance with the Specifications will not infringe on any United States patent, copyright or trade secret; (b) the Subscription Service shall be performed in accordance with the Specifications in their then-current form at the time of the provision of such Subscription Service; (c) any DocuSign Products that are software shall be free of harmful or illicit code, trapdoors, viruses, or other harmful features; (d) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract not involving any consumer will be sufficient under the Electronic Signatures in Global and National Commerce Act, 15 U.S.C. §§ 7001 et seq. (the "ESIGN Act") to support the validity of such formation, to the extent provided in the E-SIGN Act; (e) the proper use of the Subscription Service by Subscriber in accordance with the Specifications and applicable law in the formation of an eContract involving a consumer will be sufficient under the E-SIGN Act to support the validity of such formation, to the extent provided in the E-SIGN Act, so long as and provided that Subscriber complies with all special requirements for consumer eContracts, including and subject to those referenced in Section 2.1(vi) and (vii) above; and (f) DocuSign has implemented information security policies and safeguards to preserve the security, integrity, and confidentiality of Personal Data and to protect against unauthorized access and anticipated threats or hazards thereto, that meet the objectives of the Interagency Guidelines Establishing Standards for Safeguarding Customer Information as set forth in Section 501 (b) of the Gramm-Leach-Bliley Act.

**10.2 Mutual Warranties.** Each party represents and warrants to the other that: (a) this Agreement has been duly executed and delivered and constitutes a valid and binding agreement enforceable against such party in accordance with its terms; (b) no authorization or approval from any third party is required in connection with such party's execution, delivery, or performance of this Agreement; and (c) the execution, delivery, and performance of this Agreement does not violate the laws of any jurisdiction or the terms or conditions of any other agreement to which it is a party or by which it is otherwise bound.

**10.3 Disclaimer.** EXCEPT FOR THE EXPRESS REPRESENTATIONS AND WARRANTIES STATED IN SECTIONS 10.1 AND 10.2 ABOVE (WHICH ARE NOT APPLICABLE TO CONSULTING SERVICES), DOCUSIGN MAKES NO ADDITIONAL REPRESENTATION OR WARRANTY OF ANY KIND -- WHETHER EXPRESS, IMPLIED IN FACT OR BY OPERATION OF LAW, OR STATUTORY -- AS TO ANY MATTER WHATSOEVER. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE. DOCUSIGN DOES NOT WARRANT THAT THE DOCUSIGN PRODUCTS (INCLUDING CONSULTING SERVICES OR RELATED DELIVERABLES, IF ANY), ARE OR WILL BE ERROR-FREE, WILL MEET SUBSCRIBER'S REQUIREMENTS, OR BE TIMELY OR SECURE. SUBSCRIBER WILL NOT HAVE THE RIGHT TO MAKE OR PASS ON ANY REPRESENTATION OR WARRANTY ON BEHALF OF DOCUSIGN TO ANY THIRD PARTY.

## **11. INDEMNIFICATION**

**11.1 By DocuSign.** DocuSign will defend Subscriber, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by DocuSign of its confidentiality obligations in Section 13, and/or (b) alleged infringement by DocuSign of any third party intellectual property rights (each a "Subscriber Claim").

11.2 **By Subscriber.** Subscriber will defend DocuSign, and its employees, directors, agents, and representatives ("Indemnified Party") from any actual or threatened third party claim arising from: (a) any breach by Subscriber of its confidentiality obligations in Section 13, and/or (b) alleged infringement by Subscriber of any third party intellectual property rights, and/or (c) the content submitted by any Authorized User or otherwise Processed through Subscriber's Account (each a "DocuSign Claim").

11.3 **Procedures.** The parties' respective indemnification obligations above are conditioned on: (a) the Indemnified Party gives the Indemnifying Party prompt written notice of the Subscriber Claim or DocuSign Claim (as the case may be, a "Claim"); (b) the Indemnifying Party has full and complete control over the defense and settlement of the Claim; (c) the Indemnified Party provides assistance in connection with the defense and settlement of the Claim as the Indemnifying Party may reasonably request; and (d) the Indemnified Party complies with any settlement or court order made in connection with the Claim. The Indemnifying Party will indemnify the Indemnified Party against: (i) all damages, costs, and attorneys' fees finally awarded against any of them in any Claim under this Section 11; (ii) all out-of-pocket costs (including reasonable attorneys' fees) reasonably incurred by any of them in connection with the defense of the Claim (other than attorneys' fees and costs incurred without the Indemnifying Party's consent after it has accepted defense of such Claim); and (iii) if any Claim arising under this Section 11 is settled by the Indemnifying Party or with its approval, then the Indemnifying Party will pay any amounts to any third party agreed to by the Indemnifying Party in settlement of any such Claims.

## 12. LIMITATIONS OF LIABILITY

12.1 **Disclaimer of Consequential Damages.** EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, NOTWITHSTANDING ANYTHING TO THE CONTRARY CONTAINED IN THIS AGREEMENT, NEITHER PARTY WILL, UNDER ANY CIRCUMSTANCES, BE LIABLE TO THE OTHER PARTY FOR CONSEQUENTIAL, INCIDENTAL, SPECIAL, OR EXEMPLARY DAMAGES ARISING OUT OF OR RELATED TO THE TRANSACTIONS CONTEMPLATED UNDER THIS AGREEMENT (INCLUDING WITH RESPECT TO CONSULTING SERVICES, IF ANY), INCLUDING, BUT NOT LIMITED TO, LOST PROFITS OR LOSS OF BUSINESS, EVEN IF APPRISED OF THE LIKELIHOOD OF SUCH DAMAGES OCCURRING.

12.2 **Cap on Liability.** EXCEPT WITH RESPECT TO INDEMNIFICATION OBLIGATIONS OF SECTION 11, UNDER NO CIRCUMSTANCES WILL EITHER PARTY'S TOTAL LIABILITY OF ALL KINDS ARISING OUT OF OR RELATED TO THIS AGREEMENT (INCLUDING, BUT NOT LIMITED TO, WARRANTY CLAIMS AND WITH RESPECT TO CONSULTING SERVICES, IF ANY), REGARDLESS OF THE FORUM AND REGARDLESS OF WHETHER ANY ACTION OR CLAIM IS BASED ON CONTRACT, TORT, OR OTHERWISE, EXCEED THE TOTAL AMOUNT PAID BY SUBSCRIBER TO DOCUSIGN UNDER THIS AGREEMENT DURING THE 12 MONTHS PRECEDING THE DATE OF THE ACTION OR CLAIM.

12.3 **Independent Allocations of Risk.** EACH PROVISION OF THIS AGREEMENT THAT PROVIDES FOR A LIMITATION OF LIABILITY, DISCLAIMER OF WARRANTIES, OR EXCLUSION OF DAMAGES REPRESENTS AN AGREED ALLOCATION OF THE RISKS OF THIS AGREEMENT BETWEEN THE PARTIES. THIS ALLOCATION IS REFLECTED IN THE PRICING OFFERED BY DOCUSIGN TO SUBSCRIBER AND IS AN ESSENTIAL ELEMENT OF THE BASIS OF THE BARGAIN BETWEEN THE PARTIES. EACH OF THESE PROVISIONS IS SEVERABLE AND INDEPENDENT OF ALL OTHER PROVISIONS OF THIS AGREEMENT, AND EACH OF THESE PROVISIONS WILL APPLY EVEN IF THE WARRANTIES IN THIS AGREEMENT HAVE FAILED OF THEIR ESSENTIAL PURPOSE.

## 13. CONFIDENTIALITY

13.1 **"Confidential Information"** means any trade secrets or other information of DocuSign or Subscriber, whether of a technical, business, or other nature (including, without limitation, in the case of DocuSign, DocuSign software and related information, and in the case of Subscriber, Personal Data and eContracts), that is disclosed to the other party (the "Recipient"). Confidential Information does not include any information that: (a) was known to Recipient prior to receiving it from the disclosing party; (b) is independently developed by Recipient without use of or reference to any Confidential Information of the other party; (c) is acquired by Recipient from another source that did not receive it in confidence from the other party to this Agreement; or (d) is or becomes part of the public domain through no fault or action of Recipient.

13.2 **Restricted Use and Nondisclosure.** During and after the Term, Recipient will: (a) use the Confidential Information of the other party solely for the purpose for which it is provided; (b) not disclose such Confidential Information to a third party; and (c) protect such Confidential Information from unauthorized use and disclosure to the same extent (but using no less than a reasonable degree of care) that it protects its own Confidential Information of a similar nature.

**13.3 Required Disclosure.** If Recipient is required by law to disclose Confidential Information of the other party or the terms of this Agreement, Recipient must give prompt written notice of such requirement before such disclosure and assist the disclosing party to obtain where reasonably available an order protecting the Confidential Information from public disclosure.

**13.4 Return of Materials.** Except for as provided in Section 7.4, upon written request by the disclosing party, Recipient will destroy or deliver to the disclosing party all of the disclosing party's Confidential Information that Recipient may have in its possession or control.

**13.5 Ownership.** Recipient acknowledges that, as between the parties, all Confidential Information it receives from the disclosing party, including all copies thereof in Recipient's possession or control, in any media, is proprietary to and exclusively owned by the disclosing party. Nothing in this Agreement grants Recipient any right, title or interest in or to any of the disclosing party's Confidential Information. Recipient's incorporation of the disclosing party's Confidential Information into any of its own materials shall not render Confidential Information non-confidential.

**13.6 Remedies.** Recipient acknowledges that any actual or threatened violation of this confidentiality provision may cause irreparable, non-monetary injury to the disclosing party, the extent of which may be difficult to ascertain, and therefore agrees that the disclosing party shall be entitled to seek injunctive relief in addition to all remedies available to the disclosing party at law and/or in equity. Absent written consent of the disclosing party, the burden of proving that the disclosing party's Confidential Information is not, or is no longer, confidential or a trade secret shall be on the Recipient.

**13.7 Existing Obligations.** The obligations in this Section 13 are in addition to, and supplement, each party's obligations of confidentiality under applicable law and/or under any nondisclosure or other agreement between the parties.

## **14. GENERAL**

**14.1 Relationship.** At all times, the parties are independent actors, and are not the agent or representative of the other. This Agreement is not intended to create a joint venture, partnership, or franchise relationship, or give rise to any third party beneficiary. Subscriber must not represent to anyone that Subscriber is an agent of DocuSign or is otherwise authorized to bind or commit DocuSign in any way without DocuSign's prior authorization.

**14.2 Assignability.** Subscriber may not assign its rights, duties, or obligations under this Agreement without DocuSign's prior written consent. If consent is given, this Agreement will bind Subscriber's successors and assigns. Any attempt by Subscriber to transfer its rights, duties, or obligations under this Agreement except as expressly provided in this Agreement is void. Notwithstanding the foregoing, either party may assign this Agreement to a successor of its business without the other party's consent.

**14.3 Nonsolicitation.** During the Term of this Agreement and for a period of one year thereafter, Subscriber will not, directly or indirectly, employ or solicit the employment or services of a DocuSign employee or independent contractor without the prior written consent of DocuSign.

**14.4 Notices.** Any notice required or permitted to be given in accordance with this Agreement will be effective if it is in writing and sent using: (a) the "acknowledge receipt" function of the Subscription Service; (b) by certified or registered mail; or (c) insured courier, to the appropriate party at the address set forth on the Order Form. Either party may change its address for receipt of notice by notice to the other party in accordance with this Section. Notices are deemed given upon receipt if delivered using the Subscription Service, two business days following the date of mailing, or one business day following delivery to a courier.

**14.5 Force Majeure.** Except for any payment obligations, neither party will be liable for, or be considered to be in breach of or default under this Agreement on account of, any delay or failure to perform as required by this Agreement as a result of any cause or condition beyond such party's reasonable control, so long as such party uses all commercially reasonable efforts to avoid or remove such causes of non-performance or delay.

**14.6 Dispute Resolution.** In the event of any dispute regarding any right or obligation under this Agreement, the aggrieved party shall notify the other party in a writing describing the dispute ("Notice of Dispute"). Upon receipt of the Notice of Dispute, the parties shall arrange a meeting between their representatives. Over a period not to exceed 10 business days after receipt of Notice of Dispute ("Period"), the parties shall engage in good faith negotiations to resolve such dispute. If the parties' representatives are unable to resolve the dispute at such meetings during the Period, then each party may seek any remedies available to it in law or equity. Notwithstanding the foregoing, either party may seek injunctive relief at any time. Each party hereby irrevocably waives, to the fullest extent permitted by law, any and all right to trial by jury in any legal proceeding arising out of or relating to this Agreement.

**14.7 Governing Law.** This Agreement will be interpreted, construed, and enforced in all respects in accordance with the local laws of the State of Washington, U.S.A., without reference to its choice of law rules to the contrary. The provisions of the 1980 U.N. Convention on Contracts for the International Sale of Goods are expressly excluded and do not apply to this Agreement. Any legal action by Subscriber arising under this Agreement must be initiated within two years after the cause of action arises.

**14.8 Waiver.** The waiver by either party of any breach of any provision of this Agreement does not waive any other breach. The failure of any party to insist on strict performance of any covenant or obligation in accordance with this Agreement will not be a waiver of such party's right to demand strict compliance in the future, nor will the same be construed as a novation of this Agreement.

**14.9 Severability.** If any part of this Agreement is found to be illegal, unenforceable, or invalid, the remaining portions of this Agreement will remain in full force and effect. If any material limitation or restriction on the grant of any license to Subscriber under this Agreement is found to be illegal, unenforceable, or invalid, the license will immediately terminate.

**14.10 Counterparts.** This Agreement may be executed in any number of identical counterparts, notwithstanding that the parties have not signed the same counterpart, with the same effect as if the parties had signed the same document. All counterparts will be construed as and constitute the same agreement.

**14.11 Entire Agreement.** This Agreement is the final and complete expression of the agreement between these parties regarding the DocuSign Products. This Agreement supersedes, and the terms of this Agreement govern, all previous oral and written communications regarding these matters. This Agreement may be changed only by a written agreement signed by an authorized agent of both parties.

---

#### ADDITIONAL TERMS AND CONDITIONS FOR CONSULTING SERVICES

The following additional terms and conditions apply to Consulting Services, if any, that are made the subject of an Order Form.

#### 15. SERVICES, WORK ORDERS, AND CHANGE ORDERS

**15.1 Services.** Subject to the terms and conditions of this Agreement, DocuSign will, if ordered as provided hereunder, perform for Subscriber certain Consulting Services.

**15.2 Work Orders.** The specific details of the Consulting Services to be performed will be determined on a per-project basis, and the details for each project will be described in a Work Order that is executed by both parties (called the "Work Order" for purposes of the Consulting Services). An Order Form that lists a DocuSign standard training or consulting package as a DocuSign Product constitutes a Work Order. Once executed by both parties, each Work Order will be a unique agreement that incorporates the terms of this Agreement and stands alone with respect to all other Order Forms. If there is a conflict between the terms of this Agreement and the terms of a Work Order, the terms of this Agreement will control unless the Work Order states that a specific provision of this Agreement will be superseded by a specific provision of the Work Order.

**15.3 Change Orders.** Unless otherwise specified in a Work Order, Subscriber may reasonably request in writing that revisions be made with respect to the Consulting Services or deliverables set forth in that Work Order ("Change Order"). If a Change Order recites revisions that materially increase the scope of the Consulting Services or the effort required to deliver deliverables under the applicable Work Order, then within 10 business days after DocuSign's receipt of the Change Order, DocuSign will deliver to Subscriber a written, revised Work Order reflecting DocuSign's reasonable determination of the revised Consulting Services, deliverables, delivery schedule, payment schedule, and adjusted fees or fee estimates, if any, that will apply to the implementation of the revisions. If Subscriber approves the revised Work Order, then the parties will execute it, and upon execution, the revised Work Order will supersede the then-existing Work Order. If Subscriber does not approve the revised Work Order within 10 business days after its receipt by Subscriber, the then-existing Work Order will remain in full force and effect, and DocuSign will have no further obligation with respect to the applicable Change Order.

#### 16. PERFORMANCE OF CONSULTING SERVICES

**16.1 Project Management.** For each project described in a Work Order, each party will designate a single point of contact within its organization to manage the project ("Project Leader"). The Project Leaders will meet as necessary to manage the Consulting Services to be performed under a Work Order. Disputes will be escalated to more senior executives if the Project Leaders are unable to resolve a problem. DocuSign's Project Leader will provide Subscriber's Project Leader with regular reports on the status of the Consulting Services at least once per month.

**16.2 Performance Standard.** DocuSign warrants to Subscriber that the Consulting Services will be performed in a good and workmanlike manner in accordance with standard industry practice and the applicable Work Order, including any specifications

in such Work Order. DocuSign will complete the Consulting Services, including the delivery of any deliverables, in accordance with the schedule of times and milestones specified in the Work Order.

**16.3 Fees.** Unless otherwise specified in a Work Order, Subscriber will pay DocuSign for Consulting Services on a time-and-materials basis at DocuSign's then-current rates and under payment terms described in this Agreement ("Consulting Fees").

**16.4 Disclaimer.** EXCEPT FOR WARRANTIES PROVIDED HEREIN OR EXPRESSLY IDENTIFIED AS SUCH IN A WORK ORDER, THE CONSULTING SERVICES AND ANY RELATED DELIVERABLES WILL BE PROVIDED AS-IS AND WITHOUT WARRANTY OF ANY KIND. DOCUSIGN EXPRESSLY DISCLAIMS ALL IMPLIED WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, AND NON-INFRINGEMENT AS TO ANY AND ALL CONSULTING SERVICES AND RELATED DELIVERABLES.

## **17. TERM AND TERMINATION OF WORK ORDERS**

**17.1 Term.** Each Work Order is non-cancellable except pursuant to a Change Order, and will commence on the specified effective date and will continue until each party's obligations under the Work Order have been fulfilled or the Work Order is terminated as provided in the Work Order.

**17.2 Effect of Termination.** If any Work Order is terminated in accordance with this Section 17, then Subscriber will pay to DocuSign any Consulting Fees and all other payment obligations accrued and payable for the Consulting Services performed under the terminated Work Order through the effective date of the termination. If a Work Order is terminated for any reason other than for material breach by DocuSign, Subscriber will pay to DocuSign all Consulting Fees due under the Work Order had the Work Order not been terminated and had the Consulting Services been fully performed in accordance with the schedule then in effect, which amount owing will be evidenced in a final termination invoice to be provided by DocuSign to Subscriber. The amount of Consulting Services Fees specified in such termination invoice from DocuSign will be final and binding on the parties, absent manifest error.

## **18. PROPRIETARY RIGHTS**

**18.1 Subscriber Materials.** Any materials provided by Subscriber to DocuSign specifically for use by DocuSign in the course of the Consulting Services ("Subscriber Materials") will be used and disclosed solely as required to perform the Consulting Services. As between the parties, Subscriber will continue to own the Subscriber Materials.

**18.2 Inventions.** Except as expressly set forth to the contrary in a Work Order, all works of authorship, inventions, discoveries, improvements, methods, processes, formulas, designs, techniques, and information: (a) conceived, discovered, developed or otherwise made by DocuSign, solely or in collaboration with others, in the course of performing the Consulting Services; or (b) that form all or part of a deliverable provided as part of the Consulting Services, whether developed as part of the Consulting Services or separately, but excluding Subscriber Materials (as defined in Section 18.1) (collectively, "Inventions"), will be the sole property of DocuSign. Upon and subject to final payment by Subscriber of all amounts owing to DocuSign, DocuSign hereby grants to Subscriber a nonexclusive, perpetual, worldwide, royalty-free license to use, copy, modify, and prepare derivative works of the Inventions solely for purposes of Subscriber's internal business operations only.

## MASTER PURCHASE AGREEMENT

This Master Purchase Agreement (this “Agreement”) is entered into as of [DATE] (the “Effective Date”) by and between FireEye (as defined below) and \_\_\_\_\_, a \_\_\_\_\_ corporation, with its principal place of business at \_\_\_\_\_ (“Customer”). This Agreement will govern Customer’s initial purchase of FireEye Offerings and any future orders by Customer as agreed between the parties in writing. FireEye shall provide its Offerings pursuant to the terms and conditions below. For good and valuable consideration, the parties hereby agree as follows:

**Structure and Order of Precedence.** This Agreement provides the general terms under which the Customer may use FireEye’s various Offerings. The explicit rights for the Customer to use and receive Products, Support Services or Subscriptions or otherwise engage with specific FireEye Offerings are set forth in the applicable Exhibit. In the event of conflict between any of the terms in this Agreement and an Exhibit, the Exhibit shall govern.

### **GENERAL TERMS APPLICABLE TO ALL FIREEYE OFFERINGS**

#### **1. DEFINITIONS.**

**1.1** “Content Feed” means all intelligence and content feeds associated with Products, which may consist of inbound and outbound feeds that are part of FireEye’s Dynamic Threat Intelligence (DTI) Cloud, downloads of Indicators for use with Products, and/or intelligence provided as part of the Advanced Threat Intelligence (ATI) Subscription.

**1.2** “Deliverables” means the written reports that are created specifically for Customer as a result of the Professional Services provided hereunder.

**1.3** “Documentation” means the user manuals generally provided in writing by FireEye to end users of the Products and Subscriptions in electronic format, as amended from time to time by FireEye.

**1.4** “FireEye” means (i) FireEye, Inc., a Delaware corporation with its principal place of business at 1440 McCarthy Blvd., Milpitas, CA, 95035 with respect to Offerings that are shipped to, deployed or rendered inside of North America (including the United States, Mexico, Canada and the Caribbean), Central America and South America (collectively, the “Americas”); or (ii) with respect to all Offerings that are shipped to, deployed or rendered outside of the Americas, FireEye Ireland Limited, a company incorporated under the laws of Ireland with principal place of business at 2 Park Place, City Gate Park, Mahon, Cork, Ireland. FireEye includes the operating divisions Mandiant and iSIGHT.

**1.5** “FireEye Materials” means all FireEye proprietary materials, Deliverables, intellectual property related to Products or Subscriptions, (such as all rights in any software incorporated into a Product or Subscription, copyrights, and patent, trade secret and trademark rights related to Products, and screens associated with Products or Subscriptions), Documentation, any hardware and/or software used by FireEye in performing Services or providing Subscriptions, Content Feeds, FireEye’s processes and methods (including any forensic investigation processes and methods), Indicators of Compromise, materials distributed by FireEye during Training, and any FireEye templates and/or forms, including report and presentation templates and forms. FireEye Materials does not include Third Party Materials.

**1.6** “Indicators of Compromise” or “Indicators” means specifications of anomalies, configurations, or other conditions that FireEye is capable of identifying within an information technology infrastructure, used by FireEye in performing Professional Services and providing Subscriptions.

**1.7** “Intellectual Property Rights” means copyrights (including, without limitation, the exclusive right to use, reproduce, modify, distribute, publicly display and publicly perform the copyrighted work), trademark rights (including, without limitation, trade names, trademarks, service marks, and trade dress), patent rights (including, without limitation, the exclusive right to make, use and sell), trade secrets, moral rights, right of publicity, authors’ rights, contract and licensing rights, goodwill and all other intellectual property rights as may exist now and/or hereafter come into existence and all renewals and extensions thereof, regardless of whether such rights arise under the law of the United States or any other state, country or jurisdiction.

**1.8** "Offerings" means, collectively, Products, Subscriptions, Training, Professional Services and Support Services.

**1.9** "Order" means a written purchase order or similar ordering document, signed or submitted to FireEye by Customer and approved by FireEye, under which Customer agrees to purchase Offerings.

**1.10** "Products" means the FireEye software and hardware appliances (which may include embedded software or firmware components) as described in Exhibit A to this Agreement.

**1.11** "Professional Services" means, collectively, those security consulting services provided by FireEye under a Statement of Work and/or set forth on an Order, which may consist of Product-related services such as deployment, configuration or installation services; proactive security consulting such as penetration testing, vulnerability assessments or compromise assessments; or incident response or other remediative services.

**1.12** "Service" or "Services" means the Professional Services, Support Services and Training.

**1.13** "Statement of Work" or "SOW" means a mutually agreed-upon document between FireEye and Customer, describing Professional Services, rates and timelines (if applicable) for those Professional Services, and incorporating this Agreement.

**1.14** "Subscription" means a service provided by FireEye for a fixed term, under which FireEye provides access to certain features, functionality, and/or information, as described in the applicable Exhibit for each Subscription attached to this Agreement.

**1.15** "Support Services" means the Product support and maintenance services provided by FireEye with respect to each Product, and that are described in the applicable Exhibit for each Product attached to this Agreement.

**1.16** "Third Party Materials" means software or other components that are licensed to FireEye by third parties for use in FireEye's Offerings.

**1.17** "Training" means training in the use of Products, or on security-related topics in general, provided by FireEye.

## **2. ORDERS AND STATEMENTS OF WORK.**

**2.1. Orders.** Customer may purchase Offerings by submitting an Order. If accepted by FireEye, the "Order Effective Date" will be the date of the Order. All Orders will be governed by this Agreement. For clarity, FireEye will not be obligated to ship any Product, or provide any Services, Training or Subscriptions until Customer has issued a valid Order for those Offerings.

**2.2. Statements of Work.** Each Statement of Work will incorporate and be governed by this Agreement. The "Statement of Work Effective Date" will be the date both Customer and FireEye have agreed to the Statement of Work, either by executing the Statement of Work or by issuing and accepting an Order for the Professional Services described on the Statement of Work. For clarity, FireEye will not be obligated to perform any Professional Services until a SOW describing those Professional Services has been agreed by both parties or an Order listing those Professional Services has been accepted by FireEye.

**3. PAYMENT.** Customer agrees to purchase the Offerings for the prices set forth in each Order and/or Statement of Work, as applicable ("Fees"). If Customer purchases through a FireEye partner (such as an authorized reseller or distributor, collectively, "FireEye Partners"), all fees and other procurement and delivery terms shall be agreed between Customer and the applicable partner. If Customer purchases directly from FireEye, Customer will make full payment in the currency specified in FireEye's invoice, without set-off and in immediately available funds, within thirty (30) days of the date of each invoice. All Fees are non-cancelable and non-refundable. All Fees described on an Order will be fully invoiced in advance, unless otherwise agreed by FireEye. Unless otherwise specified in a Statement of Work, all Fees related to Professional Services will be invoiced

fully in advance. Customer shall reimburse FireEye for any and all expenses incurred so long as such expenses are directly attributable to the Services or Subscriptions performed for or provided to Customer. FireEye will provide appropriate vouching documentation for all expenses exceeding \$25. If any payment is more than fifteen (15) days late, FireEye may, without limiting any remedies available to FireEye, terminate the applicable Order or Statement of Work or suspend performance until payment is made current. Customer will pay interest on all delinquent amounts at the lesser of 1.5% per month or the maximum rate permitted by applicable law. All Fees are exclusive of all present and future sales, use, excise, value added, goods and services, withholding and other taxes, and all customs duties and tariffs now or hereafter claimed or imposed by any governmental authority upon the Offerings which shall be invoiced to and paid by the Customer. If Customer is required by law to make any deduction or withholding on any payments due to FireEye, Customer will notify FireEye and will pay FireEye any additional amounts necessary to ensure that the net amount FireEye receives, after any deduction or withholding, equals the amount FireEye would have received if no deduction or withholding had been required. Additionally, Customer will provide to FireEye evidence, to the reasonable satisfaction of FireEye, showing that the withheld or deducted amounts have been paid to the relevant governmental authority. For purposes of calculating sales and similar taxes, FireEye will use the address set forth on the Order or Statement of Work, as applicable, as the jurisdiction to which Offerings and shipments are delivered unless Customer has otherwise notified FireEye in writing as of the Order Effective Date or Statement of Work Effective Date, as applicable. Customer will provide tax exemption certificates or direct-pay letters to FireEye on or before the Order Effective Date or Statement of Work Effective Date, as applicable. FireEye reserves the right to increase Fees at any time, although increases in Fees for Subscriptions or Support Services will not go into effect until the next Renewal Subscription Term or Renewal Support Term, as applicable.

**4. TITLE AND RISK OF LOSS; INSPECTION.** All hardware, including Products and any hardware provided for use with Subscriptions and/or Services, is shipped FOB Origin (FCA) from FireEye's designated manufacturing facility or point of origin, and title to such hardware and the risk of loss of or damage to the hardware shall pass to Customer at time of FireEye's delivery of such hardware to the carrier. FireEye is authorized to designate a carrier pursuant to FireEye's standard shipping practices unless otherwise specified in writing by Customer. Customer must provide written notice to FireEye within five (5) days of delivery of the Products of any non-conformity with the Order, e.g., delivery of the wrong Product or incorrect quantities.

**5. TERMS APPLICABLE TO OFFERINGS.**

**5.1. Products and Support Services.** Customer's purchase and use of each Product and Support Services for each Product will be subject to the licenses and terms specific to each Product set forth in Exhibit A.

**5.2. Subscriptions.** Customer's purchase of and access to each Subscription will be subject to the terms specific to each Subscription set forth in Exhibit B.

**5.3. Training.** Customer's purchase of Training will be subject to the terms in this Section 5.3. Training delivery dates and location for such Training will be mutually agreed upon by the parties. If an Order does not specify such dates and/or locations, then the parties will mutually agree upon the dates and locations for Training. Customer must request rescheduling of Training no less than two (2) weeks in advance of the scheduled start date. FireEye will use reasonable efforts to reschedule the Training, subject to availability, and Customer will pay any expenses associated with the rescheduling, including any expenses associated with cancelling or changing travel plans. If Customer cancels attendance at a public Training class, Customer must notify FireEye no later than two (2) business days before the date of the Training class. If Customer timely notifies FireEye of the cancellation, FireEye will issue Customer a credit for the amount paid for that public Training class, which Customer may apply toward another public Training class held within one (1) year of the date of the Order on which the cancelled Training class was included. Customer may substitute a named attendee at a public Training class, but Customer will notify FireEye in advance of any such substitution. FireEye reserves the right to refuse admittance to public Training classes to any person, for any reason, and if FireEye refuses admittance, FireEye will refund the amount paid for that person's attendance at the public Training class. FireEye does not refund or credit Fees paid for attendees who do not attend Training classes or who leave before a Training class concludes. If Customer purchases a block of Training hours (for example, 10 hours of Training), then Customer must use those hours within one (1) year of the effective date of the applicable Order. All Training must be scheduled and conducted within one (1) year of the date of the applicable Order for that Training.

## **5.4. Professional Services.**

**5.4.1. Deliverables.** Subject to Customer's timely payment of applicable fees, and subject to this Agreement and each applicable SOW, Customer shall have a perpetual, non-exclusive, nontransferable, right and license to use, display and reproduce the Deliverables for its internal business purposes. Deliverables may not be shared with any third party other than law enforcement agencies. In no event may Deliverables be used for sales or marketing activities.

**5.4.2. Customer-Owned Property.** Customer will be and remain, at all times, the sole and exclusive owner of the Customer-Owned Property (including, without limitation, any modification, compilation, derivative work of, and all intellectual property and proprietary rights contained in or pertaining thereto). FireEye will promptly return to Customer all Customer-Owned Property upon the termination or expiration of the applicable Statement of Work or Order, or sooner at Customer's request. "Customer-Owned Property" means any technology, software, algorithms, formulas, techniques or know-how and other tangible and intangible items that were owned by Customer, or developed by or for Customer prior to the SOW Effective Date that are provided by Customer to FireEye for incorporation into or used in connection with the development of the Deliverables or performance of Professional Services.

**5.4.3. Customer Responsibilities.** If the Services or Subscriptions require the installation and use of FireEye equipment or software, Customer will facilitate the installation and shall provide physical space, electrical power, Internet connectivity and physical access as reasonably determined and communicated by FireEye. Notwithstanding anything to the contrary herein or in any Statement of Work, including confidentiality provisions, if Customer has hired FireEye to perform a PCI DSS Compliance Audit or a PCI investigation, FireEye may provide The Payment Card Industry Security Standards Council, LLC (PCI SSC), card companies and the relevant merchant bank with all Reports of Compliance (ROC) and all related assessment and investigative report documents generated in connection with such work, as required by PCI DSS rules.

**5.4.4. Additional Assumptions.** (a) estimated Fees for Professional Services do not include any hardware, software, licensing, maintenance or support costs of any FireEye or other third-party product or service suggested by FireEye in the course of performing Professional Services; (b) when FireEye's personnel are performing Professional Services on site at Customer's premises, Customer will allocate appropriate working space and physical access for all FireEye personnel; (c) Customer will make available key individuals within the security program that can best help plan and coordinate activities described in the SOW; (d) either party may elect to submit written change requests to the other party proposing changes to the Statement of Work. All changes to the requirements and Statement of Work will be made using agreed-to project change control procedures.

**5.5 Evaluations.** If Customer receives a Product or Subscription for evaluation purposes ("Evaluation Offerings") then Customer may use the Evaluation Offerings for its own internal evaluation purposes for a period of up to thirty (30) days from the date of receipt of the Evaluation Offerings (the "Evaluation Period"). Customer and FireEye may, upon mutual written agreement (including via email), extend the Evaluation Period. If the Evaluation Offering includes hardware components, Customer will return the hardware within ten (10) days of the end of the Evaluation Period, and if Customer does not return the hardware within this period, Customer shall be invoiced for the then-current list price for the applicable Evaluation Offering. Customer acknowledges that title to hardware components of Evaluation Offerings remains with FireEye at all times, and that Evaluation Offerings may be used and/or refurbished units. If the Evaluation Offering does not include hardware components, Evaluator must delete all software and other components (including Documentation) related to the Evaluation Offering at the end of the Evaluation Period, and confirm those deletions in writing to FireEye, or the Evaluator shall be invoiced for the then-current list price for the Evaluation Offering. If the Evaluation Offering is a Subscription, Evaluator understands that FireEye may disable access to the Subscription automatically at the end of the Evaluation Period, without notice to Evaluator. EVALUATION OFFERINGS ARE PROVIDED "AS IS", AND TO THE EXTENT PERMITTED BY APPLICABLE LAW, FIREEYE DISCLAIMS ALL WARRANTIES RELATING TO THE EVALUATION OFFERINGS, EXPRESS OR IMPLIED, INCLUDING, BUT NOT LIMITED TO, ANY WARRANTIES AGAINST INFRINGEMENT OF THIRD PARTY RIGHTS, MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE.

## **6. INTELLECTUAL PROPERTY**

**6.1. Ownership of FireEye Materials; Restrictions.** All Intellectual Property Rights in FireEye Materials, Products, Deliverables, Documentation, and Subscriptions belong exclusively to FireEye and its licensors. Customer will not (and will not allow any third party to): (i) disassemble, decompile, reverse compile, reverse engineer or attempt to discover any source code or underlying ideas or algorithms of any FireEye Materials (except to the limited extent that applicable law prohibits reverse engineering restrictions); (ii) sell, resell, distribute, sublicense or otherwise transfer, the FireEye Materials, or make the functionality of the FireEye Materials available to any other party through any means (unless otherwise FireEye has provided prior written consent), (iii) without the express prior written consent of FireEye, conduct any benchmarking or comparative study or analysis involving the FireEye Materials ("Benchmarking") for any reason or purpose except, to the limited extent absolutely necessary, to determine the suitability of Products or Subscriptions to interoperate with Customer's internal computer systems; (iv) disclose or publish to any third party any Benchmarking or any other information related thereto; (v) use the FireEye Materials or any Benchmarking in connection with the development of products, services or subscriptions that compete with the FireEye Materials; or (vi) reproduce, alter, modify or create derivatives of the FireEye Materials. Between Customer and FireEye, FireEye shall retain all rights and title in and to any Indicators of Compromise FireEye developed by or for FireEye in the course of providing Subscriptions or performing Services.

**6.2. Third Party Materials.** Customer acknowledges that Products and Subscriptions may include Third Party Materials. FireEye represents that these Third Party Materials will not diminish the license rights provided herein or limit Customer's ability to use the Products and Subscriptions in accordance with the applicable Documentation, and neither the inclusion of Third Party Materials in any Product or Subscription or use of Third Party Materials in performance of Services will create any obligation on the part of Customer to license Customer's software or products under any open source or similar license.

## **7. WARRANTIES.**

**7.1. Product Warranty.** FireEye warrants to Customer that during the one (1) year period following the shipment of the Products, the Products will perform substantially in accordance with the applicable Documentation. The warranty stated in this Section 7.1 shall not apply if the Product has: (i) been subjected to abuse, misuse, neglect, negligence, accident, improper testing, improper installation, improper storage, improper handling or use contrary to any instructions issued by FireEye; (ii) been repaired or altered by persons other than FireEye; (iii) not been installed, operated, repaired and maintained in accordance with the Documentation; or (iv) been used with any third party software or hardware which has not been previously approved in writing by FireEye. If during the one-year Product warranty period: (a) FireEye is notified promptly in writing upon discovery of any error in a Product, including a detailed description of such alleged error; (b) such Product is returned, transportation charges prepaid, to FireEye's designated manufacturing facility in accordance with FireEye's then-current return procedures, as set forth by FireEye from time to time; and (c) FireEye's inspections and tests determine that the Product contains errors and has not been subjected to any of the conditions set forth in 7.1(i)-(iv) above, then, as Customer's sole remedy and FireEye's sole obligation under the foregoing warranty, FireEye shall, at FireEye's option, repair or replace without charge such Product. Any Product that has either been repaired or replaced under this warranty shall have warranty coverage for the remaining warranty period. Replacement parts used in the repair of a Product may be new or equivalent to new.

**7.2. Services Warranty.** FireEye warrants to Customer that Services will be performed in a professional manner in accordance with industry standards for like services. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the Services were performed, and FireEye will promptly correct or re-perform the Services, at FireEye's expense.

**7.3. Subscription Warranty.** FireEye warrants to Customer the Subscriptions will be provided in a professional manner in accordance with industry standards for similar subscriptions. If Customer believes the warranty stated in this Section has been breached, Customer must notify FireEye of the breach no later than thirty (30) days following the date the warranty was allegedly breached, and FireEye will promptly correct the non-conformity, at FireEye's expense.

**7.4. Remedies Exclusive.** Except for any Service Level Credits described in Exhibit B, the remedies stated in Sections 7.1-7.3 above are the sole remedies, and FireEye's sole obligation, with respect to Products, Subscriptions and Services that fail to comply with the foregoing warranties.

**7.5. Disclaimer of Warranties.** EXCEPT FOR THE EXPRESS WARRANTIES SET FORTH HEREIN, ALL PRODUCTS, SUBSCRIPTIONS, FIREEYE MATERIALS, DELIVERABLES AND SERVICES ARE PROVIDED ON AN "AS IS" BASIS WITHOUT ANY WARRANTY WHATSOEVER. FIREEYE AND ITS SUPPLIERS EXPRESSLY DISCLAIM, TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, ALL WARRANTIES, EXPRESS, IMPLIED AND STATUTORY, INCLUDING WITHOUT LIMITATION ANY IMPLIED WARRANTY OF MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, ACCURACY, NONINFRINGEMENT, OR ARISING FROM COURSE OF PERFORMANCE, DEALING, USAGE OR TRADE. FIREEYE ALSO MAKES NO WARRANTY REGARDING NONINTERRUPTION OF USE OR FREEDOM FROM BUGS, AND MAKES NO WARRANTY THAT PRODUCTS, FIREEYE MATERIALS, DELIVERABLES, SERVICES OR SUBSCRIPTIONS WILL BE ERROR-FREE.

## **8. INFRINGEMENT INDEMNITY.**

**8.1.** FireEye shall defend Customer, and its officers, directors and employees, against any third party action alleging that the FireEye Materials infringes a valid U.S. patent or copyright issued as of the date of delivery or performance, as applicable, and FireEye shall pay all settlements entered into, and all final judgments and costs (including reasonable attorneys' fees) finally awarded against such party in connection with such action. If the FireEye Materials, or parts thereof, become, or in FireEye's opinion may become, the subject of an infringement claim, FireEye may, at its option: (i) procure for Customer the right to continue using the applicable FireEye Materials; (ii) modify or replace such FireEye Materials with a substantially equivalent non-infringing FireEye Materials; or (iii) require the return of such FireEye Materials or cease providing affected Product, Subscriptions, Deliverables or Services, and refund to Customer, with respect to Products, a pro-rata portion of the purchase price of such Products based on a three-year straight line amortization of the purchase price, and with respect to Subscriptions, a portion of any pre-paid Fees for such Subscriptions, pro rated for any unused Subscription Term, and with respect to Services, any pre-paid Fees for Services that have not been delivered. THIS SECTION 8.1 STATES THE ENTIRE LIABILITY OF FIREEYE AND CUSTOMER'S SOLE REMEDY WITH RESPECT TO ANY INFRINGEMENT OF INTELLECTUAL PROPERTY RIGHTS BY THE OFFERINGS, FIREEYE MATERIALS, OR DELIVERABLES.

**8.2.** FireEye shall have no indemnification obligations with respect to any action arising out of: (i) the use of any Product, Subscription, Deliverable, or Service, or any part thereof, in combination with software or other products not supplied by FireEye; (ii) any modification of the Products, Subscriptions, Deliverables, or Services not performed or expressly authorized by FireEye; or (iii) the use of any the Products, Subscriptions, Deliverables, or Services other than in accordance with this Agreement and applicable Documentation.

**8.3.** The indemnification obligations shall be subject to Customer: (i) notifying FireEye within ten (10) days of receiving notice of any threat or claim in writing of such action; (ii) giving FireEye exclusive control and authority over the defense or settlement of such action; (iii) not entering into any settlement or compromise of any such action without FireEye's prior written consent; and (iv) providing reasonable assistance requested by FireEye.

## **9. LIMITATION OF LIABILITY.**

**9.1. Consequential Damages Waiver.** EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, OR THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), IN NO EVENT WILL FIREEYE BE LIABLE FOR ANY SPECIAL, INCIDENTAL, CONSEQUENTIAL OR EXEMPLARY DAMAGES OF ANY KIND, INCLUDING BUT NOT LIMITED TO ANY LOST PROFITS AND LOST SAVINGS, HOWEVER CAUSED, WHETHER FOR BREACH OR REPUDIATION OF CONTRACT, TORT, BREACH OF WARRANTY, NEGLIGENCE, OR OTHERWISE, WHETHER OR NOT FIREEYE WAS ADVISED OF THE POSSIBILITY OF SUCH LOSS OR DAMAGES.

**9.2. Limitation of Monetary Damages.** EXCEPT FOR LIABILITY ARISING UNDER A BREACH OF ANY INTELLECTUAL PROPERTY RIGHT OF FIREEYE, PAYMENT OBLIGATIONS OF CUSTOMER, AND THE INDEMNIFICATION OBLIGATIONS SET FORTH IN SECTION 8 (INFRINGEMENT INDEMNITY), AND NOTWITHSTANDING ANY OTHER PROVISIONS OF THIS AGREEMENT OR ANY ORDER OR STATEMENT OF WORK, FIREEYE'S TOTAL LIABILITY ARISING OUT OF THIS AGREEMENT, THE OFFERINGS, THE FIREEYE IP AND DELIVERABLES SHALL BE LIMITED TO THE TOTAL AMOUNTS

RECEIVED BY FIREEYE FOR THE RELEVANT OFFERINGS DURING THE TWELVE (12) MONTHS IMMEDIATELY PRECEDING THE FIRST OCCURRENCE OF THE EVENTS GIVING RISE TO SUCH LIABILITY.

**9.3. Applicability.** THE LIMITATIONS AND EXCLUSIONS CONTAINED HEREIN WILL APPLY ONLY TO THE MAXIMUM EXTENT PERMISSIBLE UNDER APPLICABLE LAW, AND NOTHING HEREIN PURPORTS TO LIMIT EITHER PARTY'S LIABILITY IN A MANNER THAT WOULD BE UNENFORCEABLE OR VOID AS AGAINST PUBLIC POLICY IN THE APPLICABLE JURISDICTION.

**9.4 SAFETY Act.** FireEye and Customer hereby mutually waive and release each other from any and all liabilities relating to any claims for losses or damages of any kind (including, but not limited to, business interruption losses) arising out of an Act of Terrorism as defined by the Support Anti-Terrorism By Fostering Effective Technologies Act of 2002 ("SAFETY Act")(6 U.S.C. §§ 441-444). FireEye and Customer further agree to be solely responsible to the full extent of any and all losses they may sustain, or for any and all losses their respective employees, officers, or agents may sustain, resulting from an Act of Terrorism as defined by 6 U.S.C. §§ 441-444 when FireEye's Multi-Vector Virtual Execution Engine and any subscriptions, cloud services platform or associated services (the "Qualified Anti-Terrorism Technology") are utilized in defense against, response to, or recovery from an Act of Terrorism.

## **10. Export Control; Anti-Corruption; U.S. Government Restricted Rights.**

**10.1. Export Control.** Export Control. Each party represents and warrants that it shall comply with all laws and regulations applicable to it with respect to the Offerings. Customer further acknowledges and agrees that the Products and FireEye Materials may be subject to restrictions and controls imposed by the United States Export Administration Act, the regulations thereunder, as well as European Union ("EU") or National export control laws and obligations and similar laws in other jurisdictions. Customer agrees to comply with all applicable export and re-export control laws and regulations, including the Export Administration Regulations ("EAR") maintained by the U.S. Department of Commerce, trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State. Specifically, Customer covenants that it shall not, directly or indirectly, sell, export, reexport, transfer, divert, or otherwise dispose of any Products, FireEye Materials, or technology (including products derived from or based on such technology) received from FireEye under this Agreement to any destination, entity, or person prohibited by the laws or regulations of the United States and the EU, without obtaining prior authorization from the competent government authorities as required by those laws and regulations. These prohibitions include, but are not limited to the following: (i) the Products and FireEye Materials cannot be exported or re-exported to any countries embargoed by the United States (currently including Cuba, Iran, North Korea, Sudan or Syria) which includes nationals of these countries employed by Customer; (ii) the Products and FireEye Materials cannot be exported or re-exported for military use in country group 'b' prior to valid 'export license' or valid 'license exception'; and (iii) the Products and FireEye Materials cannot be used for any prohibited end uses including any "nuclear, biological or chemical weapon related activities."; and (iv) the Products and FireEye Materials will not be re-exported or otherwise sold or transferred if it is known or suspected that they are intended or likely to be used for such purposes. Customer agrees to notify FireEye of any suspicious activities by any employee related to the Products. Customer agrees to indemnify, to the fullest extent permitted by law, FireEye from and against any fines or penalties that may arise as a result of Customer's breach of this provision. This export control clause shall survive termination or cancellation of any Orders.

