

CPR DAY

Miami

Learn CPR now, save a life later.

Saturday, January 25, 2025 8 a.m. to 12 p.m.

In the United States, 70 percent of Americans either don't know how to administer CPR or have limited training.*

We are determined to change that. In anticipation of American Heart Month in February, we would like you to join us on Saturday, January 25, to learn how you can save a life with CPR. We will be offering 30-minute, hands-only CPR training sessions at 10 locations across Miami-Dade County, with multiple time slots available throughout the morning. Sign up in advance to guarantee your spot.

Register for your FREE training at www.CPRDayMiami.org.