**10.2. Anticorruption Laws.** Each Party acknowledges that it is familiar with and understands the provisions of the U.S. Foreign Corrupt Practices Act ("the FCPA") and the U.K. Bribery Act of 2010 ("UKBA") and agrees to comply with its terms as well as any provisions of local law related thereto. Each party further understands the provisions relating to the FCPA and UKBA's prohibitions regarding the payment or giving of anything of value, including but not limited to payments, gifts, travel, entertainment and meals, either directly or indirectly, to an official of a foreign government or political party for the purpose of influencing an act or decision in his or her official capacity or inducing the official to use his or her party's influence with that government, to obtain or retain business involving the Offering. Each Party agrees to not violate or knowingly let anyone violate the FCPA or UKBA, and Each Party agrees that no payment it makes will constitute a bribe, influence payment, kickback, rebate, or other payment that violates the FCPA, the UKBA, or any other applicable anticorruption or anti-bribery law.

**10.3. U.S. Government Restricted Rights.** The Offerings, Deliverables and Documentation are “commercial items”, “commercial computer software” and “commercial computer software documentation,” pursuant to DFAR Section 227.7202 and FAR Section 12.212, as applicable. All Offerings and FireEye Materials are and were developed solely at private expense. Any use, modification, reproduction, release, performance, display or disclosure of the Offerings, FireEye Materials and Documentation by the United States Government shall be governed solely by the this Agreement and shall be prohibited except to the extent expressly permitted by this Agreement.

## **11. CONFIDENTIAL INFORMATION.**

**11.1. Confidential Information.** “Confidential Information” means the non-public information that is exchanged between the parties, provided that such information is: (i) identified as confidential at the time of disclosure by the disclosing party (“Discloser”); or (ii) disclosed under circumstances that would indicate to a reasonable person that the information should be treated as confidential by the party receiving such information (“Recipient”). The terms of any commercial transaction between the parties (including pricing related to the Offerings) shall be considered Confidential Information.

**11.2. Maintenance of Confidentiality.** Each party agrees that it shall: (i) take reasonable measures to protect the Confidential Information by using the same degree of care, but no less than a reasonable degree of care, to prevent the unauthorized use, dissemination or publication of the Confidential Information as the Recipient uses to protect its own confidential information of a like nature; (ii) limit disclosure to those persons within Recipient’s organization with a need to know and who have previously agreed in writing, prior to receipt of Confidential Information either as a condition of their employment or in order to obtain the Confidential Information, to obligations similar to the provisions hereof; (iii) not copy, reverse engineer, disassemble, create any works from, or decompile any prototypes, software or other tangible objects which embody the other party’s Confidential Information and/or which are provided to the party hereunder; and (iv) comply with, and obtain all required authorizations arising from, all U.S. and other applicable export control laws or regulations.. Confidential Information shall not be used or reproduced in any form except as required to accomplish the purposes and intent of an Order or Statement of Work. Any reproduction of Confidential Information shall be the property of Discloser and shall contain any and all notices of confidentiality contained on the original Confidential Information.

**11.3. Exceptions.** The parties agree that the foregoing shall not apply to any information that Recipient can evidence: (i) is or becomes publicly known and made generally available through no improper action or inaction of Recipient; (ii) was already in its possession or known by it prior to disclosure by Discloser to Recipient; (iii) is independently developed by Recipient without use of or reference to any Confidential Information; or (iv) was rightfully disclosed to it by, or obtained from, a third party. Recipient may make disclosures required by law or court order provided that Recipient: (a) uses diligent efforts to limit disclosure and to obtain, if possible, confidential treatment or a protective order; (b) has given prompt advance notice to Discloser of such required disclosure; and (c) has allowed Discloser to participate in the proceedings.

**11.4. Injunctive Relief.** Each party will retain all right, title and interest to such party’s Confidential Information. The parties acknowledge that a violation of the Recipient’s obligations with respect to Confidential Information may cause irreparable harm to the Discloser for which a remedy at law would be inadequate. Therefore, in addition to any and all remedies available at law, Discloser shall be entitled to seek an injunction or other equitable remedies in all legal proceedings in the event of any threatened or actual violation of any or all of the provisions hereof.

**11.5. Return of Confidential Information.** Within thirty (30) days after the date when all Orders and SOWs have expired or been terminated, or after any request for return of Confidential Information, each party will return to the other party or destroy all of such other party’s Confidential Information, at such other party’s discretion, and, upon request, provide such other party with an officer’s certificate attesting to such return and/or destruction, as appropriate.

**11.6. Privacy.** If FireEye is a data processor under this Agreement, further to the provisions of Article 17 and 25 of the EU Data Protection Directive EU (Directive 95/46/EC), FireEye agrees that it will:

**11.6.1** only deal with and process personal data controlled by Customer in compliance with, and subject to, the instructions received from Customer and in compliance with this Agreement and will not use or process the personal data for any other purpose whatever;

**11.6.2** adopt and maintain appropriate (including organizational and technical) security measures in dealing with Customer's personal data in order to protect against unauthorized or accidental access, loss, alteration, disclosure or destruction of such data, in particular where the processing involves the transmission of data over a network, and against all other unlawful forms of processing; and

**11.6.3** take all reasonable steps to ensure that (i) persons employed by it, and (ii) other persons engaged at its place of work, are aware of and comply with applicable data privacy laws and regulations.

**11.6.4** FireEye may process or otherwise transfer any personal information in or to any country outside the European Economic Area or any country not deemed adequate by the European Commission pursuant to Article 25(6) to the extent necessary for the provision of the Offerings. If required, FireEye will enter into the EU Standard Contractual Clauses as approved by the European Commission for ensuring an adequate level of data protection in respect of the personal information that will be processed or transferred.

## **12. TERM AND TERMINATION.**

### **12.1. Term.**

**12.1.1 Products.** Products will be licensed according to the applicable terms in Exhibit A, for the period of time stated on the Order (e.g., if the Order lists a Product as being provided for "3Y," the license for that Product is provided for three years from the date of the Order). If no period of time is stated on the Order, then the Product is licensed perpetually, unless otherwise terminated as set forth herein.

**12.1.2 Support Services.** Support Services will begin ten (10) days from the date of shipment of the associated Product and continue for the period of time stated on the Order ("Initial Support Term"). Unless otherwise stated on the Order, the Support Services will automatically renew for additional periods of one (1) year each (each, a "Renewal Support Term" and together with the Initial Support Term, the "Support Term"), unless either party notifies the other of its intention not to renew Support Services at least sixty (60) days prior to the expiration of the then-current Support Term. Customer may terminate Support at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates Support Services for convenience before the end of the then-current Support Term, Customer will pay any remaining fees owing for the remainder of the then-current Support Term within thirty (30) days of the effective date of termination.

**12.1.3 Subscriptions.** The term of each Subscription will begin on the Order Effective Date and will continue in effect for the period of time stated in the Order ("Initial Subscription Term"). Unless otherwise stated on the Order, the Subscription will automatically renew after its Initial Subscription Term for additional periods of one (1) year each (each, a "Renewal Subscription Term" and together with the Initial Subscription Term, the "Subscription Term"), unless either party notifies the other of its intention not to renew that Subscription at least sixty (60) days prior to the expiration of the then-current Subscription Term. Customer may terminate a Subscription at any time, for convenience, on thirty (30) days' written notice to FireEye. If Customer terminates a Subscription for convenience before the end of the then-current Subscription Term, Customer will pay any remaining fees owing for the remainder of the then-current Subscription Term within thirty (30) days of the effective date of termination.

**12.1.4 Professional Services; Statements of Work.** Professional Services described on an Order will be provided at mutually agreed-upon times, and will continue until complete, unless otherwise terminated as set forth herein. The term of each SOW will be as set forth in that SOW. If no term is expressed in an SOW, then the term of that SOW will begin on the SOW Effective Date and continue until the Professional Services described in that SOW are complete or the SOW is earlier terminated as set forth herein. Unless otherwise stated in a SOW, Customer may terminate a SOW at any time for convenience by giving FireEye at least thirty (30) days' written notice of its intent to terminate the SOW. If Customer terminates an SOW for convenience as set forth in this Section, Customer will pay any amounts owing for Professional Services and Deliverables provided under that SOW up to and including the date of termination. Customer may request that FireEye suspend performing Professional Services during the term of a Statement of Work, and FireEye will suspend such Professional Services within 24 hours of Customer's request. Customer acknowledges that any such suspension will not affect Customer's obligation to pay fees for Professional Services rendered through the date of suspension, and that

resumption of Professional Services may be delayed if FireEye redeploys personnel to other engagements during the period of suspension.

**12.2. Termination for Material Breach.** Either party may terminate any Order or any SOW upon written notice of a material breach of the applicable Order or SOW by the other party as provided below, subject to a thirty (30) day cure period ("Cure Period"). If the breaching party has failed to cure the breach within the Cure Period after the receipt by the breaching party of written notice of such breach, the non-breaching party may give a second notice to the breaching party terminating the applicable Order or SOW. Termination of any particular Order or SOW under this Section will not be deemed a termination of any other Order or SOW, unless the notice of termination states that another Order or SOW is also terminated. Notwithstanding the foregoing, the Cure Period applicable to a breach by Customer of any payment obligations under any Order or any SOW will be fifteen (15) days. Notwithstanding the foregoing, this Agreement shall terminate automatically in the event Customer has breached any license restriction and, in FireEye's determination, that breach cannot be adequately cured within the Cure Period.

**12.3. Effect of Termination.** Termination or expiration of any Order or SOW will not be deemed a termination or expiration of any other Orders or SOWs in effect as of the date of termination or expiration, and this Agreement will continue to govern and be effective as to those outstanding Orders and SOWs until those Orders and SOWs have expired or terminated by their own terms or as set forth herein. The provisions of Section 3 (Payment), Section 6 (Intellectual Property), Section 7.5 (Disclaimer of Warranties), 9 (Limitation of Liability), 10 (Export Control; Anti-Corruption; U.S. Government Restricted Rights), 12 (Confidential Information), and 13 (Miscellaneous), and all accrued payment obligations, shall survive the termination of all Orders and SOWs and the relationship between FireEye and Customer.

### **13. MISCELLANEOUS.**

**13.1. Assignment.** Customer may not assign any Order or Statement of Work, or any rights or obligations thereunder, in whole or in part, without FireEye's prior written consent, and any such assignment or transfer shall be null and void. FireEye shall have the right to assign all or part of an Order or Statement of Work without Customer's approval. Subject to the foregoing, each Order and Statement of Work shall be binding on and inure to the benefit of the parties' respective successors and permitted assigns.

**13.2. Entire Agreement.** This Agreement along with any Order, Statement of Work and the Exhibits attached hereto is the entire agreement of the parties with respect to the Offerings and supersedes all previous or contemporaneous communications, representations, proposals, commitments, understandings and agreements, whether written or oral, between the parties regarding the subject matter thereof. FireEye does not accept, expressly or impliedly and FireEye hereby rejects and deems deleted any additional or different terms or conditions that Customer presents, including, but not limited to, any terms or conditions contained or referenced in any order, acceptance, acknowledgement, or other document, or established by trade usage or prior course of dealing. This Agreement may be amended only in writing signed by authorized representatives of both parties.

**13.3. Force Majeure.** Neither party will be liable to the other for any delay or failure to perform any obligation under this Agreement (except for a failure to pay fees) if the delay or failure is due to unforeseen events, which occur after the signing of this Agreement and which are beyond the reasonable control of the parties, such as strikes, blockade, war, terrorism, riots, natural disasters, refusal of license by the government or other governmental agencies, in so far as such an event prevents or delays the affected party from fulfilling its obligations and such party is not able to prevent or remove the force majeure at reasonable cost.

**13.4. Governing Law.** This Agreement shall be deemed to have been made in, and shall be construed pursuant to the laws of the State of California and the United States without regard to conflicts of laws provisions thereof, and without regard to the United Nations Convention on the International Sale of Goods or the Uniform Computer Information Transactions Act. Any legal suit, action or proceeding arising out of or relating to the Offerings, the FireEye Materials, this Agreement, an Order or a Statement of Work will be commenced exclusively in a federal court in the Northern District of California or in state court in Santa Clara County, California, and each party hereto irrevocably submits to the jurisdiction and venue of any such court in any such suit, action or proceeding.

**13.5. Independent Contractors.** The parties are independent contractors. Nothing in this Agreement, any Order or any Statement of Work shall be construed to create a partnership, joint venture or agency relationship between the parties. Customer shall make no representations or warranties on behalf of FireEye.

**13.6. Language.** This Agreement and each Order and Statement of Work are in the English language only, which shall be controlling in all respects. All communications, notices, and Documentation to be furnished hereunder shall be in the English language only.

**13.7. Notices.** All notices required to be sent hereunder shall be in writing, addressed to receiving party's current business contact, if known, with a cc: to the General Counsel/Legal Department of the receiving party, and sent to the party's address as listed in this Agreement, or as updated by either party by written notice. Notices shall be effective upon receipt and shall be deemed to be received as follows: (i) if personally delivered by courier, when delivered; or (ii) if mailed by first class mail, or the local equivalent, on the fifth business day after posting with the proper address.

**13.8. Severability.** If any provision of this Agreement is held to be illegal, invalid or unenforceable under the laws of any jurisdiction, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in full force and effect.

**13.9. Third Party Rights.** Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

**13.10. Waiver.** The waiver of a breach of any provision of this Agreement shall not constitute a waiver of any other provision or any subsequent breach.

**13.11. Equal Opportunity.** FireEye is committed to the provisions outlined in the Equal Opportunity Clauses of Executive Order 11246, the Rehabilitation Act of 1973, the Vietnam Era Veterans Readjustment Act of 1974, the Jobs for Veterans Act of 2003, as well as any other regulations pertaining to these orders.

Wherefore, the parties have caused this Master Purchase Agreement to be executed as of the Effective Date.

**EXHIBIT A**  
**PRODUCT LICENSE AND SUPPORT TERMS**  
**(FIREEYE NX, EX, AX, PX, FX, HX, SECURITY ORCHESTRATOR™, MVX SMART GRID, AND CENTRAL MANAGEMENT**  
**SERIES (CMS) PRODUCTS)**

The following terms apply to the FireEye NX, EX, AX, PX, FX, HX, Security Orchestrator, MVX Smart Grid, and Central Management Series (CMS) Products, including any add-on features such as FireEye Advanced Threat Intelligence (ATI).

**1. Grant of License and Restrictions.** Subject to the terms hereof, payment of all fees, and any applicable user/use limitations, FireEye grants Customer a personal, perpetual, nonsublicensable, nonexclusive, right to use the Product, in accordance with the Agreement and this Exhibit A. Customer will maintain the copyright notice and any other notices that appear on the Product, including any interfaces related to the Product. With respect to the FireEye HX Series Product, Customer may install the “agent” software component of the Product on the number of Nodes stated on the applicable Order. With respect to the FireEye EX Series Product, Customer may use the Product in connection with the number of attached URL engines (i.e., email accounts) (“Attached URL Engines”) stated on the applicable Order. FireEye reserves the right to audit Customer’s use of the Product to ensure compliance with this Agreement. “Nodes” are endpoint computing devices owned or controlled by Customer (such as laptops, workstations, and servers), on which Customer installs the agent software. Updates, preview features, Content Feeds and/or Support Services are not necessarily provided with the Software, may require additional payment or include additional terms and conditions, and may be provided on a “preview” basis for a limited period at no additional charge but then licensed for an additional fee at a later date. Customer acknowledges that Third Party Software distributed with the Products may be subject to separate license terms, and specifically, if the Oracle™ Java® software is included within the Product, that software is subject to the license found at <http://www.oracle.com/technetwork/java/javase/terms/license/index.html>.

**2. Content Feeds.** Subject to Customer’s payment in full of all associated fees for the applicable FireEye Content Feed, as set forth on the applicable Order, FireEye shall grant a limited, non-exclusive, personal, non-transferable, non-sublicenseable right to use the Content Feed as set forth in the Documentation for the applicable Product, for Customer’s internal business purposes during the active Support Term for the applicable Product. FireEye shall not disclose to any third party any personally identifiable data or Customer Confidential Information in connection with the Content Feed unless expressly authorized to do so by Customer. The Content Feeds available to the Customer with respect to the Products may include:

**2.1** FireEye Dynamic Threat Intelligence™ (DTI™) – The DTI Content Feed (currently available only for customers who have purchased the FireEye NX, EX, AX, HX or FX Product) provides continual, updated information to the Product about threats.

**2.2.** FireEye Advanced Threat Intelligence™ (ATI™) – The ATI Content Feed (currently available only for customers who have purchased the FireEye NX Product) provides contextual information about malware detected in Customer’s environment, such as information regarding threat groups associated with certain malware, industry verticals in which FireEye has observed certain threat groups operate and in which certain malware is used, and relative frequency of observation of various threats and malware.

**3. Support Services.** Subject to Customer’s payment in full of all associated fees for FireEye Support Services, FireEye shall provide Support Services for the Products as set forth in Exhibit C, as may be updated by FireEye in its discretion.

**EXHIBIT B**  
**SUBSCRIPTION TERMS**

**EXHIBIT B-1**  
**SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS PROTECTION**

The following terms govern the FireEye as a Service (FaaS) – Continuous Protection (CP) Subscription.

**1 Definitions.**

- 1.1 “Alert”** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.
- 1.2 “APT Alert”** means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a “targeted threat,” which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an “APT Alert” means a TAP Alert designated as an “APT Alert” in the table in Section 1.11 below.
- 1.3 “APT Only Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.
- 1.4 “Covered System”** means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CP Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CP Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CP Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CP Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CP Subscription.
- 1.5 “Full Coverage Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.
- 1.6 “High Priority Alert Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.
- 1.7 “FaaS Reports”** means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CP Subscription.
- 1.8 “High Priority Alert”** means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level “critical” or “major”; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a “High Priority Alert” in the table in Section 1.11 below.
- 1.9 “Low Priority Alert”** means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.
- 1.10 “Nodes” or “Node Band”** refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.
- 1.11 “TAP Alert”** means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., “Critical,” “High,” “Medium”). TAP Alerts are investigated and reported on as “APT Alerts” and “High Priority Alerts” as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

| FireEye Rule Pack     | APT Alerts | High Priority Alerts |
|-----------------------|------------|----------------------|
| Application Detection |            |                      |
| Cloud Infrastructure  |            |                      |
| Commodity Malware     |            | All                  |

|                            |                        |                        |
|----------------------------|------------------------|------------------------|
| Current Events             | Critical, High         | Critical, High         |
| DTI Rules                  |                        | All                    |
| Exploit Kits               |                        | All                    |
| FTP                        |                        |                        |
| Industrial Control Systems | Critical, High, Medium | Critical, High, Medium |
| Intel Match                | Critical, High, Medium | Critical, High, Medium |
| Linux                      |                        | Critical, High         |
| Malware Methodology        |                        | Critical, High         |
| Phishing                   | Critical High          | Critical, High         |
| Point of Sale              | All                    | All                    |
| Security Tools             |                        | Critical, High, Medium |
| Targeted Malware           | All                    | All                    |
| Vendor – FireEye           |                        |                        |
| Vulnerability              |                        | Critical, High, Medium |
| Web Application Attacks    |                        | Critical, High, Medium |
| Windows                    |                        | Critical, High         |

1.13 “**TAP Rule Packs**” means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

**2 Scope of FaaS – Continuous Protection (CP) Subscription.** During the Subscription Term, FireEye will provide the CP Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription level purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CP Subscription is provided by FireEye personnel remotely accessing Customer’s environment from FireEye’s networks. The CP Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye’s then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

## 2.1 Event Analysis.

- (a) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).
- (b) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.
- (c) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer’s Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.
- (d) FaaS Reports. If FireEye’s investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye’s investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

| Alerts Investigated (Level of Service) |                              |                       | FaaS Alert Classification | Time to Begin Investigation (from time Product or TAP Subscription generates Alert) | Time to Publish FaaS Report (from time FireEye validates actual compromise) | Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert) |
|----------------------------------------|------------------------------|-----------------------|---------------------------|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| APT Only Service                       | High Priority Alerts Service | Full Coverage Service |                           |                                                                                     |                                                                             |                                                                                                                              |
| Yes                                    | Yes                          | Yes                   | APT Alert                 | 1 hours                                                                             | 1 hour                                                                      | 24 hours                                                                                                                     |
| No                                     | Yes                          | Yes                   | High Priority Alert       | 7 hours                                                                             | 1 hour                                                                      | 24 hours                                                                                                                     |
| No                                     | No                           | Yes                   | Low Priority Alert        | 24 hours                                                                            | 1 hour                                                                      | 48 hours                                                                                                                     |

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) **Extended Investigations; Multiple Related Alerts.** When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) **Non-Remediable Alerts.** FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) **Alert Priority.** FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) **Continuity of Monitoring.** All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

**2.2 System Health Monitoring and Notification.** For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

**2.3 Containment.** When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

**2.4 Portal Access.** Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

**2.5 FireEye Intelligence Center.** During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

- (a) **Permitted Use; Reports.** Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.
- (b) **Additional Use Limitations.** Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.
- (c) **User Content.** "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.
- (d) **Restrictions.** Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.
- (e) **Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.**

**2.6 Reseller and Partner Purchases.** If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

**2.7 Customer Networks.** The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

**2.8 Connectivity Requirements.** Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCP-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

**2.9 Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

**2.10 Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii)

Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

### **3. FaaS Portal Availability**

**3.1** FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

**3.1.1** "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

**3.1.2** "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

**3.1.3** "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

**3.1.4** "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

### **3.2. Remedy**

**3.2.1** In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

| <b>Percent of FaaS Portal Availability per Calendar Month</b> | <b>Service Credit</b> |
|---------------------------------------------------------------|-----------------------|
| <99.9%                                                        | 2%                    |
| <99.0%                                                        | 5%                    |
| <98.0%                                                        | 10%                   |

**3.2.2** For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

**3.2.3** Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

**3.2.4** Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

**EXHIBIT B-2**  
**SUBSCRIPTION TERMS FOR FIREEYE AS A SERVICE (FAAS) – CONTINUOUS VIGILANCE**

The following terms govern the FireEye as a Service (FaaS) – Continuous Vigilance (CV) Subscription.

**3 Definitions.**

- 3.1 “Alert”** means, individually and collectively, APT Alerts, High Priority Alerts, and Low Priority Alerts.
- 3.2 “APT Alert”** means (a) with respect to Products other than HX, an alert generated by a Product, that is identified by the Product as being associated with a “targeted threat,” which means advanced persistent threat (APT) actors or APT activity; (b) with respect to the HX Product, an alert designated by HX as XPLT, EXC, or PRE, that is triggered by a FireEye standard Indicator; and (c) with respect to the TAP Subscription, an “APT Alert” means a TAP Alert designated as an “APT Alert” in the table in Section 1.11 below.
- 3.3 “APT Only Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of APT Alert. If Customer purchases the APT Only Service, FireEye will provide FaaS Reports and monitoring of only APT Alerts, and not any other Alerts.
- 3.4 “Covered System”** means (i) a computing device (to the extent supported by FireEye) that Customer specifies as within the scope of the CV Subscription, and if the Customer has purchased the HX Product, on which a software agent has been installed to support CV Subscription delivery, or (ii) a computing device (to the extent supported by FireEye) whose network traffic is observable to support CV Subscription delivery; (iii) with respect to ETP Subscriptions, mailboxes monitored to support CV Subscription delivery; or (iv) any computing device that both Customer and FireEye agree is within scope of the CV Subscription.
- 3.5 “Full Coverage Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of all Alerts, regardless of the severity level of the Alert as classified by the Product.
- 3.6 “High Priority Alert Service”** means the Subscription level in which FireEye will provide FaaS Reports and monitoring of High Priority Alerts and APT Alerts.
- 3.7 “FaaS Reports”** means the written reports relating to Alerts that FireEye creates and makes available to Customer through the CV Subscription.
- 3.8 “High Priority Alert”** means (a) with respect to Products other than HX and FX, an alert generated by that Product that is classified by that Product as severity level “critical” or “major”; (b) with respect to the FX Product, any alert generated by the FX Product, including APT Alerts; and (c) with respect to a TAP subscription, a TAP Alert designated as a “High Priority Alert” in the table in Section 1.11 below.
- 3.9 “Low Priority Alert”** means an alert generated by a Product or TAP Subscription (as applicable) that is not an APT Alert or a High Priority Alert.
- 3.10 “Nodes” or “Node Band”** refers to number of Covered Systems within the Customer environment, which is reflected on the Subscription Order.
- 3.11 “TAP Alert”** means an alert generated by the TAP Subscription, with a severity level assigned by the TAP Subscription (e.g., “Critical,” “High,” “Medium”). TAP Alerts are investigated and reported on as “APT Alerts” and “High Priority Alerts” as shown in the table below, depending on the TAP Rule Pack that invoked the TAP Alert:

| FireEye Rule Pack     | APT Alerts | High Priority Alerts |
|-----------------------|------------|----------------------|
| Application Detection |            |                      |
| Cloud Infrastructure  |            |                      |
| Commodity Malware     |            | All                  |

|                            |                        |                        |
|----------------------------|------------------------|------------------------|
| Current Events             | Critical, High         | Critical, High         |
| DTI Rules                  |                        | All                    |
| Exploit Kits               |                        | All                    |
| FTP                        |                        |                        |
| Industrial Control Systems | Critical, High, Medium | Critical, High, Medium |
| Intel Match                | Critical, High, Medium | Critical, High, Medium |
| Linux                      |                        | Critical, High         |
| Malware Methodology        |                        | Critical, High         |
| Phishing                   | Critical High          | Critical, High         |
| Point of Sale              | All                    | All                    |
| Security Tools             |                        | Critical, High, Medium |
| Targeted Malware           | All                    | All                    |
| Vendor – FireEye           |                        |                        |
| Vulnerability              |                        | Critical, High, Medium |
| Web Application Attacks    |                        | Critical, High, Medium |
| Windows                    |                        | Critical, High         |

1.13 “**TAP Rule Packs**” means a predefined set of criteria that identifies suspicious events or threats based on the associated rule type within the TAP Subscription.

**2 Scope of FaaS – Continuous Vigilance (CV) Subscription.** During the Subscription Term, FireEye will provide the CV Subscription as set forth in this Section 2, according to the Subscription level purchased by Customer as set forth in the Subscription Order. If the Subscription Order does not specify the Subscription level purchased, then Customer will be deemed to have purchased the APT Only Service. All services Customer requests that are not described in this Section 2 will be performed at mutually agreed upon rates as set forth in Statements of Work. Unless otherwise specified, the CV Subscription is provided by FireEye personnel remotely accessing Customer’s environment from FireEye’s networks. The CV Subscription is available for the number of Nodes purchased (available for Customers who have purchased the FireEye NX, FX, or EX Product or the ETP or TAP Subscription). If the number of Nodes exceeds the amount reflected in the Subscription Order by more than ten percent (10%), FireEye will notify Customer in writing, and will issue an invoice for the next higher Node Band at FireEye’s then-current rates pro-rated for the remaining portion of the then-current Subscription Term.

## 2.1 Event Analysis.

- (e) Time to Begin Analysis. FireEye will begin analysis of an Alert within the times set forth in the table below, calculated from the time the Alert was generated by the Product or TAP Subscription (as applicable).
- (f) Alerts Investigated. FireEye will investigate and report on the Alerts that correspond with the Subscription level the Customer purchased. If the Customer purchased the APT Only Service, FireEye will investigate and report on only APT Alerts. If the Customer purchased the High Priority Alerts Service, FireEye will investigate and report on only High Priority Alerts and APT Alerts. If the Customer purchased the All Alerts Service, FireEye will investigate and report on APT Alerts, High Priority Alerts, and Low Priority Alerts. FireEye has no obligation to investigate and report on Alerts that fall outside the purchased Subscription level.
- (g) Initial Investigation. FireEye analysts will perform an initial analysis of the Customer’s Covered Systems to determine if the Alert is a true or false positive, benign or suspicious activity.
- (h) FaaS Reports. If FireEye’s investigation determines that the Alert indicates a true compromise, FireEye will publish a FaaS Report to the FaaS Portal within one (1) hour of the time FireEye makes that determination. Regardless of whether FireEye’s investigation determines that an Alert indicates a true compromise, FireEye will publish a FaaS Report on the Alert to the FaaS Portal within the times set forth in the table

below, based on the classification of the Alert (APT Alert, High Priority Alert, Low Priority Alert). Customer acknowledges that in some cases, when FireEye's investigation is not complete, a FaaS Report may provide only an update of current status of the Alert investigation.

| Alerts Investigated (Level of Service) |                              |                       | FaaS Alert Classification | Time to Begin Investigation (from time Product or TAP Subscription generates Alert) | Time to Publish FaaS Report (from time FireEye validates actual compromise) | Time to Publish FaaS Report (when no validation of actual compromise; from time Product or TAP Subscription generates Alert) |
|----------------------------------------|------------------------------|-----------------------|---------------------------|-------------------------------------------------------------------------------------|-----------------------------------------------------------------------------|------------------------------------------------------------------------------------------------------------------------------|
| APT Only Service                       | High Priority Alerts Service | Full Coverage Service |                           |                                                                                     |                                                                             |                                                                                                                              |
| Yes                                    | Yes                          | Yes                   | APT Alert                 | 1 hours                                                                             | 1 hour                                                                      | 24 hours                                                                                                                     |
| No                                     | Yes                          | Yes                   | High Priority Alert       | 7 hours                                                                             | 1 hour                                                                      | 24 hours                                                                                                                     |
| No                                     | No                           | Yes                   | Low Priority Alert        | 24 hours                                                                            | 1 hour                                                                      | 48 hours                                                                                                                     |

The service levels noted in the table above will become effective thirty (30) days following the Order Effective Date, to allow time for Customer to install Products and for FireEye to determine the level of staffing needed to respond to Alerts in Customer's environment.

(e) Extended Investigations; Multiple Related Alerts. When FireEye has identified a true positive or suspicious activity, FireEye analysts may perform an extended investigation, and/or may aggregate and review multiple Alerts from related Covered Systems to determine the extent of activity related to the Alert. FireEye analysts may append results from the extended investigation or subsequent Alert investigations to the initial FaaS Report if FireEye determines that additional or subsequent Alerts are related, and in such cases, FireEye will not be required to issue a separate FaaS Report for each such related Alert.

(f) Non-Remediable Alerts. FireEye has no obligation to notify the Customer or generate a new FaaS Report on new Alerts that are directly related to previous investigations where a FaaS Report has been published and FireEye has provided recommended remediation steps, when the Customer has acknowledged the FaaS Report but chooses not to or cannot remediate the cause of these Alerts.

(g) Alert Priority. FireEye may re-prioritize Alerts, regardless of their severity classification, to provide focus to Alerts that FireEye determines may have the largest impact to the Customer's environment.

(h) Hunting. FireEye will conduct periodic proactive hunting techniques on Covered Systems to look for additional indicators of malicious or attacker activity. When FireEye's investigation reveals a compromise, then within one (1) hour of the time FireEye makes that determination, FireEye will publish a FaaS Report related to that activity to the FaaS Portal.

(i) Continuity of Monitoring. All monitoring, investigation and reporting activities described in this Section 2.1 will be provided on a 24/7/365 basis.

**2.2 System Health Monitoring and Notification.** For Customers who have purchased the FireEye NX, EX, or FX Product, FireEye will provide Customer with notifications of system health issues such as connectivity problems.

**2.3 Containment.** When the Customer has purchased the HX Product, FireEye may, when appropriate, recommend containment of the target Covered System from the Customer's network. Containment must be executed by the Customer.

**2.4 Portal Access.** Alerts and FaaS Reports will be provided via an online portal ("FaaS Portal"), and FireEye will provide login credentials to the Customer to enable access to the FaaS Portal. The FaaS Portal will be

available 99.9% of the time in any calendar month, other than Downtime, as defined below, and this FaaS Portal Service Level commitment will be subject to the Service Level Credits set forth in Section 3 below.

**2.5 FireEye Intelligence Center.** During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

- (f) **Permitted Use; Reports.** Customer may access, view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye IP. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.
- (g) **Additional Use Limitations.** Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names and (B) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.
- (h) **User Content.** "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC, including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including CTI, to the extent such information is de-identified.
- (i) **Restrictions.** Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC.
- (j) **Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.**

**2.6 Reseller and Partner Purchases.** If Customer receives the Subscription via a FireEye authorized services or support partner (a "Partner"), Customer agrees that the Subscription and FaaS Reports may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription and Customer Data to Partner.

**2.7 Customer Networks.** The Subscription may only be provided for computer systems and networks leased to or owned by Customer, and under Customer's control, up to the number of Nodes allowed, as set forth in the applicable Subscription Order.

**2.8 Connectivity Requirements.** Unless otherwise specified, the Subscription are provided by FireEye personnel remotely accessing Customer's environment from FireEye's networks. Customer must provide outbound TCV-based connectivity from all Products to FireEye for the establishment of a virtual private network (VPN). Details pertaining to specific network access requirements will be established in conjunction with installation activities.

**2.9 Credential Security.** Customer will be responsible for the following: (a) providing accurate information to FireEye for provisioning access to (and removal of) Customer personnel access to the FaaS Portal; (b) implementing and adhering to strong password standards; (c) providing accurate information to FireEye for domain whitelisting; and (d) reporting any security issues related to the Subscription (including the FaaS Portal) to FireEye immediately.

**2.10 Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence (DTI) Subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that have been declared end of life; (v) Products that have no active Support Service in place; (vi) Products for which software updates have not been applied; (vii) Products that have not been installed and deployed; or (viii) Products that are misconfigured or incorrectly deployed, which prevents the Products from monitoring the Covered Systems. Customer acknowledges that to facilitate FireEye's efficient performance of the Subscription, FireEye may control some features and functionality of the Products, and that such features or functionality may not be available for Customer's independent use during the Subscription Term.

### **3. FaaS Portal Availability**

**3.1** FireEye shall undertake commercially reasonable efforts to ensure the FaaS Portal availability for 99.9% of the time during each calendar month.

**3.1.1** "Service Outage" is where the FaaS Portal is not available due to a failure or a disruption in the FaaS Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

**3.1.2** "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the FaaS Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

**3.1.3** "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the FaaS Portal during the Emergency Maintenance.

**3.1.4** "System Availability" means the percentage of total time during which the FaaS Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

### **3.2. Remedy**

**3.2.1** In the event that the FaaS Portal does not meet the monthly service availability defined in 3.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

| <b>Percent of FaaS Portal Availability per Calendar Month</b> | <b>Service Credit</b> |
|---------------------------------------------------------------|-----------------------|
| <99.9%                                                        | 2%                    |
| <99.0%                                                        | 5%                    |
| <98.0%                                                        | 10%                   |

**3.2.2** For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences a disruption in availability of the FaaS Portal and ending when a successful solution or workaround allowing for full restoration of the FaaS Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the calendar month in which the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

**3.2.3** Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

**3.2.4** Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

**EXHIBIT B-3**  
**SUBSCRIPTION TERMS FOR FIREEYE THREAT ANALYTICS PLATFORM (TAP)**

The following terms govern the Threat Analytics Platform Subscription, including purchase and support of TAP Cloud Collector™ Appliances and Support.

**1. TAP Software, Alerts**

**1.1.1** TAP Software and Hardware. As part of the TAP Subscription, FireEye may deliver to Customer one or more software files (individually and collectively, "TAP Software"), and/or one or more "Cloud Collector" hardware appliances ("Cloud Collector Appliances"), which may contain TAP Software. Subject to full payment of all Fees associated with the TAP Subscription, FireEye grants to Customer a non-exclusive, limited right and license to install and run the TAP Software during the Subscription Term solely for purposes of using the TAP Subscription in accordance with the Documentation for the TAP Subscription.

**1.1.2** Access; Customer Logs. FireEye will provide Customer with credentials to enable access to the TAP Subscription. Using the TAP Software, and subject to payment of Fees for the TAP Subscription and any Cloud Collector Appliances, Customer may upload Customer Logs to the TAP portal ("TAP Portal"). "Customer Logs" means any communications, logs and other content and information that Customer or anyone using Customer's account contributes to or through the TAP Portal. Customer grants to FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive license and right to reproduce, modify, create derivative works from, publish, distribute, sell, sub-license, transmit, publicly display and provide access to Customer Logs, for purposes of enhancing FireEye's products and services, so long as (i) FireEye ensures that any Customer Confidential Information is removed from Customer Logs, and (ii) FireEye's use of Customer Logs does not in any way identify Customer or its employees or in any other way allow a third party to identify Customer as the source of the Customer Logs. Customer Logs are Customer's property, and other than the licenses granted in herein, FireEye does not obtain any ownership rights in Customer Logs.

**1.1.3** TAP Alerts. Some features of the TAP Subscription may generate alerts of suspected malicious activity (each, a "TAP Alert"). TAP Alerts are FireEye Materials. FireEye hereby grants to Customer a limited, non-exclusive right to use TAP Alerts, and reproduce and distribute those TAP Alerts internally for Customer's own business purposes.

**1.1.4** Cloud Collector Management. If Customer has installed Cloud Collectors in connection with the TAP Subscription, then FireEye will continuously monitor the Customer's Cloud Collector Appliances or Cloud Collector TAP Software for system health issues such as monitoring to ensure proper throughput and relay of data.

**1.1.5** Cloud Collector Appliances. If the Customer has purchased Cloud Collector Appliances, then during the TAP Subscription Term, FireEye will replace any defective Cloud Collector Appliances as follows:

- a) Prior to any return, Customer shall verify that the Cloud Collector Appliance at issue is defective by logging a Support request via one of the mechanisms provided in the Documentation and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information.
- b) Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Cloud Collector Appliance to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Cloud Collector Appliance, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Cloud Collector Appliance may be a new or reconditioned Cloud Collector Appliance (of equivalent or better quality) at FireEye's sole discretion.
- c) FireEye shall pay the shipping costs to ship the replacement Cloud Collector Appliance to Customer, but Customer shall bear any and all risk of loss of or damage to said Cloud Collector Appliance at all times after said Cloud Collector Appliance is made available by FireEye to the common carrier.

- d) Within five (5) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, Customer shall package the defective Cloud Collector Appliance in its original packing material or equivalent, write the RMA number on the outside of the package and return the defective Cloud Collector Appliance, at FireEye's cost (provided Customer utilizes FireEye's designated courier service and properly packages the defective Cloud Collector Appliance according to FireEye's instructions), shipped properly insured, FOB FireEye's designated facility. Customer shall enclose with the returned Cloud Collector Appliance the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Cloud Collector Appliance during shipping. Title to the defective Cloud Collector Appliance shall pass to FireEye upon FireEye's receipt thereof.
- e) When a replacement Cloud Collector Appliance is provided and Customer fails to return the defective Cloud Collector Appliance to FireEye within ten (10) business days after Customer receives the replacement Cloud Collector Appliance from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Cloud Collector Appliance at the then-current list price.

## **2. Event Volume; True-Up**

**2.1.1** Fees for the TAP Subscription are divided into "Tiers" based on the volume of events processed through the TAP Subscription per second ("Event Volume"). If at any point during the Subscription Term, Customer's Event Volume exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye will not guarantee that Customer Logs in excess of the purchased Tier will be ingested and processed by the TAP Subscription. In times of Event Volume in excess of the paid Tier, Customer Logs will enter a queue. Excessive queueing may cause Customer Logs to be lost from the queue. If at any point during the Subscription Term, Customer's average Event Volume for any consecutive thirty-day period exceeds the Tier upon which Customer's TAP Subscription Fees were based, FireEye may issue a true-up invoice for the pro-rated difference between the Fees already paid for that Subscription Term and FireEye's list prices for the Fees for the Tier associated with Customer's actual Event Volume for that thirty-day period, pro-rated to reflect that thirty-day period and the remainder of the Subscription Term. FireEye will apply any discounts that were applied to initial Fees to FireEye's list prices for any true-up invoice. Until such time that the True Up invoice is paid in full, the TAP Subscription will continue to ingest and process only the Event Volume of the purchased Tier, allowing any excess Customer Logs to enter queueing conditions. The Tier for any Renewal Subscription Term will be the Tier associated with the actual Event Volume for the immediately preceding Subscription Term.

**2.1.2** At the end of the Initial Subscription Term and each Renewal Subscription Term, FireEye may true-up Fees for that Subscription Term, and if the average monthly Event Volume for that Subscription Term exceeds the maximum Event Volume for the Tier for which Customer previously paid Fees, then (a) FireEye will issue a true-up invoice reflecting the difference between the Fees already paid for that Subscription Term and the Fees for the Tier associated with Customer's actual Event Volume.

## **3. TAP Portal Availability**

**3.1** FireEye shall undertake commercially reasonable efforts to ensure the TAP Portal availability for 99.9% of the time during each calendar month.

**3.1.1** "Service Outage" is where the TAP Portal is not available due to a failure or a disruption in TAP Portal that is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

**3.1.2** "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the TAP Portal may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

**3.1.3** "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the TAP Portal during the Emergency Maintenance.

**3.1.4** "System Availability" means the percentage of total time during which the TAP Portal shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

## **3.2. Remedy**

**3.2.1** In the event that the TAP Portal does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

| Percent of TAP Portal Availability per Calendar Month | Service Credit |
|-------------------------------------------------------|----------------|
| <99.9%                                                | 2%             |
| <99.0%                                                | 5%             |
| <98.0%                                                | 10%            |

**3.2.2** For determining the Credit, the duration of a Service Outage will be measured as the time starting when Customer experiences unavailability of the TAP Portal and ending when a successful solution or workaround allowing for full restoration of the TAP Portal is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

**3.2.3** Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

**3.2.4** Customer shall not be entitled to receive a Credit that exceeds 10% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

**4. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™).** During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:

- i. **Permitted Use; Reports.** Customer may view and use FIC and content appearing on FIC ("FIC Content") solely for internal use. Some features of FIC may allow Customer to generate a report (each, a "FIC Report"). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.
- ii. **Additional Use Limitations.** Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.
- iii. **User Content.** "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform, to the extent such information is de-identified.

- iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, “screen scraping,” or “database scraping” application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party’s use and enjoyment of FIC.
- v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

## EXHIBIT B-4

### SUBSCRIPTION TERMS FOR FIREEYE EMAIL THREAT PREVENTION (ETP) and MOBILE THREAT PREVENTION (MTP)

The following terms govern the Email Threat Prevention Subscription and Mobile Threat Prevention Subscription.

#### 1. Definitions.

"Cloud Subscription" means the online, web-based applications and platform which is made accessible to Customer by FireEye via a designated website, which includes the associated offline Software components to be used in connection with FireEye Mobile Threat Prevention and/or FireEye Email Threat Prevention. FireEye Mobile Threat Prevention ("MTP") and FireEye Email Threat Prevention ("ETP") are separate Cloud Subscriptions and usage is conditional on what the Customer has indicated on an Order.

"Customer Data" means data, information, applications, and any other items originated by Customer that Customer submits to the Cloud Subscription.

"Customer Representatives" means any employee or contractor of Customer or Mobile Device Manager to whom Customer provides access to the Cloud Subscriptions (or any component thereof, including Software) for use on behalf of and for the benefit of the Customer and for Customer's internal business purposes, subject to all the terms and conditions of this Agreement.

"Licensed Device" means (i) with respect to MTP, the registered devices that Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye; and (ii) with respect to ETP, the number of email inboxes Customer may have at any time that are registered to the Cloud Subscription; which maximum number shall be based on the subscription fees paid by Customer and identified on the relevant purchase order from Customer as approved and invoiced by FireEye. For the avoidance of doubt, with respect to MTP, "registered devices" are those devices which have loaded device Software and which have been registered to the Cloud Subscription and which have not been retired (meaning unregistered).

"Mobile Device Manager" shall mean a third party who has been engaged by the Customer to provide security services for Licensed Devices for the benefit of Customer. Where indicated as such, the Mobile Device Manager shall be a subset of the definition of the Customer Representatives solely as applicable to MTP.

"Software" means the object code version of FireEye's proprietary computer programs delivered to Customer hereunder for use in connection with the Cloud Subscriptions, including collectively and individually the device-side software used on devices registered to the Cloud Subscription ("Device Software") and any connector software and/or any other server-side software (collectively the "Premise Software"), each which are delivered to Customer hereunder for use in connection with the Cloud Subscriptions, and any Documentation, backup copies and updates, upgrades, maintenance releases, bug fixes to any of the forgoing provided to Customer hereunder.

**2. Right of Access and Use.** During the Subscription Term, and subject to the terms of this Agreement, FireEye grants to Customer a non-exclusive right to (a) permit those Customer Representatives authorized by Customer to access and use the Cloud Subscriptions on Customer's behalf in compliance with the terms of this Agreement, and (b) to install, copy and use Premise Software in connection with Cloud Subscriptions in accordance with the Agreement and this Exhibit, but solely on systems and hardware owned or controlled or otherwise managed by Customer on behalf of and for the benefit of Customer, (c) to install, copy and use Device Software in connection with Cloud Subscriptions in accordance with the Documentation, but solely on devices used by Customer Representatives on behalf of and for the benefit of Customer. Notwithstanding anything else herein, the number of devices Customer and/or Customer Representatives may register to the Cloud Subscriptions may not exceed the number of Licensed Devices.

Notwithstanding anything to the contrary herein, if Customer is using the Cloud Subscriptions for evaluation purposes then such Customer usage is solely for internal testing and evaluation and the Subscription Term shall not exceed fifteen (15) days unless otherwise mutually agreed upon in a signed Evaluation License Agreement.

**3. Restrictions.** Except as otherwise expressly permitted under this Agreement, Customer agrees that it shall not, nor shall it permit any third party to, (a) use the Cloud Subscriptions (or any portion thereof) in excess of or beyond the Subscription Term, the Licensed Device quantity, and/or other restrictions/limitations described in this Agreement; use the Cloud Subscriptions to store or transmit infringing, libelous, or otherwise unlawful or tortious material, or to store or transmit material in violation of third-party privacy or other rights; (d) interfere with or disrupt the integrity or performance of the Cloud Subscriptions or third-party data contained therein; (e) use the Software on equipment or devices which are not specified in the Documentation; (f) Cloud Subscription specific to ETP Cloud Subscriptions, Customer shall route email through a commercially available secure email gateway for anti-spam scanning prior to relay through the FireEye network. No rights or licenses are granted other than as expressly and unambiguously set forth herein. Customer access and usage for the Cloud Subscriptions is limited to the MTP or ETP Subscription that has been paid or are being evaluated by the Customer.

**4. Updates, Malware Detection Content and Support Services.** Updates and malware detection content and/or support services are not necessarily provided with the Software or Subscriptions, and may require additional payment or include additional terms and conditions. However, to the extent that an update to the Software and/or malware detection content is provided, such update/content shall be deemed "Software" provided subject to this Agreement. If malware detection content/support services are provided, FireEye reserves the right to change the scope or duration of such services at anytime, and to access, freely use and distribute data collected from Customer through such services. If such services are made available, Customer may be required to pay fees or other charges for use or access to some or all such services, which fees and terms will be specified in the invoice or order form for such service.

**5. Device Count Increases; Reporting; Invoice.** If the number of devices that Customer or Customer Representatives have registered to the Cloud Subscription ("Actual Device Count") exceeds Customer's then current Licensed Device count or if Customer wishes to increase the Licensed Device count, then Customer shall notify FireEye (or the applicable FireEye Partner) and submit an Order for the incremental Subscription Fees due, and upon receipt of such Order, the Licensed Device count shall be amended to reflect this change. Upon written request, Customer will provide FireEye a report identifying (i) the Actual Devices; (ii) the copies of and location of the Premise Software maintained; and (iii) any other information reasonably requested by FireEye at the time as it relates to the use of the Cloud Subscription to determine compliance with the terms of this Agreement. FireEye and/or its Authorized Resellers may invoice Customer if it learns of any shortfalls, i.e. that the Licensed Device Count is below the Actual Device count. The fees charged to Customer for increases in License Device counts will be based on the then-current Subscription Term pricing.

## **6. Cloud Subscription Availability**

**6.1** FireEye shall undertake commercially reasonable efforts to ensure the Cloud Subscription availability for 99.9% of the time during each calendar month.

**6.1.1** "Service Outage" is where the Customer is not receiving Cloud Subscription due to a failure or a disruption in the Cloud Subscriptions and is not the result of Scheduled Maintenance, Emergency Maintenance, a force majeure event or of the act or omission of Customer.

**6.1.2** "Scheduled Maintenance Period" is the period during which weekly scheduled maintenance of the Cloud Subscriptions may be performed, or a maintenance window otherwise mutually agreed upon by FireEye and Customer.

**6.1.3** "Emergency Maintenance" means any time outside of Scheduled Maintenance that FireEye is required to apply critical patches or fixes or undertake other urgent maintenance. If Emergency Maintenance is required, FireEye will contact Customer and provide the expected time frame of the Emergency Maintenance and availability of the Cloud Subscriptions during the Emergency Maintenance.

**6.1.4** "System Availability" means the percentage of total time during which the Cloud Subscriptions shall be available to Customer, excluding the Scheduled Maintenance Period, Emergency Maintenance, force majeure events, or acts or omissions of the Customer that cause system downtime.

## 6.2. Remedy

**6.2.1** In the event that the Cloud Subscription does not meet the monthly service availability defined in 6.1, FireEye will provide a credit to the Customer in accordance to the table below ("Credit") for a validated SLA Claim (defined below).

| Percent of System Availability per Calendar Month | Service Credit |
|---------------------------------------------------|----------------|
| <99.9%                                            | 25%            |
| <99.0%                                            | 50%            |
| <98.0%                                            | 100%           |

**6.2.2** For determining the Credit, the duration of a Service Outage will be measured as the time starting when there is a disruption in Cloud Subscription and ending when a successful solution or workaround allowing for full restoration of the Cloud Subscriptions is provided by FireEye to Customer. Customer must notify FireEye in writing of any Service Outage no later than fifteen (15) days after the date the Service Outage occurred ("SLA Claim") to be entitled to a Credit for that Service Outage.

**6.2.3** Any Credits earned by Customer hereunder will be applied to the Subscription Fees owed by Customer for the next Subscription Term for which the Credit applies. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated for non-renewal or for a material uncured breach by Customer, such credits shall become null and void. If Credits cannot be applied to future Subscription Fees because the Subscription Term has terminated due to a material uncured breach by FireEye, FireEye will promptly pay Customer the amount of the Credit.

**6.2.4** Customer shall not be entitled to receive a Credit that exceeds 100% of its prorated monthly Subscription Fee for a Service Outage for the applicable calendar month.

**EXHIBIT B-5**  
**SUBSCRIPTION TERMS FOR FIREEYE ADVANCED THREAT INTELLIGENCE PLUS (ATI+)**

The following terms govern the Advanced Threat Intelligence Plus (ATI+) Subscription.

The ATI+ Subscription comprises two features: Continuous Monitoring (“CM” or “Continuous Monitoring”) and the FireEye Intelligence Center™ (FIC™) (“FIC”).

**1. Continuous Monitoring**

The Continuous Monitoring portion of the Subscription is purchased in connection with one or more FireEye Products, and includes the following during the Subscription Term for the specific Products for which Continuous Monitoring was purchased (some Products may not be eligible for CM):

(a) **Critical Event Notification.** For Customers who have purchased the FireEye NX, FX, HX or EX Product, MVX Smart Grid with Network Smart node product combination, or the ETP or TAP Subscription, FireEye will provide Customer with proactive notifications of events FireEye determines to be critical that are logged by the Products (“Alerts”). FireEye will also provide Customer with access to a detailed description of the Alert. Alerts are not proof of vulnerability, threats or attacks on Customer.

(b) **System Health Monitoring and Notification.** For Customers who have purchased the FireEye NX, EX, FX, HX AX or FX Product, or MVX Smart Grid w/Network Smart node combination (hardware only), FireEye will provide Customer with proactive notifications of serious system health issues related to the hardware for Products covered by Continuous Monitoring. Customers will also be provided with metrics on critical event notifications and, for purchased hardware, the status of monitored hardware parameters.

(c) **Portal Access.** Alerts and critical event notifications from Continuous Monitoring will be provided via an online portal, and FireEye will provide login credentials to the Customer to enable access to that portal.

(d) **Continuity of Monitoring.** The monitoring activities described in (a)-(c) above will be provided on a 24/7 basis.

(f) **Reseller and Partner Purchases.** If Customer receives the Subscription via a FireEye Partner, Customer agrees that the Subscription may be delivered to Customer through the Partner. Notwithstanding any other confidentiality obligations between the parties, Customer authorizes FireEye to disclose information related to the Subscription to the Partner.

(g) **Exclusions.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide the Subscription for (i) Products for which Customer does not have an active Subscription in place; (ii) Products that the Customer (or FireEye or another third party on Customer's behalf) has configured with a one-way feed of FireEye's Dynamic Threat Intelligence subscription; (iii) Products with an installed FireEye operating system less than version 6.2; (iv) Products that are end of life; (v) Products that have no active support service in place; (vi) Products for which software updates have not been applied; or (vii) Products that have not been installed and deployed.

**2. FireEye Intelligence Center™ (FIC™), Community Threat Intelligence™ (CTI™)**

FireEye will provide the FIC portion of the Subscription, which includes the Community Threat Intelligence (CTI) platform, during the Subscription Term, as set forth below:

**2.1 Permitted Use; Reports.** Customer may view and use FIC and content appearing on FIC (“FIC Content”) solely for internal use. Some features of FIC may allow Customer to generate a report (each, a “FIC Report”). FIC Reports and FIC Content are FireEye Materials. Subject to Customer's payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer's own business purposes.

**2.2 Additional Use Limitations.** Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer's account may collectively make up to (i) one hundred (100) queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware per day. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.

**2.3 User Content.** "User Content" means any communications, images, sounds, and all the material and information that Customer or anyone using Customer's account contributes to or through FIC including any contributions to or through the CTI platform. Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers' use of FIC, including the CTI platform to the extent such information is de-identified.

**2.4 Restrictions.** Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, "screen scraping," or "database scraping" application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party's use and enjoyment of FIC. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

**EXHIBIT B-6**  
**SUBSCRIPTION TERMS FOR FIREEYE INTELLIGENCE CENTER™ (FIC™) (INCLUDING COMMUNITY THREAT INTELLIGENCE™ (CTI™))**

The following terms govern the FireEye Intelligence Center™ (FIC™) Subscription, which includes access to the Community Threat Intelligence™ (CTI™) platform.

1. During the Subscription Term, FireEye will provide access to the FireEye Intelligence Center (FIC), which includes the Community Threat Intelligence (CTI) platform, subject to the following:
  - i. Permitted Use; Reports. Customer may view and use FIC and content appearing on FIC (“FIC Content”) solely for internal use. Some features of FIC may allow Customer to generate a report (each, a “FIC Report”). FIC Reports and FIC Content are FireEye Materials. Subject to Customer’s payment obligations, FireEye grants to Customer a limited, non-exclusive right to produce FIC Reports and FIC Content using FIC, and reproduce and distribute those FIC Reports and FIC Content internally for Customer’s own business purposes.
  - ii. Additional Use Limitations. Customer may appoint up to fifteen (15) users of FIC at any time. Each day, all users on Customer’s account may collectively make up to (A) one hundred (100) queries of IP addresses and domain names, and (ii) one hundred (100) queries of malware. Customer may request additional queries, to be evaluated by FireEye on a case by case basis.
  - iii. User Content. “User Content” means any communications, images, sounds, and all the material and information that Customer or anyone using Customer’s account contributes to or through FIC including any contributions to or through the CTI platform (e.g., comments to FIC Content, suspected malware that Customer uploads to FIC). Customer hereby grants FireEye a perpetual, irrevocable, worldwide, paid-up, non-exclusive, license, including the right to sublicense to third parties, and right to reproduce, fix, adapt, modify, translate, reformat, create derivative works from, publish, distribute, sell, license, transmit, publicly display, publicly perform, or provide access to electronically, broadcast, display, perform, and use and practice such User Content as well as all modified and derivative works thereof. Customer represents that Customer has all necessary rights to grant the license referenced in the preceding sentence. FireEye may use and disclose any of the information it collects about its customers’ use of FIC, including the CTI platform, to the extent such information is de-identified.
  - iv. Restrictions. Customer may not access FIC by any means other than through the interface that is provided or approved by FireEye. Customer will not collect any information from or through FIC using any automated means, including without limitation any script, spider, “screen scraping,” or “database scraping” application, and Customer will not damage, disable, overburden, or impair FIC or interfere with any other party’s use and enjoyment of FIC.
  - v. Customer acknowledges that some optional features and content appearing on FIC may require payment of additional fees.

**EXHIBIT B-7**  
**SUBSCRIPTION TERMS FOR FIREEYE iSIGHT INTELLIGENCE**

The following terms govern the FireEye iSIGHT Intelligence Subscription ("iSIGHT" or "iSIGHT Subscription"). FireEye will provide the iSIGHT Subscription purchased by the Customer, as shown on the Order.

**1. Definitions.**

1.1 "Access Method(s)" or "Access Methods" means the MySIGHT Portal ("MySIGHT"), Software Development Kit ("SDK"), Application Programming Interface ("API"), Browser Plugin, iSIGHT App for Splunk, or any other method provided by FireEye for Customer to access the iSIGHT Subscription, individually or collectively. All Access Methods are FireEye Material as defined in the Agreement.

1.2 "Application" is a software program the Customer creates, or causes to have created on its behalf, that is designed to access the Content, which includes the features of the SDK/API but adds significant functionality beyond that provided by the SDK/API.

1.3 "Application Programming Interface" or "API" means the latest version of the iSIGHT Application Programming Interface software made generally available by iSIGHT, with its developer's guide and other related material (available at <http://www.isightpartners.com>).

1.4 "Browser Plugin" means the iSIGHT Browser Plugin which a Customer may install on Google Chrome and/or other commercially available and supported browsers that allows the Customer to access and view the Content when licensed to do so. The Browser Plugin displays the iSIGHT logo and links to MySIGHT. The Browser Plugin includes the latest version of the Browser Plugin software, its documentation and any html embedded code.

1.5 "Content" means the cyber threat intelligence data and any reports, threat indicators, trends, events, information, documentation or functionality provided in connection with the iSIGHT Subscription. All Content is FireEye Material as defined in the Agreement.

1.6 "End User" means the Customer or the Customer's employees, as applicable.

1.7 "Software Development Kit" or "SDK" shall mean the latest publicly-available version of the iSIGHT Software Development Kit and any associated documentation, tools, libraries, technical notes, software code, or other materials.

1.8 "iSIGHT App for Splunk" means the application provided by FireEye, which a Customer may install on Splunk, that allows the Customer to access and view the Content in accordance with this Agreement. The iSIGHT App for Splunk includes the latest version of the iSIGHT App for Splunk software, its documentation and any html embedded code.

1.9 "iSIGHT Subscription" includes but is not limited to, Cyber Crime, Cyber Espionage, Critical Infrastructure, Enterprise, Hacktivism, Vulnerability and Exploitation, MySIGHT Portal, Global Response, Analyst Access, iSIGHT SDK, iSIGHT API, iSIGHT Research Reports, or the current offering(s) as listed on the iSIGHT website, and as purchased by the Customer as shown on the Order.

**2. License; Access to iSIGHT Subscription and Content.**

2.1. **Grant of Limited License.** During the Subscription Term, FireEye grants to Customer in strict accordance with the terms of this Agreement, a limited, worldwide, revocable, non-exclusive, non-transferable, non-assignable, non-sublicensable royalty-free right and license to:

(a) use MySIGHT, the iSIGHT Subscription, and any Content provided by FireEye for internal use only. The iSIGHT Subscription can be used by End Users who have a valid "need to know" within Customer's organization, typically defined as a person or group that has a direct role in securing information system or networks. FireEye agrees to provide support for the iSIGHT Subscription in accordance with Section 3 below ("Subscription Support" or "Support").

(b) use the API to search, display, and otherwise access the Content. The API can be used to develop, display, or integrate applications, scripts, tools or workflows that interoperate with iSIGHT Subscriptions for the Customer's internal use. FireEye agrees to provide Support for the latest version of the API in accordance with Section 3 below.

(c) download, install and use the Software Development Kit ("SDK") to design, develop and test an Application(s), for the Customer's internal use only, for the purpose of customizing access to the Content. The Customer may modify the source code versions of sample files, if any, included with the SDK for the purpose of creating Customer's Application(s), and may make a reasonable number of copies of the SDK as necessary to develop Customer's Application(s), provided that Customer must reproduce complete copies of the SDK, including without limitation all "read me" files, copyright notices, and other legal notices and terms. FireEye agrees to provide Support for the iSIGHT SDK in accordance with Section 3 below.

(d) use the Browser Plugin to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the Browser Plugin on a single computer per license. FireEye agrees to provide Support for the latest version of the Browser Plugin in accordance with Section 3 below

(e) use the iSIGHT App for Splunk to search, display and otherwise access the Content for the Customer's internal use only. Customer may install and use one copy of the iSIGHT App for Splunk on a single computer per license. FireEye agrees to provide Support for the latest version of the iSIGHT App for Splunk in accordance with Section 3 below.

2.2. Access Keys. Use of the Access Methods and access to the iSIGHT Subscription and the Content by Customer's End Users is provided through access keys or login credentials. Access keys in association with the Access Methods and iSIGHT Subscription shall be kept in confidence by Customer and Customer's End Users. Access keys will be issued to individual End Users by FireEye in accordance with each particular Access Method's parameters and will not be shared between End Users. Customer may not establish group accounts. Any unauthorized disclosure or dissemination of access keys by Customer or End Users shall be deemed a material breach of this Agreement. Customer shall inform FireEye of any data breach concerning login credentials in a timely manner. FireEye reserves the right to change, suspend, remove, or disable Customer's access keys to the Access Methods, iSIGHT Subscription, and Content upon notice if a material breach is suspected and not rectified upon notification.

2.3. Latest Version. The license granted to Customer under this Agreement is for the current version of the Access Methods. FireEye may release future versions of the Access Methods as determined in the sole discretion of FireEye. Nothing in this Agreement is a commitment to Customer of compatibility between the existing Access Methods and any future versions of the Access Methods. FireEye reserves the right to discontinue offering particular Access Methods (or any updates thereto) or to modify the Access Methods at any time in its sole discretion.

2.4. Multiple Copies. Customer may receive software for an Access Method in more than one medium and/or in multiple copies. The Customer's license rights are in accordance with the Order regardless of the number of copies received.

2.5. Additional Licenses. Customer may purchase additional licenses for the Browser Plugin for its authorized End Users through the Chrome Web Store. Customer may purchase additional licenses for the iSIGHT App for Splunk for its authorized End Users through Splunk. Additional licenses for the Browser Plugin and iSIGHT App for Splunk may be purchased and will be valid for the current Subscription Term as provided in the Order.

2.6. Customer Application. The Customer may allow Customer's employees to access and use the SDK/API on Customer's behalf to design an Application. The Customer may not rent, lease, sell, transfer, sublicense or time-share the Customer's Application to any third-party without the express consent of FireEye. Customer shall retain all right, title or interest in the Application and as such, Customer agrees to indemnify and hold harmless FireEye for any claims of infringement made against FireEye in connection with any Application. The Customer's Application(s) must perform in accordance with the terms of this Agreement and must ensure the security and confidentiality of FireEye's Confidential Information. Customer assumes full responsibility for any breach of

security caused by Customer's Application(s) in connection with the Content, API, SDK, and specifically to any unauthorized disclosure of any FireEye Materials or FireEye Confidential Information.

2.7. **Content Modifications.** Customer may access the Content from the MySIGHT Portal, via email, SMS, HTML, API, any other Access Methods as officially distributed by FireEye or an FireEye sanctioned third-party integration. FireEye reserves the right to modify, amend, augment, reduce or alter the Content's format, or Access Methods, or mode of retrieval of the Content, that in the sole judgment of FireEye is in its customers' best interests. Customer will be entitled to retrieve the Content with any updates, modifications, additions or changes in the Content. These changes may require Customer to upgrade its systems, hardware or software and FireEye will not be responsible for the costs of any such changes.

2.8. **Prohibited Usage.** Customer must comply with any Intellectual Property rights asserted in any materials contained in the Content. The following conduct and usage restrictions apply during Customer's download, installation, and use of the Content and/or Access Methods, and survive termination of the Agreement or Subscription Term. Customer and its authorized End Users may not:

- a. rent, lease, lend, sell, redistribute or sublicense any part of the ISIGHT Subscription or Access Methods to any other party;
- b. share the ISIGHT Subscription, Access Methods, Content or Confidential Information with any third-parties, except as expressly authorized in advance by this Agreement or by FireEye in writing;
- c. use the ISIGHT Subscription or Access Methods in the operation of a service or in any way to provide services to any third-party;
- d. create derivative works for external distribution or use based upon the Content;
- e. create apps, extensions, or other products and services that use Content except as set forth herein;
- f. display, post, frame, or scrape the Content, except as allowed under this Agreement;
- g. use the Access Methods for any other purpose than to access the ISIGHT Subscription and the Content;
- h. use the Access Methods for any illegal or unauthorized purpose to promote or provide instructional information about illegal activities or to promote stalking, physical harm or injury against any group or individual, or any use that violates the rights of privacy and publicity of others;
- i. create, place, or disseminate any materials or other items that are inappropriate, defamatory, obscene, pornographic, harassing, threatening, abusive, hateful or otherwise offensive, or is unlawful (including any content that infringes any patent, trademark, service mark, copyright, trade secret or other proprietary right of any third-party without appropriate permissions);
- j. transmit any viruses, worms, defects, Trojan horses, time-bombs, malware, spyware, or any other computer code of a destructive or interruptive nature in connection with use of the Access Methods;
- k. use the Access Methods in connection with or to promote any products, services, or materials that constitute, promote or are used primarily for the purpose of dealing in spyware, adware, or other malicious programs or code, counterfeit goods, unsolicited mass distribution of email ("spam"), hacking, surveillance, interception, descrambling equipment, stolen products and items used for theft;
- l. create any Application that exposes or provides functionality of the Access Methods to any third party;
- m. interfere, restrict or inhibit any other customer from using the Access Methods or Content or disrupt any services offered by FireEye through any medium;
- n. attempt to exceed or exceed the usage limits established by FireEye for the Customer ([http://www.isightpartners.com/doc/sdk-bp-docs/#/rate\\_limiting](http://www.isightpartners.com/doc/sdk-bp-docs/#/rate_limiting)).

2.9. **Restrictions.** FireEye expressly reserves the right to limit the number and/or frequency of requests for Content made through the Access Methods in its sole discretion in line with technical design and performance standards as documented in the publicly available developers guide. FireEye may limit the number of network calls that any Application may make via the Access Methods, the maximum file size, or the maximum amount of ISIGHT material that may be accessed. FireEye may change such usage limitations at any time and without notice. In addition to any other rights under this Agreement, FireEye may utilize technical measures to prevent over-usage or to stop usage of any Access Methods or any Application after any usage limitations are exceeded. The most current API/SDK documentation and developers guide can be found at <http://www.isightpartners.com/doc/sdk-bp-docs/#/>, and these documents detail the current rates and capabilities of the API.

2.10. Customer recognizes and agrees that certain information and data that will be provided by Customer to FireEye pursuant to the ISIGHT Subscription is not owned by Customer and is not Confidential Information of

Customer. Malware submitted by Customer to FireEye for analysis under ISIGHT Global Response, and other information submitted by Customer to FireEye that is not unique to and/or developed by Customer (collectively "Submissions") shall not be considered Confidential Information or Intellectual Property of the Customer. FireEye may use the Submissions, aggregate the Submissions with submissions from other FireEye customers as well as original research and analysis, and share that aggregated intelligence with Customer and with other FireEye customers to enhance the services FireEye provides to its customers. FireEye will anonymize all Submissions prior to distribution, and will not identify the source of any Submission without written permission in each case.

### 3. Service Levels.

#### 3.1. Service Call and Subscription Support

FireEye maintains a service desk in order to assist its customers with issues, trouble or general questions concerning use of the FireEye ISIGHT Products. Customer may initiate a service call as follows:

| Description                                                         | Details                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                      |

| Service Call Response Time<br>("Response Time Standard")            | 4 hours for initial response<br>(confirmation of receipt is immediate through an automated ticketing system)                                                                                                                                                                                                                                                                                                                                                                                                                 |
| ISIGHT API                                                          | General information regarding ISIGHT API which can be accessed at <a href="http://www.isightpartners.com/doc/api2.0/docs/#!/">http://www.isightpartners.com/doc/api2.0/docs/#!/</a>                                                                                                                                                                                                                                                                                                                                          |
| Other resources<br>(all other Subscription Support issues)          | Existing Clients –<br>Contact your assigned Intelligent Account Manager at:<br><a href="mailto:client-engagement@isightpartners.com">client-engagement@isightpartners.com</a><br><br>Prospective Clients –<br>Contact your assigned Sales Engineer at:<br><a href="mailto:sales-engineering@isightpartners.com">sales-engineering@isightpartners.com</a><br><br>Partners, Resellers, Referrals –<br>Contact partners program representative at: <a href="mailto:partners@isightpartners.com">partners@isightpartners.com</a> |

FireEye will catalog and evaluate all bugs or software issues as they are reported. Such issues will be prioritized based on variables such as customer impact, security impact, etc. and will be scheduled for release accordingly. When applicable, FireEye will notify Customer of urgent patches or bug fixes. Support Services do not include custom programming services, on-site support, or other services including installation of hardware or software, or training.

#### 3.2. Maintenance and Updates

(a) When feasible and appropriate, FireEye will provide Customer prior notification about major releases at least two weeks in advance via communication from FireEye representatives.

(b) Scheduled system maintenance will be performed during the targeted times of 01:00 – 07:00 UTC on Thursdays and 12:00 – 19:00 UTC on Sundays. Prior notification will be provided in the event of any impact to customer facing applications.

(c) Emergency maintenance notifications will be provided by FireEye as early as possible but with a goal of six (6) hours' prior notice provided. Further, FireEye will strive to minimize the impact of any maintenance on any critical system during standard business hours around the globe.

### 3.3. Subscription Availability

- (a) The FireEye iSIGHT API will have at least 99% system uptime ("API Uptime Standard").
- (b) The iSIGHT MySIGHT Portal will have at least a 99% system uptime ("Portal Uptime Standard").
- (c) FireEye realizes that a failure to meet the Response Time Standard, API Uptime Standard and the Portal Uptime Standard (collectively, the "Service Level Standards") could have an adverse impact to Customer. If FireEye fails to meet any of the Service Level Standards ("Service Level Failure"), FireEye will: (i) promptly investigate and report on the root cause of the problem; (ii) advise Customer of the remedial efforts being undertaken with respect to this failure to meet the Service Level Standards; (iii) use commercially reasonable efforts to correct the problem and begin meeting the Service Level Standards; and (iv) take appropriate preventative measures designed to ensure that the problem does not recur.

**EXHIBIT C**  
**FIREEYE SUPPORT SERVICES APPLICABLE FOR FIREEYE PRODUCTS**

**1. SUPPORT PURCHASED SEPARATELY FROM THE PRODUCTS.** In the event Customer has purchased the Products and pass-through Support Services from FireEye through a FireEye authorized reseller (a "Reseller"), Customer will be entitled to all the rights herein set forth related to the level of Support Service requested and paid for by it, provided Customer: (a) is the original purchaser of the covered Products, (b) has provided true, accurate, current and complete information to FireEye included with its purchase; and (c) has maintained and updated this information to keep it true, accurate, current, and complete.

**2. SUPPORT SERVICES PROVIDED BY FIREEYE.**

FireEye offers a range of programs for the support of its Products as described below ("Support Programs"). Customer shall be entitled to receive the Support Services specified on the applicable support invoice and described below to the extent that Customer has paid in full the applicable Fees for Support Services.

**2.1 Software Maintenance Services** – include each of the following:

*Software Updates.* During the Support Term, FireEye shall provide Customer notification of bug fixes, maintenance patches and new releases which may contain minor enhancements to the features or functions of the Product ("**Updates**"). FireEye may designate a particular release of the Product as an Update at its sole discretion. Customer may obtain Updates either through delivery of a machine-readable copy pursuant to instructions contained in the document notifying Customer of an available Update or by downloading the Update from FireEye's server via the Internet. FireEye reserves the right to impose additional charges for releases of Products (i) that provide major enhancements to the features or functions of the Products, as determined by FireEye at its sole discretion; or, (ii) that provide additional features or perform additional functions not provided or performed by the Products.

*Software Error Corrections.* During the Support Term, FireEye shall use commercially reasonable efforts to correct any reproducible programming error in the software associated with the Product attributable to FireEye, employing a level of effort commensurate with the severity of the error, provided, however, that FireEye shall have no obligation to correct all errors in the Products. Upon identification of any programming error, Customer shall notify FireEye of such error in writing and shall provide FireEye with enough information to locate and reproduce the error. FireEye shall not be responsible for correcting any errors not attributable to FireEye. Errors attributable to FireEye shall be those that are reproducible by FireEye on unmodified Products. If it is found that a particular error is fixed in the most current Product release, then FireEye shall have no obligation to fix the error in any prior Product release and Customer will need to upgrade to the current Product release in order to obtain the fix.

**2.2 Support Programs**

**(a) Platinum Support** includes all of the services set forth above under Software Maintenance Service (section 2.1) and additionally:

- *Email, Live Chat, Web or Telephone Support.* During the Support Term, FireEye shall provide Customer technical email, live chat, web or telephone support for the Products twenty-four (24) hours per day, 365 days a year. FireEye's support technician shall only be obligated to respond to Customer's fifteen (15) designated contacts.
- FireEye shall use commercially reasonable efforts to respond to the request for support as detailed in the Initial Response Times table found at <https://www.fireeye.com/support/programs.html> regarding use or installation of the Product that is communicated to FireEye via one of the mechanisms above to the attention of FireEye's support engineers.
- *Product Return.* During the term of this Agreement, Customer shall have the right to return to FireEye any defective Product subject to the limited warranty. Additionally, FireEye will fulfill the following Advance Return provisions below.

- **Advance Replacement.** Prior to any return as to which Advance Replacement applies, Customer shall verify that said Product is defective by logging a Support request via one of the mechanisms described above and in accordance with FireEye's RMA procedures, including providing the part number, serial number, quantity and reason for return, an explanation of all failure symptoms and other relevant information. Upon confirmation by FireEye of a defect, Customer shall obtain from FireEye an RMA number. FireEye shall ship via a recognized express courier service a replacement Product to Customer to arrive no later than next business day after FireEye's issuance of an RMA number, provided the RMA number was issued prior to the business day cutoff time local to the defective Product, provided the replacement does not require any custom pre-configuration, and provided no external-to-FireEye circumstances prevent the delivery. The replacement Product may be a new or reconditioned Product (of equivalent or better quality) at FireEye's sole discretion. FireEye shall pay the shipping costs to ship the replacement Product to Customer, but Customer shall bear any and all risk of loss of or damage to said Product at all times after said Product is made available by FireEye to the common carrier. The support service will transfer from the defective Product to the replacement Product. Within five (5) business days after Customer receives the replacement Product from FireEye, Customer shall package said defective Product in its original packing material or equivalent, write the RMA number on the outside of the package and return said defective Product, at FireEye's cost provided Customer utilizes FireEye's designated courier service and properly packages the defective Product according to FireEye's instructions, shipped properly insured, FOB FireEye's designated facility (except that FireEye shall pay for shipping). Customer shall enclose with the returned Product the applicable RMA form, and any other documentation or information requested by FireEye customer support. Customer shall assume any and all risk of loss of or damage to such Product during shipping. Title to the defective Product shall pass to FireEye upon FireEye's receipt thereof. When a replacement Product is provided and Customer fails to return the defective Product to FireEye within ten (10) business days after Customer receives the replacement Product from FireEye, FireEye may charge Customer, and Customer shall pay for the replacement Product at the then-current list price.

**(b) Platinum Priority Plus Support** includes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Access to Support.* Customer will be provided with direct priority access to Level 2 Advanced Engineering support who shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact, who is available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support.* Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting.* FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be conducted.

**(c) Government Support**, if available, includes all of the services set forth above under Platinum Support [section 2.2(a)] and additionally:

- *Email, Live Chat, Web or Telephone Support.* For the specified country, access to citizens of that country for the fulfillment of Level 1 and 2 technical support requests.

**(d) Government Priority Plus Support** includes all of the services set forth above under Government Support [section 2.2(c)] and additionally:

- *Access to Support.* Customer will be provided with direct priority access to Level 2 Advanced Engineering support who are citizens of that country and shall respond to Customer's unlimited number of designated contacts. A Designated Support Engineer (DSE) point of contact who is a citizen of that country and available during Customer's business hours (for single Customer site if Product(s) installed at multiple Customer sites), will be made available to be the focal point of contact within FireEye, to project manage Customer's technical issues.
- *Onsite Support.* Onsite visits for problem assistance at DSE's sole discretion.
- *Reporting.* FireEye will supply Customer with monthly reports detailing technical support provided during the previous month. Quarterly business reviews will also be scheduled.

**(e) Special Services.** FireEye agrees to use commercially reasonable efforts to respond to any requests by Customer for support services not specifically provided for above. Customer acknowledges that all such services provided by FireEye shall be at FireEye's discretion and then-current fees and policies.

### **3. CUSTOMER RESPONSIBILITIES.**

**3.1 Requesting Support Services.** When requesting Support Services from FireEye under this Agreement, Customer should have the following information available to provide to FireEye, if requested: (i) detailed problem description, including operating system ("OS") version, Product model and serial number(s), of the affected Product, and a detailed description of the troubleshooting that has already been done to try to resolve the problem; (ii) detailed system log files; (iii) configuration and login details to allow FireEye access as needed to the Products via the Internet for the purpose of providing support services and permissions needed in order for FireEye to conduct such remote access; (iv) a detailed description of changes to the environment; and (v) Customer's unique ID, Account ID, the serial number(s) of the Product(s) covered by this Agreement or other unique customer identifier as assigned to Customer by FireEye. Customer acknowledges and agrees that failure to have any or all information or access available as needed by FireEye in order to provide the Support Services may result in delays in FireEye's response, may hinder FireEye's ability to perform the Support Services and/or may cause incorrect Support Program fulfillment. FireEye will not be responsible for any such delays and inability to perform due to causes not due to FireEye.

**3.2 Customer Assistance.** Customer agrees to: (i) ensure that their site complies with any and all applicable FireEye published system environmental specifications; (ii) follow FireEye's procedures when requesting Support Services; (iii) provide FireEye reasonable access to all necessary personnel to answer questions or resolve problems reported by Customer regarding the Products; (iv) promptly implement all Updates and error corrections provided by FireEye under this Agreement; (v) maintain FireEye supported versions of required third party software, if any; and (v) notify FireEye promptly of any relocation of the Products from the location to which the Products were originally shipped. Customer agrees to use reasonable efforts to resolve internally any support questions prior to requesting Support Services pursuant to this Agreement. During the Support Term, FireEye may obtain information regarding Customer's email communication and Customer agrees that, as a condition to FireEye's provision of Support Services, FireEye may use statistical data generated regarding Customer's email correspondence with customer support so long as the source or content of the emails is not being disclosed.

**3.3 Contact People.** Customer shall appoint the specified number of individuals (depending upon the Support Program purchased) within Customer's organization to serve as contacts between Customer and FireEye and to receive support through FireEye's telephone support center. Customer's contacts shall have been adequately trained on the Products and shall have sufficient technical expertise, training and experience. All of Customer's support inquiries shall be initiated through these contacts.

**4. EXCLUSIONS.** Notwithstanding anything else contained in this Agreement to the contrary, FireEye shall have no obligation or responsibility to provide any Support Services relating to problems arising out of or related to (i) Customer's failure to implement all Updates to the Product which are made available to Customer under this Agreement; (ii) the failure to provide a suitable installation environment; (iii) any alteration, modification, enhancement or addition to the Products performed by parties other than FireEye; (iv) use of the Products in a manner, or for a purpose, for which they were not designed; (v) accident, abuse, neglect, unauthorized repair, inadequate maintenance or misuse of the Products; or relocation of the Products (including without limitation damage caused by use of other than FireEye shipping containers), (vi) operation of the Products outside of environmental specifications; (vii) interconnection of the Products with other products not supplied by FireEye; (viii) use of the Products on any systems other than the specified hardware platform for such Products; or (ix) introduction of data into any database used by the Products by any means other than the use of the software associated with the Products. Notwithstanding anything else contained in this Agreement to the contrary, FireEye will support all generally available ("GA") versions of the FireEye OS, for a minimum of one (1) year from GA release date, regardless of the number of supported OS GA versions. FireEye will also support the two (2) most current OS GA versions, regardless of the elapsed time from GA release date. If available, and at FireEye's sole discretion, support for any other OS versions or for other problems not covered under this Agreement may be obtained at FireEye's then-current fees and policies for such services. FireEye's complete end of life policy can be found at <http://www.fireeye.com/support/supported-products.html>

### **5. LAPSED SUPPORT AND UPGRADED SUPPORT.**

**5.1 Lapsed Support.** After any lapse of Support Services, the parties subsequently may elect to reinstate such Support Services for Products for which the Support Services lapsed pursuant to the terms and conditions set forth in this Agreement; provided, however, that (i) Customer agrees to pay for the period of time that has lapsed as well as any renewal term, and (ii) such Products must be in good working condition, as solely determined by FireEye or its designee.

**5.2 Support Program Upgrade.** At any time during the Term, Customer may upgrade to FireEye's next level of Support Program by (i) notifying FireEye of Customer's desire to upgrade; (ii) acknowledging in writing the then-current terms and conditions for the relevant Support Program; and (iii) paying FireEye the additional Support Fee owed in connection with such upgraded Support Program.

**Exhibit A**  
**Product Passthrough Terms – Google Apps for Work (for Customers)**

Customer has entered into a certain written agreement (the “Agreement”) pursuant to which Customer has purchased the right to access and use the Product. These Product Passthrough Terms set forth the terms and conditions under which Customer may access and use such Product.

1. Product.

1.1 Facilities and Data Transfer. All facilities used to store and process Customer Data will adhere to reasonable security standards no less protective than the security standards at facilities where Provider stores and processes its own information of a similar type. Provider has implemented at least industry standard systems and procedures to ensure the security and confidentiality of Customer Data, protect against anticipated threats or hazards to the security or integrity of Customer Data, and protect against unauthorized access to or use of Customer Data. As part of providing the Product, Provider may transfer, store and process Customer Data in the United States or any other country in which Provider or its agents maintain facilities. By using the Product, Customer consents to this transfer, processing and storage of Customer Data.

1.2 Modifications.

a. To the Product. Provider may make commercially reasonable changes to the Product, from time to time. If Provider makes a material change to the Product, Customer may be informed of such change, provided that Customer has subscribed with Provider to be informed about such change.

b. To URL Terms. Provider may make commercially reasonable changes to the URL Terms from time to time. If Provider makes a material change to the URL Terms, Customer may be informed of such change through the Notification Email Address or via the Admin Console. If the change has a material adverse impact on Customer and Customer does not agree to the change, Customer must so notify Partner or Provider via the Help Center within thirty days after receiving notice of the change. Upon such notification, Customer will remain governed by the URL Terms in effect immediately prior to the change until the end of the then-current term for the affected Product. If the affected Product is renewed, they will be renewed under Provider’s then current URL Terms.

1.3 Customer Domain Name Ownership. Prior to providing the Product, Provider or Partner may verify that Customer owns or controls the Customer Domain Names. If Customer does not own, or control, the Customer Domain Names, then Provider will have no obligation to provide Customer with the Product.

1.4 Federal Information Security Management Act (FISMA). The Provider’s Product known as “Google Apps Core Services” received a FISMA “Authorization to Operate” for a Moderate impact system. Provider will continue to maintain a System Security Plan (SSP) for the Google Apps Core Services, based on NIST 800-53 Rev. 3, or a similarly applicable standard. If Provider does not maintain this SSP as stated, Customer’s sole and exclusive remedy, and Provider’s entire liability, will be Customer’s ability to terminate use of the Product upon thirty days prior written notice.

2. Customer Obligations.

2.1 Compliance. Customer will use the Product in accordance with the Acceptable Use Policy. Provider may make new applications, features or functionality for the Product available from time to time, the use of which may be contingent upon Customer’s agreement to additional terms. In addition, Provider will make other Non-Google Apps Products (beyond the Product) available to Customer and its End Users in accordance with the Non-Google Apps Product Terms and the applicable product-specific Provider terms of service. If Customer does not desire to enable any of the Non-Google Apps Products, Customer can enable or disable them at any time through the Admin Console.

2.2 Customer Administration of the Product. Customer may specify one or more Administrators through the Admin Console who will have the rights to access Admin Account(s) and to administer the End User Accounts. Customer and Partner are responsible for: (a) maintaining the confidentiality of the password and Admin Account(s); (b) designating those individuals who are authorized to access the Admin Account(s); and (c) ensuring that all activities that occur in connection with the Admin Account(s) comply with these

Product Passthrough Terms. Customer agrees that Provider's responsibilities do not extend to the internal management or administration of the Product for Customer and that Provider is merely a data-processor.

2.3 End User Consent. Customer's Administrators may have the ability to access, monitor, use, or disclose data available to End Users within the End User Accounts. Customer will obtain and maintain all required consents from End Users to allow: (i) Customer's access, monitoring, use and disclosure of this data and Provider providing Customer with the ability to do so, and (ii) Provider to provide the Product.

2.4 Unauthorized Use. Customer will use commercially reasonable efforts to prevent unauthorized use of the Product, and to terminate any unauthorized use. Customer or Reseller will promptly notify Provider of any unauthorized use of, or access to, the Product of which it becomes aware.

2.5 Restrictions on Use. Unless Provider specifically agrees in writing, Customer will not, and will use commercially reasonable efforts to make sure a third party does not: (a) sell, resell, lease, or the functional equivalent, the Product to a third party (unless expressly authorized in these Product Passthrough Terms); (b) attempt to reverse engineer the Product or any component; (c) attempt to create a substitute or similar service through use of, or access to, the Product; (d) use the Product for High Risk Activities; or (e) use the Product to store or transfer any Customer Data that is controlled for export under Export Control Laws. Customer is solely responsible for any applicable compliance with HIPAA.

2.6 Third Party Requests. Customer is responsible for responding to Third Party Requests. Provider will, to the extent allowed by law and by the terms of the Third Party Request: (a) promptly notify Customer of its receipt of a Third Party Request; (b) comply with Customer's reasonable requests regarding its efforts to oppose a Third Party Request; and (c) provide Customer with the information or tools required for Customer to respond to the Third Party Request. Customer will first seek to obtain the information required to respond to the Third Party Request on its own, and will contact Provider only if it cannot reasonably obtain such information.

### 3. Technical Support Services.

3.1 By Customer. Customer or Partner will, at its own expense, respond to questions and complaints from End Users or third parties relating to Customer's or End Users' use of the Product. Customer or Partner will use commercially reasonable efforts to resolve support issues before escalating them to Provider.

3.2 By Provider. If Customer or Partner cannot resolve a support issue consistent with the above, then Customer or Partner (as applicable based on the agreement between Provider and Partner) may escalate the issue to Provider in accordance with the TSS Guidelines. Provider will provide TSS to Customer or Partner (as applicable) in accordance with the TSS Guidelines.

### 4. Suspension.

4.1 Of End User Accounts by Provider. If Provider becomes aware of an End User's violation of these Product Passthrough Terms, then Provider may specifically request that Customer Suspend the applicable End User Account. If Customer fails to comply with Provider's request to Suspend an End User Account, then Provider may do so. The duration of any Suspension by Provider will be until the applicable End User has cured the breach which caused the Suspension.

4.2 Emergency Security Issues. Notwithstanding the foregoing, if there is an Emergency Security Issue, then Provider may automatically Suspend the offending use. Suspension will be to the minimum extent and of the minimum duration required to prevent or terminate the Emergency Security Issue. If Provider Suspends an End User Account for any reason without prior notice to Customer, at Customer's request, Provider will provide Customer the reason for the Suspension as soon as is reasonably possible.

### 5. Confidential Information.

5.1 Obligations. Customer and Provider will: (a) protect the other's Confidential Information with the same standard of care it uses to protect its own Confidential Information; and (b) not disclose the Confidential Information, except to Affiliates, employees and agents who need to know it and who have agreed in writing to keep it confidential. Customer and Provider (and any Affiliates, employees and agents to whom it has disclosed Confidential Information) may use Confidential Information only to exercise rights and fulfill its obligations under these Product Passthrough Terms, while using reasonable care to protect it. Customer

and Provider, respectively, will be responsible for any actions of its Affiliates, employees and agents in violation of this Section.

5.2 Exceptions. Confidential Information does not include information that: (a) the recipient of the Confidential Information already knew; (b) becomes public through no fault of the recipient; (c) was independently developed by the recipient; or (d) was rightfully given to the recipient by a third party.

5.3 Required Disclosure. Customer and Provider may disclose the other's Confidential Information when required by law but only after it, if legally permissible: (a) uses commercially reasonable efforts to notify the other; and (b) gives the other the chance to challenge the disclosure.

## 6. Intellectual Property Rights; Brand Features.

6.1 Intellectual Property Rights. Except as expressly set forth herein, these Product Passthrough Terms does not grant either Customer or Provider any rights, implied or otherwise, to the other's content or any of the other's intellectual property. As between the Customer and Provider, Customer owns all Intellectual Property Rights in Customer Data, and Provider owns all Intellectual Property Rights in the Product.

6.2 Display of Brand Features. Provider may display those Customer Brand Features authorized by Customer (such authorization is provided by Customer uploading its Brand Features into the Product), and within designated areas of the Service Pages. Customer may specify the nature of this use using the Admin Console. Provider may also display Provider Brand Features on the Service Pages to indicate that the Product are provided by Provider. Neither party may display or use the other party's Brand Features beyond what is allowed in these Product Passthrough Terms without the other's prior written consent.

6.3 Brand Features Limitation. Any use of Brand Features will inure to the benefit of the entity holding Intellectual Property Rights in those Brand Features. Any right to use its Brand Features pursuant to these Product Passthrough Terms may be revoked at any time with written notice to the other and a reasonable period to stop the use.

7. Publicity. Customer agrees that Provider may include Customer's name or Brand Features in a list of Provider customers, online or in promotional materials. Customer also agrees that Provider may verbally reference Customer as a customer of the Provider's Product that is the subject of these Product Passthrough Terms.

## 8. Representations, Warranties and Disclaimers.

8.1 Representations and Warranties. Customer and Provider represent that each will comply with all laws and regulations applicable to its provision, or use, of the Product, as applicable (including applicable security breach notification law). Provider warrants that it will provide the Product in accordance with the applicable SLA.

8.2 Disclaimers. TO THE FULLEST EXTENT PERMITTED BY APPLICABLE LAW, EXCEPT AS EXPRESSLY PROVIDED FOR HEREIN, NEITHER PARTY MAKES ANY OTHER WARRANTY OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE, INCLUDING WITHOUT LIMITATION WARRANTIES OF MERCHANTABILITY, FITNESS FOR A PARTICULAR USE AND NON-INFRINGEMENT. PROVIDER MAKES NO REPRESENTATIONS ABOUT ANY CONTENT OR INFORMATION MADE ACCESSIBLE BY OR THROUGH THE PRODUCT. CUSTOMER ACKNOWLEDGES THAT THE PRODUCT IS NOT A TELEPHONY SERVICE AND THAT THE PRODUCT IS NOT CAPABLE OF PLACING OR RECEIVING ANY CALLS, INCLUDING EMERGENCY PRODUCT CALLS, OVER PUBLICLY SWITCHED TELEPHONE NETWORKS.

## 9. Term and Termination.

9.1 Term. The term for the Product will be as decided upon between Partner and Customer. These Product Passthrough Terms will remain in effect for the Term.

9.2 Termination for Breach. The Services may be suspended or terminated, if: (i) Customer is in material breach of these Product Passthrough Terms and fails to cure that breach within thirty days after receipt of written notice; (ii) Customer ceases its business operations or becomes subject to insolvency proceedings and the proceedings are not dismissed within ninety days; or (iii) Customer is in material breach of these Product Passthrough Terms more than two times notwithstanding any cure of such breaches.

9.3 Effects of Termination. If Services are terminated, then: (i) the rights granted by Provider to Customer, and Customer to Provider will cease immediately (except as set forth in this Section); (ii) neither Customer nor Partner will have access to, or the ability to export, the Customer Data; (iii) Provider will begin to delete Customer Data; and (iv) upon request will promptly use commercially reasonable efforts to return or destroy all other Confidential Information of the other.

## 10. Miscellaneous.

10.1 Product Development. The Product was developed solely at private expense and is commercial computer software and related documentation within the meaning of the applicable civilian and military federal acquisition regulations and any supplements thereto.

10.2 Force Majeure. Due to circumstances beyond Provider's controls, Provider may not be able to provide the Product.

10.3 No Waiver. Failure to enforce any provision of these Product Passthrough Terms will not constitute a waiver.

10.4 No Agency. These Product Passthrough Terms do not create any agency, partnership or joint venture.

10.5 No Third-Party Beneficiaries. There are no third-party beneficiaries to these Product Passthrough Terms. Customer's sole remedies will be set forth in its agreement with the Partner.

10.6 Survival. The following sections will survive expiration or termination of these Product Passthrough Terms: Sections 5, 6, 9.3, 10 and 12.

10.7 Severability. If any term (or part of a term) of these Product Passthrough Terms is invalid, illegal, or unenforceable, the rest of these Product Passthrough Terms will remain in effect.

10.8 Conflicting Terms. If there is a conflict between any terms of these Product Passthrough Terms and any other document that makes up the entire agreement as needed for Customer to use the Product, the terms of these Product Passthrough Terms will take precedence.

## 11. Additional Product Terms.

11.1 Ads. Provider does not serve Ads in the Product or use Customer Data for Ads purposes.

11.2 Aliases. Customer is solely responsible for monitoring, responding to, and otherwise processing emails sent to the "abuse" and "postmaster" aliases for Customer Domain Names but Provider may monitor emails sent to these aliases for Customer Domain Names to allow Provider to identify Product abuse.

11.3 Google Apps Vault Retention. If Customer is using Google Apps Vault, Provider will have no obligation to retain any archived Customer Data beyond the retention period specified by Customer. If Customer does not renew Google Apps Vault, Provider will have no obligation to retain any archived Customer Data.

## 12. Definitions.

"Acceptable Use Policy" means the acceptable use policy for the Product available at [http://www.google.com/a/help/intl/en/admins/use\\_policy.html](http://www.google.com/a/help/intl/en/admins/use_policy.html). The Acceptable Use Policy and such URL link may be updated or modified by Provider from time to time.

"Admin Account(s)" means the administrative account(s) provided to Customer for the purpose of administering the Product. The use of the Admin Account(s) requires a password, which Provider will provide to Customer or Partner.

"Admin Console" means the online tool Customer may use in reporting and certain other administration functions.

"Administrators" mean the Customer-designated technical personnel who administer the Product to End Users on Customer's behalf.

"Ads" means online advertisements displayed by Provider to End Users, excluding advertisements provided by any advertising products that are not part of the Product that Customer chooses to use in connection with the Product.

"Affiliate" means any entity that directly or indirectly controls, is controlled by, or is under common control with an entity.

"Brand Features" means the trade names, trademarks, service marks, logos, domain names, and other distinctive brand features of each party, respectively, as secured from time to time.

"Confidential Information" means information disclosed or exchanged under these Product Passthrough Terms that is marked as confidential or would normally be considered confidential under the circumstances. Customer Data is Customer's Confidential Information.

"Customer Data" means data, including email, provided, generated, transmitted or displayed via the Product by Customer, End Users, or Partner on behalf of Customer.

"Customer Domain Names" mean the domain names owned or controlled by Customer, which will be used in connection with the Product.

"Emergency Security Issue" means either: (a) Customer's use of the Product in violation of the Acceptable Use Policy, which could disrupt: (i) the Product; (ii) other customers' use of the Product; or (iii) the Provider network or servers used to provide the Product; or (b) unauthorized third party access to the Product.

"End Users" means the individuals Customer permits to use the Product.

"End User Account" means a Provider-hosted account established by Customer through the Product for an End User.

"Export Control Laws" means all applicable export and reexport control laws and regulations, including trade and economic sanctions maintained by the Treasury Department's Office of Foreign Assets Control, and the International Traffic in Arms Regulations ("ITAR") maintained by the Department of State.

"Google Apps Core Services" means the applicable Product purchased by Customer from Partner which are more fully described here: [http://www.google.com/a/help/intl/en/users/user\\_features.html](http://www.google.com/a/help/intl/en/users/user_features.html). The Google Apps Core Services and such URL link may be updated or modified by Provider from time to time.

"Help Center" means the Provider help center accessible at <http://www.google.com/support/>. The Help Center and such URL link may be updated or modified by Provider from time to time.

"High Risk Activities" means uses such as the operation of nuclear facilities, air traffic control, or life support systems, where the use or failure of the Product could lead to death, personal injury, or environmental damage.

"HIPAA" means the Health Insurance Portability and Accountability Act of 1996, as may be amended from time to time, and any regulations issued thereunder.

"Intellectual Property Rights" means current and future worldwide rights under patent law, copyright law, trade secret law, trademark law, moral rights law, and other similar rights.

"Non-Google Apps Products" means Provider products which are not part of the Product, but which may be accessed by End Users using their End User Account login and password. The Non-Google Apps Products are set forth at the following URL: <http://www.google.com/support/a/bin/answer.py?hl=en&answer=181865>. The Non-Google Apps Products and such URL link may be updated or modified by Provider from time to time.

"Non-Google Apps Product Terms" means the terms found at the following URL: [http://www.google.com/apps/intl/en/terms/additional\\_services.html](http://www.google.com/apps/intl/en/terms/additional_services.html). The Non-Google Apps Product Terms and such URL link may be updated or modified by Provider from time to time.

"Notification Email Address" means the email address designated by Customer to receive email notifications from Provider. Customer may provide a Partner email address for this purpose if it so chooses. Customer may change this email address through the Admin Console.

"Provider" means the third party provider of the Product.

"Partner" means the entity Customer is paying to provide access to and use of the Product.

"Service Pages" mean the web pages displaying the Product to End Users.

"Product" means, as applicable, the Google Apps Core Services purchased from Partner.

"SLA" means the Service Level Agreement located here for applicable Google Apps Core Services: [http://www.google.com/apps/intl/en/terms/reseller\\_sla.html](http://www.google.com/apps/intl/en/terms/reseller_sla.html). The SLA and such URL link may be updated or modified by Provider from time to time.

"Suspend" means the immediate disabling of access to the Product, or components of the Product, as applicable, to prevent further use of the Product.

"Term" means the term of these Product Passthrough Terms, which will continue for as long as Customer is receiving Product from Provider, unless terminated earlier pursuant to these Product Passthrough Terms, or pursuant to Customer's agreement with Partner.

"Third Party Request" means a request from a third party for records relating to an End User's use of the Product. Third Party Requests can be a lawful search warrant, court order, subpoena, other valid legal order, or written consent from the End User permitting the disclosure.

"TSS" means the technical support Product provided by Provider to the Administrators during the Term pursuant to the TSS Guidelines.

"TSS Guidelines" means Provider's technical support Product guidelines then in effect for the Product. TSS Guidelines are at the following URL: <http://www.google.com/a/help/intl/en/admins/tssg.html>. The TSS Guidelines and such URL link may be updated or modified by Provider from time to time.

"URL Terms" means the Acceptable Use Policy, the SLA and the TSS Guidelines.

## SALESFORCE Service Terms

"**AppExchange**" means the online directory of on-demand applications that work with the Service, located at <http://www.appexchange.com> or at any successor websites.

"**Service**" means the online, Web-based application provided by [Salesforce.com](http://www.salesforce.com) (sometimes referred to as "SFDC") via <http://www.salesforce.com> and/or other designated websites, including associated offline components but excluding AppExchange applications.

"**Third-Party Applications**" means online, Web-based applications and offline software products that are provided by third parties, interoperate with the Service, and are identified as third-party applications, including but not limited to those listed on the AppExchange.

"**User Guide**" means the online user guide for the Services, accessible via <http://www.salesforce.com>, as updated from time to time.

"**Users**" means Your employees, representatives, consultants, contractors or agents who are authorized to use the Service and have been supplied user identifications and passwords by You (or by [Salesforce.com](http://www.salesforce.com) or Your reseller at Your request).

"**You**" and "**Your**" means the customer entity which has contracted to purchase subscriptions to use the Service subject to the conditions of these SFDC Service Terms.

"**Your Data**" means all electronic data or information submitted by You to the Service.

### 1. **Use of Service**

- (a) User subscriptions cannot be shared or used by more than one User (but may be reassigned from time to time to new Users who are replacing former Users who have terminated employment with You or otherwise changed job status or function and no longer require use of the Service).
- (b) You (i) are responsible for all activities occurring under Your User accounts; (ii) are responsible for the content of all Your Data; (iii) shall use commercially reasonable efforts to prevent unauthorized access to, or use of, the Service, and shall notify Your reseller or [Salesforce.com](http://www.salesforce.com) promptly of any such unauthorized use You become aware of; and (iv) shall comply with all applicable federal laws and regulations in using the Service.
- (c) You shall use the Service solely for Your internal business purposes and shall not: (i) license, sublicense, sell, resell, rent, lease, transfer, assign, distribute, time share or otherwise commercially exploit or make the Service available to any third party, other than to Users or as otherwise contemplated by these SFDC Service Terms; (ii) send spam or otherwise duplicative or unsolicited messages in violation of applicable laws; (iii) send or store infringing, obscene, threatening, libelous, or otherwise unlawful or tortious material, including material that is harmful to children or violates third party privacy rights; (iv) send or store viruses, worms, time bombs, Trojan horses and other harmful or malicious code, files, scripts, agents or programs; (v) interfere with or disrupt the integrity or performance of the Service or the data contained therein; or (vi) attempt to gain unauthorized access to the Service or its related systems or networks.

- (d) You shall not (i) modify, copy or create derivative works based on the Service; (ii) frame or mirror any content forming part of the Service, other than on Your own intranets or otherwise for its own internal business purposes; (iii) reverse engineer the Service; or (iv) access the Service in order to (A) build a competitive product or service, or (B) copy any ideas, features, functions or graphics of the Service.

- 2. **Service Provision.** Salesforce.com will use commercially reasonable efforts to make the Services available 24 hours a day, 7 days a week, except for: (a) planned downtime (of which SFDC shall give at least 8 hours notice via the Services and which SFDC shall schedule to the extent practicable during the weekend hours from 6:00 p.m. Pacific time Friday to 3:00 a.m. Pacific time Monday), or (b) any unavailability caused by circumstances beyond SFDC's reasonable control, including without limitation, acts of God, acts of government, flood, fire, earthquakes, civil unrest, acts of terror, strikes or other labor problems (other than those involving SFDC employees), or Internet service provider failures or delays.

Salesforce.com will provide the Services only in accordance with applicable laws and government regulations.

- 3. **Acquisition of Third-Party Products and Services.** Any acquisition by You of third-party products or services, including but not limited to Third-Party Applications and implementation, customization and other consulting services, and any exchange of data between You and any third-party provider, is solely between You and the applicable third-party provider. Salesforce.com does not warrant or support third-party products or services, whether or not they are designated by Salesforce.com as "certified" or otherwise. No purchase of third-party products or services is required to use the Service as provided by Salesforce.com.
- 4. **Third-Party Applications and Your Data.** If You install or enable Third-Party Applications for use with the Service, You acknowledge that Salesforce.com may allow providers of those Third-Party Applications to access You Data as required for the interoperation of such Third Party Applications with the Service. Salesforce.com shall not be responsible for any disclosure, modification or deletion of You Data resulting from any such access by Third-Party Application providers. The Service shall allow You to restrict such access by restricting Users from installing or enabling such Third-Party Applications for use with the Service.
- 5. **Google Services.** Service features that interoperate with Google services depend on the continuing availability of the Google application programming interface ("API") and program for use with the Service. If Google Inc. ceases to make the Google API or program available on reasonable terms for the Service, Salesforce.com may cease providing such Service features without entitling You to any refund, credit, or other compensation.
- 6. **Proprietary Rights.** Subject to the limited rights expressly granted hereunder, Salesforce.com reserves all rights, title and interest in and to the Service, including all related intellectual property rights. The Service is deemed Salesforce.com confidential information, and You will not use it or disclose it to any third party except as permitted in these SFDC Service Terms and except as required by law, upon notice to Salesforce.com.
- 7. **Your Data.** As between Salesforce.com and You, You exclusively own all rights, title and interest in and to all of Your Data. Your Data is deemed your confidential information, and Salesforce.com shall not access Your User accounts, including Your Data, except to respond to service or technical problems or at your request.
- 8. **Compelled Disclosure.** If either You or Salesforce.com is compelled by law to disclose confidential information of the other party, it shall provide the other party with prior notice of such

compelled disclosure (to the extent legally permitted) and reasonable assistance, at the other party's cost, if the other party wishes to contest the disclosure.

9. **Suggestions** You agree that Salesforce.com shall have a royalty-free, worldwide, transferable, sublicenseable, irrevocable, perpetual license to use or incorporate into the Service any suggestions, enhancement requests, recommendations or other feedback provided by You or Your Users relating to the operation of the Service.
10. **Fees** Contracted for fees for use of the Service represent a firm commitment and the number of User subscriptions contracted for cannot be reduced in the middle of a subscription term.
11. **Termination** The master contract governs your termination (FAR 52.212-4(l) & (m)) and cancellation rights with the contractor, and the contract requires continued performance while any disputes are resolved (FAR 52.233-1(i)).
12. **Data Storage** You are entitled to a cumulative amount of storage per User subscription for no additional charge as set forth in the User Guide for the Service subscription type purchased. You may purchase additional storage if necessary, and you may contact Your reseller for then-current rates listed in master contract price list.
13. **Support** SFDC will provide You with basic support as described from time to time by SFDC at www.salesforce.com. In the event that You have purchased an upgraded support package, then upgraded support contact information will be provided to You together with your initial account set up information.
14. **No Warranty** SALESFORCE.COM MAKES NO WARRANTIES OF ANY KIND, WHETHER EXPRESS, IMPLIED, STATUTORY OR OTHERWISE REGARDING THE SERVICE AND/OR SUPPORT, AND SPECIFICALLY DISCLAIMS ALL IMPLIED WARRANTIES, INCLUDING ANY WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW. IN THE EVENT THAT YOUR AGREEMENT WITH YOUR RESELLER PROVIDES ANY WARRANTIES WITH RESPECT TO THE SERVICE AND/OR SUPPORT, SUCH WARRANTIES ARE SOLELY BETWEEN YOU AND YOUR RESELLER. This clause does not disclaim any warranties expressly provided in a contract with the U.S. Government."
15. **No Liability** IN NO EVENT SHALL SALESFORCE.COM HAVE ANY LIABILITY TO YOU OR ANY USER FOR ANY DAMAGES WHATSOEVER, INCLUDING BUT NOT LIMITED TO DIRECT, INDIRECT, SPECIAL, INCIDENTAL, PUNITIVE, OR CONSEQUENTIAL DAMAGES, OR DAMAGES BASED ON LOST PROFITS, HOWEVER CAUSED AND, WHETHER IN CONTRACT, TORT OR UNDER ANY OTHER THEORY OF LIABILITY, WHETHER OR NOT EITHER YOU OR SALESFORCE.COM HAVE BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES. This clause shall not impair the

U.S. Government's right to recover for fraud or crimes arising out of or related to this Contract under any federal fraud statute, including the False Claims Act, 31 U.S.C. §§ 3729-3733. Furthermore, this clause shall not impair nor prejudice the U.S. Government's right to EXPRESS remedies provided in the Contract (i.e. clause 552.238-72 – Price Reductions, clause 52.212-4(h) – Patent Indemnification, Liability for Injury or Damage (Section 3 of the Price List), and GSAR 552.215-72 – Price Adjustment – Failure to Provide Accurate Information).

16. **Further Contact.** Salesforce.com may contact you regarding new Salesforce.com service features and offerings.
17. **Third Party Beneficiary.** SFDC shall be a third party beneficiary to the agreement between You and Reseller solely as it relates to these SFDC Service Terms.

## **SOFTWARE LICENSE AND SUPPORT AGREEMENT**

### **General Terms and Conditions**

### **("GTC")**

#### **1. DEFINITIONS.**

1.1 **"Add-on"** means any development using SAP API's that adds new and independent functionality, but does not modify existing SAP functionality.

1.2 **"Agreement"** means these GTCs, any Order Form referencing these GTCs, and the Use Terms and Schedules referenced by these GTCs and/or such Order Forms. All such components are integral to the agreement, and collectively are referred to herein as the "Agreement".

1.3 **"API"** means SAP's application programming interfaces, as well as other SAP code that allow other software products to communicate with or call on SAP Software (for example, SAP Enterprise Services, BAPIs, Idocs, RFCs and ABAP or other user exits) provided under this Agreement.

1.4 **"Affiliate"** mean any legal entity in the Territory in which the Licensee, directly or indirectly, holds more than fifty percent (50%) of the shares or voting rights. Any such legal entity shall be considered an Affiliate for only such time as such equity interest is maintained.

1.5 **"Business Partner"** means a legal entity that requires access to the Software in connection with Licensee's internal business operations, such as customers, distributors and/or suppliers of Licensee.

1.6 **"Confidential Information"** means, with respect to SAP, all information which SAP protects against unrestricted disclosure to others, including but not limited to: (a) the Software and Documentation and other SAP Materials, including without limitation the following information regarding the Software: (i) computer software (object and source codes), programming techniques and programming concepts, methods of processing, system designs embodied in the Software; (ii) benchmark results, manuals, program listings, data structures, flow charts, logic diagrams, functional specifications, file formats; and (iii) discoveries, inventions, concepts, designs, flow charts, documentation, product specifications, application program interface specifications, techniques and processes relating to the Software; (b) the research and development or investigations of SAP; (c) product offerings, content partners, product pricing, product availability, technical drawings, algorithms, processes, ideas, techniques, formulas, data, schematics, trade secrets, know-how, improvements, marketing plans, forecasts and strategies; and (d) any information about or concerning any third party (which information was provided to SAP subject to an applicable confidentiality obligation to such third party). With respect to Licensee, "Confidential Information" means all information which Licensee protects against unrestricted disclosure to others and which (i) if in tangible form, Licensee clearly identifies as confidential or proprietary at the time of disclosure; and (ii) if in intangible form (including disclosure made orally or visually), Licensee identifies as confidential at the time of disclosure, summarizes the Confidential Information in writing, and delivers such summary within thirty (30) calendar days of any such disclosure.

1.7 **"Documentation"** means SAP's documentation which is delivered or made available to Licensee with the Software under this Agreement.

1.8 **"Intellectual Property Rights"** means patents of any type, design rights, utility models or other similar invention rights, copyrights, mask work rights, trade secret or confidentiality rights, trademarks, trade names and service marks and any other intangible property rights, including applications and registrations for any of the foregoing, in any country, arising under statutory or common law or by contract and whether or not perfected, now existing or hereafter filed, issued, or acquired.

1.9 **"Modification"** means (i) a change to the delivered source code or metadata; or (ii) any development, other than a change to the delivered source code or metadata, that customizes, enhances, or changes existing functionality of the Software including, but not limited to, the creation of any new application program interfaces, alternative user interfaces or the extension of SAP data structures; or (iii) any other change to the Software (other than an Add-on) utilizing or incorporating any SAP Materials (defined below).

1.10 **"Professional Services Schedule"** means the terms and conditions governing SAP's delivery of professional services, attached hereto and made a part hereof.

1.11 **"SAP Materials"** means any software, programs, tools, systems, data, or other materials made available by SAP to Licensee in the course of the performance under this Agreement including, but not limited to, the Software and Documentation, as well as any information, materials or feedback provided by Licensee to SAP relating to the Software and Documentation.

1.12 **"SAP Support"** means SAP's then-current SAP support offering specified in the applicable Order Forms and made available to Licensee as stated in the applicable SAP Support Schedule found at [www.sap.com/company/legal/index.epx](http://www.sap.com/company/legal/index.epx) as of the effective date of the first Software Order Form issued under these GTCs. Such SAP Support Schedule is incorporated herein by reference. For the avoidance of doubt, such SAP Support Schedule shall apply to all Order Forms issued under these GTCs, unless otherwise agreed by the parties. SAP recommends Licensee prints a copy of the applicable SAP Support Schedule for Licensee's own records.

1.13 **"Software"** means (i) any and all software products licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by or for SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective support agreement and (iii) any complete or partial copies of any of the foregoing.

1.14 **"Software Order Form"** means the order form for the Software and related SAP Support ordered by Licensee thereunder, including information on Software, SAP Support, fees, and other information necessary for the delivery of such items to Licensee.

The Software Order Form does not include fees for professional services, which shall be billed under separate statements of work in accord with the Professional Services Schedule.

1.15 **"Territory"** means the world except for those countries prohibited by United States' export laws, and further subject to Section 12.4 of the GTC.

1.16 **"Third Party Software"** means (i) any and all software products and content licensed to Licensee under this Agreement as specified in Software Order Forms hereto, all as developed by companies other than SAP, SAP AG, Business Objects Software Limited and/or any of their affiliated companies and delivered to Licensee hereunder; (ii) any new releases thereof made available through unrestricted shipment pursuant to the respective SAP Support Schedule and (iii) any complete or partial copies of any of the foregoing.

1.17 **"Use"** means to activate the processing capabilities of the Software, load, execute, access, employ the Software, or display information resulting from such capabilities.

1.18 **"Use Terms"** means, with regard to Software specified in a Software Order Form, the SAP Software Use Rights document current at the time of execution of such Software Order Form, copies of which are found at [www.sap.com/company/legal/index.epx](http://www.sap.com/company/legal/index.epx) and made a part hereof. Such SAP Software Use Rights documents are incorporated herein by reference. SAP recommends Licensee prints copies of the applicable SAP Software Use Rights documents for Licensee's own records

## 2. **LICENSE GRANT.**

### 2.1 **License.**

2.1.1 Subject to Licensee's compliance with all the terms and conditions of this Agreement, SAP grants to Licensee a non-exclusive, perpetual (except for subscription based or term licenses) license to Use the Software, Documentation, and other SAP Materials at specified site(s) within the Territory to run Licensee's and its Affiliates' internal business operations (including customer back-up and passive disaster recovery) and to provide internal training and testing for such internal business operations and as further set forth in the Software Order Form, unless terminated in accordance with Section 5 herein. This license does not permit Licensee (without being limited specifically to such restrictions) to: (i) use the SAP Materials to provide services to third parties (e.g., business process outsourcing, service bureau applications or third party training) other than to Affiliates (subject to Section 2.2); (ii) lease, loan, resell, sublicense or otherwise distribute the SAP Materials, other than distribution to Affiliates (subject to Section 2.2); (iii) make any Use of or perform any acts with respect to the SAP Materials other than as expressly permitted in accordance with the terms of this Agreement; or (iv) use Software components other than those specifically identified in the Software Order Form, even if it is also technically possible for Licensee to access other Software components. Business Partners may Use the Software only through screen access and solely in conjunction with Licensee's Use and may not Use the Software to run any of Business Partners' business operations.

2.1.2 Licensee agrees to install the Software only on information technology devices (e.g. hard disks or central processing units) identified by Licensee pursuant to this Agreement and that has been previously approved by SAP in writing or otherwise officially made known to the public as appropriate for Use or interoperation with the Software (the "Designated Unit"). Licensee must hold the required licenses as stated herein and in the applicable Order Forms, for any individuals that Use the Software, including employees or agents of Affiliates and Business Partners. Use may occur by way of an interface delivered with or as a part of the Software, a Licensee or third-party interface, or another intermediary system.

2.1.3 The terms and conditions of this Agreement relative to "Software" apply to Third Party Software except as otherwise stated in the Software Use Rights Schedule, a Schedule, an Order Form, or an Amendment.

2.2 **Affiliate Use.** Affiliates' Use of the Software, Documentation and other SAP Materials to run their internal business operations as permitted under Section 2.1.1 is subject to the following: (i) the Affiliate agrees to be bound by the terms herein in the form of Schedule A ("Affiliate Use Agreement") attached hereto; and (ii) a breach of such Affiliate Use Agreement by Affiliate shall be considered a breach by Licensee hereunder. If Licensee has an affiliate or subsidiary with a separate agreement for SAP software licenses and/or support services with SAP AG, any SAP AG affiliate (including SAP) or any other distributor of SAP software, the Software shall not be Used to run such affiliate's or subsidiary's business operations and such affiliate or subsidiary shall not receive any support services under this Agreement even if such separate agreement has expired or is terminated, unless otherwise agreed to in writing by the parties.

2.3 **Outsourcing Services.** With SAP's prior written consent, Licensee may permit services providers to access the Software solely for the purpose of providing facility, implementation, systems, application management or disaster recovery services to Licensee in connection with the business of Licensee for which the Software is herein licensed provided: (i) Licensee and such services provider execute a written agreement that includes provisions requiring such services provider's compliance with the terms of this Agreement prior to such access, including without limitation non-disclosure of SAP Confidential Information; (ii) Licensee shall hold the required licenses as stated in the Use Terms for all employees of such services provider authorized to access the Software; (iii) such services provider shall be permitted to Use the Software solely to install and configure the Software in accordance with the business of Licensee as set forth herein (or in the case of a disaster recovery vendor, to provide disaster recovery services only); (iv) under no circumstances may such services provider Use the Software to operate or provide processing services to Licensee or any other party, or in connection with such services provider's own business operations; (v) Licensee shall be responsible for any additional Software, migration tools, or third party software needed to effect such transition; and (vi) Licensee expressly agrees to indemnify SAP, its officers, employees, agents and subcontractors from and against all claims, liabilities, losses, damages and costs (including reasonable attorney fees) suffered by SAP arising from a breach by the services provider of the conditions of this Agreement. Upon SAP request, Licensee shall provide written confirmation to SAP that items (i)-(iv) are fulfilled.

3. **VERIFICATION.** SAP shall be permitted to audit (at least once annually and in accordance with SAP standard procedures, which may include on-site and/or remote audit) the usage of the SAP Materials. Licensee shall cooperate reasonably in the conduct of such audits. In the event an audit reveals that (i) Licensee underpaid license fees and/or SAP Support fees to SAP and/or (ii) that Licensee has Used the Software in excess of the license quantities or levels stated in the Software Order Form, Licensee shall pay such underpaid fees and/or for such excess usage based on SAP List of Prices and Conditions Software and Support governing use in effect at the time of the audit, and shall execute an additional Software Order Form in accordance with the terms of this Agreement

to affect the required licensing of any additional quantities or levels. Reasonable costs of SAP's audit shall be paid by Licensee if the audit results indicate usage in excess of the licensed quantities or levels. SAP reserves all rights at law and equity with respect to both Licensee's underpayment of License fees or SAP Support fees and usage in excess of the license quantities or levels.

#### 4. PRICE, PAYMENT, AND DELIVERY.

4.1 Fees. Licensee shall pay to SAP license fees for the Software and fees for SAP Support on the terms in Software Order Forms hereto. Fees for consulting services will be paid as set forth in the Professional Services Schedule. Any fees not paid when due shall accrue interest at the rate of 18% (eighteen percent) per annum, but not to exceed the maximum amount as allowed by law.

4.2 Taxes. Fees and other charges described in this Agreement do not include federal, state or local sales, foreign withholding, use, property, excise, service, or similar transaction taxes ("Tax(es)") now or hereafter levied, all of which shall be for Licensee's account. Any applicable direct pay permits or valid tax-exempt certificates must be provided to SAP prior to the execution of this Agreement. If SAP is required to pay Taxes, Licensee shall reimburse SAP for such amounts. Licensee hereby agrees to indemnify SAP for any Taxes and related costs, interest and penalties paid or payable by SAP.

4.3 Delivery of the Software and SAP Support. SAP will deliver the Software and SAP Support by making it available for electronic download through the SAP ServiceMarketplace (<http://service.sap.com/swdc>) to Licensee. Risk of loss passes at the time of such electronic delivery. Licensee agrees not to request any physical delivery of Software or SAP Support and should it occur that any such delivery will be rejected by Licensee. Licensee agrees and understands that the calculation of Taxes may be affected by the delivery method and delivery location of the Software and corresponding SAP Support.

#### 5. TERM.

5.1 Term. This Agreement and the license granted hereunder shall become effective as of the date first set forth in the first Software Order Form issued under these GTCs, and shall continue in effect thereafter unless this Agreement is terminated upon the earliest to occur of the following: (i) thirty days after Licensee gives SAP written notice of Licensee's direction to terminate this Agreement, for any reason, but only after payment of all license and SAP Support fees then due and owing; (ii) thirty days after SAP gives Licensee notice of Licensee's material breach of any provision of the Agreement (other than Licensee's breach of its obligations under Sections 6, 10 or 11, which breach shall result in immediate termination), including more than thirty days delinquency in Licensee's payment of any money due hereunder, unless Licensee has cured such breach during such thirty day period; (iii) immediately if Licensee files for bankruptcy, becomes insolvent, or makes an assignment for the benefit of creditors. For the avoidance of any doubt, termination of the Agreement shall strictly apply to all licenses under the Agreement, its appendices, schedules, addenda and order documents and any partial termination of the Agreement by Licensee shall not be permitted in respect of any part of the Agreement, its appendices, schedules, addenda, order documents.

5.2 End of Term Duties. Upon any termination hereunder, Licensee and its Affiliates shall immediately cease Use of all SAP Materials and Confidential Information. Within thirty (30) days after any termination, Licensee shall irretrievably destroy or upon SAP's request deliver to SAP all copies of the SAP Materials and Confidential Information in every form, except to the extent it is legally required to keep it for a longer period in which case such return or destruction shall occur at the end of such period. Licensee must certify to SAP in writing that it has satisfied its obligations under this Section 5.2. Licensee agrees to certify in writing to SAP that it and each of its Affiliates has performed the foregoing. Sections 3, 4, 5.2, 6, 7.2, 8, 9, 10, 12.4, 12.5, 12.6 and 12.8 shall survive such termination. In the event of any termination hereunder, Licensee shall not be entitled to any refund of any payments made by Licensee. Termination shall not relieve Licensee from its obligation to pay fees that remain unpaid.

#### 6. INTELLECTUAL PROPERTY RIGHTS.

6.1 Reservation of Rights. The SAP Materials, and all Intellectual Property Rights embodied in the foregoing, shall be the sole and exclusive property of SAP, SAP AG (the parent company of SAP) or its or their licensors, subject to any rights expressly granted to Licensee in Section 2 and 6.3 herein. Except for the rights set forth in Section 6.3 herein, Licensee is not permitted to modify or otherwise make derivative works of the Software. Any such unauthorized works developed by Licensee, and any Intellectual Property Rights embodied therein, shall be the sole and exclusive property of SAP or SAP AG.

6.2 Protection of Rights. Licensee shall not copy, translate, disassemble, or decompile, nor create or attempt to create the source code from the object code of the Software in any manner. Reverse engineering of the Software and other SAP Materials is prohibited. Licensee is permitted to back up data in accordance with good information technology practice and for this purpose to create the necessary backup copies of the Software. Backup copies on transportable discs or other data media must be marked as backup copies and bear the same copyright and authorship notice as the original discs or other data media. Licensee must not change or remove SAP's copyright and authorship notices.

#### 6.3 Modifications/Add-ons.

6.3.1 Conditioned on Licensee's compliance with the terms and conditions of this Agreement, Licensee may make Modifications and/or Add-ons to the Software in furtherance of its permitted Use under this Agreement, and shall be permitted to use Modifications and Add-ons with the Software in accordance with the License grant to the Software set forth in Section 2.1.1 herein. Licensee shall comply with SAP's registration procedure prior to making Modifications or Add-ons. All Modifications and all rights associated therewith shall be the exclusive property of SAP and SAP AG. All Add-ons developed by SAP (either independently or jointly with Licensee) and all rights associated therewith shall be the exclusive property of SAP and SAP AG. Licensee agrees to execute those documents reasonably necessary to secure SAP's rights in the foregoing. All Add-ons developed by or on behalf of Licensee without SAP's participation ("Licensee Add-on"), and all rights associated therewith, shall be the exclusive property of Licensee subject to SAP's rights in and to the Software; provided, Licensee shall not commercialize, market, distribute, license, sublicense, transfer, assign or otherwise alienate any such Licensee Add-ons. SAP retains the right to independently develop its own Modifications or Add-ons to the Software, and Licensee agrees not to take any action that would limit SAP's sale, assignment, licensing or use of its own Software or Modifications or Add-ons thereto.

6.3.2 Any Modification developed by or on behalf of Licensee without SAP's participation or Licensee Add-on must not (and subject to other limitations set forth herein): enable the bypassing or circumventing any of the restrictions set forth in this Agreement and/or provide Licensee with access to the Software to which Licensee is not directly licensed; nor permit mass data extraction from

Software to any non-SAP software, including use, modification saving or other processing of data in the non-SAP software; nor unreasonably impair, degrade or reduce the performance or security of the Software; nor render or provide any information concerning SAP software license terms, Software, or any other information related to SAP products.

6.3.3 Licensee covenants, on behalf of itself and its successors and assigns, not to assert against SAP or its affiliated companies, or their resellers, distributors, suppliers, commercial partners and customers, any rights in any Modifications developed by or on behalf of Licensee without SAP participation or Licensee Add-ons, or any other functionality of the SAP Software accessed by such Modification developed by or on behalf of Licensee without SAP participation or Licensee Add-on.

## **7. PERFORMANCE WARRANTY.**

7.1 Warranty. SAP warrants that the Software will substantially conform to the specifications contained in the Documentation for six months following delivery. The warranty shall not apply: (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect is caused by a Modification or Add-on (other than a Modification or Add-on made by SAP and which is provided through SAP Support or under warranty), Licensee or third-party software. SAP does not warrant that the Software will operate uninterrupted or that it will be free from minor defects or errors that do not materially affect such performance, or that the applications contained in the Software are designed to meet all of Licensee's business requirements. Provided Licensee notifies SAP in writing with a specific description of the Software's nonconformance within the warranty period and SAP validates the existence of such nonconformance, SAP will, at its option: a) repair or replace the nonconforming Software, or b) refund the license fees paid for the applicable nonconforming Software in exchange for a return of such nonconforming Software. This is Licensee's sole and exclusive remedy under this warranty.

7.2 Express Disclaimer. SAP AND ITS LICENSORS DISCLAIM ALL OTHER WARRANTIES EXPRESS OR IMPLIED, INCLUDING WITHOUT LIMITATION, ANY IMPLIED WARRANTIES OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE EXCEPT TO THE EXTENT THAT ANY WARRANTIES IMPLIED BY LAW CANNOT BE VALIDLY WAIVED.

## **8. INDEMNIFICATION.**

8.1 Infringement and Defense of Licensee. SAP shall defend Licensee against claims brought against Licensee in the Territory by any third party alleging that Licensee's Use of the Software, in accordance with the terms and conditions of this Agreement, constitutes a direct infringement or misappropriation of a patent claim(s), copyright or trade secret rights, and SAP will pay damages finally awarded against Licensee (or the amount of any settlement SAP enters into) with respect to such claims. This obligation of SAP shall not apply if the alleged infringement or misappropriation results from Use of the Software in conjunction with any other software, an apparatus other than a Designated Unit, failure to use an update promptly provided by SAP if such infringement or misappropriation could have been avoided by use of the update, or unlicensed activities. This obligation of SAP also shall not apply if Licensee fails to timely notify SAP in writing of any such claim. SAP is permitted to control fully the defense and any settlement of any such claim as long as such settlement shall not include a financial obligation on Licensee. In the event Licensee declines SAP's proffered defense, or otherwise fails to give full control of the defense to SAP's designated counsel, then Licensee waives SAP's obligations under this Section 8.1. Licensee shall cooperate fully in the defense of such claim and may appear, at its own expense, through counsel reasonably acceptable to SAP. SAP expressly reserves the right to cease such defense of any claim(s) in the event the Software is no longer alleged to infringe or misappropriate, or is held not to infringe or misappropriate, the third party's rights. SAP may settle or mitigate damages arising from any claim or potential claim, by substituting alternative substantially equivalent non-infringing programs and supporting documentation for the Software. Licensee shall not undertake any action in response to any infringement or misappropriation, or alleged infringement or misappropriation of the Software that is prejudicial to SAP's rights.

8.2 THE PROVISIONS OF THIS SECTION 8 STATE THE SOLE, EXCLUSIVE, AND ENTIRE LIABILITY OF SAP AND ITS LICENSORS TO LICENSEE, AND IS LICENSEE'S SOLE REMEDY, WITH RESPECT TO THE INFRINGEMENT OR MISAPPROPRIATION OF THIRD-PARTY INTELLECTUAL PROPERTY RIGHTS.

## **9. LIMITATIONS OF LIABILITY.**

9.1 Not Responsible. SAP and its licensors will not be responsible under this Agreement (i) if the Software is not used in accordance with the Documentation; or (ii) if the defect or liability is caused by Licensee, a Modification or Add-on (other than a Modification or Add-on made by SAP which is provided through SAP Support or under warranty), or third-party software. SAP AND ITS LICENSORS SHALL NOT BE LIABLE FOR ANY CLAIMS OR DAMAGES ARISING FROM INHERENTLY DANGEROUS USE OF THE SOFTWARE AND/OR THIRD-PARTY SOFTWARE LICENSED HEREUNDER.

9.2 Exclusion of Damages: Limitation of Liability. ANYTHING TO THE CONTRARY HEREIN NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF CONFIDENTIAL INFORMATION OR DEATH OR PERSONAL INJURY ARISING FROM EITHER PARTY'S GROSS NEGLIGENCE OR WILLFUL MISCONDUCT, UNDER NO CIRCUMSTANCES AND REGARDLESS OF THE NATURE OF ANY CLAIM SHALL SAP, ITS LICENSORS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE PAID LICENSE FEES FOR THE SOFTWARE DIRECTLY CAUSING THE DAMAGES OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, ATTORNEYS' FEES, COURT COSTS, INTEREST OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of this Agreement allocate the risks between SAP and Licensee. The license fees reflect this allocation of risk and the limitations of liability herein.

## **10. CONFIDENTIALITY.**

10.1 Use of Confidential Information. Confidential Information shall not be reproduced in any form except as required to accomplish the intent of this Agreement. Any reproduction of any Confidential Information of the other shall remain the property of the disclosing party and shall contain any and all confidential or proprietary notices or legends which appear on the original. With respect to the Confidential Information of the other, each party: (a) shall take all Reasonable Steps (defined below) to keep all Confidential Information strictly confidential; and (b) shall not disclose any Confidential Information of the other to any person other than its bona fide individuals whose access is necessary to enable it to exercise its rights hereunder. As used herein "Reasonable Steps" means those steps the receiving party takes to protect its own similar proprietary and confidential information, which shall not be less than a reasonable standard of care. Confidential Information of either party disclosed prior to execution of this Agreement shall be subject to the protections afforded hereunder.

10.2 Exceptions. The above restrictions on the use or disclosure of the Confidential Information shall not apply to any Confidential Information that: (a) is independently developed by the receiving party without reference to the disclosing party's Confidential Information, or is lawfully received free of restriction from a third party having the right to furnish such Confidential Information; (b) has become generally available to the public without breach of this Agreement by the receiving party; (c) at the time of disclosure, was known to the receiving party free of restriction; or (d) the disclosing party agrees in writing is free of such restrictions.

10.3 Confidential Terms and Conditions: Publicity. Licensee shall not disclose the terms and conditions of this Agreement or the pricing contained therein to any third party. Neither party shall use the name of the other party in publicity, advertising, or similar activity, without the prior written consent of the other, except that Licensee agrees that SAP may use Licensee's name in customer listings or, at times mutually agreeable to the parties, as part of SAP's marketing efforts (including without limitation reference calls and stories, press testimonials, site visits, SAPPHIRE participation).

11. ASSIGNMENT. Licensee may not, without SAP's prior written consent, assign, delegate, pledge, or otherwise transfer this Agreement, or any of its rights or obligations under this Agreement, or the SAP Materials or SAP Confidential Information, to any party, whether voluntarily or by operation of law, including by way of sale of assets, merger or consolidation. SAP may assign this Agreement to any of its affiliates.

## 12. GENERAL PROVISIONS.

12.1 Severability. It is the intent of the parties that in case any one or more of the provisions contained in this Agreement shall be held to be invalid or unenforceable in any respect, such invalidity or unenforceability shall not affect the other provisions of this Agreement, and this Agreement shall be construed as if such invalid or unenforceable provision had never been contained herein.

12.2 No Waiver. If either party should waive any breach of any provision of this Agreement, it shall not thereby be deemed to have waived any preceding or succeeding breach of the same or any other provision hereof.

12.3 Counterparts. This Agreement may be signed in two counterparts, each of which shall be deemed an original and which shall together constitute one Agreement.

12.4 Regulatory Matters. The Software, Documentation and SAP Materials are subject to the export control laws of various countries, including without limit the laws of the United States and Germany. Licensee agrees that it will not submit the Software, Documentation or other SAP Materials to any government agency for licensing consideration or other regulatory approval without the prior written consent of SAP, and will not export the Software, Documentation and SAP Materials to countries, persons or entities prohibited by such laws. Licensee shall also be responsible for complying with all applicable governmental regulations of the country where Licensee is registered, and any foreign countries with respect to the use of the Software, Documentation or other SAP Materials by Licensee and/or its Affiliates.

12.5 Governing Law: Limitations Period. This Agreement and any claims arising out of or relating to this Agreement and its subject matter shall be governed by and construed under the laws of Commonwealth of Pennsylvania without reference to its conflicts of law principles. In the event of any conflicts between foreign law, rules, and regulations, and United States law, rules, and regulations, United States law, rules, and regulations shall prevail and govern. The United Nations Convention on Contracts for the International Sale of Goods shall not apply to this Agreement. The Uniform Computer Information Transactions Act as enacted shall not apply. Licensee must initiate a cause of action for any claim(s) arising out of or relating to this Agreement and its subject matter within one (1) year from the date when Licensee knew, or should have known after reasonable investigation, of the facts giving rise to the claim(s).

12.6 Notices. All notices or reports which are required or may be given pursuant to this Agreement shall be in writing and shall be deemed duly given when delivered to the respective executive offices of SAP and Licensee at the addresses first set forth in any Software Order Form. Where in this section 12.6 or elsewhere in this Agreement written form is required, that requirement can be met by facsimile transmission, exchange of letters or other written form.

12.7 Force Majeure. Any delay or nonperformance of any provision of this Agreement (other than for the payment of amounts due hereunder) caused by conditions beyond the reasonable control of the performing party shall not constitute a breach of this Agreement, and the time for performance of such provision, if any, shall be deemed to be extended for a period equal to the duration of the conditions preventing performance.

12.8 Entire Agreement. This Agreement constitutes the complete and exclusive statement of the agreement between SAP and Licensee, and all previous representations, discussions, and writings are merged in, and superseded by this Agreement and the parties disclaim any reliance on any such representations, discussions and writings. This Agreement may be modified only by a writing signed by both parties. This Agreement shall prevail over any additional, conflicting, or inconsistent terms and conditions which may appear on any purchase order or other document furnished by Licensee to SAP. This Agreement shall prevail over any additional, conflicting or inconsistent terms and conditions which may appear in any clickwrap end user agreement included in the Software. Signatures sent by electronic means (facsimile or scanned and sent via e-mail) shall be deemed original signatures. This Agreement does not create any partnership, joint venture or principal and agent relationship.

12.9 Hierarchy. The following order of precedence shall be applied in the event of conflict or inconsistency between provisions of the components of this Agreement: (i) the Software Order Form; (ii) the Schedules; (iii) the Use Terms; and (iv) the GTC.

**Schedule B to the GTC**  
**"Professional Services Schedule"**

The parties agree that this Schedule is hereby annexed to and made a part of the GTC. In each instance in which provisions of this Schedule contradict or are inconsistent with the provisions of the GTC, the provisions of this Schedule shall prevail and govern.

WHEREAS, Licensee licensed from SAP the right to Use SAP Software pursuant to the Agreement and SAP provides, through its employees, affiliates, and third party contractors ("Consultants"), consulting and professional services ("Services") including support of installation and implementation of the licensed Software in the United States.

1. Services. Upon request by Licensee, SAP will provide a Consultant(s) to perform, at Licensee's direction, consulting and professional services including support of installation and implementation of the applicable SAP Software ("Services"). Any Statement(s) of Work ("SOW") more fully describing the project assumptions, scope, duration and fees for the Services shall reference this Schedule. All Services of the SAP Consultant(s) will be coordinated with the designated Licensee representative. Licensee is responsible for making the necessary internal arrangements for the carrying out of the Services on a non-interference basis.
2. Satisfaction with Performance. If at any time Licensee or SAP is dissatisfied with the material performance of an assigned Consultant or a Licensee project team member, the dissatisfied party shall immediately report such dissatisfaction to the other party in writing and may request a replacement. The other party shall use its reasonable discretion in accomplishing any such change.
3. Compensation of SAP. All Services will be provided by SAP on a time and expense basis at SAP's then current rates, unless otherwise agreed by the parties in a SOW.
4. Taxes. The fees listed in the applicable SOW do not include taxes. If SAP is required to pay sales, use, property, value-added or other taxes based on the Services provided under this Schedule, then such taxes shall be billed to and paid by Licensee. This section shall not apply to taxes based on SAP's income. Licensee also agrees to pay SAP for additional tax amounts if any, created by the taxability of Consultants reimbursed travel and living expenses resulting from long term assignments at Licensee's locations.
5. Work Product. Unless otherwise agreed to in writing by the parties in a SOW, SAP shall have the sole and exclusive right, title and ownership to any and all ideas, concepts, or other intellectual property rights related in any way to the techniques, knowledge or processes of the SAP Services and deliverables, whether or not developed for Licensee.
6. Warranty. SAP warrants that its Services shall be performed consistent with generally accepted industry standards. SAP MAKES NO WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, NOR ANY OTHER WARRANTIES, EXPRESS, IMPLIED OR STATUTORY, IN CONNECTION WITH THIS SCHEDULE AND THE SERVICES PROVIDED HEREUNDER.
7. Limitation of Liability. WITH RESPECT TO SERVICES, ANYTHING TO THE CONTRARY NOTWITHSTANDING, EXCEPT FOR DAMAGES RESULTING FROM UNAUTHORIZED USE OR DISCLOSURE OF THE PROPRIETARY INFORMATION AND SAP'S RIGHT TO COLLECT UNPAID FEES, UNDER NO CIRCUMSTANCES SHALL SAP, ITS CONSULTANTS OR LICENSEE BE LIABLE TO EACH OTHER OR ANY OTHER PERSON OR ENTITY FOR AN AMOUNT OF DAMAGES IN EXCESS OF THE FEES PAID FOR THE APPLICABLE SERVICES HEREUNDER OR BE LIABLE IN ANY AMOUNT FOR SPECIAL, INCIDENTAL, CONSEQUENTIAL, OR INDIRECT DAMAGES, LOSS OF GOOD WILL OR BUSINESS PROFITS, WORK STOPPAGE, DATA LOSS, COMPUTER FAILURE OR MALFUNCTION, OR EXEMPLARY OR PUNITIVE DAMAGES. The provisions of the Schedule allocate the risks between SAP and Licensee. The License Fees reflect this allocation of risk and the limitations of liability herein.
8. Termination. The terms of this Schedule shall be effective as of the Effective Date of the Agreement and shall remain in effect until terminated by either party upon thirty (30) days prior written notice or otherwise in accordance with a particular SOW. Licensee shall be liable for payment to SAP for all Services provided prior to the effective date of any such termination, including any expenses incurred pursuant to the provision of such Services, in accord with the applicable SOW.
9. General Provisions.
  - 9.1 SAP may subcontract all or part of the Services to be performed to a qualified third party.
  - 9.2 With respect to the Services provided by SAP under this Schedule and any SOW hereto, the relationship of SAP and Licensee is that of an independent contractor.
  - 9.3 This Schedule, including any applicable SOWs, constitutes the entire agreement between the parties with respect to the subject matter hereof and supersedes all prior agreements between the parties, whether written or oral, relating to the same subject matter. In the event of any inconsistencies between this Schedule and a SOW, the SOW shall take precedence over the Schedule. Any purchase order or other document issued by Licensee is for administrative convenience only.
10. Survival. Sections 5 and 7 above shall survive any termination of this Schedule.

## SUBSCRIPTION SERVICE AGREEMENT

This Subscription Service Agreement (including the Subscription Service Guide, attached hereto) ("**Agreement**") is made between the ServiceNow entity ("**ServiceNow**") and the customer entity ("**Customer**") on the ordering document and becomes effective on the last signature date of the ordering document issued by ServiceNow ("**Effective Date**").

The Subscription Service Guide includes: (1) the Customer Support Policy; (2) the Upgrade Policy; (3) the Data Security Guide; and (4) any other attachment set forth or referenced in the Subscription Service Guide. The Subscription Service Guide is posted on [www.servicenow.com/schedules.do](http://www.servicenow.com/schedules.do) and incorporated herein by reference.

Pursuant to a separate transaction between Customer and ServiceNow's authorized reseller ("**Reseller**"), Customer has purchased from Reseller certain services to be delivered by ServiceNow. This Agreement specifies the terms and conditions under which those services will be provided, apart from price, payment and other terms specified in the separate agreement between Customer and Reseller.

### 1. DEFINITIONS

**1.1. "Confidential Information"** means: (a) ServiceNow Core Technology (which is Confidential Information of ServiceNow); (b) Customer Data and Customer Technology (which are Confidential Information of Customer); (c) any other information of a party that is disclosed in writing or orally and is designated as *Confidential* or *Proprietary* at the time of disclosure (and, in the case of oral disclosures, summarized in writing within thirty (30) days of the initial disclosure and delivered to the receiving party), or that due to the nature of the information the receiving party would clearly understand it to be confidential information of the disclosing party; and (d) the specific terms and conditions of this Agreement, any Use Authorization, any SOW, and any amendment and attachment thereof, between the parties. Confidential Information shall not include any information that: (i) is or becomes generally known to the public through no fault or breach of this Agreement by the receiving party; (ii) was rightfully in the receiving party's possession at the time of disclosure without restriction on use or disclosure; (iii) is independently developed by the receiving party without use of the disclosing party's Confidential Information; or (iv) was or is rightfully obtained by the receiving party from a third party not under a duty of confidentiality and without restriction on use or disclosure.

**1.2. "Customer Data"** means electronic data uploaded by or for Customer and Customer's agents, employees and contractors, and processed in the Subscription Service, excluding the ServiceNow Core Technology.

**1.3. "Customer Technology"** means software, methodologies, templates, business processes, documentation or other material authored, invented or otherwise created or licensed (other than by or from ServiceNow) by Customer using or for use with the Subscription Service, excluding the ServiceNow Core Technology.

**1.4. "Development Tools"** means source code, application programming interfaces (APIs), executable software and tools in human readable format made available by ServiceNow for the implementation, customization, configuration, and use of the Subscription Service, such as scripts, code snippets, sample code, and development tools published by ServiceNow.

**1.5. "Documentation"** means the ServiceNow product documentation relating to the operation and use of the Subscription Service, Software and Development Tools, including technical program or interface documentation, user manuals, operating instructions and release notes, as updated from time to time by ServiceNow.

**1.6. "Product Overview"** means the description of the ordered products and their functionalities attached to a Use Authorization or referenced therein.

**1.7. "Professional Services"** means any services provided by ServiceNow pursuant to an agreed SOW or Service Description.

**1.8. “Service Description”** means the written description for a packaged Professional Service, attached to a Use Authorization or referenced therein.

**1.9. “ServiceNow Core Technology”** means: (a) the Subscription Service; Software; Development Tools, Documentation; and ServiceNow technology and methodologies (including, without limitation, products, software tools, hardware designs, algorithms, templates, software (in source and object forms), architecture, class libraries, objects and documentation) existing as of the Effective Date or otherwise arising outside of work under a Professional Service; (b) updates, upgrades, improvements, configurations, extensions, and derivative works of the foregoing and related technical or end user documentation or manuals; and (c) intellectual property anywhere in the world relating to the foregoing.

**1.10. “Software”** means software provided by ServiceNow to Customer that operates on Customer-provided machines solely to facilitate the use of the Subscription Service.

**1.11. “SOW”** means a statement of work for Professional Services.

**1.12. “Subscription Service”** means the ServiceNow software as a service (SaaS) offering identified in a Use Authorization.

**1.13. “Subscription Term”** means the term of authorized use of the Subscription Service as set forth in the Use Authorization.

**1.14. “Use Authorization”** means a written document provided to Customer specifying the services that Customer has purchased, along with the term and scope of the authorized use thereof.

## 2. GRANT OF USE RIGHTS

**2.1. SUBSCRIPTION SERVICE.** Subject to the terms of this Agreement, ServiceNow authorizes Customer to access and use the purchased Subscription Service during the Subscription Term as set forth in an applicable Use Authorization for its internal business purposes in accordance with the Documentation. Customer shall not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use as set forth in this Agreement and the applicable Use Authorization.

**2.2. SOFTWARE.** ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license during the Subscription Term to install and execute Software on machines operated by or for Customer solely to facilitate Customer's authorized access to and use of the purchased Subscription Service. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software. Software is licensed and not sold even if for convenience ServiceNow makes reference to words such as *sale* or *purchase*.

**2.3. DEVELOPMENT TOOLS.** In support of Customer's authorized internal business use of the Subscription Service during the Subscription Term, ServiceNow grants to Customer a limited, personal, worldwide, non-sublicensable, non-transferable (except as set forth in Section 10.1 (Assignment)), non-exclusive license to download and make a reasonable number of copies of the Development Tools, and to use, copy, modify and create derivative works of the Development Tools, in: (a) using, implementing and integrating the ServiceNow applications with other software and systems; and (b) creating applications on the ServiceNow platform (to the extent Customer has purchased authorized use of the Subscription Service to create applications on the ServiceNow platform). Customer shall not use the Development Tools in a manner that causes it to exceed the limits of its authorized use of the Subscription Service as set forth in this Agreement and the Use Authorization. From time to time, ServiceNow may provide Development Tools subject to the terms and conditions of separate agreements which will be provided to Customer for review and to which Customer will be required to agree prior to use of such Development Tools; provided that ServiceNow shall not require Customer to agree to separate terms and conditions for any Development Tool that is necessary for Customer's use of its ordered Subscription Service in conformance with the Product Overview unless set forth on the Use Authorization.

**2.4. RESTRICTIONS.** Customer shall not (and shall not permit others to) do the following with respect to the ServiceNow Core Technology: (i) use the Subscription Service with external programs in a manner that intentionally circumvents contractual usage restrictions; (ii) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of it available for access by third parties except as otherwise expressly provided in a Use Authorization; (iii) access it for the purpose of developing or operating products or services intended to be offered to third parties in competition with the Subscription Service; (iv) disassemble, reverse engineer or decompile it; (v) copy, create derivative works based on or otherwise modify it except as permitted in this Agreement; (vi) remove or modify a copyright or other proprietary rights notice in it; (vii) use it to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (viii) use it to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or otherwise engage in a malicious act or disrupt its security, integrity or operation; or (ix) access or disable any ServiceNow or third party data, software or network (other than Customer's instance of the Subscription Service in accordance with this Agreement). Before Customer exercises any of the foregoing actions that Customer believes it is entitled to, Customer shall provide ServiceNow with thirty (30) days' prior written notice to [legalnotices@servicenow.com](mailto:legalnotices@servicenow.com) (or, if applicable law or the relevant court order does not allow for such notice, then the maximum amount of notice allowable), and provide reasonably requested information to allow ServiceNow to assess Customer's claim and, at ServiceNow's sole discretion, provide alternatives that reduce adverse impacts on ServiceNow's intellectual property and other rights.

### 3. ORDERING

**3.1. RESELLER ORDERS.** Customer shall order and purchase the Subscription Service and Professional Services directly from Reseller pursuant to a separate agreement specifying price, payment and other commercial terms. ServiceNow is not a party to such separate agreement but will provide the purchased services pursuant to this Agreement. For each order, Reseller or ServiceNow will provide Customer with a Use Authorization for Customer to sign and return to ServiceNow. ServiceNow will have no obligation to provide services unless and until it has received a Use Authorization signed by Customer. Reseller is not authorized to make any changes to this Agreement (including any Use Authorizations issued hereunder) or bind ServiceNow to any additional or different terms or conditions. Additional orders for ServiceNow products or services may be placed either through Reseller or ServiceNow, provided that if Customer places an order directly through ServiceNow, Customer shall sign an addendum to this Agreement setting forth pricing, payment and other commercial terms between Customer and ServiceNow.

**3.2. USE VERIFICATION.** ServiceNow or Reseller may remotely review Customer's use of the Subscription Service, and upon ServiceNow or Reseller's written request Customer shall provide any reasonable assistance, to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions commensurate with Customer's actual use. If Customer fails to regain compliance within such thirty (30) day period or fails to make payment as provided in its agreement with Reseller, ServiceNow may suspend Customer's use of the Subscription Service or terminate this Agreement for cause in accordance with Section 9 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

### 4. INTELLECTUAL PROPERTY

**4.1. SERVICENOW OWNERSHIP.** As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the ServiceNow Core Technology are owned exclusively by ServiceNow notwithstanding any other provision in this Agreement. Except as expressly provided in this Agreement, ServiceNow reserves all rights in the ServiceNow Core Technology and does not grant Customer any rights, express or implied or by estoppel.

**4.2. CUSTOMER OWNERSHIP.** As between Customer and ServiceNow, Customer shall retain all of its rights, title, and interest in and to its intellectual property rights in Customer Data and Customer Technology. Customer hereby grants to ServiceNow a royalty-free, fully-paid, non-exclusive, non-transferable (except as set

forth in Section 10.1 (Assignment)), sub-licensable, worldwide right to use Customer Data and Customer Technology solely for the purpose of providing the Subscription Service and Professional Services to Customer.

**4.3. FEEDBACK.** ServiceNow encourages Customer to provide suggestions, proposals, ideas, recommendations or other feedback regarding improvements to ServiceNow's services and related resources. To the extent Customer provides such feedback, Customer grants to ServiceNow a royalty-free, fully paid, sub-licensable, transferable (notwithstanding Section 10.1 (Assignment)), non-exclusive, irrevocable, perpetual, worldwide right and license to make, use, sell, offer for sale, import and otherwise exploit feedback (including by incorporation of such feedback into the ServiceNow Core Technology) without restriction.

**4.4. PROFESSIONAL SERVICES.** Subject to the provisions of this Section 4.4, ServiceNow shall assign to Customer any Newly Created IP (as defined below) in Deliverables upon payment in full by Customer of all amounts due for the Professional Service under which the Deliverable was created. A "**Deliverable**" is a deliverable that is identified in the applicable SOW or Service Description and that is created by ServiceNow for Customer in the performance of the Professional Services. "**Newly Created IP**" means intellectual property in any inventions or works of authorship that are made by ServiceNow specifically for Customer in the course of performing Professional Services for Customer that is identified as "Newly Created IP" in an SOW, excluding the ServiceNow Core Technology. To the extent (if at all) any ServiceNow Core Technology is incorporated into a Deliverable, ServiceNow grants to Customer a non-exclusive, royalty-free, non-transferable, non-sublicensable worldwide license to use the ServiceNow Core Technology solely to use the Deliverable in connection with the Subscription Service as contemplated under this Agreement during the Subscription Term. Nothing in this Agreement shall be deemed to restrict or limit ServiceNow's right to perform similar Professional Services for any other party or to assign any employees or subcontractors to perform similar Professional Services for any other party or to use any information incidentally retained in the unaided memories of its employees providing Professional Services.

## 5. WARRANTIES

**5.1. LIMITED SUBSCRIPTION SERVICE WARRANTY.** ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide. If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to ServiceNow under this Section 5.1, then Customer may terminate the affected Subscription Service and submit to Reseller a claim for refund of any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 5.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

**5.2. LIMITED PROFESSIONAL SERVICES WARRANTY.** ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services, in which case Customer may submit to Reseller a claim for a refund of any amounts paid for the nonconforming Professional Services. THIS SECTION 5.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

**5.3. DISCLAIMER OF WARRANTIES.** EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THIS AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES

ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES, DEVELOPMENT TOOLS, DOCUMENTATION OR DELIVERABLES WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THIS AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

## 6. CONFIDENTIAL INFORMATION

**6.1. CONFIDENTIALITY OBLIGATIONS.** The recipient of Confidential Information shall: (i) at all times protect it from unauthorized disclosure with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use it except to the extent necessary to exercise rights or fulfill obligations under this Agreement. Each party shall limit the disclosure of the other party's Confidential Information to those of its employees and contractors with a need to access such Confidential Information for a party's exercise of its rights and obligations under this Agreement, provided that all such employees and contractors are subject to binding disclosure and use restrictions at least as protective as those set forth herein. Each party's obligations set forth in this Section 6 shall remain in effect during the term and three (3) years after termination of this Agreement. The receiving party shall, at the disclosing party's request or upon termination of this Agreement, return all originals, copies, reproductions and summaries of Confidential Information and other tangible materials and devices provided to the receiving party as Confidential Information, or at the disclosing party's option, certify destruction of the same. Provisions for the return of Customer Data are set forth in Section 9.3 (Return of Customer Data).

**6.2. REQUIRED DISCLOSURES.** A party may disclose the disclosing party's Confidential Information to a court or governmental body pursuant to a valid court order, law, subpoena or regulation, provided that the receiving party: (a) promptly notifies the disclosing party of such requirement as far in advance as possible to the extent advanced notice is lawful; and (b) provides reasonable assistance to the disclosing party in any lawful efforts by the disclosing party to resist or limit the disclosure of such Confidential Information.

**6.3. EQUITABLE REMEDIES.** The parties agree that the receiving party's disclosure of Confidential Information except as provided herein may result in irreparable injury for which a remedy in money damages may be inadequate. The parties further agree that in the event of such disclosure or threatened disclosure, the disclosing party may be entitled to seek an injunction to prevent the breach or threatened breach without the necessity of proving irreparable injury or the inadequacy of money damages, in addition to remedies otherwise available to the disclosing party at law or in equity.

## 7. INDEMNIFICATION

**7.1. SERVICENOW OBLIGATION.** Subject to the exclusions set forth below, ServiceNow shall: (i) defend Customer, its officers, directors and employees against any third party suit, claim, action or demand (each a "**Claim**") to the extent alleging: (A) that the Subscription Service used in accordance with this Agreement infringes any third party patent, copyright or trademark, or misappropriates any third party trade secret; or (B) that ServiceNow's personnel when onsite at Customer's premises caused death, bodily harm or damage to tangible personal property due to their negligence or willful misconduct; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from any such Claims. If any portion of the Subscription Service becomes the subject of a Claim under Section 7.1(i)(A), ServiceNow may: (a) contest the Claim; (b) obtain permission from the claimant for Customer's continued use of the Subscription Service; (c) replace or modify the Subscription Service to avoid infringement, if such replacement or modification has substantially the same capabilities as the Subscription Service; or, if the foregoing (a), (b), and (c) are not available on commercially reasonable terms in ServiceNow's judgment, then (d) terminate Customer's use of the affected Subscription Service upon sixty (60) days' written notice, whereupon Customer may submit to Reseller a claim for a refund of any prepaid subscription fees covering the remaining portion of the applicable Subscription Term for the affected

Subscription Service after the date of termination. Notwithstanding the above, ServiceNow shall have no obligation or liability for any Claim under Section 7.1(i)(A) arising in whole or in part from: (1) any use of the Subscription Service which exceeds the authorized use permitted under this Agreement or not in accordance with the Documentation; (2) Customer Data or Customer Technology; (3) use of the Subscription Service by Customer in violation of applicable law; (4) use of the affected Subscription Service after termination in accordance with clause (d) of this Section 7.1; (5) modifications to the Subscription Service made to Customer's specifications or otherwise made by any person other than ServiceNow or a person acting at ServiceNow's direction if the Claim would have been avoided by use of the unmodified Subscription Service; or (6) use of the Subscription Service in combination with any hardware, software, application or service that was not provided by ServiceNow, if the Claim would have been avoided by the non-combined or independent use of the Subscription Service.

**7.2. CUSTOMER OBLIGATION.** Customer shall: (i) defend ServiceNow, its officers, directors and employees against any Claim alleging that: (A) Customer Data, (B) Customer Technology or (C) a modification to the Subscription Service made to Customer's specifications or otherwise made by or on behalf of Customer by any person other than ServiceNow or a person acting at ServiceNow's direction (but only if the Claim would have been avoided by use of the unmodified Subscription Service), infringes any patent, copyright or trademark, misappropriates any third party trade secret, or violates any third party privacy rights; and (ii) pay any court-ordered award of damages or settlement amount to the extent arising from such Claim.

**7.3. PROCESS.** All of the foregoing indemnity obligations of ServiceNow and Customer are conditioned on the indemnified party notifying the indemnifying party promptly in writing of any actual or threatened Claim, the indemnified party giving the indemnifying party sole control of the defense thereof and any related settlement negotiations, and the indemnified party cooperating and, at the indemnifying party's request and expense, assisting in such defense. SECTION 7 STATES EACH PARTY'S ENTIRE LIABILITY AND THE OTHER PARTY'S EXCLUSIVE REMEDY FOR THIRD PARTY CLAIMS AND ACTIONS.

## 8. LIMITATIONS OF LIABILITY

**8.1. LIMITATIONS OF LIABILITY.** SERVICENOW SHALL HAVE NO LIABILITY FOR ANY REFUND THAT, IN ACCORDANCE WITH THE TERMS OF THIS AGREEMENT, IS TO BE PAID BY RESELLER. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO THIS AGREEMENT OR THE PRODUCTS OR SERVICES PROVIDED HEREUNDER WHETHER BASED ON CONTRACT, TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE PRODUCTS OR SERVICES GIVING RISE TO THE CLAIM DURING THE TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO:

(1) CUSTOMER'S OBLIGATION TO PAY FOR PRODUCTS, SERVICES OR TAXES; (2) A PARTY'S OBLIGATIONS IN SECTION 7 (INDEMNIFICATION); AND (3) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

**8.2. EXCLUSION OF DAMAGES.** TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT (INCLUDING NEGLIGENCE) OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) PAYMENTS TO A THIRD PARTY ARISING FROM A PARTY'S OBLIGATIONS UNDER SECTION 7 (INDEMNIFICATION); AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

**8.3. GROSS NEGLIGENCE; WILFUL MISCONDUCT.** AS PROVIDED BY LAW, NOTHING HEREIN SHALL BE INTENDED TO LIMIT A PARTY'S LIABILITY IN AN ACTION IN TORT (SEPARATE AND DISTINCT

FROM A CAUSE OF ACTION FOR BREACH OF THIS AGREEMENT) FOR THE PARTY'S GROSS NEGLIGENCE OR WILFUL MISCONDUCT.

## 9. TERM AND TERMINATION

**9.1. TERM AND TERMINATION.** This Agreement continues until terminated under the terms of this Agreement. Each party may terminate this Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time of notice there are no Use Authorizations in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services upon written notice if the other party materially breaches this Agreement or the applicable Use Authorization for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Use Authorization.

**9.2. EFFECT OF TERMINATION OF SUBSCRIPTION SERVICE.** Upon termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the Subscription Service and all rights granted to Customer in this Agreement shall terminate. If the Subscription Service is terminated by Customer due to ServiceNow's breach, then Customer may submit to Reseller a claim for refund of all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. Within thirty (30) days following the effective date of a termination by ServiceNow for Customer's breach, Customer shall pay all remaining amounts for the Subscription Term applicable to the Subscription Service covering the remainder of the Subscription Term regardless of the due dates specified in Reseller's order form to Customer.

**9.3. TRANSITION SERVICES.** At least thirty (30) days prior to either the expiration of the Subscription Term (where Customer elects not to renew) or in connection with the termination by Customer of the Subscription Service in accordance with Section 9.1, provided that Customer signs an addendum to this Agreement setting forth payment and other commercial terms between Customer and ServiceNow, Customer may purchase the following services from ServiceNow: (i) one (1) extension of the Subscription Service for up to six (6) months ("**Transition Subscription Service**"); and (ii) Professional Services. Prior to the commencement of any Transition Subscription Service or Professional Services, Customer shall sign an ordering document and shall pay in advance for the Transition Subscription Service and any Professional Services plus verifiable travel and expenses.

**9.4. RETURN OF CUSTOMER DATA.** ServiceNow shall provide Customer Data in its standard database export format, excluding the ServiceNow Core Technology, to Customer upon Customer's written request and at no additional cost to Customer, provided that ServiceNow receives such request from Customer within forty-five (45) days following the expiration or termination of this Agreement for the Subscription Service (including any Transition Subscription Service term, if applicable). If ServiceNow has not received a request within the foregoing time frame, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

**9.5. SURVIVAL.** Sections 2.4 (Restrictions), 4.1 (ServiceNow Ownership), 4.2 (Customer Ownership), 4.3 (Feedback) and 6 (Confidential Information) through 10 (General Provisions) of this Agreement, together with any other provision required for their construction or enforcement, shall survive termination of this Agreement for any reason.

## 10. GENERAL PROVISIONS

**10.1. ASSIGNMENT.** Neither party may assign its rights or obligations under this Agreement, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the

foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity of such party, assign this Agreement in its entirety to such party's successor; and (ii) assign this Agreement in its entirety to any Affiliate. "**Affiliates**" shall mean any person or entity directly or indirectly Controlling, Controlled by or under common Control with a party to the Agreement, where "**Control**" means the legal power to direct or cause the direction of the general management of the company, partnership or other legal entity. Any attempted or purported assignment in violation of this Section 10.1 will be null and void. Subject to the foregoing, this Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

**10.2. COMPLIANCE WITH LAWS.** ServiceNow shall comply with any statutes and regulations that apply to its provision of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to the privacy and security of personal information, including trans-border data transfers and data breach notification requirements as required of ServiceNow by law. Customer shall comply with all laws that apply to its use of the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables, under the Agreement, including but not limited to those applicable to collection and processing of Customer Data in ServiceNow systems through the Subscription Service. Customer agrees to provide any required disclosures to and obtain any required consents for the transfer of Customer Data to ServiceNow. ServiceNow shall not be responsible for compliance with any laws applicable to Customer and its industry that are not generally applicable to information technology service providers.

**10.3. EXPORT COMPLIANCE.** Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables are subject to the U.S. Export Administration Regulations (the "**EAR**") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software, Documentation, Development Tools and Deliverables.

**10.4. US GOVERNMENT RIGHTS.** All ServiceNow software (including Software) is commercial computer software and all services are commercial items. "**Commercial computer software**" has the meaning set forth in Federal Acquisition Regulation ("**FAR**") 2.101 for civilian agency purchases and the Department of Defense ("**DOD**") FAR Supplement ("**DFARS**") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of this Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

**10.5. NOTICE.** Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email with

confirmation of receipt, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the signature page of this Agreement or as subsequently updated in writing.

**10.6. FORCE MAJEURE.** No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached this Agreement, for any failure or delay in fulfilling or performing any term of this Agreement (excluding Customer's failure to pay amounts owed when due), when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, export bans, sanctions and other government actions, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "**Force Majeure Event**"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

**10.7. HIGH RISK ACTIVITIES.** Customer shall use the ServiceNow Core Technology within the intended business purposes described in the Documentation, and not for any purpose that requires fail-safe performance including, but not limited to, stock trading, financial transaction processing, management of hazardous facilities or applications for which failure could result in death, personal injury, or severe physical or environmental damage ("**High Risk Activity**"). ServiceNow, its licensors and suppliers expressly disclaim all warranties of fitness for any such use and Customer shall release and hold ServiceNow, its licensors and suppliers harmless from liability arising out of the use of the ServiceNow Core Technology for High Risk Activity.

**10.8. USE OF AGGREGATE DATA.** Customer agrees that ServiceNow may collect, use and disclose quantitative data derived from the use of the Subscription Service for industry analysis, benchmarking, analytics, marketing, and other business purposes. All data collected, used, and disclosed will be in aggregate form only and will not identify Customer or its users.

**10.9. ENTIRETY.** This Agreement, together with the Use Authorizations, Product Overviews, SOWs, Service Descriptions, and the Subscription Service Guide (including the Customer Support Policy, the Upgrade Policy and the Data Security Guide), is the final and entire agreement between the parties regarding the products and services provided hereunder and supersedes all prior or contemporaneous oral or written agreements, representations, understandings, undertakings and negotiations with respect to the subject matter hereof. The terms of this Agreement apply to the exclusion of any other terms that Customer seeks to impose or incorporate, or which are implied by trade, custom, practice or course of dealing. Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow that is not set out in this Agreement. Customer's orders are not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. This Agreement may be executed in counterparts, each of which shall be deemed to be an original.

**10.10. WAIVER AND AMENDMENT.** A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of this Agreement must be in writing and signed by authorized representatives of both parties.

**10.11. RELATIONSHIP OF THE PARTIES.** The parties are independent contractors. Nothing in this Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party.

**10.12. GOVERNING LAW; JURISDICTION AND VENUE.** This Agreement shall be governed by the laws of the state of California, without regard to its conflict of laws principles. The parties hereby irrevocably consent to the exclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in Santa Clara County, California, for the purposes of adjudicating any dispute arising out of this Agreement. Each party hereto expressly consents to service of process by registered mail. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply.

Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

**10.13. CONSTRUCTION.** Products and services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that this Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties confirment avoir expressément exigé que le présent contrat et les documents de ServiceNow qui y sont attachés soient rédigés en anglais. Section headings are for convenience only and are not to be used in interpreting this Agreement.

## SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the ordering agreement or the use agreement between Customer and ServiceNow.

### 1. SUPPORT

During the Subscription Term, ServiceNow or its authorized reseller, as applicable, shall provide support for the Subscription Service as set forth in the **Customer Support Policy** attached hereto, and incorporated herein by reference.

### 2. UPGRADES

ServiceNow determines whether and when to develop, release and apply any Upgrade (as defined in the **Upgrade Policy** attached hereto, and incorporated herein by reference) to Customer's instances of the Subscription Service.

### 3. DATA SECURITY

ServiceNow shall implement and maintain security procedures and practices appropriate to information technology service providers to protect Customer Data from unauthorized access, destruction, use, modification, or disclosure, as described in the **Data Security Guide** attached hereto, and incorporated herein by reference.

### 4. INSURANCE

ServiceNow agrees to maintain in effect during the Subscription Term, at ServiceNow's expense, the following minimum insurance coverage:

- (i) (a) Workers' Compensation Insurance, in accordance with applicable statutory, federal, and other legal requirements and (b) Employers' Liability Insurance covering ServiceNow's employees in an amount of not less than \$1,000,000 for bodily injury by accident, \$1,000,000 policy limit for bodily injury by disease, and \$1,000,000 each employee for bodily injury by disease;
- (ii) Commercial General Liability Insurance written on an occurrence form and including coverage for bodily injury, property damage, products and completed operations, personal injury, advertising injury arising out of the services and/or products provided by ServiceNow under this Agreement with minimum limits of \$1,000,000 per occurrence/\$2,000,000 aggregate;
- (iii) Commercial Automobile Liability Insurance providing coverage for hired and non-owned automobiles used in connection with this Agreement in an amount of not less than \$1,000,000 per accident combined single limit for bodily injury and property damage;
- (iv) Combined Technology Errors' & Omission Policy with a \$5,000,000 per Claim limit, including: (a) Professional Liability Insurance providing coverage for the services and software in this Agreement. Such coverage to be maintained for at least two (2) years after the termination of this Agreement; and (b) Privacy, Security, and Media Liability Insurance providing liability coverage for unauthorized access or disclosure, security breaches or system attacks, as well as infringements of copyright and trademark that might result from this Agreement; and
- (v) Excess Liability over Employers' Liability, Commercial General Liability and Commercial Automobile Liability with a \$5,000,000 aggregate limit.

For the purpose of this Section, a "**Claim**" means a written demand for money or a civil proceeding which is commenced by service of a complaint or similar pleading.

### 5. AVAILABILITY SERVICE LEVEL

#### 5.1. DEFINITIONS

- (a) "**Available**" means that the Subscription Service can be accessed by authorized users.

(b) **"Excused Downtime"** means: (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays, and network intrusions or denial-of-service or other criminal attacks.

(c) **"Maintenance Time"** means the time the Subscription Service is not Available due to service maintenance.

(d) **"Availability SLA"** means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

## 5.2. AVAILABILITY

If Customer's production instances of the Subscription Service fall below the Availability SLA of ninety-nine and eight-tenths percent (99.8%) during a calendar month, Customer's exclusive remedy for failure of the Subscription Service to meet the Availability SLAs is either: (1) to request that the affected Subscription Term be extended for the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA; or (2) to request that ServiceNow issue a service credit to Customer for the dollar value of the number of minutes the Subscription Service was not Available in the month in accordance with the Availability SLA (determined at the deemed per minute rate ServiceNow charges to Customer for Customer's use of the affected Subscription Service), which Customer may request ServiceNow apply to the next invoice for subscription fees.

## 5.3. REQUESTS

Customer must request all service credits or extensions in writing to ServiceNow within thirty (30) days of the end of the month in which the Availability SLA was not met, identifying the support requests relating to the period Customer's production instances of the Subscription Service was not Available. The total amount of service credits for any month may not exceed the subscription fee for the affected Subscription Service for the month, and has no cash value. ServiceNow may delay issuing service credits until such amounts reach one thousand U.S. dollars (\$1,000) or equivalent currency specified in the applicable Order Form.

## CUSTOMER SUPPORT POLICY

This Customer Support Policy governs the support that ServiceNow or its authorized reseller, as applicable, will provide for the Subscription Service. This Policy may be updated from time to time.

### Scope

The purpose of Customer Support is to resolve defects that cause the Subscription Service to perform not in substantial conformance to the Product Overview. A resolution to a defect may consist of a fix, workaround or other relief ServiceNow deems reasonable.

Customer Support does not include:

- implementation services
- configuration services
- integration services
- customization services or other custom software development
- training
- assistance with administrative functions

Customer Support is not required to provide resolutions for immaterial defects or defects due to modifications of the Subscription Service made by any person other than ServiceNow or a person acting at ServiceNow's direction.

### Business Hours

Customer Support is available 24 hours a day, 7 days a week, including all holidays.

### Access Contacts

Customer may contact ServiceNow using one of the following means:

- Support Portal at <https://hi.service-now.com/>. Customer may get login access to this self-service portal by contacting its ServiceNow administrator.
- Phone using one of the numbers at <http://servicenow.com/support/contact-support.html>.

Customer shall contact ServiceNow's authorized reseller in accordance with its agreement with the reseller.

### Incident Priority

Incident priority for a defect is determined using the guidelines below:

| Priority | Definition                                                      |
|----------|-----------------------------------------------------------------|
| P1       | Any defect that causes an instance to be unavailable.           |
| P2       | Any defect that causes a critical function to fail.             |
| P3       | Any defect that significantly impedes work or progress.         |
| P4       | Any defect that does not significantly impede work or progress. |

### Response Times and Level of Effort

Customer submits an incident with ServiceNow via phone or web and with ServiceNow's authorized reseller as directed by reseller. All support requests are tracked online and can be viewed by Customer's authorized contacts. Response times do not vary if the incident was filed via phone or web.

ServiceNow or its authorized reseller, as applicable, will use reasonable efforts to meet the target response times and target level of effort stated in the table below. Support from the reseller may be limited to business hours only.

| Priority | Target Response Times | Target Level of Effort                                              |
|----------|-----------------------|---------------------------------------------------------------------|
| P1       | 30 minutes            | Continuously, 24 hours per day, 7 days per week                     |
| P2       | 2 hours               | Continuously, but not necessarily 24 hours per day, 7 days per week |
| P3       | 1 business day        | As appropriate during normal business hours                         |
| P4       | N/A                   | Varies                                                              |

### Customer Responsibilities

Customer's obligations are as follows:

- (a) Customer agrees to receive from ServiceNow or its authorized reseller, as applicable, communications via email, phone or through the Support Portal regarding the Subscription Service.
- (b) Customer shall appoint no more than five (5) contacts ("**Customer Authorized Contacts**") to engage Customer Support for questions and/or technical issues.
  - (i) Only Customer Authorized Contacts are authorized to contact Customer Support.
  - (ii) Customer must ensure the information for these contacts is current in the Support Portal at <https://hi.service-now.com/>.
  - (iii) Customer Authorized Contacts are trained on the use and administration of the Subscription Service.
- (c) Customer shall cooperate to enable ServiceNow to deliver the Subscription Service and support for the service.
- (d) Customer is solely responsible for the use of the Subscription Service by its authorized users.

## UPGRADE POLICY

### 1. UPGRADES

**“Upgrades”** are ServiceNow’s releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer’s instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality as an Upgrade or as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer’s instances of the Subscription Service.

### 2. NOTICE; MAINTENANCE DOWNTIME

ServiceNow shall use reasonable efforts to give Customer thirty (30) days prior notice of any Upgrade to the Subscription Service. ServiceNow shall use reasonable efforts to give Customer ten (10) days prior notice of any Upgrade to the cloud infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow in its reasonable judgment believes that the infrastructure Upgrade will impact Customer’s use of its production instances of the Subscription Service. ServiceNow will use commercially reasonable efforts to limit the period of time during which the Subscription Service is unavailable due to the application of Upgrades to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of an Upgrade if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service.

### 3. NOMENCLATURE

A pending Upgrade may be a “Feature Release”, “Patch” or “Hotfix.” A **“Feature Release”** is an Upgrade that includes new features or enhancements. A **“Patch”** or a **“Hotfix”** is an Upgrade to a Feature Release that maintains the functionality of the Feature Release and does not include new functionality. ServiceNow refers to each Feature Release and its associated Patches and Hotfixes as a **“Release Family.”** For example, ServiceNow’s Feature Release “Aspen” established the “Aspen” Release Family, and ServiceNow’s subsequent Feature Release “Berlin” established the “Berlin” Release Family.

### 4. PINNING REQUESTS

Customer may submit a support request for “no Upgrade” not fewer than five (5) business days’ prior to a pending Upgrade of the Subscription Service. Subject to the terms and conditions of this Upgrade Policy, Customer’s “no Upgrade” request shall be granted, and the Upgrade shall not be applied to Customer’s instances of the Subscription Service.

### 5. SUPPORTED AND NON-SUPPORTED RELEASE FAMILIES

ServiceNow offers support for the then current Release Family and the prior two (2) Release Families (**“Supported Release Families”**) as set forth in the Customer Support Policy. A Customer using a Supported Release Family may be required to Upgrade to a Patch or Hotfix within the Supported Release Family to correct a defect. At its discretion, ServiceNow may offer limited support for additional Release Families (**“Non-Supported Release Families”**). Without limiting ServiceNow’s discretion to determine the availability of support for Non-Supported Release Families, a Customer using a Non-Supported Release Family may be required to Upgrade to a Supported Release Family to correct a defect. Any service level agreements, recovery time objectives or recovery point objectives are not applicable to Non-Supported Release Families. Details of ServiceNow support are further set forth in the Customer Support Policy.

Customer acknowledges that the current Release Family is the most current feature, availability, performance and security version of the Subscription Service. Within a Supported Release Family, the most recent Patch contains the most current feature, availability, performance and security version of the Subscription Service for that Release Family. A Customer that has submitted a “no Upgrade” request may experience defects, for which Customer hereby agrees that ServiceNow is not responsible, including without limitation those that affect the features, availability, performance and security of the Subscription Service, that are fixed in the most

current version of the Subscription Service.

## **6. REQUIRED UPGRADES**

If Customer has requested “no Upgrade” it may nevertheless be required to Upgrade if in the reasonable judgment of ServiceNow the Upgrade is necessary to maintain the availability, security or performance of the Subscription Service or the ability of ServiceNow to efficiently provide the Subscription Service, as follows:

**6.1. SUPPORTED RELEASE FAMILY.** If Customer is using a Supported Release Family, it may be required to Upgrade to a Patch or Hotfix within the Supported Release Family.

**6.2. NON-SUPPORTED RELEASE FAMILY.** If Customer is using a Non-Supported Release Family, it may be required to Upgrade to a Supported Release Family.

## **7. EXCEPTIONS**

Notwithstanding the other provisions of this Upgrade Policy, Customer may not submit a support request for “no Upgrade” for any Upgrade to, or that is essential for, the infrastructure network, hardware, or software used by ServiceNow to operate and deliver the Subscription Service.

## DATA SECURITY GUIDE

### Security Statement of an Enterprise IT Cloud Company

The ServiceNow cloud is built for the enterprise customer with every aspect aimed towards meeting the customer's demand for reliability, availability and security. ServiceNow's comprehensive approach to address this demand is enabled by the following: (a) ServiceNow's robust cloud infrastructure runs on its own applications and utilizes industry best-of-breed technology to automate mission critical functionalities in the cloud service with around-the-clock and around-the-world delivery; (b) ServiceNow achieves flexibility and control in its ability to deliver a stable user experience to the customer by having a logical single tenant architecture; (c) ServiceNow's application development which has a paramount focus on quality, security, and the user experience is closely connected to the operations of delivering those applications in a reliable and secure cloud environment; (d) ServiceNow invests in a comprehensive compliance strategy that allows its customers to attain their own compliance to applicable laws by obtaining attestations and certifications and running its subscription service from paired data centers situated close to where its customers are located; and (e) ServiceNow's homogeneous environment where all applications are on a single platform offers ServiceNow a competitive advantage in being able to concentrate its efforts to make the customer's user experience the best possible.

This Data Security Guide describes the measures ServiceNow takes to protect Customer Data when it resides in the ServiceNow cloud. This Data Security Guide forms a part of any legal agreement into which this Data Security Guide is explicitly incorporated by reference (the "**Agreement**") and is subject to the terms and conditions of the Agreement. Capitalized terms that are not otherwise defined herein shall have the meaning given to them in the Agreement.

### 1. SECURITY PROGRAM

While providing the Subscription Service, ServiceNow shall maintain a written information security program of policies, procedures and controls ("**Security Program**") governing the processing, storage, transmission and security of Customer Data. The Security Program includes industry standard practices designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction. ServiceNow may periodically review and update the Security Program to address new and evolving security technologies, changes to industry standard practices, and changing security threats, provided that any such update does not materially reduce the commitments, protections or overall level of service provided to Customer as described herein.

### 2. CERTIFICATIONS AND ATTESTATIONS

**2.1. Certifications and Attestations.** ServiceNow shall establish and maintain sufficient controls to meet the objectives stated in ISO 27001 and SSAE 16 / SOC 1 and SOC 2 Type 2 (or equivalent standards) (collectively, the "**Standards**") for the information security management system supporting the Subscription Service. At least once per calendar year, ServiceNow shall perform an assessment against such Standards ("**Assessment**"). Upon Customer's written request, which shall be no more than once per calendar year, ServiceNow shall provide a summary of the Assessment(s) to Customer. Assessments shall be Confidential Information of ServiceNow.

**2.2. Safe Harbor.** ServiceNow shall maintain self-certified compliance under the U.S.-EU and U.S.-Swiss Safe Harbor Frameworks developed by the U.S. Department of Commerce regarding the collection, use and retention of Personal Data (defined in Section 6 below) from European Union member countries and Switzerland.

### 3. PHYSICAL, TECHNICAL AND ADMINISTRATIVE SECURITY MEASURES

The Security Program shall include the following physical, technical and administrative measures designed to protect Customer Data from unauthorized access, acquisition, use, disclosure, or destruction:

#### 3.1. Physical Security Measures

(a) Data Center Facilities: (i) Physical access restrictions and monitoring that may include a combination of any of the following: multi-zone security, man-traps, appropriate perimeter deterrents (for example,

fencing, berms, guarded gates), on-site guards, biometric controls, CCTV, and secure cages; and (ii) fire detection and fire suppression systems both localized and throughout the data center floor.

(b) Systems, Machines and Devices: (i) Physical protection mechanisms; and (ii) entry controls to limit physical access.

(c) Media: (i) Industry standard destruction of sensitive materials before disposition of media; (ii) secure safe for storing damaged hard disks prior to physical destruction; and (iii) physical destruction of all decommissioned hard disks storing Customer Data.

### 3.2. Technical Security Measures

(a) Access Administration. Access to the Subscription Service by ServiceNow employees and contractors is protected by authentication and authorization mechanisms. User authentication is required to gain access to production and sub-production systems. Access privileges are based on job requirements and are revoked upon termination of employment or consulting relationship. Production infrastructure includes appropriate user account and password controls (for example, the required use of virtual private network connections, complex passwords with expiration dates, and a two-factored authenticated connection) and is accessible for administration.

(b) Logging and Monitoring. The production infrastructure log activities are centrally collected and are secured in an effort to prevent tampering and are monitored for anomalies by a trained security team.

(c) Firewall System. An industry-standard firewall is installed and managed to protect ServiceNow systems by residing on the network to inspect all ingress connections routed to the ServiceNow environment.

(d) Vulnerability Management. ServiceNow conducts periodic independent security risk evaluations to identify critical information assets, assess threats to such assets, determine potential vulnerabilities, and provide for remediation. When software vulnerabilities are revealed and addressed by a vendor patch, ServiceNow will obtain the patch from the applicable vendor and apply it within an appropriate timeframe in accordance with ServiceNow's then current vulnerability management and security patch management standard operating procedure and only after such patch is tested and determined to be safe for installation in all production systems.

(e) Antivirus. ServiceNow updates anti-virus, anti-malware, and anti-spyware software on regular intervals and centrally logs events for effectiveness of such software.

(f) Change Control. ServiceNow ensures that changes to platform, applications and production infrastructure are evaluated to minimize risk and are implemented following ServiceNow's standard operating procedure.

### 3.3. Administrative Security Measures

(a) Data Center Inspections. ServiceNow performs routine reviews at each data center to ensure that it continues to maintain the security controls necessary to comply with the Security Program.

(b) Personnel Security. ServiceNow performs background and drug screening on all employees and all contractors who have access to Customer Data in accordance with ServiceNow's then current applicable standard operating procedure and subject to applicable law.

(c) Security Awareness and Training. ServiceNow maintains a security awareness program that includes appropriate training of ServiceNow personnel on the Security Program. Training is conducted at time of hire and periodically throughout employment at ServiceNow.

(d) Vendor Risk Management. ServiceNow maintains a vendor risk management program that assesses all vendors that access, store, process or transmit Customer Data for appropriate security controls and business disciplines.

#### 4. DATA PROTECTION AND SERVICE CONTINUITY

**4.1. Data Centers; Data Backup.** ServiceNow shall host Customer's instances in primary and secondary SSAE 16 Type II or ISO 27001 certified (or equivalent) data centers in the geographic regions specified on the Order Form for the Subscription Term. Each data center includes full redundancy (N+1) and fault tolerant infrastructure for electrical, cooling and network systems. The deployed servers are enterprise scale servers with redundant power to ensure maximum uptime and service availability. The production database servers are replicated in near real time to a mirrored data center in a different geographic region. Each customer instance is supported by a network configuration with multiple connections to the Internet. ServiceNow backs up all Customer Data in accordance with ServiceNow's standard operating procedure.

**4.2. Personnel.** In the event of an emergency that renders the customer support telephone system unavailable, all calls are routed to an answering service that will transfer to a ServiceNow telephone support representative, geographically located to ensure business continuity for support operations.

#### 5. INCIDENT MANAGEMENT AND BREACH NOTIFICATION

**5.1. Incident Monitoring and Management.** ServiceNow shall monitor, analyze and respond to security incidents in a timely manner in accordance with ServiceNow's standard operating procedure. Depending on the nature of the incident, ServiceNow security group will escalate and engage response teams necessary to address an incident.

**5.2. Breach Notification.** Unless notification is delayed by the actions or demands of a law enforcement agency, ServiceNow shall report to Customer the unauthorized acquisition, access, use, disclosure or destruction of Customer Data (a "Breach") promptly following determination by ServiceNow that a Breach occurred. The initial report shall be made to Customer security contact(s) designated in ServiceNow's customer support portal. ServiceNow shall take reasonable measures to promptly mitigate the cause of the Breach and shall take reasonable corrective measures to prevent future Breaches. As information is collected or otherwise becomes available to ServiceNow and unless prohibited by law, ServiceNow shall provide information regarding the nature and consequences of the Breach that are reasonably requested to allow Customer to notify affected individuals, government agencies and/or credit bureaus. Customer is solely responsible for determining whether to notify impacted Data Subjects (defined in 6.1 below) and for providing such notice, and for determining if regulatory bodies or enforcement commissions applicable to Customer or Customer Data need to be notified of a Breach.

**5.3. Customer Cooperation.** Customer agrees to cooperate with ServiceNow in maintaining accurate contact information in the customer support portal and by providing any information that is reasonably requested to resolve any security incident, identify its root cause(s) and prevent a recurrence.

#### 6. DATA PROCESSING GUIDELINES; COMPLIANCE WITH LAWS

**6.1. Customer as Data Controller.** Customer acknowledges that in relation to Personal Data supplied and/or processed under the Agreement it acts as Controller and it warrants that it will duly observe all of its obligations under all applicable laws and regulations of the European Union, the European Economic Area and their member states regarding the processing of Personal Data (collectively referred to as "Data Protection Laws") including, without limitation, obtaining and maintaining all necessary notifications and obtaining and maintaining all necessary Data Subject Consents. Customer shall (i) have sole responsibility for the accuracy, quality, integrity, legality and reliability of Personal Data and of the means by which it acquired Personal Data, (ii) ensure that data processing instructions given to ServiceNow comply with applicable Data Protection Laws, and (iii) comply with all applicable Data Protection Laws in collecting, compiling, storing, accessing and using Personal Data in connection with the Subscription Service. For the purposes of this Data Security Guide, "Personal Data", "Controller", "Data Subject" and "Data Subject Consent" shall have the meaning given to these terms in Directive 95/46/EC. For clarity, "process" or "processing" means any operation or set of operations performed upon Customer Data.

**6.2. ServiceNow as Data Processor.** ServiceNow shall process or otherwise use Personal Data (including possible onward transfers) on behalf of Customer solely for the purpose of providing the services

described in the Agreement and only in accordance with Customer's lawful instructions (limited to those instructions which ServiceNow can reasonably carry out in the provision of the Subscription Service), the terms of the Agreement, and this Data Security Guide. ServiceNow shall ensure that those employees to whom it grants access to such Personal Data are directed to keep such Personal Data confidential and are informed of any additional data protection obligations applicable to such Personal Data. ServiceNow shall, to the extent legally permitted, promptly notify Customer with respect to any request or communication ServiceNow receives from any regulatory authority in relation to any data processing activities ServiceNow conducts on behalf of Customer. In addition, ServiceNow will cooperate and assist Customer, at Customer's cost, in relation to any such request and to any response to any such communication. ServiceNow will pass on to the Customer any requests of a Data Subject to access, delete, correct, or block Personal Data processed under the Agreement. If ServiceNow is compelled by law to disclose Customer's information as part of a civil proceeding to which Customer is a party, and Customer is not contesting the disclosure, Customer will reimburse ServiceNow for its reasonable cost of compiling and providing secure access to that information.

**6.3. Subcontractors.** ServiceNow may engage subcontractors for processing Customer Data under the Agreement, provided ServiceNow shall ensure compliance by such subcontractor(s) with the requirements of this Section 6 by entering into written agreements with such subcontractors which provide that the subcontractor will apply the Safe Harbor principles to the processing of Personal Data. ServiceNow's use of any subcontractor will not relieve, waive or diminish any obligation ServiceNow has under the Agreement or this Data Security Guide.

## 7. PENETRATION TESTS

**7.1. By a Third Party.** ServiceNow contracts with third party vendors to perform an annual penetration test on the ServiceNow platform to identify risks and remediation that help increase security.

**7.2. By Customer.** No more than once per calendar year Customer may request to perform, at its own expense, an application penetration test of its instances of the Subscription Service. Customer shall notify ServiceNow in advance of any test by submitting a request using ServiceNow's online support portal and completing a penetration testing agreement. ServiceNow and Customer must agree upon a mutually acceptable time for the test; and Customer shall not perform a penetration test without ServiceNow's express written authorization. The test must be of reasonable duration, and must not interfere with ServiceNow's day-to-day operations. Promptly upon completion of the penetration test, Customer shall provide ServiceNow with the test results including any detected vulnerability. Upon such notice, ServiceNow shall, consistent with industry standard practices, use all commercially reasonable efforts to promptly make any necessary changes to improve the security of the Subscription Service. Customer shall treat the test results as Confidential Information of ServiceNow.

## 8. SHARING THE SECURITY RESPONSIBILITY

**8.1. Product Capabilities.** The Subscription Service has the capabilities to: (i) authenticate users before access; (ii) encrypt passwords; (iii) allow users to manage passwords; and (iv) prevent access by users with an inactive account. Customer manages each user's access to and use of the Subscription Service by assigning to each user a credential and user type that controls the level of access to the Subscription Service.

**8.2. Customer Responsibilities.** ServiceNow provides the cloud environment that permits Customer to use and process Customer Data in the Subscription Service. The architecture in the Subscription Service includes, without limitation, column level encryption functionality and the access control list engine. Customer shall be responsible for using the column level encryption functionality and access control list engine for protecting all Customer Data containing sensitive data, including without limitation, credit card numbers, social security numbers, financial and health information, and sensitive personal data. Customer is solely responsible for the results of its decision not to encrypt such sensitive data. ServiceNow protects all Customer Data in the ServiceNow cloud infrastructure equally in accordance with this Data Security Guide, regardless of the classification of the type of Customer Data. Customer shall be responsible for protecting the confidentiality of each user's login and password and shall manage each user's access to the Subscription Service.

**8.3. Customer Cooperation.** Customer shall promptly apply any application upgrade that ServiceNow determines is necessary to maintain the security, performance or availability of the Subscription Service.

**8.4. Limitations.** Notwithstanding anything to the contrary in the Agreement or this Data Security Guide, ServiceNow's obligations extend only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. This Data Security Guide does not apply to: (i) information shared with ServiceNow that is not data stored in its systems using the Subscription Service; (ii) data in Customer's virtual private network (VPN) or a third party network; or (iii) any data processed by Customer or its users in violation of the Agreement or this Data Security Guide.

## ServiceNow Product Overview

Effective Date: May 2, 2016

| ServiceNow Applications      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
|------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Activity Designer            | Enables a user to construct reusable activities that suit an organization's business needs. Requires Orchestration Core.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Activity Packs               | A collection of related workflow activities that allow Orchestration Core to connect to, and automate work with, external systems. Some Activity Packs require Orchestration Core and others require Cloud Management.                                                                                                                                                                                                                                                                                                                                                                                                           |
| Agile Development            | Provides capabilities to manage the software development process in projects including enhancement requests, defect prioritization, definition of release content, and tasks.                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Asset Management             | Provides capabilities to track and manage the physical, contractual, and financial aspects of assets.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Audit Management             | Provides a centralized process for Internal Audit teams to automate the complete audit lifecycle by providing the capability to plan, scope and execute integrated, risk-based audit plans.                                                                                                                                                                                                                                                                                                                                                                                                                                      |
| Change Management            | Allows repeatable methods and procedures to be used for introducing change into the IT infrastructure by providing capabilities for creating, assessing, approving, and executing changes.                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Client Software Distribution | Allows administrators to distribute software from the service catalog using third party management systems. Requires Orchestration Core.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Cloud Management             | Provides the capability to automate the provisioning and management lifecycle of public and private virtual servers. Requires Orchestration Core.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Configuration Automation     | Provides the capability to manage the configuration settings of a physical or virtual server. Requires Orchestration Core.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |
| Cost Management              | Provides capabilities to track one-time and recurring costs of configuration items used by IT and allocate those costs to business units using allocation rules.                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Cost Transparency            | Provides insight for executives seeking to align spending to business goals. Users can classify general ledger records, define reporting structures and allocation rules, and view summary reports.                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Customer Service Management  | Includes the following key features: Omni-channel customer engagement across portal, chat, email, and phone (native telephony integration requires Notify); a robust customer data model for accounts, partners, and contacts; case management with advanced skills-based routing, real-time service level agreement (SLA), service contracts and service entitlements; pre-packaged service analytics using both real-time data as well as snapshots for trend analysis (trend analytics requires Performance Analytics use rights); and voice of customer feedback through online surveys and customer satisfaction reporting. |

|                                |                                                                                                                                                                                                                                                                                                                     |
|--------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Demand Management              | Consolidates IT requests through a service catalog and routes them in a workflow to stakeholders who gather additional information to prioritize investment decisions.                                                                                                                                              |
| Discovery                      | Locates physical and virtual devices connected to an enterprise network. When Discovery locates a device, it explores its configuration, status, software, and relationships to other connected devices, and updates the Configuration Management Data Base (CMDB).                                                 |
| Edge Encryption                | Resides on Customer-owned servers and encrypts and decrypts eligible data stored in their instance. Customer controls and manages the encryption keys for the eligible data in their instance.                                                                                                                      |
| Enterprise Service Portal - HR | In support of HR service delivery, provides employee self-service via an HR service catalog and provides HR the capability to assign tasks to employees. Uses prebuilt layouts, controls, and content. Requires HR Service Management.                                                                              |
| Event Management               | Aggregates events from monitoring tools used by Customer in its infrastructure, de-duplicates and correlates inputs from such events to CMDB, and provides the ability to filter and prioritize events to create incidents for remediation.                                                                         |
| Facilities Service Management  | Provides capabilities to manage the service delivery of a facilities department by offering a self-service catalog and assignment of requests based on fulfillment rules.                                                                                                                                           |
| Field Service Management       | Provides capabilities to create work order records for the repair and service of equipment. Requires Asset Management.                                                                                                                                                                                              |
| Financial Planning             | Assists executives and budget owners in the automation of budget and forecast planning, helping to increase efficiency and simplify the planning process.                                                                                                                                                           |
| Finance Service Management     | Enables the finance department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.                                                                           |
| HR Service Management          | Provides capabilities to manage HR service delivery using case management to document the interactions between the employee and HR supported by the knowledge base.                                                                                                                                                 |
| Incident Management            | Facilitates the process of restoring normal IT operations by providing capabilities to record, classify, distribute, and manage incidents through to resolution. Includes Performance Analytics limited to 15 key performance indicators (KPIs), one dashboard and 90 days of data captured by Incident Management. |
| Legal Service Management       | Enables the legal department to define its services and fulfill requests through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.                                                                             |
| Marketing Service              | Enables the marketing department to define its services and fulfill requests                                                                                                                                                                                                                                        |

|                                  |                                                                                                                                                                                                                                                                                                                                                                                       |
|----------------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Management                       | through workflow capabilities and knowledge management, and provides visibility into resource utilization and service delivery performance through dashboards.                                                                                                                                                                                                                        |
| Notify                           | Provides the capability to initiate notification from Customer's instance of the subscription service to a supported third-party platform for SMS, voice and other communications protocols.<br><br>Customer is required to separately purchase any third-party service required to work with Notify.                                                                                 |
| Orchestration Core               | Enables orchestration of activities outside Customer's instance of the subscription service. Allows Customer to automate discrete tasks or processes using graphical workflows that interact with external systems or services.                                                                                                                                                       |
| Password Reset                   | Provides the capability to reset User's passwords that are stored and pre-authenticated in a credential store outside Customer's instance of the subscription service, such as Active Directory and other supported credential stores. Requires Orchestration Core.                                                                                                                   |
| Performance Analytics            | Provides advanced analytics and time series analysis for KPIs.                                                                                                                                                                                                                                                                                                                        |
| Platform Runtime                 | Allows customer to deploy applications developed on the ServiceNow Platform into production.                                                                                                                                                                                                                                                                                          |
| Policy and Compliance Management | Provides a centralized process for creating and managing policies, standards, and internal control procedures that are cross-mapped to external regulations and best practices. Additionally, the application provides structured workflows for the identification, assessment, and continuous monitoring of control activities.                                                      |
| Problem Management               | Facilitates the process of identifying the root causes of errors in the IT infrastructure by providing capabilities to record, escalate, and manage problems through to resolution.                                                                                                                                                                                                   |
| Project Portfolio Management     | Provides capabilities to plan, organize, and manage projects and project portfolios including associated tasks and resources.                                                                                                                                                                                                                                                         |
| Release Management               | Facilitates the planning, design, build, configuration, testing, and release of hardware and software into the IT infrastructure.                                                                                                                                                                                                                                                     |
| Request Management               | Provides capabilities to approve and fulfill requests for goods and services defined and presented in the service catalog.                                                                                                                                                                                                                                                            |
| Resource Management              | Provides a view of projects and the availability, allocation, and capacity of assigned resources.                                                                                                                                                                                                                                                                                     |
| Risk Management                  | Provides an executive view into risk to allow risk managers to quickly identify at-risk assets, perform assessments, and continuously monitor risk exposure.                                                                                                                                                                                                                          |
| Security Incident Response       | Enables SOC/SIRT teams to enact response plans to address security-related activities, events or incidents. Enables response team collaboration, investigation of network and non-network related activities (i.e. intellectual property theft, criminal activities, etc.) and includes the capability for automated request assignment and remediation across IT and security teams. |

|                                     |                                                                                                                                                                                                                                                                                                                                                                                                            |
|-------------------------------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Service Mapping                     | Discovers business services of the organization and builds a comprehensive map of all devices, applications, and configuration profiles used in these business services.                                                                                                                                                                                                                                   |
| Test Management                     | Provides a user acceptance testing framework to help project teams and business users align on project deliverables, and provides visibility into the status of the project testing when used in conjunction with Project Portfolio Management and Agile Development. Project Portfolio Management and Agile Development are separately authorized.                                                        |
| Threat Intelligence                 | Provides the ability to support multiple threat intelligence feeds to enhance the context of a security incident by enabling analysts to see potential threats and related systems in an integrated view. Threat Intelligence also allows Customers to add their own custom feeds and to place confidence scores or weighting on each feed to accelerate the identification of legitimate security issues. |
| Vendor Performance Management       | Enables Customer to manage, evaluate and compare vendors based on predefined criteria.                                                                                                                                                                                                                                                                                                                     |
| Vulnerability Response              | Integrates with the National Vulnerability Database (NVD) and third-party solutions to generate a set of actionable reports of vulnerable assets in the Customer environment. Incident response tasks, change requests or problem tickets can easily be opened from vulnerabilities to allow security teams to perform further investigation or to allow IT to perform remediation.                        |
| <b>ServiceNow Platform Services</b> |                                                                                                                                                                                                                                                                                                                                                                                                            |
| Business Service Maps               | Graphically displays the configuration items related to a business service, and indicates the status of those configuration items.                                                                                                                                                                                                                                                                         |
| Chat                                | Provides real-time communication capability via instant messaging between Users.                                                                                                                                                                                                                                                                                                                           |
| Coaching Loops                      | Provides the capability to monitor and provide feedback on a specific behavior of an individual or group.                                                                                                                                                                                                                                                                                                  |
| Configuration Management (CMDB)     | Provides capabilities to identify, record, and report on IT configuration items and their relationships.                                                                                                                                                                                                                                                                                                   |
| Connect                             | Provides the capability to connect people, processes and information into a unique and centralized collaboration workspace to cut down on resolution times. Features include real-time chat, document delivery, active lists to see who is working and the ability to interact straight from the activity stream.                                                                                          |
| Content Management System           | Provides the ability to create custom interfaces.                                                                                                                                                                                                                                                                                                                                                          |
| Form Designer                       | Allows creation of forms and tables with visual controls.                                                                                                                                                                                                                                                                                                                                                  |

|                      |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Google Maps          | ServiceNow may make Google Maps available for use with the subscription service. If Customer uses Google Maps, Customer agrees to the following terms: (i) Customer shall limit its use to 60,000 map views on an annual basis and additional use shall be purchased from Google subject to Google's terms and conditions, to which ServiceNow is not a party; (ii) Customer agrees, and shall cause its end users to agree, to Google's Maps Terms ( <a href="http://maps.google.com/help/terms_maps.html">http://maps.google.com/help/terms_maps.html</a> or a successor URL as provided by Google), the Legal Notices ( <a href="http://www.maps.google.com/help/legalnotices_maps.html">http://www.maps.google.com/help/legalnotices_maps.html</a> or a successor URL as provided by Google), and the Acceptable Use Policy ( <a href="http://www.google.com/enterprise/earthmaps/legal/us/maps_AUP.html">http://www.google.com/enterprise/earthmaps/legal/us/maps_AUP.html</a> or a successor URL as provided by Google); and (iii) Customer agrees that Google may use Customer data in accordance with its privacy policy and that Google may provide its maps services to Customer. Google Maps may not be available to Customer due to location availability and may not be available during Customer's entire subscription term. ServiceNow support and warranty do not apply to Google Maps. |
| Graphical Workflow   | Provides the capability to automate multi-step processes within Customer's instance of the subscription service. Each workflow can manage a sequence of activities, such as creating records or running scripts, and the condition-based transitions between them.<br><br>Customer is required to purchase Orchestration Core to orchestrate activities using the Graphical Workflow that interact outside Customer's instance of the subscription service.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Knowledge Management | Provides role-based tools to create, store, and publish information. Provides mechanisms for version control and approvals of documents in the review process.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| Live Feed            | Provides a place to post and share content.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Mobile               | Provides a customizable ServiceNow interface for mobile devices.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                        |
| On-Call Scheduling   | Enables creation of on-call schedules and escalation rosters.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| OpenFrame            | An interface technology that enables real-time communication channels such as telephone systems to be integrated into the ServiceNow Platform. OpenFrame consists of UI elements as well as a set of APIs that support exchange of events and data between ServiceNow and the communications system.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Reporting            | Provides the capability to create and share reports and dashboards.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |
| REST API             | Provides the ability to integrate external systems through REST APIs using standard response codes, header information, pagination support and streaming data on requests.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Service Catalog      | Displays a listing of the goods and services that Customer provides within the enterprise to its employees and contractors.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Service Creator      | Provides capabilities for building no-code service catalog items.                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                       |

|                          |                                                                                                                                                                                                                       |
|--------------------------|-----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Service Level Management | Establishes and monitors status of service contracts and SLAs between the organization and its customers or third-party service providers.                                                                            |
| Service Portal Designer  | Provides the capability to build portals with a consumer-like experience using both ServiceNow out-of-the-box widgets and templates as well as Customer's own widgets and styles, while leveraging only HTML and CSS. |
| Skills Management        | Assigns configured competencies to groups or users.                                                                                                                                                                   |
| Studio                   | Integrated Development Environment (IDE) for professional and low-code (i.e., IT administration) application developers.                                                                                              |
| Survey Management        | Allows for polling and collection of data, including configuration for specific events and/or conditions.                                                                                                             |
| Time Cards               | Records time worked on tasks either manually or automatically.                                                                                                                                                        |
| Visual Task Boards       | Enables a Kanban-style workspace for either individual or team-based management of tasks.                                                                                                                             |
| Visualizations           | Displays interactive 2-D and 3-D visual representations for any logical data relationships within an instance.                                                                                                        |

## GENERAL TERMS AND CONDITIONS

These General Terms and Conditions and any referenced documents form the agreement (the “**Agreement**”) under which an Order Form is executed.

### 1. PROVISION OF SERVICES

ServiceNow will make the following purchased services available to Customer, subject to the terms and conditions of the Agreement and each ordering document signed by Customer and ServiceNow (each, an “**Order Form**”) and the product overview attached thereto or referenced therein (“**Product Overview**”), including without limitation:

- (a) use of the ServiceNow applications which are made available by ServiceNow as a software as a service (SaaS) (“**Subscription Service**”); and
- (b) professional services and training services (“**Professional Services**”).

An Order Form for Professional Services shall specify ServiceNow packaged professional services (each offering, a “**Packaged Service**”), as described in one or more service descriptions (if not attached to the Order Form, then as set forth on [www.servicenow.com/be\\_schedules.do](http://www.servicenow.com/be_schedules.do)) (“**Service Description**”) or other Professional Services described in one or more written statements of work (“**SOW**”) signed by ServiceNow and Customer.

### 2. ORDERING

**2.1 ORDERS AND PAYMENT.** Upon execution by Customer and ServiceNow, each Order Form is non-cancellable and non-refundable except as provided in the Agreement. Prices stated in each Order Form are final. Except as expressly set forth in the applicable Order Form, Subscription Service fees are invoiced annually in advance. Each Subscription Term (as defined in Section 3.1) as set forth in the Order Form is a continuous and non-divisible commitment for the full duration of the Subscription Term regardless of the invoice schedule. Except as expressly set forth in the applicable Order Form or SOW or Service Description, Professional Services fees are invoiced on a time and materials basis monthly in arrears. Customer shall pay each invoice in full within thirty (30) days after the date of invoice. Customer may issue a purchase order consistent with the terms of the Order Form, but a purchase order is not required. If Customer issues a purchase order, then it shall be for the full amount of the Order Form, and any additional or conflicting terms appearing in a purchase order shall not amend the Order Form or the Agreement. Upon request, ServiceNow shall reference the purchase order number on its invoices (solely for administrative convenience) so long as Customer provides the purchase order at least fifteen (15) business days prior to the date of the invoice. Late payments shall accrue interest at a rate of one and one-half percent (1.5%) per month or the legal maximum interest rate, whichever is lower. If Customer is delinquent in payment of amounts for the services owed hereunder, ServiceNow may give notice to Customer of such delinquency and, in such case, Customer shall cure the delinquency within thirty (30) days from the date of ServiceNow’s written notice. If Customer fails to cure the delinquency, ServiceNow may suspend Customer’s use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to other rights and remedies available.

**2.2 TAXES.** All payments required by the Agreement are stated exclusive of all taxes, duties, levies, imposts, fines or similar governmental assessments including sales and use taxes, value-added taxes (“**VAT**”), goods and services taxes (“**GST**”), excise, business, service, and similar transactional taxes imposed by any jurisdiction and the interest and penalties thereon (collectively, “**Taxes**”). Customer shall be responsible for and bear Taxes associated with its purchase of, payment for, access to or use of the Subscription Service and Professional Services. Taxes shall not be deducted from the payments to ServiceNow, except as required by law, in which case Customer shall increase the amount payable as necessary so that after making all required deductions and withholdings, ServiceNow receives and retains (free from any Tax liability) an amount equal to the amount it would have received had no such deductions or withholdings been made. Each party is responsible for and shall bear taxes imposed on its net income. If Customer is a tax-exempt entity or claims exemption from any Taxes under the Agreement, Customer shall provide a tax exemption number on the Order Form and a certificate upon execution of the Order Form and, after receipt of valid evidence of exemption, ServiceNow shall not charge Customer any Taxes from which it is exempt. If ServiceNow is required to invoice or collect Taxes associated with Customer’s purchase of, payment for, access to or use of the Subscription Service or Professional Services, ServiceNow will issue an invoice to Customer including the amount of those Taxes, itemized where required by law. Customer shall provide to ServiceNow its VAT or GST identification number(s) on the Order Form for (i) the country where Customer has established its business and/or (ii) any other country where Customer has a fixed establishment. Customer shall use the ordered Subscription Service and Professional Services for Customer’s business use in the foregoing location(s) in accordance with the provided VAT or GST identification number(s). The parties’ obligations under this Section shall survive the termination or expiration of the Agreement.

2.3 **USE VERIFICATION.** Customer may not use or otherwise access the Subscription Service in a manner that exceeds Customer's authorized use. ServiceNow may review Customer's use of the Subscription Service, and Customer shall provide any reasonable assistance to verify Customer's compliance with the Agreement. If ServiceNow determines that Customer has exceeded its permitted use of the Subscription Service then ServiceNow will notify Customer and within thirty (30) days thereafter Customer shall either: (i) disable any unpermitted use or (ii) purchase additional subscriptions. If Customer fails to regain compliance within such thirty (30) day period, ServiceNow may suspend Customer's use of the Subscription Service or terminate the Agreement for cause in accordance with Section 7 (Term and Termination), in addition to any other rights or remedies ServiceNow may have.

### 3. GRANT OF USE RIGHTS; OWNERSHIP; CUSTOMER RESTRICTIONS

3.1. **SUBSCRIPTION SERVICE.** Customer is authorized to use the Subscription Service limited by the purchased amount and subscription term ("**Subscription Term**") on the Order Form and the Product Overview.

3.2. **DOCUMENTATION.** ServiceNow grants to Customer a non-exclusive, non-transferable, worldwide right during the Subscription Term to access and use the documentation relating to the operation and use of the Subscription Service that is provided by ServiceNow to Customer under the Agreement, as updated by ServiceNow from time to time ("**Documentation**").

3.3. **CUSTOMER DATA.** Customer grants ServiceNow a non-exclusive, non-transferable, worldwide right to use the electronic data pertaining to Customer and/or its users that is processed using the Subscription Service (collectively "**Customer Data**") strictly for the limited purpose of providing the Subscription Service to Customer.

3.4. **SOFTWARE.** ServiceNow may provide ServiceNow software products ("**Software**") for use in connection with the Subscription Service. Any Software is licensed and not sold (even if for convenience ServiceNow makes reference to words such as "sale" or "purchase"). ServiceNow grants Customer a limited, personal, worldwide, non-sublicensable, non-transferable, non-exclusive license to install and execute the Software on machines operated by or for Customer solely to permit Customer to use the Subscription Service during the Subscription Term in accordance with the terms and conditions of the Agreement. The Software may include code that is licensed under third party license agreements, including open source made available or provided with the Software.

3.5. **OWNERSHIP.** As between ServiceNow and Customer, all rights, title, and interest in and to all intellectual property rights in the Subscription Service, Software and/or Documentation are owned exclusively by ServiceNow. Except as expressly provided in the Agreement, ServiceNow does not grant Customer (and expressly reserves) any rights, express or implied, or ownership in the Subscription Service, Software and/or Documentation. ServiceNow shall have a royalty-free, worldwide, non-exclusive, transferable, sub-licensable, irrevocable, perpetual right to make, use, sell, offer for sale, import, or otherwise incorporate into the Subscription Service, Software and/or Documentation, any suggestions, enhancements, recommendations or other feedback provided by Customer relating to the Subscription Service, Software and/or Documentation.

3.6. **RESTRICTIONS.** Customer shall not (and shall not permit others to) do the following with respect to the Subscription Service, Software or Documentation: (i) license, sub-license, sell, re-sell, rent, lease, transfer, distribute or time share or otherwise make any of them available for access by third parties; (ii) disassemble, reverse engineer, decompile or modify them or otherwise create derivative works thereof; (iii) access them for the purpose of developing products or services that compete with the Subscription Service; (iv) use them to operate more or different type of applications or platform not authorized under the Agreement; (v) use them to create, use, send, store or run viruses or other harmful computer code, files, scripts, agents or other programs or engage in any other malicious act; (vi) disrupt their security, integrity or operation; (vii) remove or modify a copyright or other proprietary rights notice in them; (viii) use them to reproduce, distribute, display, transmit or use material protected by copyright or other intellectual property right (including the rights of publicity or privacy) without first obtaining the permission of the owner; (ix) use them to damage the property of another; (x) use them in any manner which violates any law or regulation of the United States, any state thereof or other government authority; (xi) use them in any manner that disables, hacks or otherwise interferes with any security, digital signing, digital rights management, verification or authentication mechanisms or (xii) use them in a manner that temporarily or permanently alters, erases, removes, copies, modifies, halts or disables any ServiceNow or third party data, software or network.

### 4. WARRANTIES

4.1. **LIMITED SUBSCRIPTION SERVICE WARRANTY.** ServiceNow warrants that during the Subscription Term Customer's production instances of the Subscription Service shall materially conform to the Product Overview. To submit a warranty claim under this Section, Customer shall (1) reference this Section; and (2) submit a support request to resolve the non-conformity as provided in the Subscription Service Guide, which is set forth on [www.servicenow.com/be\\_schedules.do](http://www.servicenow.com/be_schedules.do). If the non-conformity persists without relief more than thirty (30) days after written notice of a warranty claim provided to

ServiceNow under this Section 4.1, then Customer may terminate the affected Subscription Service and ServiceNow shall refund to Customer any prepaid subscription fees covering the remainder of the Subscription Term of the affected Subscription Service after the date of termination. Notwithstanding the foregoing, this warranty shall not apply to any non-conformity due to a modification of or defect in the Subscription Service that is made or caused by any person other than ServiceNow or a person acting at ServiceNow's direction. THIS SECTION 4.1 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.2. LIMITED PROFESSIONAL SERVICES WARRANTY. ServiceNow warrants that the Professional Services will be performed in a competent and workmanlike manner in accordance with accepted industry standards and practices and all material requirements set forth in the SOW or Service Description. Customer shall notify ServiceNow in writing of any breach within thirty (30) days after performance of the non-conforming Professional Services. Upon receipt of such notice, ServiceNow, at its option, shall either use commercially reasonable efforts to re-perform the Professional Services in conformance with these warranty requirements or shall terminate the affected Professional Services and refund to Customer any amounts paid for the nonconforming Professional Services. THIS SECTION 4.2 SETS FORTH CUSTOMER'S EXCLUSIVE RIGHTS AND REMEDIES (AND SERVICENOW'S SOLE LIABILITY) IN CONNECTION WITH THIS WARRANTY.

4.3. DISCLAIMER OF WARRANTIES. EXCEPT FOR THE WARRANTIES EXPRESSLY STATED IN THE AGREEMENT, TO THE MAXIMUM EXTENT ALLOWED BY LAW, SERVICENOW DISCLAIMS ALL WARRANTIES OF ANY KIND, EXPRESS OR IMPLIED, ORAL OR WRITTEN, INCLUDING WARRANTIES ARISING UNDER STATUTE, WARRANTIES OF MERCHANTABILITY, ACCURACY, TITLE, NON-INFRINGEMENT OR FITNESS FOR A PARTICULAR PURPOSE OR ANY WARRANTIES ARISING FROM USAGE OF TRADE, COURSE OF DEALING OR COURSE OF PERFORMANCE. WITHOUT LIMITING THE GENERALITY OF THE FOREGOING, SERVICENOW SPECIFICALLY DOES NOT WARRANT THAT THE SUBSCRIPTION SERVICE, SOFTWARE, PROFESSIONAL SERVICES OR DOCUMENTATION WILL MEET THE REQUIREMENTS OF CUSTOMER OR OTHERS OR THAT THEY WILL BE ACCURATE OR OPERATE WITHOUT INTERRUPTION OR ERROR. CUSTOMER ACKNOWLEDGES THAT IN ENTERING THE AGREEMENT IT HAS NOT RELIED ON ANY PROMISE, WARRANTY OR REPRESENTATION NOT EXPRESSLY SET FORTH HEREIN.

## 5. CONFIDENTIALITY AND NON-USE RESTRICTIONS

5.1. CONFIDENTIAL INFORMATION. "**Confidential Information**" means all information disclosed by a party ("**Disclosing Party**") to the other party ("**Receiving Party**"), whether orally or in writing, that is designated as confidential or that reasonably should be understood to be confidential given the nature of the information and the circumstances of the disclosure, including without limitation: each party's respective business plans and processes; financial and employee data; proprietary technology and product information and designs; the Subscription Service and Software and Customer Data. The terms of the Agreement and Order form(s) are Confidential Information of ServiceNow. Confidential Information excludes information that: (i) is or becomes generally known to the public; (ii) was known to the Receiving Party prior to its disclosure by the Disclosing Party without breach of any obligation to the Disclosing Party; (iii) is received from a third party without any obligation of confidentiality to a third party or breach of any obligation of confidentiality to the Disclosing Party; or (iv) was independently developed by the Receiving Party without reference to the Disclosing Party's Confidential Information.

5.2. PROTECTION. The Receiving Party shall: (i) at all times protect the confidentiality of the Disclosing Party's Confidential Information with the same degree of care that it uses to protect its own confidential information, and in no event using less than reasonable care; and (ii) not use Confidential Information of the Disclosing Party except to the extent necessary to exercise its rights or fulfill its obligations under the Agreement. To the extent necessary under the Agreement, the Receiving Party may disclose the Confidential Information of the Disclosing Party to the Receiving Party's employees or contractors who are bound by written obligations of confidentiality and non-use and non-disclosure restrictions at least as protective as those set forth herein. In the event of a court order or government regulation compelling disclosure of any Confidential Information, the Receiving Party shall provide the Disclosing Party with prompt written notice thereof, and shall reasonably cooperate with the Disclosing Party to seek confidential or other protective treatment. Each party's obligations set forth in this Section 5 shall remain in effect during the term and three (3) years after termination of the Agreement. The Receiving Party shall promptly return to the Disclosing Party or destroy (with certification of such destruction provided by the Receiving Party upon request) all Confidential Information of the Disclosing Party in its possession or control upon request from the Disclosing Party. Provisions for the return of Customer Data are set forth in Section 7.3 (Return of Customer Data).

## 6. LIMITATIONS OF LIABILITY AND DAMAGES

6.1. LIMITATIONS OF LIABILITY. TO THE EXTENT PERMITTED BY LAW, THE TOTAL, CUMULATIVE LIABILITY OF EACH PARTY ARISING OUT OF OR RELATED TO THE AGREEMENT OR THE SERVICES PROVIDED HEREUNDER, WHETHER BASED ON CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE THEORY, SHALL BE LIMITED TO THE AMOUNTS PAID BY CUSTOMER FOR THE SERVICE GIVING RISE TO THE CLAIM DURING THE

TWELVE (12) MONTH PERIOD PRECEDING THE FIRST EVENT GIVING RISE TO LIABILITY. THE EXISTENCE OF MORE THAN ONE CLAIM SHALL NOT ENLARGE THIS LIMIT. THE FOREGOING LIMITATION OF LIABILITY SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS; AND (3) CUSTOMER'S OBLIGATION TO PAY AMOUNTS OWED FOR SERVICES PROVIDED HEREUNDER.

6.2. EXCLUSION OF DAMAGES. TO THE EXTENT PERMITTED BY LAW, NEITHER SERVICENOW NOR CUSTOMER SHALL BE LIABLE TO THE OTHER OR ANY THIRD PARTY FOR LOST PROFITS (WHETHER DIRECT OR INDIRECT) OR LOSS OF USE OR DATA, COVER, SUBSTITUTE GOODS OR SERVICES, OR FOR INCIDENTAL, CONSEQUENTIAL, PUNITIVE, SPECIAL OR EXEMPLARY DAMAGES (INCLUDING DAMAGE TO BUSINESS, REPUTATION OR GOODWILL), OR INDIRECT DAMAGES OF ANY TYPE HOWEVER CAUSED, WHETHER BY BREACH OF WARRANTY, BREACH OF CONTRACT, IN TORT OR ANY OTHER LEGAL OR EQUITABLE CAUSE OF ACTION EVEN IF SUCH PARTY HAS BEEN ADVISED OF SUCH DAMAGES IN ADVANCE OR IF SUCH DAMAGES WERE FORESEEABLE. THE FOREGOING EXCLUSIONS SHALL NOT APPLY TO: (1) BODILY INJURY OR DEATH; AND (2) INFRINGEMENT BY A PARTY OF THE OTHER PARTY'S INTELLECTUAL PROPERTY RIGHTS.

## 7. TERM AND TERMINATION

7.1. TERM AND TERMINATION. The Agreement continues until terminated in accordance with its terms. Each party may terminate the Agreement in its entirety either: (i) upon thirty (30) days' prior written notice to the other party, if at the time such notice is served there are no Order Forms in effect; or (ii) upon written notice if the other party becomes the subject of a petition in bankruptcy or any proceeding related to its insolvency, receivership or liquidation, in any jurisdiction, that is not dismissed within sixty (60) days of its commencement or an assignment for the benefit of creditors. Either party may terminate a Subscription Service or Professional Services effective immediately upon written notice if the other party materially breaches a material obligation under the Agreement or the applicable Order Form for the affected service and does not cure the breach within thirty (30) days after receiving written notice thereof from the non-breaching party. Professional Services are separately ordered from the Subscription Service, and are not required for the Subscription Service. A breach by a party of its obligations with respect to Professional Services shall not by itself constitute a breach by that party of its obligations with respect to the Subscription Service even if the services are enumerated in the same Order Form.

7.2. EFFECT OF TERMINATION OF SERVICE. Upon expiration or other termination of the Subscription Service for any reason, Customer shall stop using, and ServiceNow shall stop providing, the terminated Subscription Service. (a) If the Subscription Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, all prepaid fees for the remaining portion of the Subscription Term for the terminated Subscription Service after the effective date of termination. (b) If Professional Service is terminated by Customer due to ServiceNow's breach, then ServiceNow shall refund to Customer, within thirty (30) days after the effective date of termination, any prepaid amounts for unperformed Professional Service. (c) If the Subscription Service is terminated by ServiceNow due to Customer's breach, then Customer shall pay to ServiceNow, within thirty (30) days after the effective date of termination, fees for the terminated Subscription Service that would have been payable for the remainder of the Subscription Term after the effective date of termination. (d) Upon expiration or other termination of the Subscription Service for any reason, Customer shall be eligible to request the return of Customer Data in accordance with Section 7.3 (Return of Customer Data).

7.3. RETURN OF CUSTOMER DATA. Following the end of the Subscription Term, where Customer has not renewed, Customer shall have forty-five (45) days to request a copy of the Customer Data from ServiceNow; and, if requested, ServiceNow shall use commercially reasonable efforts to provide a copy of that data within fifteen (15) days in a mutually agreed upon, commercially standard format at no cost to Customer unless ServiceNow determines in its reasonable discretion that the data output is not routine, in which case the parties shall mutually agree on a statement of work for professional services. After such forty-five (45) day period, ServiceNow shall have no obligation to maintain or provide any Customer Data and shall thereafter, unless legally prohibited, have the right to delete all Customer Data in its systems or otherwise in its possession or under its control and delete Customer's instances of the Subscription Service.

7.4. SURVIVAL. Upon termination of the Agreement for any reason, Customer shall pay all amounts owed hereunder. Sections 3.5 (Ownership), 3.6 (Restrictions), and 5 (Confidentiality and Non-Use Restrictions) through 8 (General Provisions) of these General Terms and Conditions, together with any other provision required for their construction or enforcement, shall survive termination of the Agreement for any reason.

## 8. GENERAL PROVISIONS

8.1. ASSIGNMENT. Neither party may assign its rights or obligations, whether by operation of law or otherwise, without the prior written consent of the other party. Notwithstanding the foregoing, either party may, upon notice and without the other party's consent: (i) in connection with a merger, reorganization or sale of all or substantially all of the assets or equity

of such party, assign the Agreement in its entirety to such party's successor; and (ii) assign the Agreement in its entirety to any company, partnership or other legal entity which from time to time directly or indirectly controls, is controlled by or is under the common control with such party. Any attempted or purported assignment in violation of this Section 8.1 will be null and void. Subject to the foregoing, the Agreement shall bind and inure to the benefit of the parties, their respective successors and permitted assigns.

8.2. **NOTICE.** Except as otherwise provided herein, all notices shall be in writing and deemed given upon: (i) personal delivery; (ii) when received by the addressee if sent by a nationally recognized overnight courier (receipt requested); (iii) the second business day after mailing; or (iv) the first business day after sending by email, except that email shall not be sufficient for notices regarding a Claim. Notices shall be sent to the parties as set forth on the Order Form or as otherwise agreed to by the parties in writing.

8.3. **EXPORT COMPLIANCE.** Each party shall comply with United States and foreign export control laws and regulations. Customer acknowledges that the Subscription Service, Professional Services, Software and Documentation are subject to the U.S. Export Administration Regulations (the "**EAR**") and that Customer shall comply with the EAR. Without limiting the foregoing, Customer represents and warrants that: (i) Customer is not located in, and shall not use the Subscription Service, Professional Services, Software and Documentation from, any country that is subject to U.S. export restrictions (currently including, but not necessarily limited to, Cuba, Iran, North Korea, Sudan and Syria); (ii) Customer shall not use the Subscription Service, Professional Services, Software and Documentation in the design, development or production of nuclear, chemical or biological weapons, or rocket systems, space launch vehicles, sounding rockets or unmanned air vehicle systems; and (iii) Customer is not prohibited from participating in the U.S. export transactions by any federal agency of the U.S. government. In addition, Customer is responsible for complying with any local laws which may impact Customer's right to import, export or use the Subscription Service, Professional Services, Software and Documentation.

8.4. **FORCE MAJEURE.** No party shall be liable or responsible to the other party, nor be deemed to have defaulted under or breached the Agreement, for any failure or delay in fulfilling or performing any term of the Agreement, when and to the extent such failure or delay is caused by or results from acts beyond the affected party's reasonable control, including without limitation: strikes, lock-outs or other industrial disputes (whether involving its own workforce or a third party's), trespassing, sabotage, theft or other criminal acts, failure of energy sources or transport network, acts of God, war, terrorism, riot, civil commotion, interference by civil or military authorities, national or international calamity, armed conflict, malicious damage, breakdown of plant or machinery, nuclear, chemical or biological contamination, explosions, collapse of building structures, fires, floods, storms, earthquakes, epidemics or similar events, natural disasters or extreme adverse weather conditions (each a "**Force Majeure Event**"). The party suffering a Force Majeure Event shall use reasonable efforts to mitigate against the effects of such Force Majeure Event.

8.5. **US GOVERNMENT RIGHTS.** All ServiceNow software is commercial computer software and all services are commercial items. "**Commercial computer software**" has the meaning set forth in Federal Acquisition Regulation ("**FAR**") 2.101 for civilian agency purchases and the Department of Defense ("**DOD**") FAR Supplement ("**DFARS**") 252.227-7014(a)(1) for defense agency purchases. If the software is licensed or the services are acquired by or on behalf of a civilian agency, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as required in FAR 12.212 (Computer Software) and FAR 12.211 (Technical Data) and their successors. If the software is licensed or the services are acquired by or on behalf of any agency within the DOD, ServiceNow provides the commercial computer software and/or commercial computer software documentation and other technical data subject to the terms of the Agreement as specified in DFARS 227.7202-3 and its successors. Only if this is a DOD prime contract or DOD subcontract, the Government acquires additional rights in technical data as set forth in DFARS 252.227-7015. This U.S. Government Rights clause is in lieu of, and supersedes, any other FAR, DFARS or other clause or provision that addresses Government rights in computer software or technical data.

8.6. **ENTIRETY.** Customer acknowledges that it has not relied on any statement, promise or representation made or given by or on behalf of ServiceNow which is not set out in the Agreement. Customer's order is not contingent on, and Customer has not relied on, the delivery of any future functionality regardless of any verbal or written communication about ServiceNow's future plans. The Agreement supersedes all prior or contemporaneous oral or written agreement, representations and negotiations, including, but not limited to, any terms contained in Customer's purchase order.

8.7. **WAIVER AND AMENDMENT.** A waiver of any right is only effective if it is in writing and only against the party who signed such writing and for the circumstances given. Any modification of the Agreement, an Order Form, the Product Overview, the Subscription Service Guide, a SOW or a Service Description must be in writing and signed by authorized representatives of both parties.

8.8. **RELATIONSHIP OF THE PARTIES.** The parties are independent contractors. Nothing in the Agreement shall be construed to create a partnership, joint venture or agency relationship. Neither party shall have any right or authority

to assume or create any obligation of any kind expressed or implied in the name of or on behalf of the other party. ServiceNow may at any time subcontract or delegate in any manner any or all of its obligations under the Agreement to any third party or agent.

8.9. GOVERNING LAW; VENUE; TIME FOR BRINGING ACTION. The Agreement shall be governed by, subject to, and interpreted in accordance with the laws of the state of California, United States of America, if Customer is located in Canada, United States or Mexico, and the laws of England if Customer is located elsewhere. If Customer is located in Canada, United State or Mexico, the parties hereby irrevocably consent to the nonexclusive jurisdiction of, and venue in, any federal or state court of competent jurisdiction located in San Diego, California, or New York, New York, for the purposes of adjudicating any action or proceeding to enforce the terms of the Agreement. If Customer is located elsewhere, then any dispute arising under the Agreement shall be finally settled by binding arbitration in London, England. Such arbitration shall be conducted in English in accordance with the rules of the International Chamber of Commerce by one (1) arbitrator appointed in accordance with such rules. The arbitrator shall allow such discovery as is appropriate in accomplishing a fair, speedy, and cost-effective resolution of the dispute, and shall be expressly empowered to issue appropriate injunctive relief. The award of arbitration shall be final and binding upon both parties, and judgment on the award rendered by the arbitrator may be entered in any court having jurisdiction thereof. Any monetary award shall be payable in United States dollars. To the extent permitted by law, choice of law rules and the United Nations Convention on Contracts for the International Sale of Goods shall not apply. No cause of action arising hereunder or relating hereto may be brought more than one (1) year after it first accrues. The prevailing party in an action to enforce the Agreement shall be entitled to costs of bringing the claim and reasonable attorneys' and experts' fees and expenses. Notwithstanding the foregoing, either party may at any time seek and obtain appropriate legal or equitable relief in any court of competent jurisdiction for claims regarding such party's intellectual property rights.

8.10. CONSTRUCTION. The Subscription Service and Professional Services shall be provided in the English language unless agreed otherwise. The parties confirm that they have requested that the Agreement and all related documents be drafted in English at the express wishes of the parties. Les parties ont exigé que le présent contrat et ServiceNow les documents connexes soient rédigés en anglais selon la volonté expresse des parties. Capitalized terms not defined herein shall have the meaning set forth or referenced in the Subscription Service Guide. Section headings are for convenience only and are not to be used in interpreting the Agreement.

## SUBSCRIPTION SERVICE GUIDE

Capitalized terms not defined herein shall have the meaning set forth in the Express General Terms and Conditions or Subscription Service Agreement.

### 1. CUSTOMER OPERATION OF SUBSCRIPTION SERVICE

1.1. **PASSWORDS AND USER NAMES.** Customer shall: (a) protect the names and passwords of users of the Subscription Service and prevent and notify ServiceNow of unauthorized use of the Subscription Service; (b) appoint up to five (5) designated support contacts for purposes of contacting ServiceNow support regarding questions and/or technical issues ("**Authorized Customer Support Contacts**") and ensure that the Authorized Customer Support Contacts' information is current in the ServiceNow support portal; (c) be responsible for the lawfulness of, and results obtained from, all Customer Data submitted by users to the Subscription Service and each user's acts and omissions; and (d) use the Subscription Service only in accordance with the Documentation.

1.2. **ACCESS CONTROL.** ServiceNow provides the technical architecture that permits Customer to use and process Customer Data in the Subscription Service. This architecture includes an access control list engine. Customer shall be responsible for using the access control list engine for protecting all Personal Data. Customer shall ensure that access to and use of Subscription Service is restricted to only users authorized by Customer. Customer shall be responsible for ensuring all such users maintain the security of any passwords, usernames and other forms of authentication to the Subscription Service. A username and password must be uniquely assigned to a specific person and may not be shared by multiple persons at any one time or transferred. "**Personal Data**" means information identifying a natural person; an identifiable natural person is someone who can be identified, directly or indirectly, in particular by reference to an identification number or to one or more factors specific to his or her physical, physiological, mental, financial, cultural or social identity.

### 2. SECURITY PROGRAM; EXCEPTIONS

ServiceNow shall maintain a security program ("**Security Program**") that includes industry standard practices designed to protect Customer Data from unauthorized access, use, disclosure, alteration, distribution and destruction. Notwithstanding anything to the contrary in this Agreement, the Security Program apply only to those systems, networks, network devices, facilities and components over which ServiceNow exercises control. The Security Program does not apply to: (i) information shared with ServiceNow that is not Customer Data; (ii) Customer Data in transit over the Internet, Customer's virtual private network (VPN), or another third party network; (iii) any Customer Data processed by Customer or its users in violation of this Agreement; or (iv) any part of the Subscription Service that is not hosted by ServiceNow.

### 3. UPGRADES

3.1. **UPGRADES.** "**Upgrades**" are ServiceNow's releases of the Subscription Service for repairs, enhancements or new features applied by ServiceNow to Customer's instances of the Subscription Service at no additional fee during the Subscription Term. ServiceNow has the discretion to provide new functionality either: (i) as an Upgrade, or (ii) as different software or service for a separate fee. ServiceNow determines whether and when to develop, release and apply any Upgrade to Customer's instances of the Subscription Service.

3.2. **MAINTENANCE.** ServiceNow shall use reasonable efforts to give Customer ten (10) days' notice of any service maintenance to the infrastructure network, hardware or software used by ServiceNow to operate and deliver the Subscription Service if ServiceNow, in its reasonable judgment, believes that such cloud infrastructure maintenance will impact Customer's use of its production instances of the Subscription Service. ServiceNow will use reasonable efforts to limit the Maintenance Time (as defined below) to no more than two (2) hours per month. Notwithstanding the foregoing, ServiceNow may provide Customer with a shorter or no notice period of service maintenance if necessary, in the reasonable judgment of ServiceNow, to maintain the availability, security, stability or performance of the Subscription Service.

### 4. SUPPORT

During the Subscription Term, ServiceNow shall use reasonable efforts to resolve Defects in the Subscription Service ("**Support**").

A "**Defect**" means a problem causing the Subscription Service to not conform to the Product Overview. Customer may request Support for a Defect at the online portal <https://hi.service-now.com/> or any successor site.

A Defect will be assigned a priority level as follows:

- A Priority Level 1 Defect is any Defect that causes Customer's instance(s) of the Subscription Service to be not Available (as defined below).
- A Priority Level 2 Defect is any Defect that causes a mission critical function of the Subscription Service to fail.
- A Priority Level 3 Defect is any Defect that significantly impedes work or progress.
- A Priority Level 4 Defect is any Defect that does not significantly impede work or progress.

Upon notification by Customer of a Defect, ServiceNow shall, in all instances, target an initial response (the "**Initial Response**") within the timeframes set forth in the Support Table, as measured from the time that Customer notifies ServiceNow. The initial response from ServiceNow shall include, as applicable and without limitation: (i) ServiceNow's acknowledgment or notification to Customer of such Defect, and (ii) the classification of such Defect as a Priority Level 1, 2, 3 or 4.

**SUPPORT TABLE**

| Priority Level | Target Initial Response  |
|----------------|--------------------------|
| <b>1</b>       | 30 minutes; at all times |
| <b>2</b>       | 2 hours; at all times    |
| <b>3</b>       | Within 1 business day    |
| <b>4</b>       | Varies                   |

Support does not include: implementation services; configuration services; integration services; customization services or other custom software development; support for modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction; training or "how-to"; assistance with administrative functions; professional services; corrections of immaterial Defects or Defects that have a viable workaround; or corrections that will degrade the Subscription Service.

## 5. SERVICE LEVEL OBJECTIVE

### 5.1. DEFINITIONS.

- (a) "**Available**" means that the Subscription Service can be accessed by authorized users.
- (b) "**Excused Downtime**": means (i) Maintenance Time of up to two (2) hours per month; and (ii) any time the Subscription Service is not Available due to circumstances beyond ServiceNow's control, including without limitation modifications of the Subscription Service by any person other than ServiceNow or a person acting at ServiceNow's direction, a Force Majeure Event, general Internet outages, failure of Customer's infrastructure or connectivity (including without limitation, direct connectivity and virtual private network (VPN) connectivity to the Subscription Service), computer and telecommunications failures and delays not within ServiceNow's control, and network intrusions or denial-of-service or other criminal attacks.
- (c) "**Maintenance Time**" means the time the Subscription Service is not Available due to service maintenance.
- (d) "**Availability Service Level Objective**" means the percentage of total time during which Customer's production instances of the Subscription Service are Available during a calendar month, excluding Excused Downtime.

5.2. **AVAILABILITY.** ServiceNow shall use reasonable efforts to provide an Availability Service Level Objective of 99.8% over any calendar month. There is no service credit offered for a failure to meet this Availability Service Level Objective.

**SCHEDULE A****TERMS AND CONDITIONS TO  
VIRTRU PRO  
SUBSCRIPTION AGREEMENT****1. DEFINITIONS**

For purposes of this Agreement, the following terms shall have the following meanings:

**1.1 “Derivative Work”** shall mean a new or modified work that is based on or derived from a preexisting work, including, without limitation, a work that, in the absence of a license, would infringe the copyright in such preexisting work or that uses trade secrets or other proprietary information with respect to such preexisting work.

**1.2 “Materials”** shall mean the Virtru Pro software (including any object code, executable files, or browser plug-ins) or materials related thereto provided by Virtru to Customer hereunder, including, without limitation, any software downloaded from Virtru’s website or from the Virtru Pro Services; any related materials and documentation therefor; and any modifications, error corrections, bug fixes, new releases, enhanced functionality (including platform integration features not generally available to non-commercial users of Virtru’s software) or other updates thereto that may be provided hereunder by Virtru to Customer during the term of this Agreement.

**1.3 “Third Party Services”** shall mean any services used in connection with the Materials that are hosted by a party other than Virtru or Licensee.

**1.4 “Virtru Pro Services”** shall mean the Virtru hosted services made available by Virtru to Customer in connection with the Materials.

**2. RIGHTS IN MATERIALS AND TO USE SERVICE**

**2.1 Grant of Rights.** Subject to the terms and conditions of this Agreement, Virtru (a) hereby grants to Customer a restricted, non-exclusive, nontransferable, nonsublicensable, royalty-free (except as set forth in Section 2.3), revocable right to use, during the term of this Agreement and in accordance with the documentation provided by Virtru, the Materials (the “**License**”), and (b) Virtru will make the Virtru Pro Services available to Customer pursuant to this Agreement during the term of this Agreement. Except as set forth in this Section 2.1, no other right or license of any kind is granted

by Virtru to Customer hereunder with respect to the Materials or the Virtru Pro Services. Customer acknowledges and agrees that, unless otherwise agreed in writing between the parties, Customer shall be solely responsible for procuring and complying with any license or right to use any Third Party Services, including those offered by Customer’s email services provider.

**2.2 Restrictions.** Customer shall not, without the prior written consent of Virtru: (a) copy all or any portion of the Materials or Virtru Pro Services; (b) decompile, disassemble, scrape or otherwise reverse engineer the Materials, Virtru Pro Services or any portion thereof, or determine or attempt to determine any source code, algorithms, methods or techniques embodied in the Materials or used in the Virtru Pro Services or any portion thereof; (c) modify, translate or create any Derivative Works based upon the Materials or Virtru Pro Services; (d) distribute, disclose, market, rent, lease, assign, sublicense, pledge or otherwise transfer the Materials, in whole or in part, to any third party or export the Materials outside the United States; (e) remove or alter any copyright, trademark, trade name or other proprietary notices, legends, symbols or labels appearing on or in copies of the Materials or the Virtru Pro Services; (f) perform, or release the results of, benchmark tests or other comparisons of the Materials or Virtru Pro Services with other programs or services; (g) transfer the Materials to any computer other than a computer owned by Customer and used by Customer in Customer’s operations; (h) permit the Materials or Virtru Pro Services to be used for processing the data of any third party; (i) incorporate the Materials, Virtru Pro Services or any portion thereof into any other program, product or service, or use the Materials or Virtru Pro Services to provide similar services or functionality to third parties; (j) provide any third party with access to the Virtru Pro Services other than as expressly permitted herein or by the Terms of Service (as defined below); (k) use the Materials or Virtru Pro Services for any unlawful or tortious purpose; or (l) use the Materials or Virtru Pro Services for any purpose other than in accordance with the terms and conditions of this Agreement or Virtru’s then-current terms of service (available at <https://www.virtru.com/terms-of-service>) (the “**Terms of Service**”). Customer shall ensure that all Customer end users of the Virtru Pro Service and Materials comply with

the terms and conditions of this Agreement. Customer shall be responsible for compliance with this Agreement by each Customer end user and it shall monitor and manage all Customer users in connection with this Agreement.

**2.3 Fees; Payment.** In consideration of the Virtru's provision of the Virtru Pro Services and Materials, Customer shall make payments to Virtru in accordance with the terms set forth on the cover page of this Agreement. Sales and use tax, VAT, or GST are Customer's sole responsibility, and Customer acknowledges and agrees that all fees are exclusive of all such taxes.

**2.4 Seats; Reporting.** Customer shall initially be permitted to use the Materials and Virtru Pro Services with respect to the number of seats set forth on the cover page of this Agreement (the "**Baseline Seat Count**"). Each seat shall be used by one Customer user. During the term of this Agreement, Customer will report to Virtru the total number of users of the Materials and Virtru Pro Services on an annual basis. Such report will be submitted to [sales@virtru.com](mailto:sales@virtru.com) and shall be due thirty (30) days prior to each anniversary of the date of this Agreement (each, a "**Reporting Date**") based on the actual number of users as of the date thirty (30) days prior to such Reporting Date (each, a "**Seat Count Date**"). If the actual number of Customer users as of any Seat Count Date is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement (the "**Subscription Fee**") for each such additional user for any Renewal Term.

**2.5 Adjustment Events.** In addition to the annual reporting required under Section 2.4 above, Customer shall report to Virtru any increase of ten percent (10%) or more in the aggregate number of Customer users in excess of the Baseline Seat Count that occurs between Reporting Dates (an "**Adjustment Event**") and agrees to pay Virtru, within thirty (30) days following any such Adjustment Event, a prorated Subscription Fee for each such additional user for the remaining portion of the applicable term and for any Renewal Term.

**2.6 Seat Count Audit.** At any time during the term of this Agreement, Virtru shall have the right to audit Customer's usage of the Virtru Pro Services and Materials (a "**Seat Count Audit**"). If the actual number of Customer users as of the date of any Seat Count Audit is higher than the Baseline Seat Count, Customer will pay the "Subscription Fee per Seat" set forth on the cover page of this Agreement for the remaining portion of the applicable term and for any Renewal Term.

### 3. SUPPORT

Virtru will provide support to Customer and its end users through Virtru's generally available online ticketing and support system. Except as expressly provided in Schedule B, which is incorporated herein by reference, in this Section 3 or as may otherwise be provided under a written support agreement entered into by Virtru and Customer, Virtru is under no obligation to support the Materials or Virtru Pro Services in any way, nor to provide any modification, error correction, bug fix, new release or other update (each an "**Update**") to or for the Materials or Virtru Pro Service. In the event Virtru, in its sole discretion, supplies or makes available any Update to Customer, such Update shall be deemed to be part of the Materials or Virtru Pro Services (as applicable) hereunder and shall be subject to the terms and conditions of this Agreement.

### 4. PROPRIETARY RIGHTS

**4.1 General.** As between Virtru and Customer, Virtru retains all right, title and interest, including, without limitation, all patent rights, copyrights, trademarks and trade secrets, in and to the Materials, Virtru Pro Services and any portion thereof, including, without limitation, any copy or Derivative Work of the Materials, Virtru Pro Services or any portion thereof and any Update thereto. Customer agrees to take any action reasonably requested by Virtru to evidence, maintain, enforce or defend the foregoing. Customer shall not take any action to jeopardize, limit or interfere in any manner with Virtru's ownership of and rights with respect to the Materials, Virtru Pro Services or any Derivative Work or Update. Customer shall have only those rights in or to the Materials, Virtru Pro Services and any Derivative Work or Update granted to it pursuant to this Agreement.

**4.2 Feedback.** Customer and its authorized users may provide suggestions, requests, recommendations and other feedback concerning Customer's use of the Materials and Virtru Pro Services (including, without limitation, any errors or difficulties discovered with respect thereto) (the "**Feedback**"). Customer agrees that all Feedback shall be the sole

property of Virtru and Virtru may use such Feedback at its discretion without the consent of Customer.

## 5. PROPRIETARY INFORMATION

**5.1 Proprietary Information.** Both parties acknowledge that, in the course of this Agreement each may obtain confidential or proprietary information of the other party ("**Proprietary Information**"). "Proprietary Information" will include, without limitation, (a) the existence of and terms of this Agreement, (b) trade secrets, know-how, inventions (whether or not patentable), techniques, processes, programs (whether in source code or object code form), ideas, algorithms, formulas, schematics, testing procedures, software design and architecture, computer code, documentation, design and functional specifications, product requirements, problem reports, performance information, software documents, hardware, devices, designs, drawings, unpublished patent applications, data, plans, strategies and forecasts, and (c) technical, engineering, manufacturing, product, marketing, servicing, financial, personnel and other information. Virtru's "Proprietary Information" will include, without limitation, the Materials (including all Derivative Works and Updates) and all confidential information related thereto provided by Virtru to Customer in connection with this Agreement. Virtru's Proprietary Information shall, as between Customer and Virtru, belong solely to Virtru, and Customer's Proprietary Information shall, as between Customer and Virtru, belong solely to Customer.

**5.2 Use and Disclosure Restrictions.** Each party agrees (a) to protect the other party's Proprietary Information from unauthorized dissemination and use; (b) to use the other party's Proprietary Information only for the performance of this Agreement and the exercise of any rights under this Agreement; (c) not to disclose any Proprietary Information, or any part or parts thereof, to any of its employees, agents, contractors or any other individuals except to its employees who are under confidentiality obligations no less restrictive than the requirements of this Section 5; (d) with respect to Customer, not to disclose or otherwise provide to any third party, without the prior written consent of Virtru or as otherwise set forth in a separate written agreement between the parties hereto entered into after the date hereof, as applicable, any of Virtru's Proprietary Information, materials or any data or other information produced, obtained or created by Customer in connection with Customer's use of the Materials, including, without limitation, the existence of this Agreement and the existence and possible applications of the Materials; (e) to undertake whatever action is necessary (or authorize the other party to do so in the name of such party) to prevent

or remedy any breach of such party's confidentiality obligations herein set forth or any other unauthorized disclosure of any Proprietary Information by its current or former employees, agents or contractors; and (f) not to remove or destroy any proprietary or confidential legends or markings placed upon or contained within the Proprietary Information provided to such party by the other party.

**5.3 Exclusions.** The foregoing restrictions on disclosure and use shall not apply with respect to any Proprietary Information that: (a) is or becomes publicly known through no act or omission of the other party; (b) was rightfully known by the receiving party without confidential or proprietary restriction before receipt from the other party, as evidenced by the receiving party's contemporaneous written records; (c) becomes rightfully known to the receiving party without confidential or proprietary restriction from a source other than the disclosing party that does not owe a duty of confidentiality with respect to such Proprietary Information; or (d) is independently developed without the use of the Proprietary Information as evidenced by the receiving party's written records. In addition, a party may use or disclose Proprietary Information to the extent (i) approved in writing by the other party and (ii) a party is legally compelled to disclose such Proprietary Information, provided, however, that prior to any such compelled disclosure, such party shall cooperate fully with the other party in protecting against any such disclosure and/or obtaining a protective order narrowing the scope of such disclosure and/or use of the Proprietary Information. Further, each party may disclose the terms and conditions of this Agreement: (A) in confidence, to legal counsel; (B) in confidence, to accountants, banks, and financing sources and their advisors; and (C) in connection with the enforcement of this Agreement or any rights hereunder.

**5.4 Equitable Relief.** Each party agrees that, due to the unique nature of the other party's Proprietary Information, the unauthorized disclosure or use of the other party's Proprietary Information or any other breach of any provision of this Section 5 will cause irreparable harm and significant injury to the other party, the extent of which will be difficult to ascertain and for which there will be no adequate remedy at law. Accordingly, each party agrees that the other party, in addition to any other available remedies, shall have the right to seek an immediate injunction and other equitable relief enjoining any breach or threatened breach of this Section 6 without the necessity of posting any bond or other security. Each party shall notify the other party in writing immediately upon becoming aware of any such breach or threatened breach.

## 6. NO WARRANTY

THE MATERIALS AND VIRTRU PRO SERVICES ARE PROVIDED "AS IS" AND VIRTRU DISCLAIMS ALL WARRANTIES AND REPRESENTATIONS, WHETHER EXPRESS OR IMPLIED, RELATING TO THE MATERIALS AND VIRTRU PRO SERVICES, INCLUDING, WITHOUT LIMITATION, ANY WARRANTIES OF DESIGN, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, TITLE OR NONINFRINGEMENT OF THIRD PARTY RIGHTS, OR WARRANTIES ARISING FROM A COURSE OF DEALING, COURSE OF PERFORMANCE, USAGE OR TRADE PRACTICE. VIRTRU DOES NOT GUARANTEE THE ACCURACY OF THE INFORMATION INCLUDED IN, TRANSMITTED THROUGH OR MADE AVAILABLE BY THE MATERIALS OR VIRTRU PRO SERVICES, WHICH MAY INCLUDE INACCURACIES OR ERRORS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES WILL BE UNINTERRUPTED OR ERROR-FREE, THAT BUGS OR MALFUNCTIONS WILL BE CORRECTED OR THAT THE MATERIALS, VIRTRU PRO SERVICES OR VIRTRU'S SERVERS ARE FREE OF HARMFUL COMPONENTS. VIRTRU DOES NOT GUARANTEE THAT THE MATERIALS OR VIRTRU PRO SERVICES ARE ACCURATE, WITHOUT ERROR OR RELIABLE.

## 7. VIRTRU'S ENTIRE LIABILITY

TO THE EXTENT ALLOWED BY APPLICABLE LAW AND NOTWITHSTANDING ANY FAILURE OF ESSENTIAL PURPOSE OF ANY LIMITED REMEDY OR LIMITATION OF LIABILITY: (a) IN NO EVENT SHALL VIRTRU OR ITS SUPPLIERS BE LIABLE FOR ANY DAMAGES FOR LOSS OF PROFITS, LOSS OF BUSINESS, LOSS OF USE OR DATA, INADVERTENT DISCLOSURE OF DATA, OR INTERRUPTION OF BUSINESS, OR FOR ANY INDIRECT, SPECIAL, INCIDENTAL OR CONSEQUENTIAL DAMAGES OF ANY KIND OR OTHER ECONOMIC LOSS ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, EVEN IF VIRTRU HAS BEEN ADVISED OF THE POSSIBILITY OF SUCH DAMAGES, HOWEVER CAUSED, AND (b) NOTWITHSTANDING ANYTHING IN THIS AGREEMENT TO THE CONTRARY, VIRTRU'S ENTIRE LIABILITY ARISING FROM OR RELATING TO THIS AGREEMENT OR THE SUBJECT HEREOF, UNDER ANY LEGAL THEORY (WHETHER IN CONTRACT, TORT, INDEMNITY OR OTHERWISE), IF ANY, SHALL NOT EXCEED ONE THOUSAND DOLLARS (US\$1,000).

## 8. INDEMNIFICATION

Customer shall defend, indemnify and hold Virtru harmless against any loss, liability, damage or cost (including reasonable attorneys' fees) in connection with claims, actions, demands, suits, or proceedings made or brought against Virtru by a third party alleging (a) that any modification or addition to the Materials or Virtru Pro

Services made by or for Customer (other than by Virtru) infringes a copyright, mask work right, trade secret, trademark right or patent of the third party; (b) in combination with any other product or service not provided, specified or recommended in writing by Virtru for use with the Materials or Virtru Pro Services; or (b) with respect to the development, manufacture, marketing, sales, distribution or use of any of the Materials or Virtru Pro Services, including, without limitation, a product liability claim or a claim for breach of any warranty or support obligations. In connection with a claim under this Section 9, Virtru shall: (i) provide Customer with prompt notice of the claim; (ii) permit Customer to control the defense and any settlement of the claim (provided that Customer may not settle any claim unless such settlement unconditionally releases Virtru of all liability in connection with such claim); and (iii) provide cooperation as reasonably requested by Customer (at Customer's expense).

## 9. TERM AND TERMINATION

**9.1 Term.** This Agreement shall commence on the Effective Date and, unless sooner terminated pursuant to the terms hereof, shall continue in full force and effect for one (1) year (the "**Initial Term**"). Thereafter, this Agreement shall automatically renew for successive one (1) year periods (each a "**Renewal Term**"), unless either party provides the other party with written notice of its intent not to renew at least thirty (30) days prior to the end of the then-current term. The automatic renewal of this Agreement will be for the Baseline Seat Count, as adjusted pursuant to Sections 2.4, 2.5 and/or 2.6, on the same payment terms as set forth on the cover page of this Agreement.

**9.2 Termination.** Either party may terminate this Agreement immediately upon written notice to the other party if the other party fails to perform any of its duties or obligations hereunder and, except with respect to Customer's breach of Section 2.1 or 2.2, which breach shall not be subject to any cure period, fails to cure such default within thirty (30) days following receipt of written notice from the non-defaulting party specifying the occurrence or existence of the default. Customer shall notify Virtru within twenty-four (24) hours of Customer becoming aware of any breach (other than by Virtru) of the terms and conditions of this Agreement, including, without limitation, Sections 2 and 5.

**9.3 Effect of Termination.** Upon the expiration or termination of this Agreement, the rights granted to Customer hereunder shall terminate, Customer will cease all use of the Materials, return to Virtru or destroy the Materials in its possession, and, upon Virtru's request, so certify such actions to Virtru. Any costs

incurred in returning or destroying the Materials upon termination shall be borne by Customer. The provisions of Sections 2.2, 4.2, 5, 6, 7, 8, 9.3, and 10 shall survive the expiration or any termination of this Agreement. Termination of this Agreement by either party shall not act as a waiver of any breach of this Agreement and shall not act as a release of either party from any liability for breach of such party's obligations under this Agreement. Neither party shall be liable to the other for damages of any kind solely as a result of terminating this Agreement in accordance with its terms, and termination of this Agreement by a party shall be without prejudice to any other right or remedy of such party under this Agreement or applicable law.

## **10. GENERAL PROVISIONS**

**10.1 Notices.** Any notice, request, demand or other communication required or permitted hereunder shall be in writing, shall reference this Agreement and shall be deemed to be properly given: (a) when delivered personally; (b) seven (7) days after having been sent by registered or certified mail, return receipt requested, postage prepaid; or (c) two (2) business days after deposit with a private industry express courier, with written confirmation of receipt. All notices shall be sent to the address set forth on the cover page of this Agreement and to the notice of the person executing this Agreement (or to such other address as may be designated by a party by giving written notice to the other party pursuant to this Section 10.1).

**10.2 Assignment.** This Agreement may not be assigned, in whole or part, whether voluntarily, by operation of law or otherwise, by Customer without the prior written consent of Virtru. Subject to the preceding sentence, the rights and liabilities of the parties hereto shall bind, and inure to the benefit of, their respective assignees and successors and is binding on the parties and their successors and assigns. Any attempted assignment other than in accordance with this Section 10.2 shall be null and void.

**10.3 Governing Law, Jurisdiction and Venue.** This Agreement is to be construed in accordance with and governed by the internal laws of the Commonwealth of Virginia (but expressly excluding the Uniform Computer Information Transactions Act ("UCITA") as enacted in Virginia) without giving effect to any choice of law rule that would cause the application of the laws of any jurisdiction other than the internal laws of the Commonwealth of Virginia (excluding UCITA) to the rights and duties of the parties. Any legal suit, action or proceeding arising out of or relating to this Agreement shall be commenced in a federal court in the Eastern District of Virginia or in state courts with jurisdiction over

Fairfax County, Virginia, and each party hereto irrevocably submits to the exclusive jurisdiction and venue of any such court in any such suit, action or proceeding.

**10.4 Attorneys' Fees.** If any legal action, including, without limitation, an action for arbitration or injunctive relief, is brought relating to this Agreement or the breach hereof, the prevailing party in any final judgment or arbitration award, or the non-dismissing party in the event of a dismissal without prejudice, shall be entitled to the full amount of all reasonable expenses, including all court costs, arbitration fees and actual attorneys' fees paid or incurred in good faith.

**10.5 Waiver.** The waiver by either party of a breach of or a default under any provision of this Agreement, shall be in writing and shall not be construed as a waiver of any subsequent breach of or default under the same or any other provision of this Agreement, nor shall any delay or omission on the part of either party to exercise or avail itself of any right or remedy that it has or may have hereunder operate as a waiver of any right or remedy.

**10.6 Severability.** If the application of any provision of this Agreement to any particular facts or circumstances shall be held to be invalid or unenforceable by an arbitration panel or a court of competent jurisdiction, then (a) the validity and enforceability of such provision as applied to any other particular facts or circumstances and the validity of other provisions of this Agreement shall not in any way be affected or impaired thereby and (b) such provision shall be enforced to the maximum extent possible so as to effect the intent of the parties and reformed without further action by the parties to the extent necessary to make such provision valid and enforceable.

**10.7 Relationship of the Parties.** Nothing contained in this Agreement shall be deemed or construed as creating a joint venture, partnership, agency, employment or fiduciary relationship between the parties. Neither party nor its agents have any authority of any kind to bind the other party in any respect whatsoever, and the relationship of the parties is, and at all times shall continue to be, that of independent contractors.

**10.8 Restricted Rights.** If Customer is an agency or instrumentality of the United States Government, the Materials are "commercial computer software" and "commercial computer software documentation," and, pursuant to FAR 12.212 or DFARS 227.7202, and their successors, as applicable, use reproduction and disclosure of the Materials are governed by the terms of this Agreement.

**10.9 Reference.** Customer agrees to serve as a “reference customer” that may be disclosed by Virtru to third parties (including by displaying Customer’s name, logo and/or a link to Customer’s web site on Virtru’s web site) and, upon reasonable notice from Virtru, shall serve as a reference to potential customers, vendors, investors, or other third parties designated by Virtru; provided, however, that Virtru shall provide Customer with reasonable prior notice of its need to have Customer serve as a reference.

**10.10 Entire Agreement.** This Agreement, any Schedules and any Exhibits attached hereto and incorporated herein by reference, and the Terms of Service constitute the entire agreement between the parties concerning the subject matter hereof and supersede all prior or contemporaneous representations,

discussions, proposals, negotiations, conditions, agreements and communications, whether oral or written, between the parties relating to the subject matter of this Agreement and all past courses of dealing or industry custom. No amendment or modification of any provision of this Agreement shall be effective unless in writing and signed by a duly authorized signatory of each of Virtru and Customer.

**10.11 Counterparts and Electronic Signatures.**

The Parties may execute this Agreement in counterparts, each of which is deemed an original, but all of which together constitute one and the same agreement. This Agreement may be delivered electronically or by facsimile transmission, and the parties hereby agree that any electronic or facsimile signatures hereto are legal, valid and enforceable as originals.

## **SCHEDULE B**

### **MAINTENANCE AND SUPPORT SERVICES SCHEDULE**

#### **1. DEFINITIONS**

For purposes of this Schedule, the following term shall have the following meaning:

- (a) **“Support Services”** means the delivery of front-end support to Customer’s end users by telephone, email or other methods and the training of Customer’s end users, in each case relating to the use of the Materials and Virtru Pro Services.

#### **2. SUPPORT SERVICES.**

Virtru will be responsible for providing Customer’s end users with Support Services. Virtru will not be required to provide the Support Services if Customer has failed to pay any amount payable to Virtru under this Agreement and such amount is more than thirty (30) days overdue.

#### **3. UPDATES.**

Virtru will provide Customer with one copy of each Update made generally available by Virtru to its customers that pay for customer support and maintenance during the term of this Agreement.

#### **4. SUPPORT HOURS.**

Virtru will provide the Support Services during Virtru’s normal business hours, Monday to Friday, except holidays. Virtru will respond to Customer support inquiries or requests within one business day.

# vCloud Air (U.S. and Japan Data Centers)

## TERMS OF SERVICE

*Last updated: November 5, 2014*

VMware vCloud Air is an infrastructure as a service offering. By accessing any service offered through VMware vCloud Air (the “**Service Offering**”) you agree to be bound by these terms of service between you and VMware (“**Agreement**”). If you do not agree to this Agreement, you must not access the Service Offering. An individual accepting this Agreement on behalf of an organization represents and warrants having legal authority to bind that organization. “**You**” means the entity accepting this Agreement. “**VMware**,” “**we**,” or “**us**” means VMware, Inc., a Delaware corporation, to the extent that you are purchasing the Service Offering in the United States, VMware vCloud Service G.K., a company organized and existing under the laws of Japan, to the extent that you are purchasing the Service Offering in Japan, and VMware International Limited, a company organized and existing under the laws of Ireland, to the extent that you are purchasing the Service Offering elsewhere. Capitalized terms used in this Agreement are defined throughout this Agreement and in Section 14.

**EVALUATION PROGRAM USE.** When you access the Service Offering under a VMware evaluation program, you may use the Service Offering only for non-production computing activity. Notwithstanding any other provision in this Agreement, under a VMware evaluation program, we provide the Service Offering “AS-IS” without indemnification, support or warranty of any kind, expressed or implied, and we will not be liable for any damages. Upon termination of the evaluation, you will no longer have access to the Service Offering and Your Content.

### 1. The Service Offering.

**1.1 Generally.** This Agreement governs your access and use of the Service Offering. We may deliver the Service Offering to you with the assistance of our affiliates, licensors and providers. Service Level Agreements may apply to the Service Offering. You will comply with all laws, rules and regulations applicable to your use of the Service Offering, and with the Third Party Terms, the Service Description, the Privacy Addendum, and the Support Policy, all of which are incorporated herein by reference.

**1.2 Access to the Service Offering.** You may access and use the Service Offering solely for your own benefit and only in accordance with this Agreement. To access the Service Offering, you must register for the Service Offering and set up an authorized account with Login Credentials. You may monitor and manage your Service Offering account via the My VMware Portal available at [www.vmware.com/accounts](http://www.vmware.com/accounts) and through the Service Offering Portal available at <http://vcloud.vmware.com>. You must keep confidential your Login Credentials. If you set up an authorized account for an organization, you will require that all authorized users of that account (including anyone providing services to you) keep confidential their Login Credentials. You will keep your registration information accurate, complete and current as long as you use the Service Offering. You are responsible for any use that occurs under your Login Credentials, including any activities by you, or your employees, contractors or agents. If you believe an unauthorized user has gained access to your Login Credentials, you will notify us as soon as possible. Neither we nor our affiliates are responsible for any unauthorized access to or use of your account.

**1.3 Verifying; Cooperation.** We have the right to verify your compliance with this Agreement. If we

seek to verify that compliance, you will provide information or other materials reasonably requested by us to assist the verification. We monitor the overall performance and stability of the infrastructure of the Service Offering. You may not block or interfere with that monitoring. If we reasonably believe a problem with the Service Offering may be attributable to Your Content or your use of the Service Offering, you will cooperate with us to identify and resolve the source of that problem.

**1.4 Additional Terms; Third Party Content.** As part of your use of the Service Offering, you may receive access to additional data, content, software or applications subject to separate terms. If so, those separate terms will prevail over this Agreement as to your use of that data, content, software or applications. Third Party Content is available “AS IS” without indemnification or support, and we disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). You are responsible for reviewing, accepting, and complying with any third party terms of use or other restrictions applicable to the Third Party Content. Those terms will be available to you through a notification within the Service Offering or in a document available at <https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf>. It is your responsibility to check the Third Party Terms, which may be modified from time to time. We may provide billing and related services associated with the Third Party Content. We will not provide any support for the Third Party Content unless otherwise noted in the Third Party Terms. We reserve the right to suspend or terminate the Third Party Content at any time, but we will use commercially reasonable efforts to provide reasonable notice of that suspension or termination.

**1.5 Early Evaluation/Beta Features.** We may identify and make available on an early evaluation or beta basis certain features or functionality within the Service Offering. You must use these features or functionality only for evaluation purposes and for the period that we specify. We provide these features and functions “AS-IS,” without indemnification or support and disclaim all express and implied warranties (including warranties of merchantability, fitness for a particular purpose, and non-infringement). Any early evaluation or beta features or functionality do not constitute an implied commitment to offer to you or anyone these features and functionality as part of the Service Offering on a generally available basis.

**1.6 Open Source Software.** You may receive open source software when you use the Service Offering and any open source software distributed to you is made available under the applicable open source license, which can be found at: [http://www.vmware.com/download/open\\_source.html](http://www.vmware.com/download/open_source.html). You may obtain a copy of these licenses and any source code (and modifications) that we are required to make available under these licenses (the “**Source Files**”) at [http://www.vmware.com/download/open\\_source.html](http://www.vmware.com/download/open_source.html) or by sending a written request, with your name and address to: VMware, Inc., 3401 Hillview Avenue, Palo Alto, CA 94304, United States of America. All written requests must clearly specify: Open Source Files Request, Attention: General Counsel. This offer to obtain a copy of the Source Files is valid for three years from the date you last received open source software as part of the Service Offering or last accessed the Service Offering.

## **2. Data Protection and Security.**

**2.1 Data Protection.** We will process personal data contained in Your Content as set forth in the Privacy Addendum.

**2.2 Your Content and Security.** You are solely responsible for Your Content. You are responsible for protecting the security of Your Content, including any access you might provide to Your Content by your employees, customers or other third parties, and in transit to and from the Service Offering. The Service Offering provides you with certain software and functionality to help you protect Your Content from unauthorized access. You will take and maintain appropriate security, protection and backup of Your Content, which might include the use of encryption technology to protect Your Content from unauthorized access. You are responsible for providing any necessary notices to your

users and obtaining any legally-required consents from your users concerning their use of the Service Offering. You are solely responsible for complying with any laws or regulations that might apply to Your Content. You are responsible for any losses or other consequences arising from your failure to encrypt or back up Your Content.

### **3. Acceptable Use.**

**3.1 General Restrictions.** You and those accessing the Service Offering through you may not: (a) resell or sublicense the Service Offering; or (b) use or access the Service Offering: (i) in a way prohibited by law, regulation, governmental order or decree; (ii) to violate any rights of others; (iii) to try to gain unauthorized access to, test the vulnerability of, or disrupt the Service Offering or any other service, device, data, account or network; (iv) to spam or distribute malware; (v) in a way that could harm the Service Offering or impair anyone else's use of it; (vi) in a way intended to work around the Service Offering's technical limitations, recurring fees or usage limits; or (vii) in any application or situation where failure of the Service Offering could lead to the death or serious bodily injury of any person, or to severe physical or environmental damage. You must ensure that your users comply with the terms of this Agreement, and you agree that if you become aware of any violation by one of your users, you will terminate that user's access to Your Content immediately. If we have reason to believe that you or your users have breached this Agreement, we or our designated representative may review your use of the Service Offering, including your account, Your Content, and your records, to verify your compliance with this Agreement.

**3.2 Content Restrictions.** You will take steps to ensure that those accessing any service you provide with the Service Offering do not post content that: (a) may create a risk of harm, loss, physical or mental injury, emotional distress, death, disability, disfigurement, or physical or mental illness to anyone; (b) may create a risk of any other loss or damage to any person or property; (c) may constitute or contribute to a crime or tort; (d) contains any information or content that is illegal, unlawful, harmful, abusive, pornographic, racially or ethnically offensive, defamatory, infringing, invasive of personal privacy or publicity rights, harassing, humiliating to other people (publicly or otherwise), libelous, threatening, or otherwise objectionable; or (e) contains any information or content that you do not have a right to make available under any law or under contractual or fiduciary relationships. You are solely responsible for any software, product or service that a third party licenses, sells or makes available to you that you install or use with the Service Offering. Your use of that software, product or service is governed by separate terms between you and that third party. We are not a party to and are not bound by any of those separate terms. You represent and warrant that Your Content does not and will not violate any third-party rights, including any Intellectual Property Rights, and rights of publicity and privacy. You will ensure that your use of the Service Offering complies at all times with your privacy policies and all applicable laws and regulations, including any encryption requirements.

**3.3 Violations of Acceptable Use.** If you become aware that any of Your Content or your user's use of Your Content violates Section 3.1 or 3.2, you will take immediate action to remove the applicable part of Your Content or suspend the end user's access. If you fail to do so, we may ask you to do so. If you fail to comply with our request within twenty-four hours, we may suspend your account or disable access to Your Content until you comply with our request.

**3.4 Notification of Infringement Concerns.** If you believe that your copyrighted work has been copied and is accessible on our Service Offering in a way that constitutes copyright infringement, please send a notice to us as further detailed in Section 8 of the Community Terms of Use available at [http://www.vmware.com/community\\_terms.html](http://www.vmware.com/community_terms.html).

### **4. IP Ownership.**

**4.1 Ownership of Service Offering.** We and our licensors own and retain all right, title and interest in and to the Service Offering and any related VMware Software, including all improvements, enhancements, modifications and derivative works thereof, and all Intellectual Property Rights therein. This includes any information that we collect and analyze in connection with the Service Offering, such as usage patterns, user feedback and other information to improve and evolve our software products and services offerings. Your rights to use the Service Offering are limited to those expressly granted in this Agreement. No other rights with respect to the Service Offering, any related VMware Software, or any related Intellectual Property Rights are implied.

**4.2 Ownership of Your Content.** You and your authorized users retain all right, title and interest in and to Your Content and all Intellectual Property Rights therein. Our rights to access and use Your Content are limited to those expressly granted in this Agreement. No other rights with respect to Your Content or any related Intellectual Property Rights are implied.

**4.3. Feedback.** We will be free to use for any purpose any feedback (such as comments or suggestions) that you provide to us regarding the Service Offering. You hereby grant to us a non-exclusive, perpetual, irrevocable, royalty-free, transferable, worldwide right and license, with the right to sublicense, to use, reproduce, perform, display, disclose, distribute, modify, prepare derivative works of and otherwise exploit the feedback without restriction in any manner now known or in the future conceived and to make, use, sell, offer to sell, import and export any product or service that incorporates the feedback.

## **5. Order, Delivery, Payment, and Taxes.**

**5.1 Generally.** Sections 5.3 (Direct Orders), 5.4 (Delivery), 5.5 (Invoicing and Payment Terms) and 5.6 (Taxes) apply only to orders you place directly with, and the Service Offering you purchase directly from, VMware. When ordering through, or purchasing the Service Offering from, a VMware authorized reseller, the authorized reseller might specify similar terms.

**5.2 Orders.** All Orders issued to VMware are subject to the terms of this Agreement and are not binding until accepted by VMware. We are not required to provide any Service Offering to you until you provide all information we require for processing your Order.

**5.3 Direct Orders.** For orders placed directly with VMware, you must issue a purchase order to VMware for the initial Service Offering order, but a purchase order is not required for the monthly billings that occur after the initial Order billing. For subsequent billings, all fees (including subscription renewals, metered usage components, and other add-ons) will be paid in accordance with this Agreement. Your Order will be deemed accepted when we authorize the purchased Service Offering for your Login Credentials.

**5.4 Delivery.** When VMware accepts your Order for the Service Offering, we will deliver the corresponding Login Credentials to you by email to the address associated with your account. If VMware ships a physical object in connection with an add-on feature of the Service Offering, shipping and delivery terms are Ex Works VMware's regional fulfillment facility (INCOTERMS 2010).

**5.5 Invoicing and Payment Terms.** You will pay all fees for use of the Service Offering in the amount and currency specified in your invoice, within 30 days after the date of the invoice, and regardless of your usage level during a billing period. You will also be responsible for all additional fees for any subscription renewals and metered usage components consumed, and other subscriptions, features, products, services or add-ons that you purchase within the Service Offering. You will be billed in advance for the monthly or prepaid charges due to the subscription services purchased. Any metered usage components and any initial monthly fees will be billed in arrears. The applicable fees for subscriptions (including renewals), features and other available products and

services will be governed by the then-current applicable price list at the time the initial, renewal, or add-on order is submitted, or as otherwise agreed. We may increase or add new fees for the Service Offering by notifying you at least 30 days in advance.

**5.6 Taxes.** Service Offering fees are exclusive of taxes, and you shall pay or reimburse for all taxes arising out of transactions contemplated by this Agreement. If you are required to pay or withhold any tax for payments due under this Agreement, you shall gross your payments to us so we receive sums due in full and free of any deductions. You will provide documentation to us showing that taxes have been paid to the relevant taxing authority. “**Taxes**” means any sales, VAT, use, gross receipts, business and occupation, and other taxes (other than taxes on our income), export and import fees, customs duties and similar charges imposed by any government or other authority. You hereby confirm that we can rely on the name and address you provide to us when you agree to the Service Offering or in connection with your payment method as being the place of supply for sales tax and income tax purposes or as being the place of supply for VAT purposes where you have established your business.

## **6. Temporary Suspension.**

**6.1 Generally.** Upon prior written notice to you, we may suspend your use of the Service Offering if we reasonably determine: (a) payment for the Service Offering is not received within 30 days from the date on which payment is due; (b) you or your use of the Service Offering is in breach of this Agreement; (c) you fail to address our request to take action as specified in Section 3.3; (d) your use of the Service Offering poses a security risk to the Service Offering or other users of the Service Offering; or (e) suspension is required pursuant to our receipt of a subpoena, court order, or other request by a law enforcement agency.

**6.2 Effect of Suspension.** You will remain responsible for all fees incurred before or during the suspension. You will not be entitled to any service credits under the Service Level Agreement that you might have otherwise accrued during the period of suspension.

## **7. Term and Termination.**

**7.1 Term of Agreement.** This Agreement will be in effect through the Subscription Term, plus any renewals, unless terminated earlier as permitted under this Agreement or the Service Description. Upon the completion of the Subscription Term, the subscription will automatically renew as specified in the Service Description, unless terminated as permitted under the Service Description.

**7.2 Termination for Cause.** We may terminate this Agreement effective immediately upon sending you an email notice if: (a) you breach any provision in Sections 3.1 or 3.2; (b) you do not resolve the underlying cause resulting in a suspension of your account pursuant to Section 6.1 (other than suspension due to a subpoena, court order, or other request by a law enforcement agency) within 10 days after your account is suspended; or (c) you commit a material breach that cannot be cured.

**7.3 Termination for Insolvency.** We may terminate this Agreement effective immediately upon sending you an email notice if you: (a) terminate or suspend your business; (b) become insolvent, admit in writing your inability to pay your debts as they mature, make an assignment for the benefit of creditors; or (c) become subject to control of a trustee, receiver or similar authority or any bankruptcy or insolvency proceeding.

**7.4 Effect of Termination.** Upon the termination of this Agreement for any reason: (a) all rights granted to you under this Agreement, including your ability to access the Service Offering, will immediately terminate; and (b) you must promptly discontinue all use of the Service Offering and delete or destroy any of our Confidential Information. We will retain Your Content for a period of 30

days following the effective date of the termination, although you will cease to have access to the Service Offering or Your Content during this period. After the 30 days, Your Content will be deleted. Sections 1.6 (Open Source Software), 3 (Acceptable Use) 4 (IP Ownership), 5 (Order, Delivery, Payment and Taxes), 7 (Term and Termination), 9 (Disclaimer), 11 (Limitation of Liability), 12 (Confidential Information), 13 (General), and 14 (Definitions), will survive the termination of this Agreement. Termination of the Service Offering (except to the extent that the termination is permitted under Section 13.3 of this Agreement or Section 3.6 of the Service Description) will not entitle you to any refunds, credits, or exchanges, and you will be liable for all monthly billing fees for the remainder of the Subscription Term after termination, as well as all usage and other fees incurred up to the termination date.

**8. Support and Subscription Services.** When applicable, and subject to the terms of this Agreement, we will provide to you support for the Service Offering in accordance with the terms specified in the Support Policy. We will not provide support to any end users of Your Content.

**9. Disclaimer.** TO THE MAXIMUM EXTENT PERMITTED BY APPLICABLE LAW, WE AND OUR LICENSORS AND SERVICE PROVIDERS DISCLAIM ALL WARRANTIES, WHETHER EXPRESS, IMPLIED, OR STATUTORY, INCLUDING ANY IMPLIED WARRANTIES OF MERCHANTABILITY AND FITNESS FOR A PARTICULAR PURPOSE, TITLE, NON-INFRINGEMENT AND ANY WARRANTIES ARISING FROM COURSE OF DEALING OR COURSE OF PERFORMANCE REGARDING OR RELATING TO THE SERVICE OFFERING OR ANY MATERIALS OR SERVICES FURNISHED OR PROVIDED TO YOU UNDER THIS AGREEMENT. WE AND OUR LICENSORS AND SERVICE PROVIDERS DO NOT WARRANT THAT THE SERVICE OFFERING WILL BE UNINTERRUPTED OR FREE FROM DEFECTS, OR THAT THE SERVICE OFFERING WILL MEET (OR IS DESIGNED TO MEET) YOUR BUSINESS REQUIREMENTS.

## **10. Indemnification.**

**10.1 Indemnification by Customer.** You will defend and indemnify us against any third party claim arising from or relating to: (a) Your Content; (b) any infringement or misappropriation of any Intellectual Property Rights by you, your customers, your end users or your suppliers; (c) violation of law by you; (d) your use of the Service Offering (including any activities under your account and any use by your employees, personnel or end users) in violation of this Agreement, or (e) your use of any Third Party Content. We will (a) provide you with notice of the claim within a reasonable period of time after learning of the claim; and (b) reasonably cooperate in response to your requests for assistance. You may not settle or compromise any indemnified claim without our prior written consent.

**10.2 Defense and Indemnification.** Subject to the remainder of this Section 10, we will defend you against an Infringement Claim and indemnify you from the resulting costs and damages finally awarded against you to that third party by a court of competent jurisdiction or agreed to in settlement. You will (a) provide us with notice of any Infringement Claim within a reasonable period of time after learning of it; (b) allow us sole control over the claim's defense and settlement; and (c) reasonably cooperate in response to our requests for assistance. You may not settle or compromise any Infringement Claim without our prior written consent.

**10.3 Remedies.** If the Service Offering becomes, or in our opinion is likely to become, the subject of an Infringement Claim, we will at our option and expense either: (a) procure the rights necessary for you to keep using the Service Offering; (b) modify or replace the Service Offering to make it non-infringing; or (c) terminate this Agreement and refund any pre-paid fees for the Service Offering pro-rated for its remaining Subscription Term.

**10.4 Exclusions.** We will have no obligation under this Section 10 or otherwise with respect to any

claim based on: (a) a combination of VMware Software with non-VMware products or content, including Your Content; (b) use of the Service Offering for a purpose or in a manner not specified in this Agreement or the Service Description; (c) any modification to the Service Offering made without our express written approval; or (d) any Service Offering provided on a no charge basis. This Section 10 states your exclusive remedy for any infringement actions or claims.

## **11. Limitation of Liability.**

**11.1 Generally.** TO THE MAXIMUM EXTENT PERMITTED BY LAW, IN NO EVENT WILL WE OR OUR LICENSORS OR SERVICE PROVIDERS BE LIABLE FOR ANY LOST PROFITS OR BUSINESS OPPORTUNITIES, LOSS OF USE OF THE SERVICE OFFERING, LOSS OF REVENUE, LOSS OF GOODWILL, BUSINESS INTERRUPTION, LOSS OF DATA, OR ANY INDIRECT, SPECIAL, INCIDENTAL, OR CONSEQUENTIAL DAMAGES UNDER ANY THEORY OF LIABILITY, WHETHER BASED IN CONTRACT, TORT, NEGLIGENCE, PRODUCT LIABILITY, OR OTHERWISE. IN ADDITION, OUR AND OUR LICENSORS' AND SERVICE PROVIDERS' LIABILITY UNDER THIS AGREEMENT WILL NOT, IN ANY EVENT, REGARDLESS OF WHETHER THE CLAIM IS BASED IN CONTRACT, TORT, STRICT LIABILITY, OR OTHERWISE, EXCEED THE GREATER OF: (A) THE AGGREGATE FEES PAID OR PAYABLE TO US FOR YOUR ACCESS TO AND USE OF THE SERVICE OFFERING IN THE TWELVE (12) MONTHS PRIOR TO THE EVENT GIVING RISE TO YOUR CLAIM, OR (B) \$5,000 USD (OR THE EQUIVALENT IN LOCAL CURRENCY). REGARDLESS OF WHETHER WE OR OUR LICENSORS OR SERVICE PROVIDERS HAVE BEEN ADVISED OF THE POSSIBILITY OF THOSE DAMAGES AND REGARDLESS OF WHETHER ANY REMEDY FAILS OF ITS ESSENTIAL PURPOSE. THESE LIMITATIONS OF LIABILITY IN THIS SECTION 11.1 WILL NOT APPLY TO (A) VMWARE'S INDEMNIFICATION OBLIGATIONS UNDER THIS AGREEMENT OR (B) ANY LIABILITY WHICH MAY NOT BE EXCLUDED BY APPLICABLE LAW.

**11.2 Further Limitations.** Our licensors and service providers will have no liability of any kind under this Agreement. You may not bring a claim under this Agreement more than eighteen (18) months after the cause of action arises.

## **12. Confidential Information.**

**12.1 Protection.** A party may use Confidential Information of the other party solely to exercise its rights and perform its obligations under this Agreement or as otherwise permitted under this Agreement. Each party will disclose the Confidential Information of the other party only to the employees, service providers or contractors of the recipient party who have a need to know the Confidential Information for purposes of this Agreement and who are under a duty of confidentiality no less restrictive than each party's duty hereunder. Each party will use reasonable care to protect the confidentiality of the other party's Confidential Information.

**12.2 Exceptions.** The recipient's obligations under Section 12.1 with respect to any Confidential Information will terminate if the recipient can show by written records that the information: (a) was already known to the recipient at the time of disclosure by the other party; (b) was disclosed to the recipient by a third party who had the right to make the disclosure without any confidentiality restrictions; (c) is, or through no fault of the recipient has become, generally available to the public; or (d) was independently developed by the recipient without access to, or use of, discloser's Confidential Information. The recipient may disclose Confidential Information to the extent the disclosure is required by law or regulation. The recipient will provide the other party notice, when practicable, and will take reasonable steps to contest and limit the scope of any required disclosure.

## **13. General.**

**13.1 Assignment.** You may not assign or transfer this Agreement, in whole or in part, by operation of law or otherwise, without our prior written consent. Any attempted assignment or transfer without that consent will be void. Subject to these limits, this Agreement will bind and inure to the benefit of the parties and their respective successors and assigns.

**13.2 Notices.** Any notice delivered by us to you under this Agreement will be delivered by email to the email address associated with your account or by posting on either the Service Offering Portal or the My VMware Portal, except as otherwise set forth in this Agreement. Please direct legal notices or other correspondence to VMware, Inc., 3401 Hillview Avenue, Palo Alto, California 94304, United States of America, Attention: Legal Department.

**13.3 Modifications.** We may change periodically the Service Offering, the terms of your access to the Service Offering, this Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy. It is your responsibility to regularly check the Service Offering console and the My VMware portal for updates. We will notify you of any material, detrimental change to this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy. The modified Agreement, Service Description, Privacy Addendum, Service Level Agreement, or Support Policy, as applicable, will become effective as of the date stated in that notification. If we make a material, detrimental change to the Service Offering (other than the termination or modification of any beta feature or functionality), this Agreement, the Service Description, the Privacy Addendum, the Service Level Agreement, or the Support Policy, then you may terminate this Agreement within 30 days of the change to the Service Offering or within 30 days of the notification. In that event, the termination will be effective as of the date we receive your notification, unless you state an effective date in your notification that is within 45 days after we receive your notification. In the event of that termination, we will refund any prepaid fees, pro-rated for the remainder of your Subscription Term, and less any discounts that would then not be earned. Your continued use of the Service Offering after the effective date of any modification to the Agreement, the Service Description, the Privacy Addendum, the Third Party Terms, the Service Level Agreement, or the Support Policy will be deemed acceptance of the modified terms, as applicable.

**13.4 Waiver.** The waiver of a breach of any provision of this Agreement will not constitute a waiver of any other provision or any later breach.

**13.5 Severability.** If any provision of this Agreement is held to be invalid or unenforceable, the provision will be enforced to the maximum extent permissible so as to effect the intent of the parties, and the remaining provisions of this Agreement will remain in force.

**13.6 Compliance with Laws; Export Control.** Each party will comply with all laws applicable to the actions contemplated by this Agreement. You acknowledge that the Service Offering is of United States origin, is provided subject to the U.S. Export Administration Regulations (including “deemed export” and “deemed re-export” regulations), and may be subject to the export control laws of the applicable territory. You represent and warrant that (a) you are not, and are not acting on behalf of, (1) any person who is a citizen, national, or resident of, or who is controlled by the government of any country to which the United States has prohibited export transactions; or (2) any person or entity listed on the U.S. Treasury Department list of Specially Designated Nationals and Blocked Persons, or the U.S. Commerce Department Denied Persons List or Entity List; (b) you will not permit the Service Offering to be used for any purposes prohibited by law, including any prohibited development, design, manufacture or production of missiles or nuclear, chemical or biological weapons; (c) Your Content will not be classified or listed on the United States Munitions list, contain defense articles, defense services or contain ITAR-related data; (d) Your Content will not require an export license and is not restricted from export to any VMware global resource or personnel under applicable export control laws; and (e) you are not subject, either directly or indirectly, to any order

issued by any agency of the United States government, revoking or denying, in whole or in part, your United States export privileges. You will notify VMware immediately if you become subject to any such order.

**13.7 Government Regulations.** For purposes of sales to government entities in the U.S.: The Service Offering and its documentation are deemed to be “commercial computer software” and “commercial computer software documentation,” respectively, pursuant to DFARS Section 227.7202 and FAR Paragraph 12.212(b), as applicable. Any use, modification, reproduction, release, performing, displaying or disclosing of the Service Offering and documentation by or on behalf of the U.S. Government will be governed solely by the terms and conditions of this Agreement.

**13.8 Force Majeure.** We will not be liable for any delay or failure to perform any obligations under this Agreement due to any cause beyond our reasonable control, including acts of God, labor disputes or other industrial disturbances, systemic electrical, telecommunications or other utility failures, earthquakes, storms or other elements of nature, blockages, embargoes, riots, acts or orders of government, acts of terrorism or war.

**13.9 Construction.** The headings of sections of this Agreement are for convenience and are not for use in interpreting this Agreement. As used in this Agreement, the word ‘including’ means “including but not limited to.”

**13.10 Governing Law.** This Agreement is governed by the laws of the State of California, United States of America (excluding its conflict of law rules), except as follows: To the extent that you choose a Japan data center Service Offering, then this Agreement is governed by the laws of Japan (excluding its conflict of law rules). The United Nations Convention for the International Sale of Goods does not apply.

**13.11 Third Party Rights.** Other than as expressly set out in this Agreement, this Agreement does not create any rights for any person who is not a party to it, and no person who is not a party to this Agreement may enforce any of its terms or rely on any exclusion or limitation contained in it.

**13.12 Order of Precedence.** The terms of this Agreement will supersede and control over any conflicting or additional terms and conditions of any other purchasing related document issued by you.

**13.13 Entire Agreement.** This Agreement, as may be revised by us, is the entire agreement of the parties regarding its subject matter. This Agreement supersedes all prior or contemporaneous communications, understandings and agreements, whether written or oral, between the parties regarding its subject matter.

## **14. Definitions.**

**14.1 “Confidential Information”** means non-public technical, business or other information or materials disclosed or otherwise made available by one party that are in tangible form and labeled “confidential” or the like, or, information which is provided under circumstances reasonably indicating their confidentiality. Our Confidential Information includes: (1) Login Credentials; and (2) any information or materials relating to the Service Offering.

**14.2 “Infringement Claim”** means any third party claim that any VMware Software used to provide the Service Offering infringes any patent, trademark or copyright of the third party, or misappropriates a trade secret (but only to the extent that the misappropriation is not a result of your actions) under the laws of: (a) the United States; (b) Canada; (c) the European Economic Area; (d) Australia; (e) New Zealand; (f) Japan; or (g) the People’s Republic of China, to the extent that those

countries are part of your places of use of the Service Offering.

**14.3 “Intellectual Property Rights”** means all worldwide intellectual property rights, including copyrights, trademarks, service marks, trade secrets, patents, patent applications, and moral rights, whether registered or unregistered.

**14.4 “Login Credentials”** mean any passwords, authentication keys or security credentials that enable your access to and management of the Service Offering.

**14.5 “Order”** means the internet order page, order document, purchase order, or purchase agreement issued to VMware that specifies your purchase of the Service Offering.

**14.6 “Privacy Addendum”** means the then-current version of the Service Offering Data Privacy Addendum document available at <http://vcloud.vmware.com/legal>, which we may modify from time to time.

**14.7 “Service Description”** means the then-current Service Offering Service Description document available at <https://www.vmware.com/files/pdf/vcloud-air/vcloud-air-Service-Description.pdf>, which contains technical and other information and which we may modify from time to time.

**14.8 “Service Level Agreement”** means the then-current Service Level Agreement document available at <https://www.vmware.com/support/vcloud-air/sla.html>, which we may modify from time to time.

**14.9 “Subscription Term”** means the time period of your access to the Service Offering, as specified by your Order.

**14.10 “Support Policy”** means the then-current version of the Service Offering Support Policy document available at <http://www.vmware.com/support/services/iaas-production.html>, which we may modify from time to time.

**14.11 “Third Party Content”** means third party data, service, content, software or applications, including open source software.

**14.12 “Third Party Terms”** means the then-current version of the third party license terms applicable to the Service Offering that are available at <https://www.vmware.com/files/pdf/support/vmware-vcloud-air-third-party-terms.pdf>, which we may modify from time to time.

**14.14 “VMware Software”** means the software programs listed in our commercial price list.

**14.15 “Your Content”** means any and all applications, files, information, data or other content uploaded to or published or displayed through the Service Offering by you, your users, us (acting upon your instructions as part of a service), or any third party users who access any service you provide with the Service Offering.

# EXHIBIT “B”

NASPO ValuePoint  
**PARTICIPATING ADDENDUM**

**CLOUD SOLUTIONS**

Administered by the State of Utah (hereinafter "Lead State")

**Alternative Contract Source No: 43230000-NASPO-16-ACS**

**Carahsoft**

Master Agreement No: AR2472  
(hereinafter "Contractor")

And

**Florida Department of Management Services**

(hereinafter "Department/Participating State/Entity")

The State of Utah, acting by and through the National Association of State Procurement Officials (NASPO) ValuePoint, competitively procured and awarded a Request for Proposal resulting in Master Agreement number AR2472. The Master Agreement was created as a cooperative purchasing agreement for Cloud Solutions. This Participating Addendum is entered into pursuant to Section 287.042, Florida Statutes.

The Department is authorized by subsection 287.042(16), Florida Statutes, "to evaluate contracts let by the Federal Government, another state, or a political subdivision for the provision of commodities and contract services, and, if it is determined in writing to be cost-effective and in the best interest of the state, to enter into a written agreement authorizing an agency to make purchases under such contract." Accordingly, agencies and eligible users (Customer) may make purchases from this Participating Addendum pursuant to the terms and conditions herein.

The Department evaluated the Master Agreement, and hereby acknowledges that use of the Master Agreement as an alternative contract source is cost-effective and in the best interest of the State.

This Participating Addendum and all incorporated Exhibits, set forth the entire understanding of the Parties and supersedes all prior agreements.

Accordingly, the Parties agree as follows:

**1. Term and Effective Date**

The initial term of this Participating Addendum will become effective on the date the document is signed by all Parties, and shall be effective through September 30, 2020, unless terminated earlier in accordance with the General Contract Conditions.

**2. Renewal**

Upon agreement of the Parties, the Department and the Contractor may renew this Participating Addendum in accordance with section 287.057(13), Florida Statutes, and Rule 60A-1.048, Florida Administrative Code. Renewals must be in writing and are subject to the same terms, conditions, and modifications set forth in this Participating Addendum. Renewal determinations will be based upon utilization and achieved savings.

**3. Modifications or Additions to Master Agreement**

The following changes are modifying or supplementing the Master Agreement terms and conditions.

a. Scope:

The Contractor's Master Agreement products or services listed on the Contractor's page of the NASPO ValuePoint website are included in this contract only if they are not offered on a State Term Contract.

In accordance with 74-3.004, F.A.C., Agency requests for Infrastructure as a Service (IaaS) must be submitted via a Service Request to the State Data Center.

- b. Exhibits: All Exhibits attached and listed below are incorporated in their entirety into, and form part of this Participating Addendum. The Participating Addendum Exhibits shall have priority in the order listed:

- 1) Exhibit A: Contract Conditions, Florida General
- 2) Exhibit B: Contract Conditions, Florida Special
- 3) Exhibit C: NASPO ValuePoint Master Agreement Number AR2472

If a conflict exists among any of the documents, the following shall have priority in the order listed below:

- 1) The Addendum
- 2) Florida Special Contract Conditions, Exhibit B
- 3) Florida General Contract Conditions, Exhibit A
- 4) NASPO ValuePoint Master Agreement Number AR2472 Exhibit C

- c. Participation: Use of specific NASPO ValuePoint cooperative contracts by agencies, political subdivisions and other entities (including cooperatives) authorized by an individual state's statutes are subject to the prior approval of the respective State Chief Procurement Official. Issues of interpretation and eligibility for participation are solely within the authority of the State Chief Procurement Official.
- d. Access to Cloud Solutions Services Requires State CIO Approval: Unless otherwise stipulated in this Participating Addendum, specific services accessed through the NASPO ValuePoint cooperative Master Agreements for Cloud Solutions by state executive branch agencies are subject to the authority and prior approval of the State Chief Information Officer's Office. The State Chief Information Officer means the individual designated by the state Governor within the Executive Branch with enterprise-wide responsibilities for leadership and management of information technology resources of a state. Any agency requests for Infrastructure as a Service must be submitted via a service request to the state data center. See section 3.a. above.
- e. Authorization: Approval of this Participating Addendum by the State Chief Procurement Official and State Chief Information Officer is an authorization for participation in the NASPO cooperative contract process, it is not intended as an approval of any specific purchase or solution. It is the responsibility of the Customer to validate all terms and conditions and to ensure compliance with all applicable statutes and rules.
- f. Request for Quotes: Customers purchasing Cloud Solutions from this Participating Addendum shall create a Request for Quote (RFQ), each time they desire to purchase Cloud Solutions. The Customer shall issue a detailed RFQ to the ACS Contractor(s) who offer the applicable cloud solutions(s). The specific format of the RFQ is left to the discretion of the Customer, but must contain the following:
- 1) Applicable service and deployment model(s);
  - 2) Data security classification;
  - 3) Service level agreement requirements; and
  - 4) Exit strategy considerations.

- g. Enterprise Agreements: The Contractor shall honor any Volume or Enterprise Agreement(s) established between a State of Florida agency and the manufacturer of products or services offered under their Master Agreement.
- h. Purchase Orders: Customers shall issue purchase orders under this Participating Addendum to their awarded RFQ Contractor using this State of Florida ACS number 43230000-NASPO-16-ACS. The purchase order period survives the expiration of the Contract. The duration of purchase orders must not exceed the expiration of the Contract by more than 12 months.
- i. Contractor Selection Justification Form: Customers purchasing Cloud Solutions from this Participating Addendum shall attach to the purchase order a completed Contractor Selection Justification Form (Attachment A).

#### 4. Warranty of Authority

Each person signing this document warrants that he or she is duly authorized to do so and to bind the respective party.

#### 5. Entire Agreement of the Parties

This document and the attached exhibits constitute the Participating Addendum and the entire understanding of the parties.

#### 6. Amendments

All modifications to this Participating Addendum must be in writing and signed by all Parties. No oral modifications to this Participating Addendum are permitted.

Notwithstanding the order listed in section 3b, amendments executed after the Participating Addendum is executed may expressly change the provisions of the Participating Addendum. If they do so expressly, then the most recent amendment will take precedence over anything else that is part of the Participating Addendum.

**IN WITNESS THEREOF**, the Parties hereto have caused this agreement, which includes the attached and incorporated Exhibits, to be executed by their undersigned officials as duly authorized. This agreement is not valid and binding until signed and dated by the Parties.

**These General Contract Conditions supersede and replace in their entirety all General Contract Conditions, Form PUR 1000, which is incorporated by reference in Rule 60A-1.002, Florida Administrative Code (F.A.C.)**

**SECTION 1. DEFINITIONS.**

The following definition applies in addition to the definitions in Chapter 287, Florida Statutes, (F.S.) and Rule Chapter 60A-1, F.A.C.:

**1.1 Customer.**

The agency or eligible user that purchases commodities or contractual services pursuant to the Contract.

**SECTION 2. TERMINATION.****2.1 Termination for Convenience.**

The Contract may be terminated by the Department in whole or in part at any time, in the best interest of the State of Florida. If the Contract is terminated before performance is completed, the Contractor will be paid only for that work satisfactorily performed for which costs can be substantiated. Such payment, however, may not exceed an amount which is the same percentage of the Contract price as the amount of work satisfactorily performed. All work in

progress will become the property of the Customer and will be turned over promptly by the Contractor.

## **2.2 Termination for Cause.**

If the Department determines that the performance of the Contractor is not satisfactory, the Department may, at its sole discretion, (a) immediately terminate the Contract, (b) notify the Contractor of the deficiency with a requirement that the deficiency be corrected within a specified time, otherwise the Contract will terminate at the end of such time, or (c) take other action deemed appropriate by the Department.

## **SECTION 3. PAYMENT AND FEES**

### **3.1 Payment Invoicing.**

The Contractor will be paid upon submission of properly certified invoices to the Customer after delivery and acceptance of commodities or contractual services is confirmed by the Customer. Invoices must contain detail sufficient for an audit and contain the Contract Number and the Contractor's Federal Employer Identification Number.

### **3.2 Travel.**

Travel expenses are not reimbursable unless specifically authorized by the Customer in writing, and may be reimbursed only in accordance with section 112.061, F.S.

### **3.3 Annual Appropriation.**

Pursuant to section 287.0582, F.S., if the Contract binds the State of Florida or an agency for the purchase of services or tangible personal property for a period in excess of one fiscal year, the State of Florida's performance and obligation to pay under the Contract is contingent upon an annual appropriation by the Legislature.

### **3.4 Transaction Fees.**

The State of Florida, through the Department of Management Services, has instituted MyFloridaMarketPlace, a statewide eProcurement system pursuant to section 287.057(22), Florida Statutes. All payments issued by Customers to registered Vendors for purchases of commodities or contractual services will be assessed Transaction Fees as prescribed by rule 60A-1.031, Florida Administrative Code, or as may otherwise be established by law. Vendors must pay the Transaction Fees and agree to automatic deduction of the Transaction Fees, when automatic deduction becomes available. Vendors will submit any monthly reports required pursuant to the rule. All such reports and payments will be subject to audit. Failure to comply with the payment of the Transaction Fees or reporting of transactions will constitute grounds for declaring the Vendor in default and subject the Vendor to exclusion from business with the State of Florida.

### **3.5 Taxes.**

The State of Florida is not required to pay any taxes, including customs and tariffs, on commodities or contractual services purchased under the Contract.

### **3.6 Return of Funds.**

Contractor will return any overpayments due to unearned funds or funds disallowed pursuant to the terms of the Contract that were disbursed to the Contractor by the Department or Customer. The Contractor must return any overpayment within 40 calendar days after either discovery by the Contractor, its independent auditor, or notification by the Department or Customer of the overpayment.

## **SECTION 4. CONTRACT MANAGEMENT.**

### **4.1 Composition and Priority.**

The Contractor agrees to provide commodities or contractual services to the Customer within the manner and at the location specified in the Purchase Order and any attachments to the Purchase Order.

### **4.2 Notices.**

All notices required under the Contract must be delivered to the designated Contract Manager by certified mail, return receipt requested, by reputable air courier service, email, or by personal delivery, or as otherwise identified by the Department.

### **4.3 Department's Contract Manager.**

The Department's Contract Manager, is primarily responsible for the Department's oversight of the Contract. In the event that the Department changes the Contract Manager, the Department will notify the Contractor. Such a change does not require an amendment to the Contract.

### **4.4 Contractor's Contract Manager.**

The Contractor's Contract Manager is primarily responsible for the Contractor's oversight of the Contract performance. In the event that the Contractor changes its Contract Manager, the Contractor will notify the Department. Such a change does not require an amendment to the Contract.

### **4.5 Diversity Reporting.**

The State of Florida supports its diverse business community by creating opportunities for woman-, veteran-, and minority-owned small business enterprises to participate in procurements and contracts. The Department encourages supplier diversity through certification of woman-, veteran-, and minority-owned small business enterprises, and provides advocacy, outreach, and networking through regional business events. For additional information, please contact the Office of Supplier Diversity (OSD) at [osdinfo@dms.myflorida.com](mailto:osdinfo@dms.myflorida.com).

Upon request, the Contractor will report to the Department its spend with business enterprises certified by the OSD. These reports must include the time period covered, the name and Federal Employer Identification Number of each business enterprise utilized during the period, commodities and contractual services provided by the business enterprise, and the amount paid to the business enterprise on behalf of each Customer purchasing under the Contract.

### **4.6 RESPECT.**

Subject to the agency determination provided for in Section 413.036, F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES THAT ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM A NONPROFIT AGENCY FOR THE BLIND OR FOR THE SEVERELY HANDICAPPED THAT IS QUALIFIED PURSUANT TO CHAPTER 413, FLORIDA STATUTES, IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 413.036(1) AND (2), FLORIDA STATUTES; AND FOR PURPOSES OF THIS CONTRACT THE PERSON, FIRM, OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THE STATE AGENCY INsofar AS DEALINGS WITH SUCH QUALIFIED NONPROFIT AGENCY ARE CONCERNED.

Additional information about the designated nonprofit agency and the commodities or contractual services it offers is available at <http://www.respectofflorida.org>.

**4.7 PRIDE.**

Subject to the agency determination provided for in Sections 946.515 and 287.042(1), F.S., the following statement applies:

IT IS EXPRESSLY UNDERSTOOD AND AGREED THAT ANY ARTICLES WHICH ARE THE SUBJECT OF, OR REQUIRED TO CARRY OUT, THIS CONTRACT SHALL BE PURCHASED FROM THE CORPORATION IDENTIFIED UNDER CHAPTER 946, F.S., IN THE SAME MANNER AND UNDER THE SAME PROCEDURES SET FORTH IN SECTION 946.515(2) AND (4), F.S.; AND FOR PURPOSES OF THIS CONTRACT THE PERSON, FIRM, OR OTHER BUSINESS ENTITY CARRYING OUT THE PROVISIONS OF THIS CONTRACT SHALL BE DEEMED TO BE SUBSTITUTED FOR THIS AGENCY INsofar AS DEALINGS WITH SUCH CORPORATION ARE CONCERNED.

Additional information about PRIDE and the commodities or contractual services it offers is available at <http://www.pride-enterprises.org>.

**SECTION 5. COMPLIANCE WITH LAWS.**

**5.1 Department of State Registration.**

The Contractor and any subcontractors that assert corporate status must provide the Department with conclusive evidence, per section 607.0127, F.S., of a certificate of status, not subject to qualification, if a Florida business entity, or of a certificate of authorization if a foreign business entity and maintain such status or authorization through the life of the Contract and any resulting contract or purchase order.

**5.2 Convicted and Discriminatory Vendor Lists.**

In accordance with sections 287.133 and 287.134, F.S., an entity or affiliate who is on the Convicted Vendor List or the Discriminatory Vendor List may not perform work as a contractor, supplier, subcontractor, or consultant under the Contract. The Contractor must notify the Department if it or any of its suppliers, subcontractors or consultants have been placed on the Convicted Vendor List or the Discriminatory Vendor List during the term of the Contract.

**5.3 Contractor Certification.**

If the Contract exceeds \$1,000,000.00 in total, not including renewal years, Contractor certifies that it is not listed on either the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or the Scrutinized Companies that Boycott Israel List created pursuant to sections 215.473, F.S. and 215.4725 F.S, respectively. Pursuant to section 287.135(5), F.S., and 287.135(3), F.S., Contractor agrees the Department may immediately terminate the Contract for cause if the Contractor is found to have submitted a false certification or if Contractor is placed on the Scrutinized Companies with Activities in Sudan List, the Scrutinized Companies with Activities in the Iran Petroleum Energy Sector List, or the Scrutinized Companies that Boycott Israel List, or is engaged in a boycott of Israel during the term of the Contract.

**5.4 Cooperation with Inspector General.**

Pursuant to subsection 20.055(5), F.S., Contractor, and any subcontractor to the Contractor, understand and will comply with their duty to cooperate with the Inspector General in any investigation, audit, inspection, review, or hearing. Upon request of the Inspector General or

any other authorized State official, the Contractor must provide any type of information the Inspector General deems relevant to the Contractor's integrity or responsibility. Such information may include, but will not be limited to, the Contractor's business or financial records, documents, or files of any type or form that refer to or relate to the Contract. The Contractor will retain such records for five years after the expiration of the Contract, or the period required by the General Records Schedules maintained by the Florida Department of State (available at: <http://dos.myflorida.com/library-archives/records-management/general-records-schedules/>), whichever is longer. The Contractor agrees to reimburse the State of Florida for the reasonable costs of investigation incurred by the Inspector General or other authorized State of Florida official for investigations of the Contractor's compliance with the terms of this or any other agreement between the Contractor and the State of Florida which results in the suspension or debarment of the Contractor. Such costs will include, but will not be limited to: salaries of investigators, including overtime; travel and lodging expenses; and expert witness and documentary fees.

## **SECTION 6. MISCELLANEOUS.**

### **6.1 Notice of Legal Actions.**

The Contractor must notify the Department of any legal actions filed against it for a violation of any laws, rules, codes, ordinances or licensing requirements within 30 days of the action being filed. The Contractor must notify the Department of any legal actions filed against it for a breach of a contract of similar size and scope to this Contract within 30 days of the action being filed. Failure to notify the Department of a legal action within 30 days of the action will be grounds for termination for cause of the Contract.

### **6.2 Subcontractors.**

All contactors, dealers, and resellers authorized by the Department, as shown on the dedicated Contractor NASPO ValuePoint website, are approved to provide sales and service support to participants in the Master Agreement. The Contractor's dealer participation will be in accordance with the terms and conditions set forth in the Master Agreement. The Contractor is fully responsible for satisfactory completion of all subcontracted work. The Department supports diversity in its procurements and contracts, and requests that Contractor offer subcontracting opportunities to certified woman-, veteran-, and minority-owned small businesses. The Contractor may contact the OSD at [osdhelp@dms.myflorida.com](mailto:osdhelp@dms.myflorida.com) for information on certified small business enterprises available for subcontracting opportunities.

### **6.3 Assignment.**

The Contractor will not sell, assign or transfer any of its rights, duties or obligations under the Contract without the prior written consent of the Department. In the event of any assignment, the Contractor remains secondarily liable for performance of the Contract. The Department may assign the Contract to another state agency.

### **6.4 Independent Contractor.**

The Contractor and its employees, agents, representatives, and subcontractors are not employees or agents of the Department and are not entitled to the benefits of State of Florida employees. The Department will not be bound by any acts or conduct of the Contractor or its employees, agents, representatives, or subcontractors. The Contractor agrees to include this provision in all of its subcontracts under the Contract.

### **6.5 Ombudsman.**

A Vendor Ombudsman has been established within the Department of Financial Services. The duties of this office are found in section 215.422, F.S., which include disseminating information relative to prompt payment and assisting contractors in receiving their payments in

a timely manner from a Customer. The Vendor Ombudsman may be contacted at (850) 413-5516.

## **6.6 Information Technology Standards**

Pursuant to sections 282.0051 and 282.318, F.S., the Agency for State Technology (AST) is to establish standards for the implementation and management of information technology resources. Vendors agree to cooperate with the state agency in furtherance of the state agency's efforts to comply with AST standards, established in Rule Chapter 74, F.A.C, as applicable.

## **SECTION 7. WORKERS' COMPENSATION AND GENERAL LIABILITY INSURANCE, AND INDEMNIFICATION**

### **7.1 Workers' Compensation Insurance.**

To the extent required by law, the Contractor must be self-insured against, or must secure and maintain during the life of the contract, Worker's Compensation Insurance for all its employees connected with the work of this project, and in case any work is subcontracted, the Contractor must require the subcontractor similarly to provide Worker's Compensation Insurance for all of the latter's employees unless such employees engaged in work under the resulting contract are covered by the Contractor's insurance program. Self-insurance or insurance coverage must comply with the Florida Worker's Compensation law. In the event hazardous work is being performed by the Contractor under the resulting contract or purchase order and any class of employees performing the hazardous work is not protected under Worker's Compensation statutes, the Contractor must provide, and cause each subcontractor to provide adequate insurance satisfactory to the Department for the protection of employees not otherwise protected.

### **7.2 General Liability Insurance.**

The Contractor must secure and maintain Commercial General Liability Insurance including bodily injury, property damage, product-liability, personal & advertising injury and completed operations. This insurance must provide coverage for all claims that may arise from the services, and operations completed under the Contract and any resulting contract or purchase order, whether such services or operations are by the Contractor or anyone directly or indirectly employed by them. Such insurance must include a Hold Harmless Agreement in favor of the State of Florida and also include the State of Florida as an Additional Named Insured for the entire length of the Contract and any resulting contract or purchase order. The Contractor is responsible for determining the minimum limits of liability necessary to provide reasonable financial protections to the Contractor and the State of Florida under the Contract and any resulting contract or purchase order.

All insurance policies must be with insurers licensed or eligible to transact business in the State of Florida. The Contractor's current certificate of insurance must contain a provision that the insurance must not be canceled for any reason except after thirty (30) days written notice to the Department's Contract Manager.

The Contractors must submit insurance certificates evidencing such insurance coverage prior to execution of a contract with the Department.

The Contractor must require its insurance carrier to add the Department to the insurance policies as an additional insured, as provided below:

Florida Department of Management Services

c/o Division of State Purchasing  
4050 Esplanade Way, Suite 36060  
Tallahassee, Florida 32399-0950

## **SECTION 8. PUBLIC RECORDS, TRADE SECRETS, DOCUMENT MANAGEMENT AND INTELLECTUAL PROPERTY.**

### **8.1 Public Records.**

The Department may unilaterally cancel this Contract for refusal by the Contractor to comply with this section by not allowing public access to all documents, papers, letters or other material made or received by the Contractor in conjunction with the Contract, unless the records are exempt from section 24(a) of Article I of the State Constitution and section 119.07(1), F.S.

Solely for the purposes of this section the contract manager is the agency custodian of public records, unless another is designated per (e), below.

If, under a resulting contract or purchase order, the Contractor is providing services and is acting on behalf of a public agency, as provided by section 119.0701, Florida Statutes. The Contractor shall:

- (a) Keep and maintain public records required by the public agency to perform the service;
- (b) Upon request from the public agency's custodian of public records, provide the public agency with a copy of the requested records or allow the records to be inspected or copied within reasonable time and at a cost that does not exceed the cost provided in Chapter 119, Florida Statutes, or as otherwise provided by law;
- (c) Ensure that public records that are exempt or confidential and exempt from public records disclosure are not disclosed except as authorized by law for the duration of the contract term and following the completion of the contract if the contractor does not transfer the records to the public agency;
- (d) Upon completion of the contract, transfer, at no cost, to the public agency all public records in possession of the Contractor or keep and maintain public records required by the public agency to perform the service. If the contractor transfers all public records to the public agency upon completion of the contract, the contractor shall destroy any duplicate public records that are exempt or confidential and exempt from public records disclosure requirements. If the contractor keeps and maintains public records upon completion of the contract, the contractor shall meet all applicable requirements for retaining public records. All records stored electronically must be provided to the public agency, upon request from the public agency's custodian of public records, in a format that is compatible with the information technology systems of the public agency; and
- (e) **IF THE CONTRACTOR HAS QUESTIONS REGARDING THE APPLICATION OF CHAPTER 119, FLORIDA STATUTES, TO THE CONTRACTOR'S DUTY TO PROVIDE PUBLIC RECORDS RELATING TO THIS CONTRACT, CONTACT THE CUSTODIAN OF PUBLIC RECORDS AT THE TELEPHONE NUMBER, EMAIL ADDRESS AND MAILING ADDRESS PROVIDED IN THE RESULTING CONTRACT OR PURCHASE ORDER.**

### **8.2 Protection of Trade Secrets or Confidential Information.**

If the Contractor considers any portion of materials made or received in the course of performing the Contract ("contract-related materials") to be trade secret under section 812.081, F.S., or otherwise confidential under Florida or federal law, the Contractor must

clearly designate that portion of the materials as “confidential” when submitted to the Department.

If the Department receives a public records request for contract-related materials designated by the Contractor as “confidential,” the Department will provide only the portions of the contract-related materials not designated as “confidential.” If the requester asserts a right to examine contract-related materials designated as “confidential,” the Department will notify the Contractor. The Contractor will be responsible for responding to and resolving all claims for access to contract-related materials it has designated “confidential.”

If the Department is served with a request for discovery of contract-related materials designated “confidential,” the Department will promptly notify the Contractor about the request. The Contractor will be responsible for filing the appropriate motion or objection in response to the request for discovery. The Department will provide materials designated “confidential” only if the Contractor fails to take appropriate action, within timeframes established by statute and court rule, to protect the materials designated as “confidential” from disclosure.

The Contractor will protect, defend, and indemnify the Department for claims, costs, fines, and attorney’s fees arising from or relating to its designation of contract-related materials as “confidential.”

### **8.3 Document Management.**

The Contractor must retain sufficient documentation to substantiate claims for payment under the Contract and all other records, electronic files, papers and documents that were made in relation to this Contract. Contractor must retain all documents related to the Contract for five years after expiration of the Contract, or, if longer, the period required by the General Records Schedules maintained by the Florida Department of State available at:

<http://dos.myflorida.com/library-archives/records-management/general-records-schedules/>.

## **SECTION 9. DATA SECURITY AND SERVICES.**

### **9.1 Warranty of Security.**

Unless otherwise agreed in writing, the Contractor and its subcontractors will not perform any of the services from outside of the United States, and the Contractor will not allow any State of Florida Data to be sent by any medium, transmitted or accessed outside of the United States.

Notwithstanding any provision of this Contract to the contrary, the Contractor must notify the Department as soon as possible, in accordance with the requirements of section 501.171, F.S., and in all events within one (1) business day in the event Contractor discovers any Data is breached, any unauthorized access of Data occurs (even by persons or companies with authorized access for other purposes), any unauthorized transmission of Data or any credible allegation or suspicion of a material violation of the above. This notification is required whether the event affects one agency/customer or the entire population. The notification must be clear and conspicuous and include a description of the following:

- (a) The incident in general terms.
  - (b) The type of information that was subject to the unauthorized access and acquisition.
  - (c) The type and number of entities who were, or potentially have been affected by the breach.
  - (d) The actions taken by the Contractor to protect the Data from further unauthorized access.
- However, the description of those actions in the written notice may be general so as not to further increase the risk or severity of the breach.

### **9.2 Remedial Measures.**

Upon becoming aware of an alleged security breach, Contractor's Contract Manager must set up a conference call with the Department's Contract Manager. The conference call invitation must contain a brief description of the nature of the event. When possible, a 30 minute notice will be given to allow Department personnel to be available for the call. If the designated time is not practical for the Department, an alternate time for the call will be scheduled. All available information must be shared on the call. The Contractor must answer all questions based on the information known at that time and answer additional questions as additional information becomes known. The Contractor must provide the Department with final documentation of the incident including all actions that took place. If the Contractor becomes aware of a security breach or security incident outside of normal business hours, the Contractor must notify the Department's Contract Manager and in all events, within one business day.

**9.3 Indemnification (Breach of Warranty of Security).**

The Contractor agrees to defend, indemnify and hold harmless the Department, Customer, the State of Florida, its officers, directors and employees for any claims, suits or proceedings related to a breach of the Warranty of Security. The Contractor will include credit monitoring services at its own cost for those individuals affected or potentially affected by a breach of this warranty for a two year period of time following the breach.

**9.4 Annual Certification.**

The Contractor is required to submit an annual certification demonstrating compliance with the Warranty of Security to the Department by December 31 of each Contract year.

**SECTION 10. GRATUITIES AND LOBBYING.**

**10.1 Gratuities.**

The Contractor will not, in connection with this Contract, directly or indirectly (1) offer, give, or agree to give anything of value to anyone as consideration for any State of Florida officer or employee's decision, opinion, recommendation, vote, other exercise of discretion, or violation of a known legal duty, or (2) offer, give, or agree to give to anyone anything of value for the benefit of, or at the direction or request of, any State of Florida officer or employee.

**10.2 Lobbying.**

In accordance with sections 11.062 and 216.347, F.S., Contract funds are not for the purpose of lobbying the Legislature, the judicial branch, or the Department. Pursuant to subsection 287.058(6), F.S., the Contract does not prohibit the Contractor from lobbying the executive or legislative branch concerning the scope of services, performance, term, or compensation regarding the Contract, after the Contract execution and during the Contract's term.

**SECTION 11. CONTRACT MONITORING.**

**11.1 Financial Consequences of Non-Performance.**

If the corrective action plan is unacceptable to the Department or Customer, or fails to remedy the performance deficiencies, the Contractor will be assessed a non-performance retainage equivalent to 10% of the total invoice amount or as specified in the Contract. The retainage will be applied to the invoice for the then-current billing period. The retainage will be withheld until the Contractor resolves the deficiency. If the deficiency is subsequently resolved, the Contractor may invoice the Customer for the retained amount during the next billing period. If the Contractor is unable to resolve the deficiency, the funds retained will be forfeited.

**SECTION 12. CONTRACT AUDITS.**

**12.1 Payment Audit.**

Records of costs incurred under terms of the Contract will be maintained. Records of costs incurred will include the Contractor's general accounting records, together with supporting documents and records of the Contractor and all subcontractors performing work, and all other records of the Contractor and subcontractors considered necessary by the Department, State of Florida's Chief Financial Officer or the Office of the Auditor General for audit.

## **SECTION 13. BACKGROUND SCREENING AND SECURITY.**

### **13.1 E-Verify.**

In accordance with Executive Order 11-116, the Contractor agrees to utilize the U.S. Department of Homeland Security's E-Verify system to verify the employment eligibility of all new employees hired during the term of the Contract for the services specified in the Contract. The Contractor must also include a requirement in subcontracts that the subcontractor must utilize the E-Verify system to verify the employment eligibility of all new employees hired by the subcontractor during the Contract term. In order to implement this provision, the Contractor must provide a copy of its DHS Memorandum of Understanding (MOU) to the Contract Manager within five days of Contract execution. If the Contractor is not enrolled in DHS E-Verify System, it will do so within five days of notice of Contract award, and provide the Contract Manager a copy of its MOU within five days of Contract execution. The link to E-Verify is provided below. <http://www.uscis.gov/e-verify>. Upon each Contractor or subcontractor new hire, the Contractor must provide a statement within five days to the Contract Manager identifying the new hire with its E-Verify case number.

### **13.2 Disqualifying Offenses.**

If at any time it is determined that a person has a criminal misdemeanor or felony record regardless of adjudication (e.g., adjudication withheld, a plea of guilty or nolo contendere, or a guilty verdict) within the last six years from the date of the court's determination for the crimes listed below, or their equivalent in any jurisdiction, the Contractor is required to immediately remove that person from any position with access to State of Florida Data or directly performing services under the Contract. The disqualifying offenses are as follows:

- (a) Computer related or information technology crimes
- (b) Fraudulent practices, false pretenses and frauds, and credit card crimes
- (c) Forgery and counterfeiting
- (d) Violations involving checks and drafts
- (e) Misuse of medical or personnel records
- (f) Felony theft

### **13.3 Communications and Confidentiality.**

The Contractor agrees that it will make no statements, press releases, or publicity releases concerning the Contract or its subject matter or otherwise disclose or permit to be disclosed any of the data or other information obtained or furnished in compliance with the Contract, or any particulars thereof, during the period of the Contract, without first notifying the Department's Contract Manager or the Department designated contact person and securing prior written consent. The Contractor must maintain confidentiality of all confidential data, files, and records related to the services and commodities provided pursuant to the Contract and must comply with all state and federal laws, including, but not limited to sections 381.004, 384.29, 392.65, and 456.057, F.S. The Contractor's confidentiality procedures must be consistent with the most recent version of the Department security policies, protocols, and procedures. The Contractor must also comply with any applicable professional standards with respect to confidentiality of information.

**EXHIBIT B  
FLORIDA SPECIAL CONTRACT CONDITIONS**

This Exhibit contains the Special Contract Conditions. If a conflict exists between the Special Contract Conditions and the General Contract Conditions, the Special Contract Conditions shall take precedence over the General Contract Conditions unless the conflicting term in the General Contract Conditions is required by Florida law, in which case the General Contract Conditions term will take precedence.

Special Contract Conditions are as follows:

**Section 1      Delays and Complaints**

Delivery delays and service complaints will be monitored on a continual basis. Documented inability to perform under the conditions of the contract, via the established Complaint to Vendor process (PUR 7017 form), may result in default proceedings and cancellation.

**Section 2      Monthly Transaction Fee Report**

The Contractor is required to submit monthly Transaction Fee Reports electronically through MFMP VIP. All such reports and payments shall be subject to audit. Failure to comply with the payment of the Transaction Fees or reporting of transactions shall constitute grounds for declaring the Contractor in default and subject the Contractor to exclusion from business with the State of Florida.

For information on how to submit Transaction Fee Reports online, please reference the detailed fee reporting instructions and Vendor training presentations available online through MFMP U on the MyFloridaMarketPlace website (located at <http://dms.myflorida.com/mfmp>). Assistance is also available from the MyFloridaMarketPlace Customer Service Desk at [feeprocessing@myfloridamarketplace.com](mailto:feeprocessing@myfloridamarketplace.com) or 866-FLA-EPRO (866-352-3776) between the hours of 8:00 AM to 6:00 PM, Eastern Time.

**Section 3      Quarterly Sales Reports**

Each Contractor shall submit a sales report to the Department on a Quarterly basis.

Contract Sales Reports must include the Contractor's name, the dates of Quarter covered, each Customer's name, services provided (to include identification of the cloud solution and service model), and the amount paid by the Customer.

Initiation and submission of the Contract Sales Reports are to be the responsibility of the Contractor. The Contractor will submit the completed Sales Report forms by email to the Department Contract Manager no later than the due date indicated in Section 10. Submission of these reports is considered a material requirement of this Contract and the Contractor.

Failure to provide quarterly sales reports, including those indicating no sales, within thirty (30) calendar days following the end of each quarter (January, April, July and October) is considered as Non-Performance by the Contractor. Exceptions may be made if a delay in submitting reports is attributable to circumstances that are clearly beyond the control of the Contractor. The burden of proof of unavoidable delay shall rest with the Contractor and shall be supplied in a written form and submitted to the Department.

The Department reserves the right to request additional sales information as needed.

**Section 4      Quarterly Reporting Timeframes**

Quarterly reporting timeframes coincide with the State Fiscal Year as follows:

- Quarter 1 - (July-September) – Due by October 10
- Quarter 2 - (October-December) – Due by January 10
- Quarter 3 - (January-March) – Due by April 10
- Quarter 4 - (April-June) – Due by July 10

**Section 5      Business Review Meetings**

The Department reserves the right to schedule business review meetings as frequently as necessary. The Department will provide the format for the Contractor's agenda. Prior to the meeting, the Contractor shall submit the completed agenda to the Department for review and acceptance. The Contractor shall address the agenda items and any of the Department's additional concerns at the meeting. Failure to comply with this section may result in the Contractor being found in default and contract termination.
